

Mechanical I Takes Bowling Leadership

In a crucial game of team bowling last week the Mechanical I's beat the Faculty to take the school championship for "A" Block. Two games were rolled and the Faculty won the first by a score of 775 to Mechanical I's 767. This gave the Faculty a chance to place first in Block "A" league bowling but the second game was won by such an overwhelming score of 774 to 666 that it gave the Mechanical I the Block championship.

A new league started up Wednesday night for the "B" Block students.

BOWLING LEAGUE

BLOCK "A"				
MARCH 18, 1943				
Team	Win	Lost	Avg.	H. G.
Mech. I	12	2	725	826
Faculty	11	3	693	775

PSIMAR

Student Publication of the Rochester Athenaeum and Mechanics Institute

No. 24 Rochester, N. Y., March 26, 1943 Vol. 17

Tonight's the Night

Tonight is the night when all good little RAMI students should be at Clark Union for the Service Men's Dance. There'll be Music! Sweet or Jive, and Food! Of All Kinds, Women! ! ! Blonds, Brunettes or Red Heads, and Soldiers! ! ! Of every and any rank. Don't be coy, just pick yourself up and come. No worry about dates because it's a stag affair and at a price most anyone can afford.

Miss Bolden Models For Art Students

Colorful, graceful Elnor Bolden holds the art students' interest this month, modeling in a variety of poses, composing very chromatic compositions.

Miss Bolden, possessing the vibrant and picturesque qualities of the colored race is an unusual and striking model. Her black hair and deep brown skin are very effective against her colorful costumes.

Miss Bolden, whose home town is St. Louis, first worked in a law office for three years before completely entering modeling as a career.

Many art institutes in New York City, Ithaca, Philadelphia, Indianapolis, Chicago, St. Louis, Milwaukee, St. Paul and Minneapolis, Colorado Springs, Denver, Los Angeles, Hollywood and vicinity and San Francisco have been fortunate in obtaining Miss Bolden for their model. That is only a few of the cities and the schools number in the fifties. Her goal is to live in Hollywood someday and work in motion pictures.

Her hobbies are many. Reading fiction and articles on fashion art fascinate her. She also dances, sings and knits. During the summer, she knitted 16 pairs of wristlets army regulation, for boys in the service. She likes to draw and is interested in the game of golf but claims she is only an amateur.

In commenting on the various schools, Miss Bolden stated that we have very good instructors and that we receive excellent basic training. She is enjoying her stay here in Rochester and her work here at the Institute.

Photo-Tech Dept. Changes Schedule

The schedules of students in the Photo Tech Dept. have been changed to allow instructors to take over Army classes left by Charles "Doc" Savage when he enlisted in the Army himself.

The Freshmen and Juniors are most affected by the change as the Seniors are in the "Practice House" the majority of the time.

Only Half As Bad This Week!

The absence of news stories and the necessity for conserving our paper supply, has made it necessary for us to limit this week's edition to two pages.

The Staff

Psimar Meeting This Afternoon, 4 o'clock in Clark Union

ONE MAN'S OPINION

BY MARTIN SEWELL

Oh hum! random reflections of a demon reporter after one month's vacation. Boy, was it ever swell to get away from the old grind for a while. Those guys, "Moe" Hoelzle and "Staggy" Stage sure did a swell job of running the sports page for the last month or so. As a matter of fact I liked reading their stuff so much that it wouldn't be a bad idea if they could take over the job permanently.

Saw "Chuck" Cole in town the other day, in case you don't know he has left school (last Tuesday) and is going to enlist in the Merchant Marine. He was the student manager of the athletic program and so we thought that you might like to hear something of his athletic past. It seems that Chuck came to M. I. from Albany, N. Y. While in high school at Albany High, he played on the Baseball team and was on the foot-ball squad. After high school he fought in the golden gloves and caught on a semi-pro baseball team in Albany. Then some fellow told him about Mechanics and so he came down. He liked the set-up so much that he decided to stay a spell and while here he completed a course in Mechanical Engineering. About the only Intercollegiate sport that Chuck went out for here was wrestling in his freshman year but he had to quit the squad due to interference of work. During his

Senior year Chuck was appointed manager of the newly adopted Intra-mural League and the success of the program speaks for itself. Reckon that we all hate to see you go Chuck, and lots of luck.

Not much doing around school this week so far as sports are concerned. The best we have been able to learn is that plans for the inter-department soft-ball league are still indefinite. The basketball league went off smoothly, our guess is that the base-ball league will start operating around Easter time. Sure hope that there are some men around then, we may have to take in the retailers and foods departments! Seems that I once heard of a girls' ball team called the Bloomer Girls who used to barnstorm the country playing semi-pro men teams and they won more than they lost which is something. Reckon the gals would like to substitute soft-ball for those sessions in the Brick church gym. Wonder when tennis is going to start? We'll wager that with spring in the air there are going to be a pretty big bunch turning out for tennis soon. We had a very good team last year which will give this year's bunch something to shoot at. The fact that "Lefty" Morse is about the only holdover available from last year's team seems to paint the picture pretty dark. Maybe they'll switch to intramural tennis too.

STATE OF THE UNION

Tonight's the night, kids. Clark Union is spreading itself with another of those Service Men's dances. It starts at seven and continues to twelve. A small fee, thirty-five cents, will be necessary to handle the costs of packaging and nailing. That's only for us civilians of course.

Attention extra curricular statesmen. Do you come over to the Union and chonk over the bones of contention? Do you perigrenate among the post war problems? IN SHORT, do you know how to win the war? OR what should be done about the peace? If you do, we will soon be extending an invitation to a convocation of the mighty minds of Mechanics Institute. Be thinking over all those things that you've been wanting to say to your congressman and let off on the shoulders of the President.

You know that book of war stamps the kids gave Rose, Clark Union's general factotum, well it has now grown to a whole nice big fat War Bond. Rose says that some time she's going to have a lot of bonds, and we hope she does, but we'd be willing to bet that the Clark Union Bond will always be strongest with Rose.

Signs of spring department

The April issue of Esquire is here. Ah, now we can enjoy it's many—a-hem—educational features. The grass is getting green, it's probably from the sheer relief of getting out from under all that snow, and the Magnolia tree has a bunch of little fuzzy buds like catkins. That's all that your resident horticulturalist notices for the nonce, but we're pretty sure that a lot of crocuses and such like will be along later.

Well, so long for now! be sure and come to our Spring banquet

ELECTRICAL CONTACTS

The following boys from the Electrical Department called at the Institute within the past week for a brief visit:

Pvt. William F. Hobson ('41)
1039th School Sqdn. (Sp.) A. C.
A. A. F. P. T. S. (Four Engine).
Smirna, Tenn.

Pvt. Raymond A. O'Connor ('41)
Bks. 613, 20th T. S. S. (Sp.)
Lowry Field, Denver, Colo.

Pvt. Richard R. Bender ('42)
A. A. F. B. F. S. Sq. 2, Flight C,
Coffeyville, Kansas

Pvt. Robert F. Sandreckzi ('42)
2nd Sea Search Attach Sqdn.
Langley Field, Va.

A letter received from Pvt. F. E. Wood, Class B-41, reads as follows:

"Just a note to let you know that I've moved again. Yes, I'm out in God's country now, out where it's summer the year around. It's quite a change from the winds and sands of Amarillo, and it seems so good to see trees, green grass and flowers again.

"I graduated from the Amarillo Technical School Feb. 21st. Two days later they put me on a train and I ended up here in Long Beach. I am located right at the Douglas Aircraft Co. attending school. We will be here for five weeks and than, well, no one knows where I'll end up, maybe across the pond.

I've been trying to go to aerial gunner's school. I've passed all

the requirements, so maybe I'll go to some gunner's school when I finish here.

"I spent Sunday looking Hollywood over. It's quite a city and everyone there goes out of their way to entertain and help the boys in the service.

"I received that Psimar you sent and an Alumni paper. Thanks a lot."

Mr. Wood's new address is
Pvt. F. E. Wood
Class B - 21 - 43 - N Bks. 5
A. A. F. T. D. Douglas Aircraft
Co. Inc., Long Beach, Calif.

A "Special Communique" from
Ensign O. W. Button 152½ So.
Pacific Avenue, San Pedro, Calif.,
reads as follows:

San Pedro Hospital
San Pedro, Calif.
March 7, 1943
7:04 p. m.

It is officially announced that Ensign and Mrs. Oswald W. Button have reached their objective of a seven and five ounce baby girl, Janet Evelyn. Mrs. Button and Baby proceeding as ordered.
