Pedestrian Safety Committee
DRAFT CHARGE

The Pedestrian Safety Committee will consist of representation from all governance groups, appropriate administrative divisions (such as Campus Safety, FMS, Risk Management, etc.), and major stakeholder groups (faculty, staff, students, administration, visitors to campus).

The committee will research and discuss issues related to pedestrian safety on the RIT campus, including, but not limited to:

• Providing a safer campus environment for pedestrians, bikers, skateboarders
• Pedestrian awareness initiatives
• Physical improvements that could lead to the end goal of a safer environment
• Landscaping/visibility issues at certain areas on campus
• Draft of a policy around pedestrian safety; including implementation plan and enforcement

The committee will design tools which will assure that the voices of all campus constituents are heard in developing solutions to this issue.
