

Isaiah Thomas Award Goes to Knight-Ridder CEO

Alvah Chapman, Jr.

Alvah H. Chapman Jr., chairman of the board and chief executive officer of Knight-Ridder Newspapers Inc., will receive the 1986 Isaiah Thomas Award for outstanding contributions to the newspaper profession.

Chapman will be the eighth recipient of the award, which is presented annually through the Newspaper Production Management program in the School of Printing.

"RIT is pleased to honor Mr. Chapman for his leadership position in one of this nation's leading communications companies," said Dr. Mark Guldin, dean of the College of Graphic Arts and Photography.

As chairman of the board and chief executive officer of Knight-Ridder, Chapman oversees operations for 28 daily newspapers, eight television stations and a number of weekly publications. The Knight-Ridder organization also produces the *Journal of Commerce*, the *Commodity News Service*, and View Data Corporation of America, an electronic information service for home use, now undergoing testing.

Chapman became business manager of the *Ledger-Enquirer* in Columbus, Ga., in 1948. In 1953 he accepted a position as executive vice president and general manager of the *St. Petersburg Times*, leaving there to become part-owner, president and publisher of the Savannah newspapers before joining the Knight-Ridder organization in 1960. In 1962 he became vice president and general manager of *The Miami Herald* and president in 1969, a position he held until 1983.

Chapman has served as president of the Greater Miami Chamber of Commerce, as campaign chairman of the United Fund of Dade County, and as chairman of Miami Citizens Against Crime. He is presently a

member of the Orange Bowl Committee and is chairman elect of the American Newspaper Publishers Association.

Activities scheduled in Chapman's honor begin with a breakfast in Henry's Restaurant, Tuesday April 8, followed by a tour of the School of Printing where a news conference will be held. Later in the day, he will tour the campus. The award ceremony is planned for 6 p.m. in Webb Auditorium in the James E. Booth Memorial Building.

The Isaiah Thomas Award is named for one of America's great patriot printers. Thomas established *The Massachusetts Spy* in 1775 and after the Revolutionary War, continued his career as a publisher. He was considered the leading publisher of his day, employing 150 in his main office and operating eight branch offices. In 1810 he wrote *The History of Printing in America*, which is still in print and is regarded as the basic source for American printing and publishing information.

Previous recipients of the award are: Ronald A. White, president of Graphic Systems Division, Rockwell International; Robert G. Marbut, president and chief

executive officer, Harte-Hanks Communications Inc.; Allen H. Neuharth, chairman Gannett Co. Inc.; Edward W. Estlow, president, E.W. Scripps Company; Katharine Graham, chairman and chief executive officer, The Washington Post Company; Arthur Ochs Sulzberger, chairman and publisher of *The New York Times*; and Otis Chandler, chairman of the board and editor-in-chief of the Times Mirror Company in Los Angeles.

National Skating Stars Headline Shumway Birthday

A gala birthday celebration featuring ice skating performances by several Olympic and U.S. figure skating champions will be held on Wednesday, April 2, to commemorate the eightieth birthday of RIT Trustee F. Ritter Shumway.

Guest skaters appearing in the show include world dance silver medalists and four-time national champs Jim and Judy Sladky; U.S. Pairs Champions Gillian Wachsmann and Todd Waggoner; and the current National Dance Champions Scott Gregory and Suzan Semanick. Gregory was the Junior National Champion with Lisa Spitz in the 1984 Winter Olympics.

The program will be held at 8 p.m. in the Frank Ritter Memorial Ice Arena. The doors open at 7:30 p.m.; all RIT students, faculty and staff will have free admission.

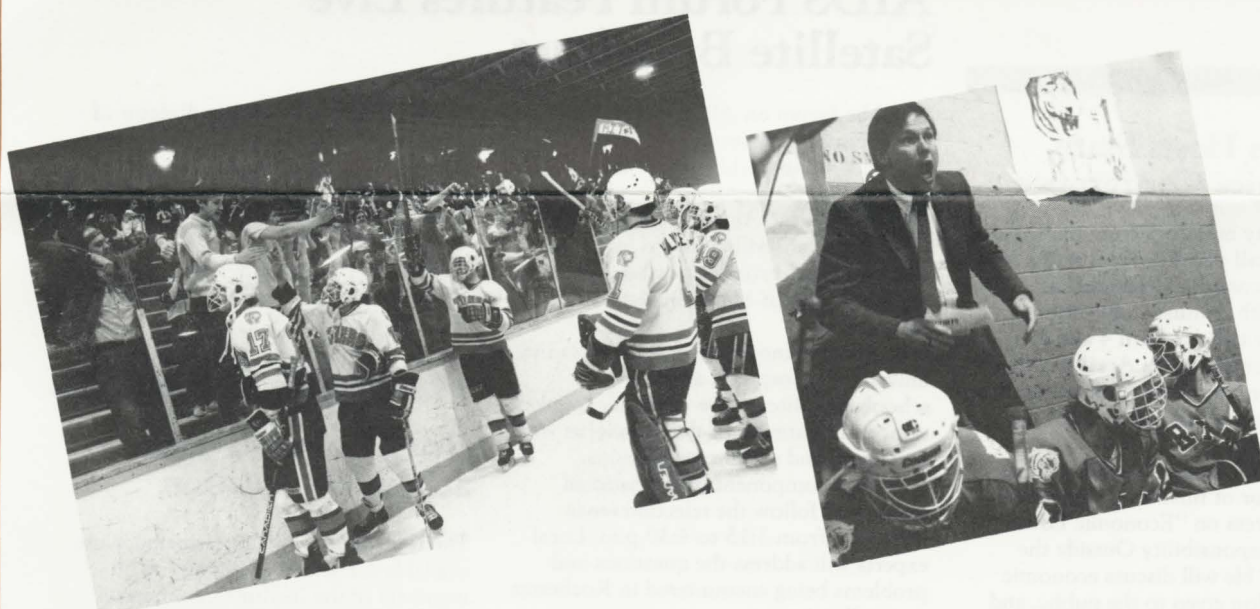

"Over 1,400 complimentary seats have been reserved for students, faculty and staff, to honor this great man who has had a wonderful influence on RIT," said John Simon, director of the Frank Ritter Memorial Ice Arena. "We invite the entire RIT community to join Dr. Rose and the Shumway family as they preside over this special birthday celebration on ice."

The program will feature several production numbers staged by the Genesee Figure Skating Club. Still an active ice skater, Shumway is scheduled to participate in the skating program, which will be attended by numerous local and national dignitaries who have been associated with Shumway professionally and through his many community service activities.

Shumway was one of the major donors to the Ritter Clark Memorial Ice Rink and Gymnasium built on the old downtown campus on Spring Street. On the new campus, the Frank Ritter Memorial Ice Arena was constructed as a separate facility through the generosity of the Shumway family.

Shumway's deceased wife, Hettie, also was active in numerous RIT programs. She served as a member of the Board of Trustees and was instrumental in getting NTID established at RIT. The Hettie L. Shumway Dining Commons is named in her honor.

An accomplished figure skater, Shumway has been a frequent winner of numerous skating awards, winning gold, silver and bronze medals from various skating associations and clubs throughout the country. He is a founder and former president of the Genesee Figure Skating Club, and has long been active in the U.S. Figure Skating Association.

The Last Hurrah... Following victory over Mankato State in the consolation game, RIT players (left) expressed their appreciation to Tiger fans for their support... Hockey coach Bruce Delventhal (right) shouts instructions during the NCAA Division III championship last weekend.

Tigers Take Fourth Trip to Final Four

RIT's quest for a second straight national title fell short last weekend as men's hockey captured third place in the NCAA Division III Championship held in Bemidji, Minn.

Number one seeded, and considered the favorite entering the Final Four competition, Coach Bruce Delventhal's squad saw a 3-1 lead slip away in the closing minutes of the semi-final contest against the host Bemidji Beavers last Friday. Bemidji held a 1-0 lead early in the first period before the Tigers tallied three unanswered goals by Jim Cotie, Gord Rivington and Jim Regan.

With less than five minutes remaining in the contest, the Beavers narrowed the gap to 3-2, then stunned the Tigers with the tying goal as four seconds remained in regulation. RIT was denied a berth in the championship game when Bemidji's Todd Lescarbeau scored at 4:31 in overtime for a 4-3 victory.

The Tigers bounced back Saturday afternoon in the consolation contest, handling Mankato (Minn.) State University, 6-0. Ritchie Herbert (three goals, two assists), Scott Brown and Mike Jones provided the Tiger offensive power. Freshman Dale Rivington, a defensive standout in both contests, was named to the NCAA All-Tournament Team.

Bemidji captured the championship with an 8-5 victory over Plattsburgh State, winners over Mankato State (7-5) on Friday. Last year at Union College, RIT captured the national crown with a 5-1 victory over Bemidji.

RIT's 1985-86 hockey season was impressive. The Tigers set school marks for most wins (31), goals (275), assists (451) and points (726) in a season. They also broke the record for most games (37), finishing at 31-6-0.

Enroute to the NCAAs, the Tigers won their second Eastern College Athletic Conference (ECAC) championship and fourth straight New York College Hockey Association (NYCHA) crown. RIT was consistently ranked among the leaders in weekly NCAA Division III hockey polls and reached the Final Four for the fourth straight time.

Individually, freshman Scott Brown paced RIT, breaking Chris Johnstone's record for most points in a season with 74. Included in that mark was a 29-game scoring streak that ended in the Bemidji contest. Herbert finished with 65 points followed by senior John Hinrichsen (51) and freshman Jim Cotie (50).

In two seasons as head coach, Delventhal has guided the Tigers to a 57-12-1 record.

This year RIT posted an impressive 5-1 record against Division I teams.

Defending ICAC champions, the RIT Lacrosse team opens its home season Tuesday, April 1, hosting Buffalo State at 3 p.m. Under Coach Bill Glennon, the Tigers were 14-2 last year and advanced to the NCAA semi-finals for the second straight year.

United Way Campaign Kicks Off

"The RIT community should be proud. With the help of everyone, the Institute had another successful United Way Campaign last year, raising more than \$75,000," says President Rose.

"Once again this year, faculty, staff and students have an opportunity to help other RIT individuals who may need assistance, as well as the area's homeless and elderly, by contributing to the 1986 United Way Campaign," explains Rose.

ELLINGSON AWARD CASED... Leonard A. Urso, associate professor in metals in the School for American Craftsmen, describes the Ellingson Award, displayed in center of trophy case. The award, crafted by Urso, honors President Emeritus Dr. Mark Ellingson and will be awarded annually by the Department of Intercollegiate Athletics to a student athlete demonstrating a high degree of proficiency in academics. The award is displayed in the Ellingson Trophy Case, located in the lobby of George H. Clark Memorial Gymnasium. The case was designed and constructed by Winfield Austin and Randy Shull, fourth-year wood and furniture design students in SAC.

Ernst Haas to Deliver William Reedy Lecture

World-famous reportorial photographer Ernst Haas will give the William A. Reedy Memorial Lecture at 7 p.m., Monday, April 21, in Ingle Auditorium, College-Alumni Union.

The topic of Haas's lecture will be "To see-to be." The Reedy lecture series, which brings the photographic world's most outstanding personalities to speak at RIT, is cosponsored by Eastman Kodak Co. and RIT.

Haas, also known for his charisma and charm, is a master photographer, raconteur, philosopher and photographic guru

to thousands. His many photographs of the "Marlboro Man" have been lauded in the world of commercial photography for the past 14 years. He also has been an eminent photographer for *Life*, *Paris-Match*, *Esquire*, *Holiday*, *Queen* and *Look* since 1950, working out of Paris and New York. His photo essays have been widely acclaimed.

Business Hosts State Economics Conference

Several faculty members from the College of Business will play key roles in the New York State Economics Association (NYSEA) 38th Annual Convention, hosted by the college April 4 and 5.

The convention opens April 4 with a roundtable on the recent Gramm-Rudman legislation and the management of the federal deficit.

On April 5, Donald Chambers, associate professor of finance, will give the keynote address on "Economic Education: Our Responsibility Outside the Classroom." He will discuss economic misinformation given to the public, and its potential effects. Angela Hardy Isaac, assistant professor of finance and economics and president of NYSEA, will present a paper on "Merger Selection Strategy: An Integrated Approach." She also will conduct the association's annual business meeting.

John Zdanowicz, chairman of the Department of Finance and Economics, will chair a session on the management of debt. In addition, Steven Gold, assistant professor in economics, will be part of a session on public finance in New York State, and Ralph W. Sanders, lecturer in finance, will present a paper on "Mergers and Managerial Compensation."

"This event makes economic professionals aware of the expertise and resources in the College of Business," says Walter McCanna, dean of the college. "At the same time, it gives the community and RIT exposure to a statewide convention for economists."

Floral Film Shown

The sex life of plants will be the topic of a lecture and film presentation by Dr. John Cooke, well-known nature photographer and biologist, from 7 to 9 p.m., Tuesday, April 1, in the basement auditorium of the College of Liberal Arts.

Cooke, an expert in the remarkable reproductive choreography of the floral world, will show the award-winning film "Sexual Encounters of the Floral Kind," which he coproduced with a team of seven cinematographers.

Pulitzer Prize Winning Author Lectures at RIT

William Kennedy, who received the Pulitzer Prize and the National Book Critics Circle Award for his novel *Ironweed* in 1983, will speak at RIT Thursday, April 3.

Kennedy will read from his work at 7:30 p.m. in Webb Auditorium, Frank E. Gannett Memorial Building. The public is invited and admission is free.

Kennedy's visit is sponsored by the RIT Literary Series which annually brings distinguished writers to campus. Writers who have visited RIT include E.L. Doctorow, Toni Morrison, Allen Ginsberg and Maxine Hong Kingston. The series receives support from the Institute Creative Arts Committee, College of Liberal Arts, Complementary Education, Wallace Memorial Library and the College Activities Board.

Kennedy's other novels are *The Ink Truck*, *Legs* and *Billy Phelan's Greatest Game*. He wrote the screenplay for "Cotton Club" with Francis Ford Coppola and is doing the screenplay for "Ironweed." Hector Babenco ("Kiss of the Spiderwoman") will direct the motion picture.

Kennedy, born in Albany, N.Y., in 1928, wrote about his native city in a nonfiction work, *O Albany!*, published in 1983.

After receiving his bachelor's degree from Siena College in 1949, he became a journalist, working for newspapers in Glens Falls and Albany. While serving in

William Kennedy

the U.S. Army from 1950 to 1952, Kennedy was a sports writer and columnist. He was a reporter for the *Puerto Rico World Journal* in 1957 and in 1959 was the founding managing editor of the *San Juan Star*. He left the *Star* in 1961 to write fiction. In 1963 he joined the *Albany Times-Union* as a specialty writer and film critic, and was nominated for a Pulitzer Prize in 1965 for a series of articles on the Albany slums.

Kennedy began a career as an educator in 1974 when he began teaching at the State University of New York at Albany. He also is coordinator of the university's Writer's Workshop.

In 1984, the educator-novelist received the MacArthur Foundation Award and the New York State Governor's Arts Award.

AIDS Forum Features Live Satellite Broadcast

A public forum on AIDS, titled "National AIDS Forum: Separating Fact from Fiction," will be held from 12:55 to 4:30 p.m. on Thursday, April 3, in Ingle Auditorium, College-Alumni Union.

The program will feature a live video teleconference broadcast by satellite from the University of Massachusetts in Boston.

Nationally known experts from leading universities, hospitals, and medical schools will discuss the incidence, prevention, and treatment of the disease, as well as its legal and social ramifications.

A local component of the national forum will follow the teleconference broadcast from 3:15 to 4:30 p.m. Local experts will address the questions and problems being encountered in Rochester area colleges.

"One of the objectives of the program is to provide the best and most current information available and to put to rest common misconceptions about AIDS," said Kelli McMahon, health education coordinator, Office of Student Health Services.

Panel members participating in the teleconference are: Dr. George Grady, director of Massachusetts Laboratory Institute, and chief epidemiologist for the Commonwealth of Massachusetts; Dr. Robert Schooley, Infectious Disease Unit at Massachusetts General Hospital, and the Harvard Medical School; Dr. George A. Lamb, Boston University Medical Center; Dr. Peter Page, director of American Red Cross Blood Banks; Leonard Glantz, professor at Boston University of Public

Health; David L. Stockton, director of University Health Services at the University of Massachusetts; and Dr. Richard Kelling, director of University Health Services at the University of Virginia.

The Office of Student Health Services cosponsors the program with the Wallace Memorial Library and Instructional Media Services.

Buy Yourself a Tractor at Vehicle Auction

The following equipment is being made available for sale in an auction to all members of the Institute community: 1966 Jacobsen F-10 Mower (minimum bid \$1200); 1975 Dodge Power Wagon (minimum bid \$200); 1954 John Deere Tractor (minimum bid \$400).

These vehicles may be inspected, Tuesday, April 8, from 1-4 p.m. at the Physical Plant in Building 99. Bids are due by Thursday, April 10 at 1 p.m. Open bidding begins at 2 p.m., Thursday, April 10, in the Building 99 break room.

Instructions to bidders and bid forms may be obtained by calling Debbie Bourcy, -2345, or may be picked up in the Purchasing Department, Building 99, room 1100. Instructions and bid forms also will be available on Tuesday, April 8, when the vehicles can be inspected.

Multi-Image Night Set

The illusion of movement through award-winning, multi-image slide shows will highlight the "1986 Multi-Image Night and Producers' Retrospective," 7:30 p.m., April 3 and 4 in Ingle Auditorium. The only two-day, multi-image festival held on a college campus, the event is conceived, planned and produced by the Department of Instructional Technology and the College Activities Board.

Award-winning, multi-image producer Donna Lawrence will discuss her work and the future of multi-image on April 3, and seven multi-image shows from across the country will be shown on April 4. Admission is \$1 per night.

1985 Best Year For Credit Union

Phenomenal growth that included a 69 percent increase in assets, a record number of loans, and the addition of several new services, were among the 1985 accomplishments highlighted at the annual meeting of RIT's Employees' Federal Credit Union on Tuesday, March 18 in the Fireside Lounge.

"Without a doubt," said credit union President Robert Moore, "this has been the best year yet in the credit union's seven-year history."

Credit union members were paid \$39,423 in dividends, as membership in 1985 grew by 344, a 36 percent increase to 1,309 members. The growth of total assets to \$1.5 million was an increase of \$550,000, also a new record.

Nearly 2,000 loans were approved in 1985, an increase of more than 850 over the previous year. The dollar amount loaned in 1985 grew from \$713,883 to \$1,398,576.

Board members elected at the annual meeting to serve new terms were former executive director Dick Butler; James Biser, NTID Business and Computer Science Support; Scott Lawson, director of the Office of Facilities Planning and Utilization; and Angela Hardy Isaac, College of Business.

New services and changes in 1985 included: the shared draft "no fee" checking account program; IRA program; home equity loan program; relocation to larger offices in the basement of the College-Alumni union; and the addition of new staff members, Jean Warner, Linda Leathersich and Richard Pettinger.

Brehm Award Honors Mexico's Manuel Bravo

Manuel Alvarez Bravo, Mexico's foremost photographer, is to be honored by the School of Photographic Arts and Sciences as the 1986 recipient of the Brehm Memorial Medal.

Bravo will receive the award at 7:30 p.m., Tuesday, April 10, Ingle Auditorium in the College-Alumni Union. New York art critic A.D. Coleman is scheduled to present a slide show and lecture about Bravo's work, which spans a period of more than 60 years.

"Immersed in culture, yet devoid of sentimentality, Alvarez Bravo requires that his work have emotional and intellectual accessibility as well as formal logic, continuity and growth," says Coleman. "His imagery may be fugitive, but it is not secretive."

Indigenous to Mexico, Bravo and his photographs convey the Mexican experience as no one but a Mexican could.

A reception in Bravo's honor will be held from 6 p.m. to 8 p.m., April 11 in the Hartnett Gallery, Wilson Commons, on the University of Rochester River Campus, where his work will be on exhibit. The exhibit, which will be open for viewing through May 16 in the Hartnett Gallery, includes 77 silver and platinum prints and is one of the largest exhibitions of Bravo's work ever in the Rochester area.

The events are being jointly sponsored by RIT and the University of Rochester.

Bravo is scheduled to appear at both events.

"Sponsorship of such an important event by RIT and the University of Rochester not only brings into focus the two universities, it showcases Rochester as a center for photography and photographic studies," said Kathy Collins, associate professor, School of Photographic Arts and Sciences, and guest curator for the Bravo exhibit.

The Brehm Memorial Medal is named in honor of Frederick W. Brehm, a professional photographer who became manager of the Camera Works Division at Eastman Kodak Co. in the early 1900s. In that capacity, Brehm established a course in photography for company employees.

In 1930, when the Department of Photographic Technology was organized at RIT, Brehm was loaned to the Institute by Eastman Kodak Co. as an instructor. He remained in this position at RIT until his retirement in 1945.

Past recipients of the Brehm Memorial Medal include such photographic luminaries as Ansel Adams, Beaumont Newhall, Gordon Parks and W. Eugene Smith. Recent Pulitzer Prize recipients Stan Grossfeld, Anthony Suau and Paul Benoit, all RIT graduates, also have been awarded the Brehm Medal.

RIT'S FAVORITE LEPRECHAUN...Dr. William Castle, vice president for Government Relations and director, NTID, was just one of the many RIT Irish to get tied up in the spirit of St. Patrick's Day. Dr. Castle's subtle bow tie was provided by Ireland's own Kathleen Sullivan, NTID public information manager.

Forum Examines Constitutional Issues of Abortion Question

RIT's final public forum this year on issues involving the United States Constitution will deal with abortion.

Abner Mikva, judge of the U.S. Circuit Court of Appeals in Washington, D.C., will present "Abortion, Judicial Process and the Constitution—Is Abortion a Constitutional Issue?" at 7:30 p.m., today, in Ingle Auditorium, College-Alumni Union.

Responding to Judge Mikva's presentation will be Dr. George Anastaplo, 1985-86 Caroline Werner Gannett Professor in the College of Liberal Arts and Mikva's classmate at the University of Chicago Law School. Anastaplo organized the year-long lecture series on the Constitution and its forums as part of RIT's two-year celebration of the Constitution's bicentennial.

The debate on abortion will center on the constitutional issues surrounding the abortion question rather than pro-life or pro-choice stands.

The public is invited to participate in the discussion following the presentations. Admission is free.

A graduate of the University of Chicago Law School in 1951, Mikva served in the Illinois General Assembly from 1956-66. He was elected to Congress in 1968 and from 1974 until his resignation in 1979 Mikva was a Democrat representing a traditionally Republican district. He is credited with having organized the contin-

uous political campaign. Mikva's district office was the center for a constituent service operation that became the model for today's congressional offices.

Former president Jimmy Carter appointed him to the U.S. Court of Appeals in 1979. Mikva is chair of the American Bar Association section on Individual Rights and Responsibilities.

Before the forum, the College of Liberal Arts will host a dinner for Mikva and area state and federal judges.

Yugoslavian Posters Exhibited

Tom Muir Wilson, associate professor in the School of Photographic Arts and Sciences, will be exhibiting his personal collection of Yugoslavian posters March 14-28 in the third-floor photo gallery of the Frank E. Gannett Memorial Building. A reception will be held March 21 from 6 p.m. to 9 p.m. in the gallery.

In the Spring of 1985, Wilson took a leave of absence from RIT and traveled to Yugoslavia to pursue his collection of photographically derived posters and to study the poster as an art form.

Posters play a prominent role in Yugoslavian advertising because magazine and television advertising are not as prevalent there as in the United States, Wilson says.

Wilson became aware of the importance of posters in the Yugoslavian society during several visits to the country in the 1970s. "Not only is the artistic quality very exciting, but the skillful use of Roman and Cyrillic alphabets brings great variation to design possibilities," he says.

Nominations Open For Frisina Award

Nominations are being sought for the 1986 Dr. Robert Frisina Award. The award and scholarship are presented yearly to a student who has shown unusual interest in and dedication to furthering education for the deaf.

The award was established in 1972 by Dr. Maurice I. Abrams, an honorary RIT trustee and honorary director of the American School for the Deaf, Inc., in Chestnut Hill, Mass. The award honors the work of Dr. Robert Frisina, vice president and secretary of the Institute, who served as the first director of NTID.

A three-person committee appointed by Dr. Fred Smith and charged by the president makes recommendations based on faculty, staff and student input.

Nominations should be sent to Ellie Rosenfield, NTID Student Life, Mark Ellingson Hall, room 1065, by April 11.

An outgrowth of Wilson's Yugoslavian travels is Craft World Tours, which he founded with RIT graduate Sherry Clark. The tours are intended for individuals interested, but not necessarily proficient, in the world of crafts. Wilson and Clark are arranging tours of Yugoslavia, Hungary, the USSR, Morocco and India.

Fred Frey, Math Chairman, Dies

Frederick P. Frey, assistant professor of mathematics and chairman of the Mathematics Department in the College of Continuing Education, died of cancer Tuesday, March 11.

Frey came to RIT in 1967 and over the past 19 years became a much-respected and sought-after instructor. "He was one of the most able and effective teachers I know," says Bernard Logan, associate professor of electrical engineering and administrator for External Programs, College of Engineering. "His math sections were always in demand by students."

"Fred Frey was dedicated to the principles of continuing education," says Jim Forman, director of the Academic Division of the College of Continuing Education. "He helped me develop the math studies for the engineering technology programs in 1970 and until recently was working on the new curricula for the College of Continuing Education. But most of all, he was one of the best-liked teachers."

His wife, Christine Frey, says, "He enjoyed teaching more than anything else."

Frey taught at Plymouth State College, Plymouth, N.H., and at Lehigh University before coming to RIT. He graduated from Muhlenberg College in Allentown, Pa., and studied at Lehigh University before earning a master's degree at RIT in 1972.

Summer Program Offered By RIT, City Schools

A pilot cooperative program has been scheduled this summer involving RIT, BOCES #1, the Rochester City School District and the Industrial Management Council. The program, Center for Science, Technology and Communications, will bring approximately 150 junior high school students, selected from local school districts, to RIT to study a variety of technology-related courses.

Hosted by RIT's Learning Development Center, the workshop, is planned for July 13-26. Courses will run Monday through Friday for eight consecutive three-hour sessions and include: computer programming, computer-oriented mathematics, topics in advanced mathematics, computer graphics, robotics and toy building, astronomy and space science, biomedical photography, introduction to CAD/CAM, imaging science, graphic design, communications of the future, microelectronics, electron-microscope photography, and medical technology.

Faculty interested in teaching one or more of the courses should contact Dr. Karen Davison, College of Business, 3368.

The center also will hire upper-level students to function as counselors for the program. Students who have an interest in a counselor position should also contact Davison.

Credit Union...

continued from page 2

There were two money sales that increased loan volume by almost \$400,000. In addition, a free \$1,000 accidental death and disability insurance policy was provided for all credit union members.

"The growth of the credit union programs," said Moore, "was made possible because of the hard work of the staff, board and volunteers, but most importantly, because of the members who brought their savings and loan needs to the credit union."

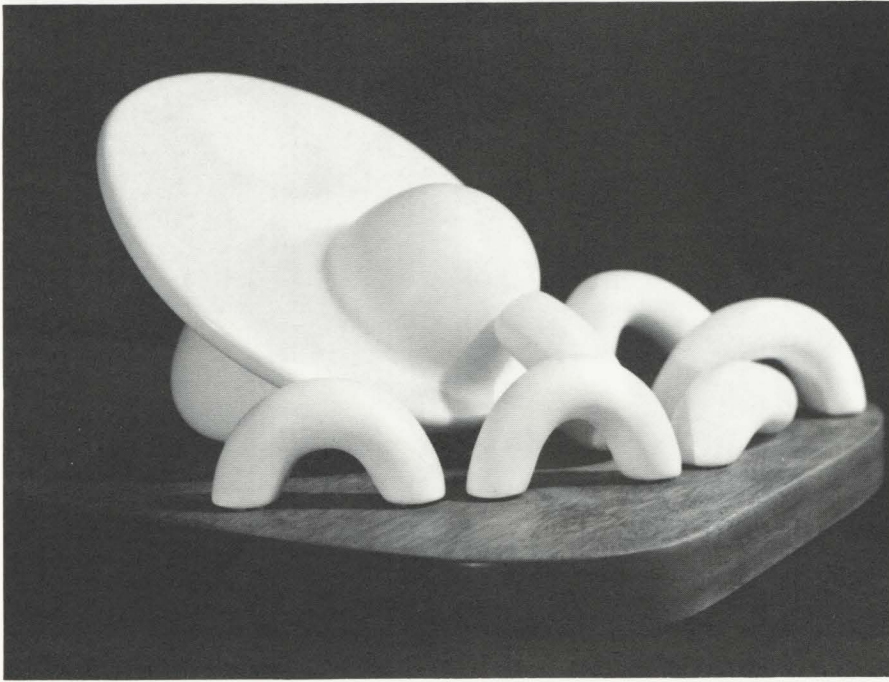

Moore also credited much of the credit union's success in the past year to the efforts of former executive director Dick Butler, who resigned from the staff in December to accept a teaching position outside RIT. He was replaced by Richard Pettinger.

Moore also praised the efforts of Office Manager Pat Chase who handles the union's day-to-day operations.

"As we move into 1986," Moore said, "I believe the credit union is well positioned for further growth. In fact, we believe this next year should see an increase of 250 to 300 new members, and a growth in assets beyond the two million dollar level."

Eugene Clark, credit union membership committee chairman, and the director of Veteran Affairs, praised the efforts of Bob Moore who is stepping down after six years as a board member and three years as board president. Moore is the acting chairperson of NTID's Electromechanical Technologies Department.

In addition to the awarding of numerous door prizes, Stephen Loyd was named the winner of the drawing for the trip for two to Toronto.

"Space Maquette," a bronze sculpture with white patina, from NTID's Switzer Gallery exhibit of work by California sculptor Gary Mayers.

CALENDAR

March 27-lecture: Abner Mikva, judge of the U.S. Circuit Court of Appeals in Washington, D.C., will present "Abortion, Judicial Process and the Constitution—Is Abortion a Constitutional Issue?" at 7:30 p.m. in Ingle Auditorium.

March 28-computer seminar: "Make Friends with the VAX, Part II," 1 to 3 p.m., room 1215, Max Lowenthal Memorial Building

April 1-sports: Lacrosse team hosts Buffalo State, 3 p.m.

April 2-birthday party/ice show for F. Ritter Shumway, 8 p.m., Frank Ritter Memorial Ice Arena, free

April 3-lecture: William Kennedy, Pulitzer Prize winning novelist will read from his work, 7:30 p.m., Webb Auditorium, free

Fitness Author Mollen Offers Demonstrations

Physical fitness author and lecturer Dr. Art Mollen, will give fitness demonstrations and discuss his new book *Mollen Method*, a 30-day program for lifetime health addiction, at Campus Connections from 3 to 4 p.m. on Friday, March 28.

Mollen also wrote *Run For Your Life*, and appears regularly on numerous network TV talk show programs, including ABC's "Good Morning America."

United Way...

continued from page 1

The 1986 campaign will take place April 3-24 with a goal of \$80,000. According to Deborah Stendardi, director of Government and Community Affairs, whose office is responsible for the campaign, "Last year, 375 of our colleagues and their families benefited directly from services provided by United Way funds. The value of the services they received was more than \$18,000."

Once again the donor option plan will be available for employees who want more control over how and where their gifts are spent. Last year 283 employees used this option, with contributions totaling more than \$19,000. Employees are encouraged to use the payroll deduction plan although cash donations and direct billing are available. Also, under current tax law, 100 percent of the charitable gift is deductible, even if the tax return is not itemized.

The third annual "Run Day for the United Way" will be held Thursday, May 1. More details will be published in upcoming issues of *News and Events*. There also will be a raffle for all individuals contributing to the campaign, with

April 3-public forum and teleconference, "National AIDS Forum: Separating Fact from Fiction," 12:55-4:30 p.m., Ingle Auditorium, College-Alumni Union.

April 10 to May 7-exhibit: Sculpture by California artist Gary Mayers, NTID Switzer Gallery.

April 17-2nd Annual RIT Graduate Fair, 11 a.m. to 2 p.m. and from 4:30 to 8 p.m., College-Alumni Union lobby.

Computer Center Offers Seminars

Three free computer seminars for faculty, staff and students are being offered by Information Systems and Computing (ISC).

"Make Friends with the VAX, Part II," a seminar designed to increase user efficiency on the VAX/VMS computer, will be given from 1 to 3 p.m., March 28 in room 1215 of the Max Lowenthal Memorial Building.

For microcomputer users, a seminar that will include hands-on lab practice on "Electronic Mail for the IBM User," will be given from 11 a.m. to 12:30 p.m., April 9 in room 1124 of the Ross Memorial Building.

A seminar on "Using an Electronic Spreadsheet (20/20)," also for IBM users, will be given from 2 to 4 p.m., April 18 in the Max Lowenthal Memorial Building.

Pre-registration for the seminars is requested. Those interested should call ISC at -6929.

the grand prize consisting of a weekend in Toronto.

"The 1986 RIT United Way Steering Committee has been expanded to get additional people involved from more areas of the Institute, particularly the colleges," says Stendardi. Members include: David Abbott, Instructional Media Services; Mary Ann Campbell, International Student Affairs; Geri Curwin, committee chairperson, Personnel; Barbara Cutrona, College of Continuing Education; Judy Dodge, Personnel; Neil Fagenbaum, Communications; Ruth Fromm, NTID; Linda Georgakis, Government and Community Affairs; John Gleason, Development; Lois Goodman, Wallace Memorial Library; Herb Johnson, College of Graphic Arts and Photography; Carole Sack, Science; Sue Shanley, Admissions; Karen Steitler, Substance and Alcohol Information Services for the Deaf; Deborah Stendardi; Ed Stockham, College of Applied Science and Technology; Howard Ward, Residence Life. Ex-officio members are Richard Rinehart, Center for Community/Junior College Relations and last year's RIT loan executive and James Bingham, Food Service, who was last year's campaign chairman.

Switzer Features Deaf Sculptor

The major show of the season at the NTID Switzer Gallery opens April 10, with the first solo exhibition of the sculpture of California artist Gary Mayers. The show continues through May 7. There will be a reception for the artist that is open to the public, April 18 from 4 to 7 p.m.

Mayers, who is deaf, says that he strives to unite the disciplines of landscape architecture and sculpture in his work. He works in bronze, clay, copper, fiberglass, plaster, resin, sheet metal, steel, stone and wood.

The Switzer Gallery is open 8:30 a.m. to 4:30 p.m., Monday through Friday.

NEWSMAKERS

● **Joy Covert**, coordinator of the Counseling Center's Programs on Alcohol for Student Success (PASS), presented "Counseling Alcoholic Clients—Working with the Alcoholic Outpatient: Group, the Treatment of Choice" at a National Board for Certified Counselors program. Covert was certified recently as an alcohol counselor by the New York State Division of Alcoholism and Alcohol Abuse.

● **Dr. Julian Yudelson**, College of Business, delivered an invited paper, "Using Microcomputer Data Bases for Teaching Retailing," at the American Marketing Association Educators' meeting in St. Petersburg, Fla. The program included a demonstration of the retail data base that he is developing for advanced retailing classes.

● **Dr. Kenneth Nelson**, professor of history, College of Liberal Arts, had two works published. His reviews of *Hitler, Germans, and the Jewish Question* by Sarah Gordon and *Trade Unionism in Germany from Bismarck to Hitler, 1869-1933* appear in *History* and *The History Teacher*.

● **Dr. Bruce A. Austin**, associate professor, College of Liberal Arts, and editor of the annual *Current Research in Film: Audiences, Economics, and Law*, announces that volume two has been published. Included in the 13 essays on the film industry is a chapter by Austin on the film audience and new communications technologies.

● **Louise Carrese**, Office of Development, has been appointed special assistant to the vice president and Development officer for the Nathaniel Rochester Society.

● **Ann Hayes**, Office of Development, has been appointed special projects manager responsible for scholarship donor relations, special projects, and Development special events.

● **Paula Tormey**, Office of Development, has been named assistant to the vice president of Development. Her duties involve the administrative function of the vice president's office, budget, special reports and planning.

● **File Processing with COBOL**, a textbook by **Don Beil**, associate professor, Data Processing Department, NTID, has recently been translated into Hungarian. The book was originally published by Reston Publishing Company.

● **Gordon Goodman**, College of Applied Science and Technology, **Wick Smith**, Learning Development Center, and **Morton Isaacs**, College of Liberal Arts, are conducting a faculty survey to develop a catalog of instructional program uses of general purpose soft-

ware in the educational process. The survey is funded under a grant from the Fund for the Improvement of Post-Secondary Education (FIPSE). It is expected that this listing will stimulate other faculty to increase usage of computers in their own instruction.

● **Dr. Patricia Clark**, associate professor, mathematics, College of Science, had her paper "Local Oxygen Gradients Near Isolated Mitochondria" published in the December 1985 issue, volume 48, of *Biophysical Journal*. Her coauthor is Dr. Alfred Clark, Jr., Department of Mechanical Engineering, University of Rochester.

● **William J. Stratton**, associate dean, College of Applied Science and Technology, has reviewed *Software Engineering: A Practitioner's Approach* by Roger S. Pressman for publication in the book reviews column of the January, 1986 issue of *IEEE Software*.

● **Dennis C. Nystrom**, dean, College of Applied Science and Technology, has reviewed *Winning the Information System Game: A Manager's Survival Guide* by Nelson T. Dinerstein for publication in the book reviews column of the January, 1986 issue of *IEEE Software*.

PERSONNEL UPDATE

All employees participating in either the regular annuities or supplemental retirement annuities program of the Teachers Insurance and Annuity Association (TIAA)-College Retirement Equities Fund (CREF), will soon receive an annual report of retirement annuity premiums and benefits for the year ending Dec. 31, 1985.

The report shows the contributions TIAA-CREF received for participants during the previous year, the allocation of these contributions between TIAA-CREF, and the total amounts accumulated in the annuities at the end of 1985.

In addition, the report provides illustrations projecting the amount of retirement income benefits participants might expect to receive at retirement based on specified assumptions.
