OFFICIAL PUBLICATION OF THE ROCHESTER INSTITUTE OF TECHNOLOGY

Campus Visit Planned By Peace Corps Team

A Peace Corps team from Washington, D.C., will visit RIT on October 25 - 31.

Peace Corps staff members, including returned volunteers, will be on hand to explain the purpose, programs, and future plans of the Peace Corps and to accept applications from interested juniors, seniors, and graduate students.

A Peace Corps Information Center will be set up at a central site on campus and manned by the team throughout the visit.

Non-competitive aptitude tests will be given several times daily to applicants. These tests require no previous knowledge of a foreign language, and are not the kind you study for. Applicants do not pass or fail them as they are used for placement purposes only. Optional French and Spanish language achievement tests will also be administered.

Peace Corps questionnaires must be completed before taking fill out a questionnaire and sub-

the above tests. Those thinking of applying should immediately fill out a questionnaire and submit it to one of the Peace Corps team members. Questionnaires are available at most Post Offices and may also be obtained in advance from Robert J. Winter, Employment Coordinator.

If an organization, group, or club wishes to have a Peace Corps representative speak and answer questions, arrangements should be made at once by calling Winter at LO 2-5780.

Nearly 10,000 volunteers are either overseas or in the process of training for service in 46 countries in Africa, Asia, and Latin America. Training programs begin in almost every month of the year but are concentrated during February and the summer months. Those who apply during the Peace Corps team visit will be informed of their eligibility within approximately two months.

West Elected Pro-tern; Senate Begins Operation

Gordon West (Photo 4) was elected Chairman Pro-Tem of Student Senate at a meeting Oct. 15 in the Student Activities Center. West, a native of Canada and a member of the Senate for three years, became vice president by defeating Gary Proud, who made an unsuccessful bid for the office last spring.

Dick Dacey (Ret 4), and Al Nash (Bus Adm 3), were elected members-at-large of the executive committee and will assume their duties with West at the next meeting.

In other action on the Senate floor, Chairman Denis Kitchen presented a breakdown of the RIT administration, complete with personal comments gleaned from his extensive experience

in dealing with RIT officials.

The academic affairs committee will undertake an investigation of academic problems and attempt to obtain a firm statement on school policy regarding grades and other academic yardsticks.

Gordon West's New Campus Committee has set up a new student union planning board in conjunction with the office of Dr. James B. Campbell. The board made up of 10 students and a faculty advisor, will work on decisions about facilities and space in the new million dollar student union building. Such areas as bowling, snack bar areas, bookstore policy, and space for meetings will be investigated and worked out by this committee.

Preview Series Schedules 'Megalopolis' for Wednesday

A new series of "Educational Film Previews" has been announced by Gene DePrez of the Instructional Resources Laboratory. The program is sponsored jointly by the Office of Educational Research and the Instructional Resources Laboratory.

Filmed in 11 countries, the six films of the series are an engrossing study of the city as it once was, the city as we know it now, and the city as it might be if it survives the dangers that the future may bring.

The film series has been termed a master-view of the city and the glories of city life, with all the achievements, fail-

ures, and promises of our urban culture made plain. The films reflect the conviction that "the city is man's most precious collective invention."

The second film, "Megalopolis," to be shown Wednesday, Oct. 28, illustrates problems and advantages of densely populated urban centers and surrounding suburbia in the area from Baltimore to Boston.

The programs will be presented every Wednesday in M-129 of the Audiovisual Center at 50 Main St., West at 12 noon and again at 4 p.m. The program is open to the general public as well as the faculty, staff, and students. There is no admission charge.

Mock Elections Set for Oct. 25

The Student Senate of RIT will hold mock National Elections on Wednesday, Oct. 25, to give the student body a chance to express its preference of candidates in nationwide and local contests.

The election will concern the presidential and vice presidential race; senatorial race in New York, Ohio, Calif., Mass., and Pennsylvania; gubernatorial contests in Illinois and Michigan; and the race for U.S. Representatives from New York.

In addition the following propositions will be on the ballot:

1. Do you favor reapportionment of the State Legislatures?
2. Do you favor Medicare for the aged?
3. Do you favor the Civil Rights Law?

Voting machines will be located in front of E-125 and on the fourth floor of 50 Main St. The election will take place between 9 a.m. and 4:15 p.m.

Editors Attending Collegiate Press Meet in Chicago

The two top ranking members of the Reporter staff, Anthony Puskarz, Editor-in-chief, and Earle Wootton, Associate Editor, are attending the Associated Collegiate Press Convention in Chicago, Ill., this weekend.

They left Rochester on Thursday for the three-day event, at which Wootton will participate in a panel discussion on staff recruitment. He will speak on "Bylines or Buylines."

The ACP is a nationwide organization of college newspapers. Each year it ranks the Reporter against other college papers in America. The Reporter hopes to obtain top honors this year.

RIT Dramatists

Present Comedy

For the first time in many years a dramatic production will be presented by a group of RIT students tonight at 8 in the Ritter-Clark gym. Phillip King's "See How They Run" will be enacted.

An English vicarage is the scene in which an American actress and actor, a cockney maid who had seen too many American movies, an old maid who "touches alcohol for the first time in her life," and four men in clergymen's garb (one an escaped prisoner) gallop in and out of the four doors.

The student actors in the play include Connie Dorant, Nancy Cole, Barry Nielsen, Lynn Gertis, Harvey Greenberg, Patrick Russel, Hank Olsen, Jim Frances, and Howard Gralla.

Mrs. Cecil B. DeBall is director of the play and George Komorowski is acting as stage manager.

Giant Pep Rally Opens Weekend

Tonight at 8 the registration of alumni and parents will mark the beginning of a bigger and better Tiger Homecoming for 1964. The weekend is completed as far as plans go; now let's show the old grads that we of the present student body have as much 'spirit' and fun as students in the years gone by.

At approximately 7 o'clock to-night, the cheerleaders will stage Outdoor advertising awards will a super-size pep rally in the field be presented during the inter-adjacent to the Ritter-Clark building. A huge turnout is expected Breakfast with Al Capp at 8:30 to cheer the tigers on to victory on Saturday morning will go down against' the Utica College team as one of the latest and greatest things to happen on the RIT cam-

Starting promptly at 8 p.m. in pus. Be sure to get tickets for the Ritter-Clark building, the cur- this today or at the door tomorrow morning. Don't miss the chance to hear this great personality while he is right on our doorstep.

Taped Lectures

To Highlight

Ayn Rand Series

The story which appeared in the Oct. 16 issue of the Reporter headed "Ayn Rand to Lecture" was an error of the Reporter. The following is the corrected version of that story — Editor

A series of 20 lectures designed to explain and develop the philosophy of Ayn Rand, author of such novels as "Atlas Shrugged" and "The Fountainhead" will begin soon at a time and place to be announced later.

No plans have been made for Miss Rand to appear in person.

The lectures will deal with Miss Rand's philosophy, which she calls "Objectivism" as it is applied to psychology, economics, politics, and the arts.

Those readers and admirers of Ayn Rand interested in taking advantage of these lectures may write or call Myron Lowther Jr., 117 Argyle St. or BR 1-1094 evenings.

Following an after breakfast tour of the Downtown Campus, it will be off to the New Campus for the Homecoming Picnic catered by Burgundy Caterers of Pittsford. The menu will offer ham, sliced to order; assorted cold meats; potatoes au gratin; macaroni salad; jello molds; cottage cheese; relishes; coffee, or milk, and ice cream.

Directly after the picnic the Tigers will take on the Utica College team for supremacy of the soccer field. Last weekend the Tigers blasted the "Racquetters" of Potsdam 3 to 2.

At halftime, Dr. Ellingson will crown the Homecoming Queen who has been voted the prettiest and most fitting girl to represent RIT. This event is the highlight of Homecoming.

On Saturday night Billy May and his orchestra will provide the music for the Homecoming Dance to wind up the weekend. The dance will start at 9 p.m. in the Ritter-Clark gym.

Homecoming Weekend needs the support of the students as well as alumni. See you at Homecoming.

Harvey Greenberg, Nancy Cole, Hank Olson, and Lynn Gertis act out "See How They Run" for presentation tonight at 8 p. m. in the Ritter-Clark Gym.

'Comment

by David Gregory

Culture . . . does anyone really know the meaning of the word? Oh, yes, the dictionary throws a lot of words at us in an effort to nail down its meaning: "the enlightenment and refinement of taste acquired by intellectual and aesthetic training." Okay, that's not had, but it's broad and much too general.

Perhaps it is enlightening and maybe in the proper doses, culture does refine even the poor uneducated slob. But to speak more specifically, how about the role of culture in our education here at RIT?

There is a great deal of money being spent by students and their parents for that intangible called education. The price is high, yet most of us must feel it is worth it. Then why are so many of the students at RIT getting shortchanged on the deal?

Education involves more than just sitting in the classroom like a sponge; and it involves more than receiving a degree which certifies a minimum amount of achievement. Education ideally produces a cultured person, one who has broadened himself in many areas. Far too many students at RIT fail to extend themselves into these other areas. And in this failure they are cheating themselves and neglecting their commitments as an educated person.

An appreciation of art, music, and the theatre is practically non-existent on this campus. This is not to say that efforts are not being made. There are some very fine exhibitions of art and photography; the literary magazine, "Symposium," initiated last year by Prof. Robert Koch, is a step in the right direction; the Choraliers could make some fine contributions if they had the support they need so badly. These efforts, at best, appear to be half-hearted, due to the apathy and misguided values of the student body.

And the cry rises from the multitude: "Who has the time?" I do, and so do you. We have the time, but we work feverishly to see that it is properly wasted. When you find yourself playing cards for the fourth night in a row, you might quietly discuss with yourself the subject of spare time.

The point is that in 10 or 20 years, the P. T. may not be here;

and, who knows, the novelty of card-playing just may wear off. So why not put our time to better use? As college graduates, we should take our place among the "cultured element" in our society, but as of yet, the majority of our students are failing their course in high values and good taste.

RIT, the U of R, and the city of Rochester provide a wealth of cultural events. Let's not waste them. This weekend, for instance, RIT offers a rare occasion for a new kind of enjoyment. Instead of the traditional animalistic frenzy, sometimes called a beer blast, there will be a play presented on Friday night. Why don't you go see it? You won't have to worry about being embarrassed by your friends, because unfortunately, they probably won't be there.

Editors Shudder; Could it Happen Here at RIT?

William Lee, columnist for *The Daily Universe*, Brigham Young University, Provo, Utah, checked around on campus to learn about reader acceptance of his labors.

"I'll have you know," he reported, "that my articles are cut out and saved by many students. I personally know of one student who cut out one of my articles, folded it into a neat package and stuffed it in the hole in his shoe."

"I guess that's one way to save our soul."

Letters to the Editor

Dear Editor:

I am enrolled as a freshman at RIT and I am very proud of it. However, I have one complaint. Ever since I arrived on campus I have heard the word "apathy" at least 100 times. In many of our orientation speeches and in many articles in the *Reporter* this word was used.

Before arriving here, I had virtually never heard the word apathy before. Since I have been here, it has been drummed into my head constantly. Actually, because of this I have no choice but to fall into line with the rest of the puppets, the people that the mass media (*RIT Reporter*) has made apathetic.

In the future, I would like to see this word apathy dropped from the articles in our paper. If it is impossible for you to do this, at least wait three or four weeks before the regular "apathy articles" start. Then, perhaps the freshmen of future years will have a chance to develop their interests.

Ronald DeLuca

Oops . . .

It was a case of "wrong number" when it was noted in last week's *Reporter* that 23 foreign countries are represented in this year's student body. The story carefully named 21 countries, but omitted Canada and the Philippines.

J.F.C. Greek Talk

by Hal O'Rourke

For the past two weeks the freshmen have had a chance to see the greeks. There were signs of greeks everywhere telling freshmen what their fraternal life is like and urging them to consider joining the members as fraternity men.

Some of the freshmen responded to the question of greek membership with a classical RIT expression, "Well, you've gotta be in a

fraternity to get social life—you know, parties." Other freshmen say that this is kid stuff, or just for the beer drinkers. But, many of the frosh miss what the fraternities are really doing at RIT.

Foremost, they offer a place to belong, a place that will provide the enjoyment of college life in being with the kind of people that you choose.

All organizations offer this in one way or another, but fraternities offer this as their very reason for existence, Brotherhood. This brotherhood provides a place to belong, a group that you are a part of, not just visiting. And, as other organizations, fraternities offer the opportunity to work with people and learn to deal with men on your own level effectively.

Some freshmen will immediately rule out fraternities; others will consider and then reject the entire system; and a few will "Go Greek". But, which ever, all freshmen should weigh the greek system for its value. Weigh it as an organization, for what it can offer you; the diversification of friendship, acceptance of responsibility, and a force that can pull even the strongest out of his shell into a college world.

The preceding article was written by a greek on campus, not by myself. If any readers wish to contribute to this column, or comment on the greek system at RIT or greeks in general, I can be contacted through the Reporter office.

Coming Events:
Nov. 6,7,8 - Fall Weekend
Nov. 13 - Night of Sin

EDITORIALS

Welcome Back!

More often than one cares to think about, the realization comes that 'Old Father Time' keeps the hands of his great clock moving at a constant pace and we keep getting a little hit older. One of these periods of enlightenment is this weekend—Homecoming Weekend.

Today many alumni and parents are back at the 'Concrete campus' for a visit. For some, the years have seen great strides and changes which have accompanied the growth of the Institute. For others, it is just a short trip back to when they occupied seats in RIT's classrooms.

Yes, it's Homecoming. It's good to have you back Alumni. After all, it is you who have made RIT what it is today and what it is going to become tomorrow.

Many months of preparation have gone into making this year's Homecoming the best to date. Enjoy yourselves for the weekend has been designed for you.

Welcome back!

Someday: RIT vs. Ohio State?

RIT has already made a lot of changes in preparation for the move to the new campus, and a lot more changes are on the way. Courses are improving, education is becoming more varied, and even school spirit is receiving a shot in the arm. So, along with all these other changes, football seems to be a natural for the new campus.

We will have the manpower, for with the move to Henrietta, HIT will grow in size. Even at our present size RIT could support a football team. Other schools our size do.

Few tech schools have a good football team, but that isn't any reason for RIT not to have a good team. We will have many other things that the traditional tech schools will not have. And, even at the new campus, we don't believe RIT will claim to be so academically demanding that no one will have time for the sport.

Football would certainly be a strong source of school spirit and be a great opportunity for school publicity and image building; it would spur RIT to become one of the schools "everybody knows about."

It would take RIT a long time to build a team that could get out of the Southwest Rochester League; but then, few things can start big. The new campus will provide RIT with the facilities to become one of the big schools, but it seems a shame that even one opportunity to help the school grow should be overlooked.

The type of education that the world demands is drawing the tech school closer to the university, and soon the difference between the education of the tech school and that of a university will be slight. In the same way, RIT should look at the possibilities of meeting the university on the gridiron as well as the classroom.

It is possible that we could return to RIT as alumni someday to watch the RIT Tigers take on the Buckeyes of Ohio State. Right now, this seems a little impossible, but with the growth that is planned for the new campus, why not? You can't start big; the time to begin is now!

and to think I only cut class once!"

AUTUMN

SOON THE WINTER WINDS WILL BLOW
AND SNOW WILL COVER ALL THE GROUND.
BUT FIRST, BEFORE THIS TIME ARRIVES,
SHE WANTS TO LEAVE US HAPPY THOUGHTS
TO CARRY US THROUGH WINTER'S MONTHS.

SHE DRESSES ALL THE SUMMER TREES
WITH AUTUMN COATS OF SPLENDID HUES,
AND BY SOME SPECIAL MAGIC TRICK
THOSE SUMMER LEAVES ARE GONE ONCE MORE.
IN THEIR PLACE THERE NOW APPEARS
A SPECIAL TYPE CALLED AUTUMN LEAVES.

THE LAST OF FLOWERS SOON APPEAR
WITH ALL THE GLOW OF MAJESTY.
THE BRILLIANT REDS, YELLOWS, AND BLUES
REPLACE THOSE COLORS OF ONE BEFORE,
THOSE SOFTER REDS, YELLOWS AND BLUES.

IN SUCH A SMALL AMOUNT OF TIME,
PERHAPS A WEEK OR MAYBE THREE,
SHE CHANGES ALL THE WOODS AND GROUNDS
WITH BRILLIANT COLORS THAT STAY WITH US
TILL ONCE AGAIN THE SNOW SOON MELTS-
AND COLORS REPLACE THE SOLID WHITES.

Robert Junceau

Movie To Show College Romance

"The Young Lovers," a motion picture about college stunts which unfolds a love story with a university campus locale, will open at the Paramount Theatre today.

The picture is based on a novel by Julian Halevy which was one of the most popular books of recent years among young readers, selling more than four million copies in its paperback edition alone. The screenplay is written by George Garrett, who was a professor of English at the University of Virginia. He is now an instructor of creative writing at Princeton.

The story of "The Young Lovers" involves the love affair between two college students at a western university. Peter Fonda and Sharon Hugueny become involved in a relationship which narrowly skirts tragic consequences before their experience gives them an approach to maturity which enables them to solve their problems. Nick Adams and Deborah Walley enact another young couple in a subsidiary romance.

In a unique experiment in gauging advance reaction to a motion picture prior to its release, the producer, Samuel Goldwyn Jr. exposed "The Young Lovers" to perhaps the toughest audience in the country — college students and prototypes of the performers of the film — to find out what they thought of it. He addressed students at university auditoriums across the country and engaged them in open forum discussions about the relative merits of the movie. Among the colleges Goldwyn visited were Vassar, Princeton, Yale, M.I.T., Duke, Carnegie Tech, and U.C.L.A.

Much of "The Young Lovers" was filmed on location at U.C.L.A. and at Occidental College, a few miles from downtown Los Angeles.

Norman Prader, a special representative of Metro Goldwyn Meyer Inc., in an interview with the Reporter said he believes "The Young Lovers" is typical of many situations on every college campus in America where young people meet and fall in love.

Prader also had some interesting things to say about how a person should go about breaking into the movies in Hollywood. He offers the following advice to prospective actors:

- "1. Get as much experience as possible in campus productions and amateur play groups in as many different roles as possible.
- "2. Obtain press clippings to use as proof of your acting experience.
- "3. Save enough money to live on for at least three months.
- "4. Set a time limit for yourself to achieve success. It is the smart person who knows when to quit.

"5. Leave your hometown for Hollywood as inconspicuously as possible so that returning in case of failure will not be so humiliating."

He also added, "many girls think all that is needed for suc-

cess is a pretty face. This is not so as Hollywood is full of pretty carhops serving hamburgers. The most important thing is to be a distinct individual because there is no call for a stereotype when you have the original."

Providing power for every environment . . .

provides challenge for virtually every technical talent at Pratt & Whitney Aircraft

Being a technically trained man . . . we assume you are looking ahead to a career of exciting growth and accomplishment and that you are looking for a company possessing these same qualities.

If our assumption is correct, we would like you to take a close look at us. For this Company, while solving the problems of the day, thrives on a sort of creative restlessness which anticipates the challenges of tomorrow. And more important to you, it recognizes its engineers and scientists as the master key to its present success and future progress.

From a solid foundation of basic and applied research, our Company has gained a firm foothold in the land, sea, air, and space programs that are helping to shape our nation's future. Our engineers and scientists are exploring ever-broadening avenues of *energy conversion for every environment*. Should you join them, you'll be assigned early responsibility . . . to apply your engineering talents to such areas as advanced gas turbines . . . rocket engines . . . fuel cells and nuclear power.

Such trail-blazing projects command the best of varied

talent. That's why you'll find at Pratt & Whitney Aircraft men with college training as diverse as their responsibilities. You will also find that opportunities for professional growth are further enhanced by our corporation-financed Graduate Education Program. Your degree? It can be a B.S., M.S. or Ph.D. in: **MECHANICAL • AERONAUTICAL • ELECTRICAL • CHEMICAL and NUCLEAR ENGINEERING • PHYSICS • CHEMISTRY • METALLURGY • CERAMICS • MATHEMATICS • ENGINEERING SCIENCE or APPLIED MECHANICS.**

For further information concerning a career with Pratt & Whitney Aircraft, consult your college placement officer—or—write to Mr. William L. Stoner, Engineering Department, Pratt & Whitney Aircraft, East Hartford 8, Connecticut.

SPECIALISTS IN POWER . . . POWER FOR PROPULSION—POWER FOR AUXILIARY SYSTEMS. CURRENT UTILIZATIONS INCLUDE AIRCRAFT, MISSILES, SPACE VEHICLES, MARINE AND INDUSTRIAL APPLICATIONS.

An Equal Opportunity Employer

News of Institute Alumni

Fred Marinello (A&D '62), is in the Philippines serving with the Peace Corps.

Col. Edward F. Blum (Mech '39), is a systems manager at the headquarters of the Air Force Systems Command's Space Systems Division, located in Los Angeles, Calif.

Blum

Richard L. Irland (Bus Adm '60) has been promoted to lieutenant OW in the U.S. Navy at Newport, R.I. This past summer he was on a tour of duty with the Sixth Fleet in the Mediterranean.

Second Lieut. Herbert R. Dean (Pr '63) has completed his solo flight in the T-37 Jet Trainer as a U.S. Air Force pilot trainee at Webb AFB, Tex.

Dean

John R. Shaffer (Mech '63) has been commissioned a second lieutenant, USAF.

James H. Loos (Photo '63) has been commissioned a second lieutenant in the USAF.

Michael F. Rooney (Pr '63) has been commissioned a second lieutenant in the USAF.

Second Lieut. Lyn P. Wright (A&D '63) has entered U.S. Air Force pilot training at Laredo, Tex.

Wright

John Sturge (Photo '61) is attending Graduate School of Management at Rensselaer Polytechnic Institute.

James D. Forman (Mech '59), Assistant Professor of Mechanical Technology at the State University Agricultural and Technical Institute at Alfred, presided at a panel discussion at a meeting of the Institute of Management at Orona, Me.

Robert G. Morin (Pr '47) is presently Chairman of the Scholarship Committee of the Worcester Country Club of Printing House Craftsman. Each year the group sponsors an entering freshman printing student at the Institute.

William R. Adams (Chem '62) has been granted a DuPont Teaching Award worth more than \$1,200 for the 1964-65 academic year at Iowa State University.

Joseph Reynolds (Bus Adm '59) accepted a National Science Foundation Grant to attend Hamilton College this past summer.

Frank D. Kreuger (Pr '58) has been named assistant manager of purchasing and supplies by the Glens Falls Insurance Co.

Vincent F. Villella (Mech '50) has been appointed manager of manufacturing engineering for the Stratos Division of Fairchild

Robert Hory (Bus Adm '60) has accepted a position with Dow Chemical Corp., Midlands, Mich.

Dean Arlidge (Mech '43) has been appointed product marketing manager by Consolidated Vacuum Corp. **Raymond Weeks (Elec '50)** and **Harold E. Ransome (Elec '56)** were named product specialist engineers by the firm.

Robert Wilbert (A&D '60) joined Friden, Inc. as a technical writer in sales promotion.

Arthur Gardner (Pr '59) has been named Director by Composition Information Services in Los Angeles, Calif.

Garson Wolitzky (Pr '52) has been appointed to the sales staff of Hampton Paper Co. of New York City.

Richard A. Maurer (Photo '40) has been promoted to manager of Motion Pictures and Photography at IBM's Space Guidance Center in Owego, N.Y.

Donald Hoffman (Elec '61) has been appointed Industrial Sales Engineer at Stromberg Carlson in Rochester.

John J. Geary (A&D '49) has been appointed public relations assistant at Textron's Bell

Robert N. Rich (Mech '64) has been named Associate Engineer for Burroughs Corp., Todd Division.

Ronald P. Ball (Pr '63) has joined the staff of Majestic Paper Corp. in New York City.

Robert Jankowski (Pr '63) has assumed duties as manager of plant operations for the **Chemung Valley Reporter**.

Robert J. Gleichauf (Ev Col '58) has been named Director of Admissions at Rochester Business Institute.

Charles DeCarlo (A&D '51) has been appointed to the art staff at the Naugatuch, Conn., High School.

Charles Chauncey (Pr '60) president of Compos-O-List, announced that Buffalo, N.Y. will be home base for the newly formed corporation.

Paul J. Kowal (Chem '48) has assumed duties as sales manager for Bestwall Gypsum Co. in Houston, Texas.

Angelo V. Palermo (Elec '45) has been named manager of marketing services at Textron's Bell Aerosystems Co.

Kurt Kahl (FA '59) has been promoted to morning food production manager at Kansas State University where he is working toward a master's degree in Industrial Management.

Lowell Twitcheed (Bus Adm '64) has accepted the position of commercial teacher at Woodhull High School, in the southern tier of New York state.

Joseph Conte (Mech '40) has been appointed manager of Quality Assurance by Consolidated Vacuum Corp.

The Alumni Relations Office has been advised of the following new arrivals in alumni families during the summer months.

Scott Philip was born June 2 to **Mr. and Mrs. Arthur Pavelle**. The proud father is a '59 graduate of the School of Photography. The Pavelles reside at 2 Old Oak Rd., Port Chester, N.Y.

A daughter was born March 11 to **Mr. and Mrs. Stephen Kowalsky**. Mrs. Kowalsky, the former Sandra Neislin, is a 1961 Business Administration graduate. Steve is a '63 graduate of the Mechanical Dept.

It is with deep regret that the following names have been removed from the roster of the RIT Alumni Association because of their death.

Walter S. Wall, a 1949 graduate of the School of Photography, died June 27, 1964. He was a technical sales representative for Ansco Division of General Aniline and Film Corp. Wall is survived by his

wife, Beth, and two children of 14520 Dowling Drive, Burtonsville, Md.

The recent death of **Walter Van Epps** of Rochester was noted. Van Epps was a 1933 graduate of the Mechanical Dept. He was a safety engineer at Kodak Park Works of Eastman Kodak Co.

Miss Martha Dutton, a 1909 graduate of the Home Economics Dept. (now the Food Administration Dept.) died June 28 in Niagara Falls, N.Y. Miss Dutton, 75, was a member of one of the upstate community's pioneer families. She served several hospitals in the Niagara Frontier as a dietitian.

Marriages

James M. Cooney (Mech '63) to Patricia Ann Hixenbaugh, June 12, in Salamanca, N.Y.

NSF Offers Fellowships

The National Science Foundation has announced that it will award a number of graduate and postdoctoral fellowships for 65-66. These fellowships will be awarded in the fields of mathematics, engineering, physical, medical, and biological sciences, anthropology, economics, geography, history and philosophy of science, linguistics, political science, psychology, and sociology.

The fellowships are open to college seniors, graduate students working toward a degree, postdoctoral students, and others with equivalent training and experience. Applicants will be required to take the Graduate Record Examinations on January 16, 1965.

Further information may be obtained by writing the Fellowship Office, National Academy of Sciences, 2101 Constitution Avenue, N.W., Washington, D. C.

Chemistry Dept. Grad Program

RIT is very proud of the Chemistry Department's recently inaugurated graduate program. Since its start in January of 1964, the enrollment in this program has increased from one to 10. These 10 people are working toward their master's degrees.

Since there are seven part time students and three full time students, the program is designed especially to accommodate this situation. The part time students are employed locally full time. In addition to advanced courses, the program has a research and thesis requirement. This means that the student is required to do original research on his own and present these observations in thesis form upon their completion.

In the graduate program there are three young men especially deserving of mention for their services to the school as teaching assistants. They are **Philipp Schuessler**, a 1963 graduate of RIT; **Lefford Lowden**, a 1964 graduate of the University of Rochester; and **Andrew Sasaki**, who comes to us from the International Christian University in Tokyo by way of a Fullbright Travel Grant,

Carole E. Crowley (Ret '64) to Franz R. Menge, June 6, in Rochester.

Paul A. Sanelli (Bus Adm '63) to Catherine A. O'Brien, June 13, in Rochester.

Julie G. Brennan (A&D '64) to **Fletcher R. Sliker (A&D '58)** on June 8 in Webster, N.Y.

Roger Millard (Mech '60) to Sandra Lee Wilson, June 27, in Corning, N.Y.

David B. Versprille (Ret '63) to Bonnie Sue Bagwell, June 12, in New York City.

Carolann Henry (Ret '63) to Donald M. Sawyer, June 20 in Alden, N.Y.

Peter F. Cullen (Chem '64) to Judith A. Mouatt, June 27, in Watertown, N.Y.

2nd Lt. Robert F. Hudson (Pr '63) to Nancy L. Coleman, June 13, in Belmont, N.Y.

James L. Chapin (Elec '64) to Judith N. Waters, June 20, Dundee, N.Y.

James T. Allis (Mech '62) to Eleanor S. Norton, May 9, Rochester, N.Y.

Frederick T. Tucker (Elec '63) to Suzanne Prideaux, May 9, Dansville, N.Y.

Bonnie A. Manley (A&D '63) to **A. Joel Crytzer (Elec '64)** August 8, in Buffalo, N.Y.

Edward J. Cruickshank (SAC '52) to Mildred L. Oberkotter, Sept. 26, Manhasset, N.Y.

Bruce R. Fredericks (Bus Adm '62) to Nancy J. Kenyon, Sept. 5, in Rochester.

Frances Hall (Bus Adm '64) to Wayne Carr, Sept. 26, Trenton, N.J.

Alan J. Stone (Mech '63) to Sandra J. Barber, August 22, in Rochester.

Robert R. Laffler (Pr '64) to Betty Ann Foster, June 27, in Clifton, N.J.

Joseph R. Rieger (Ev Col '59) to Mary A. Laumeyer, August 22, Rochester.

Robert D. Fager (Mech '61) to Mary A. Daly, August 15, Richfield Springs, N.Y.

George Zimmer (Ret '58) to Nancy A. Guldenschuh, August 15, in Rochester.

Bonnie J. Floyd (Ret '63) to Matthew J. McKenney, August 16, in Glens Falls, N.Y.

Part-time Placement Aids Student's Job Hunting

Need some extra cash? Have some extra time left at the end of a week? (who does) Or are you just the "Organization Man" type who must be busy to be content. In any case, if you are looking for a part-time job to earn extra money or keep busy, there is a special service that may help you accomplish your goal.

In the office of Student Personnel Services under the able guidance of William Toporcer, RIT Part-Time Placement Program has functioned for over a year.

Until last fall, the spontaneous calls of employers from the Roch-

ester area had filtered through many offices in the Institute complex and usually the student seeking part-time work had a good deal of searching to do before he met his employer. Under the new system all part-time job calls are sent directly to Toporcer's office in the Student Activities Center where the information is gathered.

What type of work is available? Office help, including shorthand and typing, clerking, and delivery work are the most frequent jobs called for. Because employers realize that RIT is a technical school with students qualified to perform special duties, there are frequent calls for drafting, photography, and lab assistants.

For the majority of jobs, the employer will work the hours around the student's schedule. The average work load is about 15 to 20 hours a week and the pay is from \$1.25 to \$1.50 per hour.

If you are interested in a job, simply consult the bulletin board directly opposite E-125. If you find a possibility then you should see Toporcer for the details. One last thing, if you do take a job, notify the office so they can take the notice down. Good luck!

RIT Personnel to Attend Meeting

The Concord Hotel, Kiamesha Lake, is the location of the fall meeting of the New York State Association of Deans and Guidance Personnel on November 8, 9, and 10.

Representing RIT will be Dr. James B. Campbell, Vice

A. Stephen Walls, Director of Student Activities, George C. Hedden, Director of Admissions, Joseph Dengler and Lewis Gard, also of the admissions office, and Dr. Lawrence Lipsett, Director of the counseling Center.

Extended Services

Plans Forum for Publicity Chairmen

Extended Services Division of RIT will hold a publicity forum for volunteer publicity chairmen on Thursday, Oct. 29, in Monroe High School auditorium, 164 Alexander St., from 7:15 to 9:15 p.m.

Representatives area newspapers and radio stations will explain how to achieve adequate publicity coverage for organizational meetings and activities.

The program will feature material for increasing audience potential, an opportunity to present questions to the experts, suggestions for telling a group's story to the community, and a chance to meet and talk with media representatives.

The forum will be open to all organizations in the Rochester area. RIT organizations are urged to participate.

No fee will be charged RIT organizations, who may obtain a free pass from the Extended Services Office in the Eastman building.

Pitchmen Take First; Runners Stumble

The RIT Tigers won their first soccer game of the season by defeating Potsdam State in double overtime, 3 - 2. The Tigers are now 1 - 4 for the current season.

The first quarter ended in a scoreless tie as both teams traded shots without any success. With seven minutes remaining in the first half, Jorge Rivas scored to put the Tigers in front. At the end of the half it was RIT 1, Potsdam 0.

Potsdam, however, came out strong in the third quarter and tied the score. At 12:52 of the third quarter, Rivas scored his second goal to put the Tigers ahead once more.

Early in the fourth quarter

Potsdam tallied again to send the game into overtime.

With five seconds to go in the first overtime period, Al Nazzaro scored to put the Tigers ahead to stay.

The final score was RIT 3, Potsdam 2,

The RIT harriers dropped their first meet of the season to Gannon College 22 - 34 last Saturday.

Dan Gersey of the Tigers was the individual winner, clocked at 24 minutes and 26 seconds over the 4.5 mile course.

Gannon runners captured second through fifth position which assured them of the win.

Fred Franke took sixth place with a 25:41 clocking.

The loss left the harriers with a record of two wins and five

Student Ice Time Set

RIT is a unique school in many respects, among which is the wide variety of facilities available for student and staff use.

One of the most popular is the indoor skating rink, located in the Ritter-Clark building. RIT is the only school in this area, and one of the few in the country, to have an ice rink,

Free use of the rink is available to all RIT students, faculty, staff, and their families according to the following schedule: Monday, Wednesday, Friday, from 1C a.m. to 3 p.m.; Tuesday and Thursday from 11 a.m. to 3 p.m.; Saturday from noon until 1:15 p.m. and Sunday from 11 a.m. to 1:15 p.m.

Students, faculty and staff may also skate at the public afternoon sessions without charge. These are held between 3:30 and 5:30 p.m. on Monday, Wednesday, and Friday, and between 1:45 and 4 p.m. on Saturday and Sunday.

There is a 10 cent checking fee at all public afternoon sessions.

Public skating sessions are held Friday and Saturday nights from 8:15 to 10:30. Skates are available for rental for 50 cents.

Lewis Elkin, rink manager, urges the entire Institute to take advantage of the rink.

WRA Formed

Twenty interested women have formed the RIT branch of the American Recreation Federation of College Women, known locally as the Women's Recreation Association. These charter members are now busy drawing up a constitution for acceptance by the Student Senate and also working on an award system.

Membership will be open to any girl who has an interest in the intramural sports program or the intercollegiate teams, such as the field hockey team which is currently practicing for a home match with William Smith College of Geneva. The ladies are planning many other events and will become an integral part of the Women's Physical Education program.

All students interested in working on Spring Weekend Committee should attend interviews Monday, Oct. 26, at 7 p.m. in the Student Union.

Athlete of the Week

Fred Franke

This week we have chosen Fred Franke, captain of the cross country team and a very deserving athlete he is. Franke is a wisp of a lad who looks as if a good wind would blow him over, but every time he takes to the rugged hills and dales, he proves that looks can be deceiving as he finishes well up in front.

Although there was some doubt as to whether Franke would be able to run this year, he has done well enough to break the old course at Fredonia State a few weeks ago, finishing second to a teammate by three seconds.

Franke is one of only two returning lettermen on the squad this year and the Madison High grad has proven a real leader to the newcomers. A junior in the School of Art and Design, we look forward to having Franke back on the squad next year for another successful season.

Yell Squad Seeks To Raise Spirit

Operation Spirit gets off the ground this weekend with a hang at a bonfire rally to be held at the parking lot on the corner of Broad and Clarissa Streets. A program designed to raise and maintain a high level of student interest in athletics, Operation Spirit was started by the cheer-leading squad under the direction of their advisor, Miss Janet Prock. Throughout the year the girls will start traditions that should carry over for years to come.

Beginning at the surprise packed rally, the fraternities on campus will present skits with the winners earning the right to perform the ceremony of burning the opponent in effigy. The new cheerleaders will present many new cheers to the student body. The rally will begin at 7 p.m. and continue until shortly before curtain time for the play, "See How They Run," in the gym.

Saturday will mark the beginning of two new traditions at the soccer game. At the pre-game ceremony, members of the soccer team will be introduced and will run through a tiger head provided by Theta Xi fraternity. At half-time, all lettermen who are not playing that day will form a funnel for the team to run through as they return to the field, followed by the cheerleaders. Both these events will continue through the remainder of the school year at every athletic event.

The major attraction of Operation Spirit will be the awarding of "Spirit Trophies" at the end of each particular season to the group or organization that has done the best job of supporting the team.

A large newspaper made a misprint the other week concerning an alleged football game between RIT and Hobart. Being a fully indoctrinated upperclassman I got quite a laugh out of it and wrote it up as a big joke.

After a little more careful consideration, however, I'm not so sure I wasn't a bit hasty in treating the story the way I did. To be sure, football on our present campus would be ridiculous. The lack of facilities and the size of the athletic staff are two big strikes against the sport ever materializing here, BUT . . .

WHY NOT HAVE FOOTBALL AS AN INTER-COLLEGIATE SPORT AT THE NEW CAMPUS? ? ?

It's quite evident that there will be plenty of open space out there for the team to practice. All the modern facilities of the Athletic Dept. should be capable of handling the load and the staff itself should be expanded to encompass a mandatory physical education program for men. These added personnel should be able to handle the coaching duties. Therefore, the two major problems should be eliminated automatically by the move to the New Campus.

You are probably asking how we could ever get enough men out for football when the soccer and cross country teams can't attract enough interested athletes as it is. There are some logical answers to this question.

Early in the fall, Bruce Proper stopped several students who looked as though they might have some athletic ability and asked them if they were coming out for one of the teams and several of them answered that they would come out for a football team but that they weren't interested in anything else. These men formed their own teams and played each other by challenges until a league of touch football was formed. They get up early on Saturday and eat late dinners on weekends to play these games and you can't find many other activities on campus that will cause these men to behave in the same manner.

A mandatory physical education program for men would help to keep up the interest in sports participation. Many entering students excelled in football in their high schools and would form a strong nucleus if they were encouraged to further develop their skills.

I feel that there is a definite interest in having football at RIT and therefore, I'm asking each one of you to fill in the questionnaire and drop it in one of the boxes to be found by the activities folders across from E-125, outside the Reporter office in the basement of the Clark building, or in the Men's Residence Halls. Women are invited to express their opinion, but it is the men we are most interested in hearing from right now.

Should we have Inter-collegiate Football at the new campus?

Yes No
