

Digital Video Basics for PC Users (T4)

Hope Williams
NTID/RIT

Email:
hdwedr@ntid.rit.edu

Thursday, 6/30/05 -- 9:00 AM
Location: 60-2452

Type: Workshop

This workshop will introduce participants to creating digital videos using Windows Movie Maker. In addition to exploring educational applications for video, topics will include the fundamentals of digital video, the production processes (planning, shooting, editing), and distribution options. Participants will receive instruction on how to use digital video cameras, perform basic editing procedures, and enhance videos with special effects.
