First Launch

- Scheduling officers began using the new Student Information System (SIS) on October 19th
  - Building Fall 2012 course catalog and schedule of classes

- Converted historic course catalog, class schedule, and instructor/advisor information
  - 30 years of history, 1 million rows of data, and 7000 instructor/advisors

- New SIS introduces new features and functionality for academic departments
  - Lecture – Lab/Studio (Auto Enroll)
  - Wait Listing
  - General Education Attribute Search
  - Enhanced Schedule Search in core system
  - Room Scheduling

- In December individuals who have received training will have access to the Fall 2012 schedule of classes and course catalog. There will be additional training sessions.

- In December, the schedule of courses (Info Center) will include Fall 2012
Second Launch – December

- The second launch focuses on Admissions
  - Prospective Student (Fall 2013)
    - New prospective student (Fall 2013) portal page
      - Create their RIT online account
      - Inquire
      - Update their personal information

- Administrative
  - Marketing/Communications
  - Selected Event Registration
  - Analytical Reporting
  - Recruitment Travel Planning for Fall 2013 prospective students
  - Load 2012 Admits
  - Manually load Fall 2013 applicants until the third launch

- New SIS will be linked to the current RIT financial aid system (ProSAM)
Foundation For the Future

The second launch in December sets the foundation for future uses for student success (starting June 2012)

• Provide a holistic view of the student

• Ability to share select student information across departments/offices who support students

• Proactively work with students for student success

• Provide targeted communications for outreach purposes
Role Based Access

• Users will need to be re-provisioned in the new SIS
  • Tight control of roles

• Provide you with the access you need to do your job

• A user may need multiple roles to do their job

• Some functional areas may require training be completed before granting access
Third Launch – April

- Prospective students can apply using the online application for Fall 2013
- Fall 2012 registration (April 2012) will be in the new SIS
- Currently working on a training schedule
- The third launch focuses on Student Records and Student Financials
  - Student Records - students enrolled in Fall 2012 quarter and forward
    - Enrollment (Registration)
    - Grading
    - Process transfer credits
    - Transcripts
    - Program plan (Change major)
    - Graduation
    - Reporting
Third Launch – April

- Student Financials
  - Student Financials is directly tied to Student Records.
  
  - All financial related transactions will be in legacy SIS until end of fiscal year (June 2012)
  
  - Beginning July 2012, all financial-related transactions will be in the new SIS
  
  - Interfacing departments will connect to the legacy system in fiscal year 2012 and the new SIS in fiscal year 2013
    - Examples: StarREZ (Housing), CBORD (Dining), Oracle General Ledger, Financial Aid disbursements, and others
Third Launch – April

- Student
- Academics
- Finances
- Personal Information
- Advisor(s)
- Checklist/To Do List
- Related Links

- Advisor – assigned students
  - Current class selection
  - Class history
  - Student grades
