ASSA 2

ASSA 3
Propose steps to ensure that students (and faculty advisers) understand the degree to which health, and academic information is protected from unwanted and unexpected disclosure, either by prohibiting unwanted disclosures or by ensuring student knowledge of potential disclosure.
The promotion of the resources available to students through the faculty depends on:
1) Awareness of the location counseling center
2) The list of services available to students at the counseling center.

To promote the available services faculty need to know what services are available and what circumstances suggest a faculty member to recommend them.

Faculty need to be aware that the Counseling Center sees, and is eager to see, students with a wide range of concerns, from the mundane to the serious or life threatening. They should be recognize that the Center, is not just for severe mental psychological counseling. Before faculty can promote the Center, they need to fully understand the services it offers.
ASSA 1 Propose communication to faculty in order to increase their awareness of resources available to students for counseling.

Recommendations

1. Ask the Counseling Center to hire an Outreach Coordinator.
2. Improve and update the mental health website
3. Improve visibility of the Counseling Center on campus and the web. Currently a google search provides a link to the RIT mental health website but this could be made easier and cleaner.
4. Improve recognition of the ‘Live RITe’ program and available services through:
   1. Faculty workshops at the college level would help faculty tools recognize mental health concerns
   2. A possible ‘banner ad’ on mycourses to increase visibility
5. Organize brief information sessions to all faculty meetings and/or retreats across RIT.
6. Improve outreach to Academic Advisors
Recommendations

7. Email reminders 2x/semester to faculty to mention Live RITe initiatives during class times. This could be a ‘Live RITe’ week supported by banners around campus.

8. Give faculty information to present in classes at strategic times (prior to midterms and finals) referencing available mental health/Live RITe resources available to students. This doesn’t target a particular student, but rather the student body during known stressful periods.

9. Implement a mandatory ‘verification of Awareness’ checklist through Oracle similar to the Conflict of Interest page [and Safety Training.]

10. We understand much of this is based on the (assumed) Outreach Coordinator and his or her priorities and plan, and we feel that coffee mugs, flyers, magnets, etc. can be useful, they tend to get overlooked and forgotten. We were looking at more consistent reminders through places most often visited by faculty.
