

# WALLENTE BALL ON FEBRUARY 8

## Seniors Sponsor Round And Square Dance Tonight

At Le Doux and the "Flower City Four" will play for the Senior sponsored round and square dance to be held 8 to 12, in the First Presbyterian Church.

Square dancing will be led by an experienced caller who is capable of helping those who have not tired square dancing before. Popular dancing of the day will also be in order and any particular favorite may be requested.

Le Doux and his men are all professional musicians who have appeared on the radio. The music will be supplied by accordion, guitar, saxophones, clarinets, and bass viol Vocals will be supplied by one of the orchestra members.

## P. S. A. Conference Features Speakers

At the Rochester Technical Section of the Photographic Society of America held at the Chamber of Commerce on Sunday, January 27, there was an excellent representation of RIT Students.

The four speakers were: Lloyd Varden from the Pavelle Lab. in New York City who spoke on the Pavelle Color Print Plant. Maurice C. LeClair who spoke on Portraiture in Color, Harry H. Lerner who spoke on Gasparcolor and the New Color Processes, and Dr. Donald H. Menzel, Professor of Astronomy, Harvard College, who spoke on Solar Photography and Radio.

A buffet supper was served for the Technical section members at the Commerce building.

## Delta Omicron Entertained At Breakfast, Sunday

The members of Delta Omicron Sorority were entertained at a breakfast of ham and eggs on Sunday morning, January 13, by Mrs. Earl Karcker and Miss Pauline Todd at Mrs. Karcker's home.

At this time, plans were made for the freshman rush party to be given by the sorority on February 7 and for their annual formal banquet to be held February 23.

## Alpha Psi Gives Party In Cafeteria Thursday

Alpha Psi Sorority, organized in 1920, held its rush party for freshmen in the Institute Cafeteria, Tuesday evening, January 31.

The theme "Breakfast in Hollywood" provided hilarious entertainment with Rose Di Salvo putting on an excellent imitation of Tom Brennan.

Hats, unusual and grotesque, were worn by all the guests and the whole program was carried out in a faithful copy of the famous Breakfast program.

Favors were giving and a breakfast menu served.

## Juniors To Give Splash Party

Everybody! Get ready for a grand evening of splashing around on the night of February 15 at the Central YMCA. It's time you dragged your swim suit out of the moth balls, according to the Junior Class which is sponsoring the party, and put it on for size.

Remember all the fun that was had last year. An exciting time is anticipated again this year. Dave Gillman, a chemistry student of last year, isn't here to give a diving demonstration in the shallow end of the pool, but we still have Ansel Brennan to swim underwater and hit the other side.

The large spacious pool will be open for one hour from 10 to 11 for all you fish who love the water. There will be dancing all evening long. The music will be furnished by James, Woody Herman, Tommy Dorsey, and other orchestras with vocals by Crosby and Sinatra. The charge at the door will be thirty cents.

Class officers who planned this "Shindig" are Herb Watt, Eleanor Roberts and Diana Lee, aided by Ed Wallin.

## Many Things Planned by Phi Up

Phi Upsilon Phi Sorority has many things in the fire. Officers and members alike are working to make a success out of them.

Johnny Di Paola and Ed Laubenstein show they are good fraternity brothers by giving assistance when needed.

Next in the fire is the "Sweetheart Valentine Ball," scheduled for February 8.

Heading the committees are, Dick Andre and Ingeborg Kleist. Subcommittees: (Phi Up) Barbara Nicholson, Ruth Becher, Barbara Wood, Eleanor Lee. (Chi Delta) Ed Laubenstein, John Huchs, Stanley Hart, Bob Wabnitz, Dick Hudson, Herb Watt and Johnny Di Paola.

In the fire for February 23 is the Pledge Dinner. Plans are also being made for something really special, not only good food, but also good atmosphere.

## VITALE-DANIEL

Miss Nina Vitale, daughter of Mr. and Mrs. E. M. Vitale of Rome, New York, and Lt. R. Vernon Daniel will be married February 9, 2:00 P. M., in the First Presbyterian Church by the Rev. Murray Cayley.

The bride will be given in marriage to her father, Miss Joan Dennis will be maid of honor and Miss Norma Vitale, sister of the bride, and Miss Delia Dekin, will be the bridesmaids.

A reception will follow the wedding at 234 Mulberry Street.

The bridegroom is stationed with the Army Ordnance in the Mercantile Building, Rochester.

Lt. and Mrs. Daniel plan to make their home in Mineral Wells, Texas.

## Sigma Kappa Delta Pinder-Delelo Chosen As Royalty

The exhibition room of the Beaver Building was the famous "Cream Room" for an evening on January 24. That was the night when the girls of Sigma Kappa Delta had that much-talked-about party for the freshmen rushees.

The room had a definite atmosphere of a night club, and the room and the tables were decorated with the traditional elephant and the yellow and blue of S.K.D.

Did you ever have the desire to mix up your own idea of the super sundaes and eat all the ice cream you could hold? Well, that was everybody's privilege in the "Cream Room."

Mr. Horn, honorary member of the sorority, brought his magic "Imogene" to the party to answer any puzzling questions of the future the girls might have. Under the able direction of Phyllis Kipp, master of ceremonies and the president of the sorority, the rushees enjoyed a variety of entertainment supplied by members and talented guests.

## Betty Lou Rieker Bride of Serviceman

In an early morning formal and colorful wedding ceremony, January 26, 1946, Betty Lou Rieker became the bride of Thomas G. O'Neill at Corpus Christi Church.

Miss Dorothy Rieker, sister of the bride, was maid of honor while Miss Ann Godey and Miss Frances Edelstein attended as bridesmaids. Attending the groom was his brother, Mr. George R. O'Neill.

Mrs. O'Neill, before her marriage, made her home with her parents, Mr. and Mrs. Louis P. Rieker, 82 Wilson Road in this city.

Mr. O'Neill, since his arrival home from service in the Army Air Corps, has been reading with his mother, Mrs. Barbara O'Neill of 78 Roslyn Street, Rochester. He was a prisoner of the Germans for several months during the war.

Betty Lou was well known to all students at the Institute last year during her enrollment in the Publishing and Printing Department.

Her gospel column, *The Revealer*, appeared in the SPIRIT.

## Pinder-Delelo Chosen As Royalty

At the first Freshman formal dance since the beginning of the war, Shirley Pinder and Joseph Delelo became royalty for the evening. The ever popular Starlight Roof of the Sheraton was a perfect setting and Vic Sweet's orchestra furnished the perfect music to go with it.

As candidates from each department had been chosen the final voting for king and queen of the class was held at the dance and participated in by all present. The Winnans-Shirley Pinder is from the Art School and Joseph Delelo is from the Retailing Department. Orchids to Lewis Van Derwerken president of the class, and Louis Thompson, chairman and co-chairman, and to Rachel Reed and Vincent Laino for the grand job they did in planning this affair.

## Ph Tech Supervisor Interviewed

In an attempt to find out just what the "up and coming" Photographic Technology department, better known as the "Photo Tech," has planned for the coming year. Mr. Carol Neblette, superintendent of the department was interviewed.

He stated that the enrollment will be much greater. About 150 Freshman have already been admitted by selection from an application of 317. From the above statement you receive proof that the entrance exams are rigid and on the average college level. The only ones not selected are former Photo Tech students who are returning after discharge. The Freshman class will be composed of nearly 90 per cent veterans coming from all parts of the United States and Canada. The average age will be around 21 or 22.

The first year basic photography will consist of four separate courses:

Portrait Photography  
Commercial Illustration Photography

Color Photography  
Photographic Technology

There will be no changes in the course, however. The Commercial

Continued on page four

## Names of Twenty Girls Entered For Sweetheart Contest

The Valentine Sweetheart Ball, sponsored by Chi Delta Phi and Phi Upsilon Phi, is to be held in the Seneca ballroom next Friday, February 8, 8:30 'till 12:30. Late permission (1:00 a.m.) has been granted to all girls living in the dorms who attend the ball.

It's strictly an informal affair for all except the twenty girls chosen by Chi Delta Phi to be candidates for the fraternity's sweetheart. Steve Kalina will preside at the dance as master of ceremonies. John DiPaola, president of Chi Delta Phi will present the awards, assisted by Barbara Wood, president of Phi Upsilon Phi.

The ballot box in the main hall of the Eastman building became chucked full after much discussion and dissipation of student groups. It might be said that the beautifully decorated box was the object of much attention after school, a noon, and during the five minute periods between classes.

From your many suggestions, after a concentrated survey of all the lovely young contestants, the members of Chi Delta Phi announce the following girls as candidates:

Eleanor Lee, Barbara Nicholson, Jane Shaffer, Carolyn Ekstrom, Ruth Becher, Joan Dennis, June Bault, Patricia Lang, Kathy Reid and Barbara Adams.

Others are Joan Miller, Emily Pappan, Josephine Seiff, Barbara Slater, Ruth Wittard, Elaine Benham, Eleanor Roberts, Barbara Haddfield and Betty Whitney.

Mr. and Mrs. Frank A. Clement, Mr. and Mrs. Herbert Stampe, Mr. Charles Horn, and Miss Mary Medden will attend the dance acting as judges and chaperones. Mr. Frank Clement is the faculty advisor of the Chi Delta Phi fraternity while Mrs. Herbert Stampe is the faculty advisor of the Phi Upsilon Phi sorority.

## Veteran's Affairs May Be Directed From Rochester

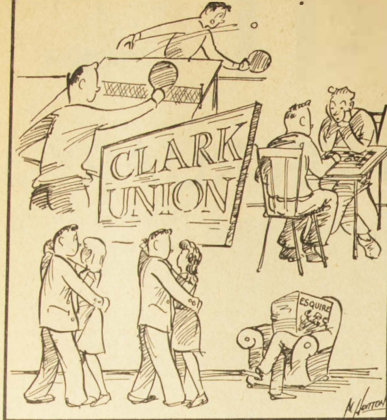

The much talked about migration of the Veteran's Administration from Batavia to Rochester has all but begun.

Colonel Rockefeller of the Veteran's Administration, deputy of General Bradley, together with Mr. Charles Sargent, manager of Batavia's facilities, are in charge.

Now their main headache is finding a place in Rochester for about two thousand employees.

All administrative offices and hospital facilities are included in the charge. The jurisdiction of this administrative group will extend as far west as Albany and cover pensions, medical cases, rating boards, insurance claims and educational guidance.

### HOW DO YOU CONTRIBUTE TO CLARK UNION'S FRIENDLY ATMOSPHERE?

### CLARK UNION AND GAMBLING

At the beginning of every year, each student pays fifteen dollars to the Student Association Fund. This money is used for the student social, sport, and educational functions of the school.

However, the largest single allotment is for Clark Union. This year the Union is costing the student body over twenty-five hundred dollars. Since there is such a large sum of money involved, it can be seen that some sort of governing board is necessary.

One of the committees the Student Council president appoints is a house committee to set up the regulations. A community needs laws to protect itself, not from the majority of the people but from a certain few. As much as we dislike the thought of it, I'm afraid that Clark Union has some of those "certain few" in it. The majority of Clark Unioners are "swell" but there are a certain few who seem to break the rules deliberately. Particularly noticeable is their reaction towards a definite house rule against gambling. If you gamble in the Union, the rights of Clark Union will be denied you.

There is nothing very adult or "masculine" in deliberately disobeying House Regulations. Remember, it is your money that runs Clark Union. Be wise and see that you receive full value from it by being fair to yourself and to the other fellow.

### Just Looking

BY JANE AND BARR  
We were asked to write our opinions.  
But we both feel much too solemn.  
For since we're husbands are not lazy.  
We're all working (aren't we crazy?)  
So there's not much scuttlebutt  
but,  
We're not really in a rut,  
So here we ozone  
the news

Birrough and Davis have two suitors  
(Guess they dood it, huh re-tailers?)  
Pat Fitzgerald had a man—  
But is it Jew, or Sam or Stan?  
Who has Dick Anire in a stew—  
I'd like to H. Countyman, would  
not you?  
Coming from a land of snow and  
ice,  
E. White found a Lelf, who's very  
nice.  
Mary Lou Hall, is this the blarney.  
Or do you like both Jim and  
Barney?  
M. L. Parsons, it is Jim,  
Is going with a man named Ted.  
That's all the gossip we could  
gather,  
But we won't stop—unless you'd  
rather—

### Are Your Manners As Pretty As Your Party Dress?

It is well to keep in mind that manners, unlike a party dress, are not put on for an occasion. They are practiced at all times in every-day living, at school and at home, as well as at special functions. They consist chiefly of being polite and courteous, but they are also concerned with being considerate of the feelings of others in the matter of gossip and in the happy way of approaching and handling people.

"Pretty is as pretty does" is an old guide to loveliness and charm. Being selfish, rude or thoughtless makes an ugly girl, it seems, out of the prettiest. The same thought is expressed in another proverb, "Beauty is more than skin deep." You must be more than just lovely to look at, you must be delightful to know, also, if your manners are to be as pretty as your party dress.

The hand that rocks the cradle is the one that used to turn out the parlor light!

### The Monkey's Viewpoint

Written by a Soldier  
Three monkeys sat in a coconut tree  
Discussing things as they're said to be.  
Said one to the other, "Now listen you two,  
There's a certain rumor that can't be true,  
That man descended from our noble race  
The very idea is a disgrace.  
"No monkey ever beat his wife  
Starved her babies and ruined her life.  
And you've never known another monk  
To leave her babies with others to bunk,  
Or to pass them on from one to another  
They scarcely know who is their mother  
"And another thing you'll never see  
A monk build a fence round a coconut tree,  
And let the coconuts go to waste  
Forbidding all other monks a taste.  
Why if I'd put a fence around a tree,  
Starvation would force you to steal from me.  
"Here's another thing a monk won't do,  
Get out at night and get on a stew  
Or use a gun or a club or a knife  
To make one other monkey's life.  
Yes, man descended, the ornery cuss,  
But, Brothers! he didn't descend from ours!"

### Fun With Fashion

Here we go again! Yep! Hecky is still playing hooky!  
Can't talk about Christmas gifts forever so-o-o . . . winter sports is the big subject. Jeans are wonderful BUT, for one thing, they're a little chilly. A more fitting pair of ski pants and a neat jacket with some zing is nice. And I saw Jane MacDonald with something new: she has a white plaid hood which she made to match her ski shirt. Can't describe it. I'd say it was a sack with a hole in it . . . for her face . . . but such a smart sack for such a cute face!

Beckie has a pair of ski mitts, just like the kind you've been wanting. They are good and long, of canvas with leather palms and they're lined for warmth.  
If you want too short the works and get a complete ski outfit, see Betty Witney. She's got one . . . Mmmmm! It's navy blue with silver buttons marching down the front of the jacket, white more, it fits! Saw one in white garbardin. It's the spectator sports type.

One thing more . . . Remember the red flannels. If you haven't any, a pair of flannel P. J.'s are just the thing. Might not be exactly fashionable, but they give you that warm, homey feeling, especially if you land in a snow bank.

P. S.—Don't forget the ski-boots or storm boots ELEANOR LEE

### Do You Know? . . .

- I. In the History of the World there has always been ten years of war to every year of peace! How does the U. S. A. average compare with this figure?
- II. The camera used by the U. S. Army Aerial Photographers cost \$3,400 each! Why is this job such an important one?
- III. An owl cannot move its eyes from side to side! Can an owl actually see in total darkness?
- IV. The U. S. Army heavy 30 caliber machine gun is water cooled! In what year is used to fire this gun?

ANSWERS ON PAGE THREE

### Clark Union Clips

The other night I arrived home from school dead-tired, went upstairs to my two-by-four, propped open my window with an old sock and sat down to write "dirty lines of junk, five inches wide."  
This, then, is the writing of a very tired man—written from a cell with a "dead" sock in the only ventilator.  
You would have found out, anyway.  
"To be swept off one's feet" is a choice collection of words dreamed up, no doubt, by someone who had had that experience. It has lost all meaning as far as I'm concerned. In this little asylum it simply means that some innocent booby stepped into Clark Union for a cigarette and was told of relaxation and before you could say "Rochester Institute of Technology" had danced with six girls, been stepped on by an equal number of hefty males, and been dropped, breathless and dazed, into a small chair made cozy by three other people.  
Having recovered sufficiently to remember the reason for his little visit he forgot his cigarette, long enough to pull out his pack of cigarettes. These were whisked away immediately by a fun-loving friend who distributed them with wild abandon, leaving our little hero the empty package which he was permitted to throw at whomsoever he pleased. Usually the one who was hit had the best chance of catching it in the eye.  
He then burmed a weed from another sucker who had neglected to palm his package, and, after exchanging a few shafts of lightning wit and repartee with a number of spirited jerks who tried to extinguish his match, he finally settled back to enjoy his cigarette.  
In a very few moments his footwork had become a thing to be noted. Having caught onto the little game, he kept one eye on the dancers and the other on his feet which dodged back and forth in time to the music, all the while his other extremities were kept busy throwing ortho-astigmatic couples out of his lap.  
Three-quarters of an hour later we found him in the men's room, where, having been reduced to a gibbering idiot, he covered in a corner and fought off all those who attempted to calm him.  
Such is the tempo of Clark Union which the very alert, and where the uninitiated get theirs.  
But this is silly of course, there are no war skirts in Clark Union.  
NINA VITALI (Chemistry)  
Ah, when you whisper, "George, I love you."  
How my head begins to swim:  
But when you snuggle close and say it—  
I forget my name is Jim.  
Arthur R. Kaszin

### The Witty Wits

A doctor says one million women are overweight. These, of course, are round figures.  
A 1950 definition of Japan: a rather unimportant group of Pacific islands completely surrounded by the United States Navy.  
"The sudden entrance of a wife has caused many a secretary to change her position."  
1910—"Look, there's an automobile."  
1930—"Look, there's a horse."  
1950—"Look, there's a pedicarian."  
"Labor saving device is a rich wife."  
Advertisement  
Nursing, Registered Practical nurse; obstetrical preferred. Call 1078-w.  
She: "Do short skirts make women look shorter?"  
He: "No, but they make men look longer."  
An Englishman returned to his home from a trip to America and was telling his friends of the odd American games.  
"And they have the queerest game in the movie house. It is called 'Ohnell' I think." "Ohnell" they asked, "how do they play it?"  
"Well, when you go in they give you a card with a lot of numbers and during intermission a man yells out the numbers. Then someone yells "Erno" and everyone else yells "Ohnell!"  
PAULINE PATTERSON  
CAROLE BUTTNER

### BOOK REVIEWS

Spies and Traitors of World War II  
KURT SINGER—  
Remember Kurt Singer who came to talk to the Assembly at RIT last year? His book is as thrilling as the stories he told at that meeting. It tells of the workings of modernized espionage and how the enormous web was cut in a thousand places.  
Last reader feel that the elaborate network of the AXIS undercover experts is cut for all time. Mr. Singer attempts to prove that the plans are well laid for postwar functioning again.  
Two graduates of the Foods Department, class of 1945, are completing work for their degree. Marian Leng is at Ohio State University and Marilla Raska is at Michigan state.

### 106 Courses Offered In Night School

Students enrolling for the second term of Evening School are registered to register the week of January 21. The new term begins Monday, January 28. Students in all departments, with the exception of Management and Retailing, must re-register for the second term. The re-registration form may be obtained from your Counselor or Instructor or at the main office. Students continuing the course taken the first semester may have either the Instructor or Counselor approve the registration, if the student is changing his course, he should have the Counselor of the new course approve his card. Be sure to use the re-registration form!

Of special interest among the 106 courses being offered in the second term are:

**Industrial Electronics** — This course designed by the Westinghouse Electric Corporation has proven very popular. Recordings and film slides are employed and are supplemented by lectures, class discussions and demonstrations. Fred J. Bellando, Assistant Chief Electrician, Taylor Instrument Companies, is the instructor. Classes will meet Tuesday evenings, 7:30—9:30.

**Brazilian, Portuguese and Spanish** — Designed to follow the army language teaching method, these courses have attracted wide interest. Miss Angelina Guzzetta, Nazareth College Language instructor, is conducting the classes. Portuguese will meet Friday evenings, 7:30—8:50 and Spanish, Wednesday evenings 8:30—8:50.

**Business Training** — Another "mat" on the list of courses in the Management Division. George E. Hebert is the instructor. He is one of 22 authors who have collaborated on the recently published book, "Essentials of Selling." Classes will meet Tuesday evenings, 7:30—9:00.

**Radio Announcing** — This course is proving to be a popular follow-up to the Effective Speaking course. Registration should be made at an early date to insure entry into the class. Al Sisson, well-known radio personality, is the instructor. Classes will meet Monday evenings, 7:30—9:00.

**Elementary Algebra and Intermediate Algebra** — These two courses are proving to be particularly popular among returned veterans wishing to lay the foundation for additional engineering courses. New sections will start January 30. Classes will meet

Distinctive — Reasonable  
Corsages — Bouquets  
— MAIN 7688 —  
Lloyd's Flower — Gift Shops  
Powers Hotel & Reynolds Arcade

### Sportime By Hockey

Well the weather outside is delightful, but something tells me that this is going to be a short summer. So kiddies, don't put away your ski suits and ice skates. Old man winter will be back from the south soon.

Speaking of ice skating, it's loads of fun and even if you've never tried it before, you too can be a Sonya Henie (well almost) with a little practice. You may nab a Van Johnson that was too. Of course the first time you try don't expect to just glide across the ice. It isn't as easy as that.

If you've decided to make the effort, and have begged or borrowed some skates, make tracks for the Genesee Park rink or take the subway out to Cobbs Hill Working girls take note, they're open at night too.

Your first step is to put on your skates and now you're ready to try your wings. If your ankles begin to wobble and you have trouble maintaining your equilibrium, don't be discouraged. You'll probably lose it several times before you get through. Once you learn to keep your balance you'll probably be very pleased with yourself and find yourself going along like an old timer. Keep up the good work, practice makes perfect you know. After awhile you'll begin to try the more difficult and intricate maneuvers. Don't get too ambitious right at the start though, these take time and a lot of practice. If you want a few pointers, just watch Bobbie Hadfield makes with the silver skates.

Bye now, Happy Landings.

every Wednesday and Friday evening thereafter, 7:30—9:00. Willard Lindsay, of the Camera Works, will teach the beginning course in Algebra. Henry W. Stoll, Application Engineer of the Taylor Instrument Companies, is the instructor for the Intermediate course.

**Professional Engineers Review** — William A. Clark, professional engineer and Counselor of the architecture and Building Courses, will offer again this year a course designed for engineers preparing to take the New York State license examinations. The course consists of a fundamental review of basic engineering principles in structures, mechanics, hydraulics and economics with most of the time given to solution of previous examination problems in these areas. Classes will meet Monday evenings, 7:30—9:30.

We have here, Ralph Gilpin, who tells me he is old enough to know better and young enough to enjoy it. Don't ask me what, for only he knows and he won't tell. Ralph is an Electrical senior from Lyon Mountain, New York. He has been vice president of Phi Sigma Phi for the last two years and was vice president of the Student Council last year.

Ralph likes women, brunettes preferred, but can't remember first names, consequently he calls them all darling. He likes foot, Adams Aie (what's that?) bowling swimming, and any kind of music. He doesn't like redheads, black clothes, eggs (he's allergic to them), on humorless people. He particularly dislikes conceited people.

After graduation, he expects to go to Clarkson for his degree.

I. Since 1775 including the Revolutionary War, the U. S. has been at peace 147 years an at war 19.

II. An aerial photographer's job is difficult and very dangerous. He often flies over bombing objectives, taking photographs as the plane goes, to supply strip maps for the bombers which will follow.

III. An owl cannot see in total darkness.

IV. The U. S. Army heavy 30 caliber machine gun is fired by the left hand! The right hand is used to make machine adjustments and change the direction of fire, etc.

The next generation should be Grade A, since it will be from registered fathers!

You've probably seen her around — but if you haven't it's high time you did. She really doesn't need an introduction, but you may consider this one if you want to. Meet Audrey Wynn, Retailing senior, and a Clark Union veteran. She is 21, and a local girl.

Audie is a good dancer, a smooth dresser, and an excellent sport, and has the kind of laugh that makes you feel good. She likes, as she puts it, "smooth and slippy music with a few fast numbers for variety;" shrimp cocktails, cheeseburgers, beer, the Clover Inn, the G. I. and swimming in the icy waters of Seneca Lake on October 29. This last was actually one of her accomplishments at the Seneca Lake houseparty of last October. She likes the rugged life at times, but assures me that ordinarily she prefers a somewhat milder variety.

She doesn't like 8:00 o'clock classes (who does?), curfew on the homefront, or dateless Saturday nights.

Well, little man, your job is done. A noble war time task — Escorting me to balls and teas and anywhere I ask. So bon voyage — I hope you find A pint-sized paramour, For surely now tall men are back To match my six-foot four.

### Of This And That ... And Then Some

"One's a Marine, kinda cute about 19 years old a Guadaluca hero and then the other... well, he's a swabby. Are you interested in a blind date huh?" This was the conversation over the house phone, as yours truly talked to her roomies on the phone. No luck though, as one had a date with a certain guy named Kirk, one went home for the weekend because Tar was coming from overseas; and the third... sto me if you've heard this one was being true to Art. Personally, I prefer a Coastguardman named Bill.

If anyone is interested please see yours truly and something will be done. We take appointments from four to five, and the minimum charge is three cigarettes per date. (Got to make a living somehow.)

Flash !!! "My first orchid" was received by G. Gulle and Joan Warner. The escorts: Paul Rand and Virny Laino. The occasion: our Freshie Formal.

We hear that Helen Bentley and Jack Barach are still better than pain. What's this about Ruth Reed and "Howie," or need I ask?

You've heard about the "Big Three" in Europe, but did you know that we have the "Big Four" here in the dorm, only these are the "Little Four." And boys, they are not going to wait much longer for those invites. Just how long does it take to get to Rochester?

John D. is finally coming home from overseas and he's coming to our Bobby Hattfield, the lucky girl! It's just wonderful to have all the boys coming back, but then there's the type that enlists for another four years. At least that's what we heard Betty Whitney was musing about under her breath. (Did you hear that, Freddy?)

Some gals get pearls from their men, and others get pins... sterling jobs with "taken" on them. Well Paul, that's one way to pm her down, Ouch! You win, pick up your marbles, I'll buy bonds!

## Editor Speaks To Assembly On Benjamin Franklin

Mr. Harold W. Sanford, editor of the *Democrat and Chronicle*, spoke at a recent assembly in observance of Benjamin Franklin Week. He gave a brief summary of Franklin's life, stressing his childhood ambition of wanting to become a printer, and pointing out that the pride which he had in his trade made Franklin want to be thought of first as a printer and then as a statesman.

In referring to Franklin's varied interests, Mr. Sanford said: "He founded the Junco Club in 1720 which developed into the American Philosophical Society, and the first subscription library in America in 1731. The first police force and fire company in the Colonies, a system of street paving and lighting, and a militia force were all organized by him."

"Franklin's academy became the University of Pennsylvania," Mr. Sanford explained, "and is a fitting memorial to him and symbolic of his interest in education."

Ending his talk Mr. Sanford referred to an extract on the cover of the *Saturday Evening Post* ("This magazine started out as Franklin's weekly paper") which reads in part as follows:

"The rapid progress true science makes occasions my regret sometimes that I was born too soon. O, that moral science were in a fair way of improvement, that men would cease to be wretched to another, and learn what they now improperly call Humanity."

## Foods Freshman Gets Early Start

Upon completion of her three-year course at RIT Eunice Mitchell will go into a cafeteria or hotel work in her chosen field of food administration.

Eunice started earlier than most girls to learn about cooking, canning and the planning of the family meals. She began making cookies and cakes by the time she was eight years old, and did all the buying of food for the family when she was still a little girl, while Helen, her sister, learned to make clothes for both of them (aunts) her father proudly.

It was necessary for Eunice and her sister to do what they could to help as their mother died when Eunice was six and Helen, eight and when their father was faced with the difficult task of rearing five children. She lived on a farm of 140 acres on which were a large dairy herd and several hundred chickens.

While Helen became the blue ribbon winner with her needle work, Eunice won fame with her sponge cake, cookies and bread. Concentrating on a victory garden last summer, she canned enough vegetables and fruit of every variety to supply the needs of the entire family and received honorable mention this fall in the county canning project, in addition to several blue ribbon awards for baked goods in state contests.

When she left high school, Eunice was the president of the local 4-H group and is now secretary of the County Council of 4-H which she and her sister helped to organize in 1939.

## Trotters Take Lead As Eagles Falter

The Trotters went into first place as a result of the Eagles three game losing streak. The Eagles have succumbed to all the teams in the league in three successive games.

The Shamrocks have gained ground by going into a tie for second place with the faltering Eagles. They have played 500 ball. The Rangers also have a 500 average while the Eagles are playing 250 and the Trotters playing a 1000 game. This is the average for the teams in the last four games they have played.

All men who were bowling last book and will not be bowling this book are invited, by Coach Leo Fox to come out and participate in some basketball. All men who are not bowling are eligible to come to the Brick Church gym at 7 P.M., February 11 and join some team in the league.

## Supervisor Quizzed

Continued from page one  
Illustration course will be continued next year, after being discontinued this last year. In a year from now, the Photo Tech department is planning to introduce another major second year called Engineering Photography.

The new building will be a great aid to the Photo Tech course, giving it better facilities than any other school in the country. Exclusive studios are being designed for both black and white and color photography, a great convenience to the department. The equipment will be three quarters new, and of the latest type Photo Tech students have all this to look forward to. A bright day is coming.

The number of instructors will be increased, but the exact number has not been determined at this time. All the present full time instructors who are very well known in the photographic field will be retained. Special instructors to teach in specialized fields will continue

## Culinary Staff Gets Together

On Friday, January 25, the cafeteria staff had its monthly party. The evening began with a musical theme and then quieted down to a selection of games.

Eddie Moore can now add to his list of famed accomplishments that of "Champion Bingo Caller." Later Shirley Milligan was found sitting by candlelight reading poems while Bill Hummebeck attracted girls to the other side telling Personalities by reading faces.

The sandwiches made by Paul McCoccos and ice cream sundaes along with some good recorded dance music brought an evening of laughter and fun to an end.

## RIT Glee Club Resumes Meetings

The RIT Glee Club has resumed its meetings since vacation on Wednesday nights at 7:30 p.m. In the dining room. Plans are being made for a spring program by the officers and their director, Mr. Kenneth Mook. Both old and new members are invited to come out for an hour and a half of "fun with music" on Wednesday evenings.

## EDITOR RESIGNS

Les Boffey, formerly Associate Editor of the "Sprint," has resigned his position due to the pressure of other important activities.

**Who?**  
Who is this girl with the dreamy eyes,  
Who sits and sighs at all they say?  
Who walks around as if in a daze  
For days, and days, and days, and days?  
Who seems to be right up to snuff  
On gin rummy, poker and stuff?  
Who always wants a guy to pose?  
Or course, D. S., in his clothes?  
Who comes to school with a little plup,  
And makes the boys and men look up?  
Who hails from little Buffalo,  
To look at folks up side down?  
Who always has a great big smile,  
For any guy who is worth while?  
Who, I hope, will take this in fun,  
Or else I'd better learn to run?  
Who is this girl of grandiose hue,  
Who is she, I know, do you know?  
BY WHOM?

## RIT Hostlers Ski Trip Postponed

"The ski trip planned for the weekend of February 1, 2 and 3 has been postponed indefinitely due to circumstances beyond my control," said Herbert Watt, Chairman of arrangement committee.
