

Provost Plough Promoted to Executive VP

President Rose today announced the promotion of Dr. Thomas Plough, provost and academic vice president, to the new position of provost/executive vice president.

Plough will function as RIT's chief operating officer, and will report to the president, Rose said, adding that such a structure is traditional for universities of the size and stature of RIT.

Plough will manage all administrative, fiscal, planning, and academic affairs of the university and will implement the president's policies and directives.

"This reorganization adds no administrators, yet it will enable me to devote my attention to the capital needs of the Institute," Rose said. "Maintaining and enhancing the strategic posture of RIT requires a much greater presence by the president with external constituencies who can provide the resources vital to the continuing quality of RIT's programs."

Rose will provide the fund-raising leadership for a \$9 million campaign to build an addition to RIT's College of Science facility. Thomas H. Gosnell, chairman of the Board of Trustees, recently pledged \$3 million on the basis of one dollar for each two dollars raised.

"The College of Science addition is essential if RIT is to provide the quality science experience required across our academic programs," Rose said.

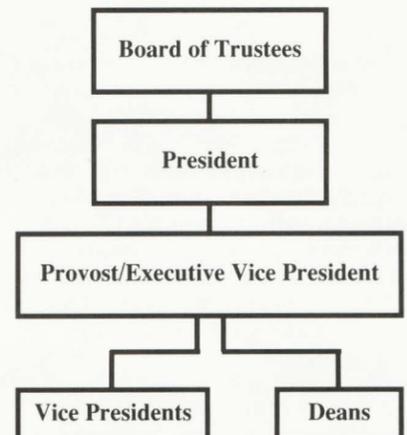

The president also will conduct meetings with RIT alumni nationwide.

Plough served as acting president during a four-month sabbatical taken by Rose from February through May of this year.

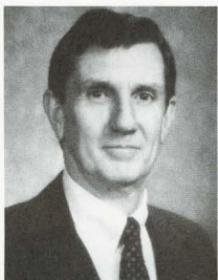

The Academic Division of RIT will be directed by current leadership, which includes Plough; Dr. Robert Desmond, associate provost; Reno Antonietti, associate vice president; and Dr. Cynthia McGill, assistant to the provost.

Dr. Plough

RIT/CIA Review Panel Names Senior Fact Finder, Assistant

Monroe Freedman

Monroe H. Freedman, former dean of the Hofstra University Law School, has been named senior fact finder for the review panel that is inquiring into RIT/CIA relationships and operations.

The 11-member review panel consists of trustees, students, faculty, and an alumnus.

"Professor Freedman brings objectivity, knowledge, and integrity to the work of the panel," said Dr. Mary Sullivan, chair. "We expect that he will conduct his work with thoroughness and impartiality. He will play a major role in conducting the inquiry at the direction of the review panel, but will retain his independence as a fact finder."

Sullivan says, "It will be helpful for the RIT community to regard the work of the review panel and the fact finder as an academic inquiry into, and review of, our CIA relationships and related activities."

Freedman is currently the Howard Lichtenstein Distinguished Professor of Legal Ethics at Hofstra. He served as dean of the Hofstra Law School from 1973 to 1977 and was, by presidential appointment, director of the United States Holocaust Memorial Council from 1980 to 1982.

Author of a book, *Lawyers' Ethics in an Adversary System*, Freedman has extensive

experience as an expert witness and as a legal consultant, having served on numerous civic and professional panels.

He currently serves on the Committee on Professional and Judicial Ethics, Association of the Bar of the City of New York, and on the National Advisory Council of the American Civil Liberties Union.

In a related move, at Freedman's request, Jonathan M.M. Soroko has been approved by the review panel as assistant to the senior fact finder.

"Soroko, with extensive experience in conducting investigations and hearings, will assist Freedman by conducting preliminary reviews of some files and conducting some interviews of faculty, staff, students, and others," says Sullivan.

He will serve at the direction of Freedman and enable the review panel to complete its work in a timely fashion, according to Sullivan.

Soroko, a resident of New York City, has been an assistant district attorney in the Office of the Special Narcotics Prosecutor and the Bronx County District Attorney's Office. He has a JD degree from New York Law School, where he was a staff member of the Law Review, and a BA degree from Bard College.

The review panel has established offices on the second floor of the Frank E. Gannett Building. Veronica Hendrie, room 2105, is serving as secretary for the panel; her phone number is -7002. Freedman's office is located in room 2111 and he can be reached at -5453. Soroko's phone number is -7303; the fax number is -7305.

The review panel expects to complete its inquiry and review prior to the November meeting of the RIT Board of Trustees.

Trustees Elect Vice Chairmen

Rochester attorney Alfred M. Hallenbeck and Philadelphia's William A. Whiteside Jr. have been elected vice chairmen of the RIT Board of Trustees.

A partner with Hallenbeck, Lascell, and Pineo, Attorneys at Law, Hallenbeck has been a trustee since 1976. He serves as a member of the board's executive, nominating and finance committees; is chair of the board's endowment committee; and is a member of the review panel inquiring into and reviewing RIT/CIA operations. Hallenbeck, along with his wife, Joan, were co-chairpersons of RIT's Nathaniel Rochester Society from 1983 to 84.

Hallenbeck is former president of the Association of Boards and Councils of Two-Year Colleges of State University of New York; a trustee and past board chairman of Monroe Community College; past president of the National Alumni Association of Syracuse University; and former trustee and current honorary trustee of Syracuse University.

Among his other activities, he is honorary trustee and former board chairman of the Rochester Museum and Science Center; vice chair of the Automobile Club of Rochester; past president of Rochester Business Committee for the Arts; and member of the Monroe County and New York State Bar Associations.

Hallenbeck is a former vice president and general counsel for Sybron Corp. Among the awards he has received are the Rochester Chamber of Commerce Civic Development Award for Education, the Syracuse University Distinguished Alumni Award, and the Distinguished Service Award of the Rochester Rotary Club.

Whiteside, a partner in Fox, Rothchild, O'Brien, and Frankel of Philadelphia, has been a trustee since 1989. With his wife, Eileen, he was co-chairman of the parents' division of RIT's Access to the Future capital campaign. The campaign, concluded in 1989, raised \$121 million and was the most

Rose to Address Institute Sept. 3

A vision for the future of RIT will be the focus of President Rose's State of the Institute address, scheduled for Tues., Sept. 3, in Clark Gymnasium.

Unlike previous years, there will be only one session, at 8:30 a.m. In addition to faculty and staff, student leaders also will be invited.

"The goal is to have community-wide participation in the opening session of the academic year," said Rose. "There are a great number of opportunities to advance this university, and I look forward to sharing them with the Institute community."

In addition to Rose's address, remarks will be presented by both the president of Student Government and the president of Faculty Council.

Coffee will be served at 8 a.m. in the outdoor atrium area of the gym, before the address. An afternoon reception hosted by Faculty Council and the Office of the Provost and Executive Vice President is scheduled for 3:30 p.m. in Clark Dining Room.

State of the Institute Address

President Rose's State of the Institute Address
8:30 a.m., Tues., Sept. 3
Clark Gymnasium
This will be the only presentation.

'Brick City Blast!' To Celebrate Start Of New School Year

RIT folks can join in a game of Twister by the thousands, wallow in gelatin, step into Victorian garb for a vintage photo, don graffiti T-shirts, and laugh 'til they drop at Bobcat Goldthwait during RIT's "Brick City Blast!" back-to-school celebration. These and other events fill up a fall weekend of fun, Sept. 18 through Sept. 21, presented by the College Activities Board.

The weekend headliners include an attempt to break the world record for Twister participants (currently held by the University of Massachusetts with 4,160 participants, according to *The Guinness Book of World Records*), scheduled for Saturday at 12:30 p.m. in M-Lot. Registration for the marathon game begins Sept. 9 (look for the green booths).

For those who love to get down and yucky, "Jell-O wrestling" from 7 to 9 p.m. on Saturday in Clark Gymnasium could prove to be a non-caloric activity. And to burn off more of those college-life calories, a welcome-back party put on by the Caribbean Students Association follows, from 9 p.m. to 2 a.m., in the Fireside Lounge.

Comic entertainment kicks off with Rick Davis and his Totally Useless Skills (as seen on "America's Funniest Home Videos") as he cavorts about campus teaching tricks to willing participants, all day on Friday. Bobcat Goldthwait, with opening act Tony V., performs at 8 p.m., Friday, in Clark Gymnasium. Tickets are \$2 for RIT students and \$4 for RIT faculty and staff.

Music soothes the soul with acoustic guitarist Brendan McNaughton, performing 8 p.m., Wednesday, in the Ritskeller. For another beat, Massive Reggae plays from 5 to 7:30 p.m., Friday, in the Student Alumni Union (SAU) cafeteria. The \$1 admission is waived for all who bring their Twister registration. And for the bold and brave, a "Gyro" ride will tempt all comers to tip their senses, all day on Friday, in front of the SAU.

Thursday and Friday bring novelty acts to the SAU lobby: street art, graffiti designs for sweatshirts, hats, towels, or free T-shirts; and vintage photography in Victorian, Civil War, or Old West attire. The free photos and graffiti T-shirts run from 11 a.m. to 3 p.m.

Anyone in desperate need of a Nick Tahou's "garbage plate" can hop a shuttle run from Grace Watson Circle beginning at 11:30 p.m. on Saturday.

For more information on "Brick City Blast!," call CAB at -2509.

Penny Kris-Etherton

'71 Grad Receives FHT's Gillam Award

Penny Kris-Etherton, Ph.D., RD, professor of nutrition at Pennsylvania State University, has been awarded the 1991 Sarah Margaret Gillam Award by RIT's School of Food, Hotel, and Travel Management.

A 1971 dietetics graduate, Kris-Etherton has been with Penn State since 1979. She has been a visiting scholar at Stanford University's Center for Research in Disease Prevention and a visiting scientist at the Institute of Biological Chemistry and Nutrition at the University of Hohenheim in West Germany.

A member of the American Dietetic Association, the American Institute of Nutrition, and the Society for Nutrition Education, Kris-Etherton is a member of the editorial boards of the *Journal of the American Dietetic Association*, *Journal of Nutrition Education*, *Clinics in Applied Nutrition*, and *International Journal of Sports Nutrition*.

She is the recipient of numerous research grants, ranging from the American Heart Association to Hershey Foods to the American Diabetes Association.

The award honors Sarah Margaret Gillam, a 1916 graduate of the Institute whose many accomplishments in the field of food service brought prestige and honor to RIT. Established in 1969, the award is given annually to a graduate of the school who has made an outstanding contribution to the field of food management and hospitality services.

A REAL "KEYNOTE" SPEAKER... Mark Elder, music director of the Rochester Philharmonic Orchestra, talks with course leader Etta Ruth Weigl at the annual meeting of the Athenaeum, RIT's self-directed learning academy for those 50 and over. Elder was the keynote speaker at the event, which included a formal English tea. Fall classes at the Athenaeum begin Sept. 23; information meetings for prospective members are scheduled for Sept. 5, 10, and 11. For more information, call 334-9381.

Annie Leibovitz to Give Reedy Lecture; Book Signing, Gallery Exhibit Planned

Renowned photographer Annie Leibovitz, of *Rolling Stone* and *Vanity Fair* fame, will visit RIT next month to present the fall William A. Reedy Memorial Lecture in Photography at 6:45 p.m., Sept. 26, in the Robert F. Panara Theatre. The free lecture, sponsored by Eastman Kodak Company and the School of Photographic Arts and Sciences (SPAS), will be televised on a satellite band around the nation.

Leibovitz, famous for portraits of celebrities the likes of Mick Jagger, Whoopi Goldberg, Ray Charles, Sly Stone, John Cleese, Lauren Hutton, Jerry Garcia, John

Lennon with Yoko Ono, Arnold Schwarzenegger, and most recently Demi Moore, will also speak informally to students earlier in the day in the SPAS photo gallery. A free show of 32 photographs from *Annie Leibovitz: The White Oaks Dance Project*, images taken of the Mark Morris Dance Group and Mikhail Baryshnikov, will hang in the gallery Sept. 24 through Oct. 10. Gallery hours will be noon to 8 p.m., Monday through Thursday, and noon to 5 p.m., Friday and Saturday.

Photography buffs can meet Leibovitz from 11 to 11:45 a.m., Sept. 26, in the Campus Connections bookstore during a book signing of her new 20-year retrospective (due out mid-September), which will be available for sale.

The first museum exhibition of Leibovitz's extraordinary 20-year career opens Sept. 13 at the International Center of Photography (ICP) in New York City.

Annie Leibovitz (Photograph by Matthew Rolston) ©1991 Annie Leibovitz

Courses Added To CCE Roster

Don't be on time for an appointment in Brazil—it can embarrass your host. When closing a deal in India, don't accept the first offer, or you could pay too much. In most foreign countries, a man may offend a woman if he doesn't let her initiate a handshake.

The above examples of business practices in different cultures illustrate how not knowing the "inside story" can lead to disaster. The College of Continuing Education's array of new courses in international business and culture will help students, particularly employed part-time students who may go abroad on business, learn about local customs and other particulars of doing business internationally.

Knowing the etiquette of business internationally and stateside can be an important factor on the road to Total Quality Management (TQM). CCE is also offering six new courses in this interdisciplinary field.

These courses illustrate CCE's commitment to re-educating and revitalizing the local work force with career-oriented programs that respond to the changing needs of students and the local economy.

Courses in international business and culture, for example, prepare business people and their managers for the changing nature of foreign assignments, such as the upcoming European Economic Community. Evening courses cover such issues as health, safety, and security abroad; international trade; international standards; communicating across cultures; and doing business in Germany and Japan.

CCE's courses in Total Quality Management, a strategic comprehensive business approach that many organizations are instituting at every level, cover the basic principles of quality implementation and management. Unlike many other TQM programs, the CCE courses were developed for non-statisticians working in small to medium-sized businesses. Students learn how to blend management and leadership skills with basic statistical tools for implementing a "quality program" in their organizations.

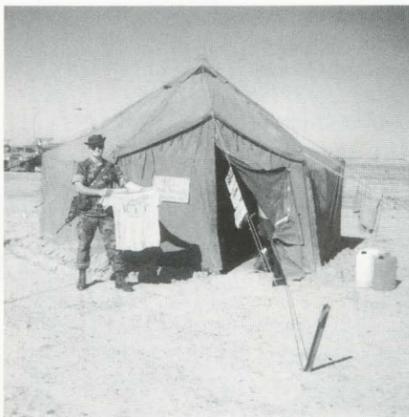

Courses can be taken individually or applied to CCE degree programs. Students who satisfactorily complete designated courses will also receive a certificate from CCE. For more information about CCE's courses in international business and culture, call Ronald Hilton at -4986. For more information about the new courses in TQM, call Daniel Smialek at -5023.

The Improvabilities

Class Clowns, Take Note: These Comedy Workshops Are No Joke!

Ever wonder how those funny men and women make people laugh and come back for more until their sides ache and tears stream down their faces? Now's your chance to find out.

THE TIGER ROARS IN THE DESERT... 1990 printing management graduate Dan Rivard, now enrolled in the master's program in graphic arts systems, College of Graphic Arts & Photography, served in the Army's 401st Civil Affairs Unit activated during Operation Desert Shield/Desert Storm. Even in the sands of Saudi Arabia, he wasn't without his RIT T-shirt. Rivard will resume classes in the Winter Quarter.

As a welcome-back-to-school event, anyone yearning to discover the secrets of stand-up comedy success can join workshops Thurs., Sept. 5, in Ingle Auditorium with the Improvabilities. A comedy group that has played around New York State, including Rochester's Yuk Yuks and The Funny Bone night clubs, the 10 players include RIT electrical engineering alumnus Rick Parisi. The troupe, which also performs Thursday evening, uses live improvisation and involves audience interaction. For more information and times, call College Activities Board at -2509.

Parisi and fellow troupe member Joel Dombrowski will come back to RIT to host the Twister world record attempt and the Jell-O wrestling event during "Brick City Blast!" Sept. 21.

RIT Downlinks African Leadership Award Telecast

Last month, RIT served as recipient of a live international telecast—from Lagos, Nigeria, and the United Nations—of the 1991 Africa Prize for Leadership for the Sustainable End of Hunger.

A joint effort of RIT, the University of Rochester, the Hunger Project (c/o Cook/Miller Associates, Ltd.), Rochester's Action

for a Better Community, and the Nigerian Association of Greater Rochester, Inc., Rochester's downlink to the the July 18 telecast in the Carlson Center auditorium brought home the problem of hunger on the African continent.

"What is important is that we are all in one family," said Dr. M. Ehi Ayewoh, director, RIT Office of Minority Student Affairs. Hunger anywhere in the world must be ended in a global effort, he added. "We sent more than 300 invitations to area business, community, and academic leaders to join in this exciting event."

The winners this year—Maryam Babangida, the first lady of Nigeria, and Dr. Wangari Maathai of Kenya—have founded programs to educate and help rural African women. According to speakers during the telecast, Maathai and Babangida actively pursue the end of hunger, devoting many days to work in the rural villages. They will receive \$100,000 to support further work to help the people of Africa, as well as a sculpture by Takenobu Igarashi, an international award-winning designer and sculptor.

Future hunger projects include an Oct. 16 teleconference coordinated by the Food for People Network of Rochester in honor of World Hunger Day, 11:30 a.m., Ingle Auditorium, and the 1991 Youth Ending Hunger Summit at SUNY Buffalo this fall. For more information, call Pam Miller at 442-5404.

Women's Network Seeks Art for Exhibit

Women students, faculty, and staff are invited to participate in the RIT Women's Art Exhibit Sept. 10-19. Painting, poetry, and other forms of personal expression qualify for the exhibit; entries must be submitted Mon., Sept. 9, in Clark Dining Room from 2:30 to 5:30 p.m. The entry fee is free for RIT Women's Network members and \$5 for non-members; students may sign up for "gallery watch time" in lieu of the entry fee.

The "Silent/Still" works will be displayed in the Student Alumni Union showcases and Clark Meeting Room. Poetry, music, and dance performances will be presented Thurs., Sept. 19, from 5 to 6 p.m. in Ingle Auditorium. A membership tea will precede the performances. For more information contact Karen Kimmel, -5242.

RIT TALENTS . . . Talent Connection graduates pose for a class picture. Twenty-five students graduated from Talent Connection in June; most are pictured here. Talent Connection, a low-cost program offered by the College of Continuing Education, develops the hidden talents of 19- to 26-year-olds and provides them with additional preparation to get a job or enter college. The majority of these students are enrolling in college and some have graduated to jobs. Recruitment is now underway for the next September-to-April session.

Micro-E Grads Rated Best in U.S. By Semiconductor Manufacturers

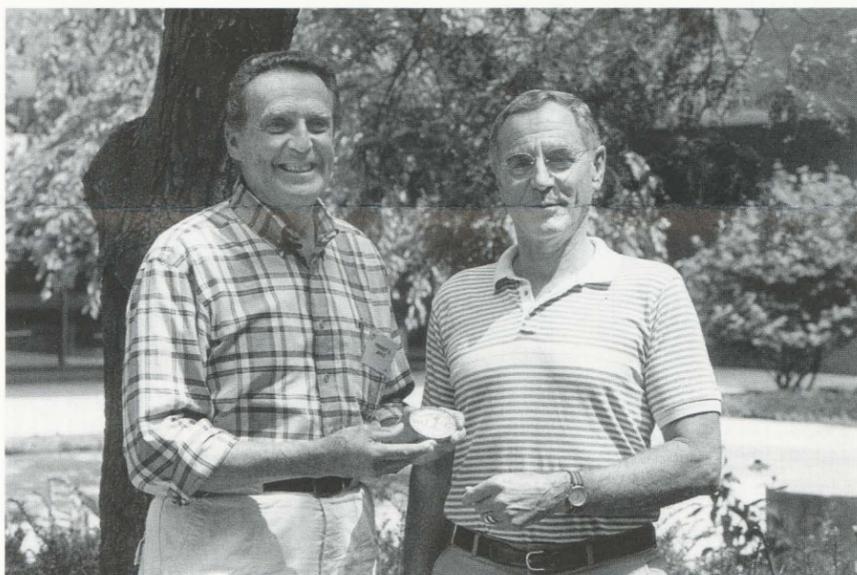

A survey asking United States semiconductor manufacturers where they get new college graduates has placed RIT microelectronic engineering students at the top of the list, along with the University of Illinois, and ahead of such schools as MIT, Stanford, RPI, Cornell, Texas A&M, and Purdue.

The survey was conducted among 14 engineering and operations managers from companies that included IBM, Intel, Motorola, and Texas Instruments. Each manager had 11 to 32 years of experience in the microelectronics industry. The purpose of the survey, sponsored by the Semiconductor Research Corporation (SRC), Research Triangle Park, N.C., was to

assess the skills necessary for new college graduates entering the industry as process engineers. The survey was conducted by Paul Graeff of Intel Corporation.

Process engineers are responsible for different portions of the semiconductor fabrication process, such as plasma etch, photolithography, chemical vapor deposition, and ion implantation.

The SRC is a not-for-profit research consortium receiving funding from companies nationwide that are involved in the semiconductor industry. The SRC manages a multi-million-dollar university research program intended to improve the competitiveness of the semiconductor industry.

PRESIDENTIAL MEDALLION . . . RIT trustee emeritus Herbert Jarvis, left, former president and CEO of the Sybron Corp., was presented the RIT Presidential Medallion last month by President Rose. Jarvis was honored at the July meeting of the Board of Trustees for his service to RIT and the board from 1980 to 1990.

Four Honored by Ombudsman

Four members of the RIT community—one student, one staff member, and two faculty—were presented with the second annual Office of the Student Ombudsman Awards for Excellence at the end of the 1990-91 school year. The awards recognize students, faculty, and staff who have given exceptional service to improve the quality of life for students in conjunction with the office, says student ombudsman Barry Culhane.

Jennifer Deacon, vice chair of Student Directorate, was honored for her leadership in student government, campus activities,

student affairs, and the Tiger Friends program. Louise Carrese, program coordinator in the Office of Cooperative Education and Placement, was recognized for excellence in playing a key leadership role in the development of the Tiger Friends program. Carl Palmer and Jim DeMarco of the Printing Production Technology Department, NTID School of Visual Communications, received the faculty awards for their work with the ombudsman's office in assisting with publications produced in NTID student projects.

Crazy Costumes, Good Cause: Lend-a-Hand Returns to Campus

Buy your newspaper for more than news on Fri., Sept. 13, when costumed volunteers from RIT will be hawking papers for donations during the annual "Lend-a-Hand Day" fund raiser.

Volunteers are still needed for Lend-a-Hand on campus and at City Center. The event returns to campus this year after several years' absence, although volunteers from RIT City Center have participated in the event downtown and will continue to do so this year.

Lend-a-Hand benefits more than 1,000 local people throughout the year when other agencies and charities are unable to help.

Volunteers are needed between 7 and 9 a.m. on campus and from 7 to 9 a.m. and 11:30 a.m. to 1:30 p.m. at City Center. Costumes are welcome. Campus volunteers will "sell" the *Democrat and Chronicle* and will be stationed in parking lots, at crosswalks, and at other strategic locations. City Center volunteers will offer both the *Democrat and Chronicle* and the *Times-Union* at building entrances.

Volunteers are invited to a reception at the Mapledale Party House.

To volunteer, call Cindee Gray at -4987, Jim Papero at -2065, or Mary Cerniglia at -5015.

HAPPY FAMILY SCENES COME TO LIFE . . . Two fine and applied arts students, Pat Coyle and Cindi Hofner, inspect their illustration class's drawings at an opening reception for the new "illustrated wall" in the children's section of the Phillis Wheatley Community Library in Rochester. The class, taught by Luvon Sheppard and his associate Judy Battaglia, created the art at the request of storyteller Odella Liberty, a friend of Sheppard's. Students met with children using the library before drawing scenes featuring Liberty's story characters, "Susan and Eddie." The shrink-wrapped drawings fasten interchangeably to the wall with Velcro pieces.

Physical Education Offers Classes In Aerobics, Self-Defense, CPR

RIT faculty and staff can participate in a variety of physical education classes this fall.

For aerobics lovers, classes will run Mondays and Wednesdays from 5 to 5:30 p.m., Tuesdays and Thursdays from 1 to 1:50 p.m., and Tuesdays and Fridays from 7 to 7:50 a.m. Classes are \$25 each.

NEW PROGRAMS

The following is a listing of new programs under development or seeking approval for initiation at RIT during 1991-92. Deregistered programs are also listed. A new listing will appear approximately every two weeks.

UNDERGRADUATE PROGRAMS

Applied Science and Technology: AS in Computer Science-CCE to AS in Computer Science (name change in already registered degree), request received by SED 5/24; BS in Electrical/Mechanical Technology, passed ICC 5/2; BS in Food Marketing and Distribution, passed SED 6/4; BS in Information Technology, under development

College of Continuing Education: BS in Environmental Management with Concentration in Solid Waste, passed SED 6/4; BS in Industrial Distribution, under development; Certificate in International Business and Culture, under development; Certificate and BS in Properties/Facilities Management, under development; Certificate in Total Quality Systems, under development

NTID: AAS in Electronic Document Production, under development; AAS in Interpreting (modification of an already registered program), received by SED 7/22

GRADUATE PROGRAMS

Applied Science and Technology: MS in Telecommunications Software Technology, passed SED 5/9

Engineering: ME (Master of Engineering), passed SED 6/13; MS in Industrial Engineering, under development

Graphic Arts & Photography: MS in Biomedical Communications, under development; MS in Photo Preservation in Archival Practices, under development

Liberal Arts/NTID: Advanced Graduate Certificate in School Psychology and Deafness, received by SED 4/29

NTID: MS for Teachers of the Deaf (formerly joint program with University of Rochester), sent to SED 5/30

Science: MS in Applied Mathematics, under development

DEREGISTERED PROGRAMS

AAS in Money and Finance, 9/1/89; MS in Computer Systems Management, 9/1/90; MS in Information Science, 9/1/90; Advanced Certificate in Information Science, 9/1/90; Diploma, Packaging Machinery Mechanics, 8/31/93; Diploma, Automated Equipment Technology, 8/31/93; Diploma, Drafting and Design Technology, sent to SED 6/15; AAS, Photo Processing and Finishing Management, received by SED 7/8; B. Tech. in Computer Information Systems, deleted 4/16/91

CALENDAR

Sept. 6—TGIF in the Ritskeller, with pizza and munchies; 5-7:30 p.m.

Sept. 6—movie: *Awakenings*; 9 p.m., Ingle

Sept. 6—movie: *Pacific Heights*; 7 p.m., Ingle

Trustees...

continued from page 1

successful in RIT's history.

Two of the Whitesides' six children graduated from RIT.

Whiteside received the Spirit of Life award from the City of Hope Hospital in California in 1986.

Also serving as vice chairman of RIT's Board of Trustees is Colby Chandler, retired CEO and chairman of the board of Eastman Kodak Company.

Hallenbeck and Whiteside were elected at the board's July meeting.

For those interested in dance aerobics, classes are set for Tuesdays and Thursdays from noon to 12:50 p.m. at a cost of \$25.

A conditioning class for women will be offered during the same hours.

A self-defense class for women will be held from 4:30 to 6:30 p.m. Thursdays, Sept. 19 through Oct. 17. The class will meet in the auxiliary gymnasium. The fee is \$25; early registration is encouraged as class size is limited.

A first aid/CPR class is slated for three Saturdays in October—Oct. 5 from 1 to 4 p.m., Oct. 12 from 1 to 7 p.m., and Oct. 19 from 1 to 7 p.m. The Oct. 5 class meets in room A205, College of Liberal Arts. Attendance is required at all three classes to receive full Red Cross certification and physical education credit.

For more information or to register, call the Physical Education Office, -5972 or -6659.

Host Families Needed For Foreign Students

The Educational Foundation for Foreign Study (EF) is seeking families to host a high school exchange student for the 1991-1992 academic year. EF is a nonprofit organization with people in the Rochester area experienced in assisting families with school registration and providing relevant cultural information about a student's host country. To share the American experience with a high school student and learn about life in another country at the same time, call Lou Erb, 427-7169 (V) or Denise Powers, 442-1533 (V/TTY).

PROMOTIONS

Promotions: **Victoria Aspridy**, assistant registrar, Registrar; **Karen Beach**, tutor/notetaker coordinator, NTID; **Michael Bice**, operating engineer I, Physical Plant; **Lawrence Belle**, dean, CCE; **Jane Bolduc**, coordinator of intern programs, NTID Training and Development; **Gary Bonvillian**, associate dean, Business; **Deborah Chestnut**, secretary III, NTID; **Susan Critchlow**, assistant director, Admissions; **Mary Ann Coe**, parking office supervisor, Campus Safety; **Barb Cutrona**, director of development programs and special programs, TPD; **Timothy Engstrom**, assistant professor, Humanities; **Lisa Ford**, program director, T&E Center; **Charles Haines**, department head, Mechanical Engineering; **Michelle Hawver**, staff assistant, Army ROTC; **Nancy Heuer**, administrative assistant II, Business; **George Komorowski**, assistant professor/chair, NTID Industrial Technologies; **Gerry Mahns**, operating engineer I, Physical Plant; **David Medvedeff**, systems programmer IV, ISC; **Mary Menard**, secretary V, Admissions; **Patricia Nelson**, assistant registrar, Registrar; **John Panara**, senior assistant specialist, NTID Instructional Television and Media Services; **Richard Pettinger**, associate registrar, Registrar; **Andrew Potter**, associate director of data center, ISC; **Lucille Powers**, secretary III, CAST; **Gary Prokop**, director of administrative services, Physical Plant; **George Ryan**, acting director, T&E Center; **Raymond Santirocco**, executive director, TPD; **Nancy Toole**, supervisor, Grace Watson Dining Hall; **Marcy Watts**, assistant scheduling officer, CAST; **Patricia Whalley**, secretary III, CCE; **Geraldine Yuna**, secretary III, NTID

NEWSMAKERS

• **Hussain B. Ahmed**, senior counselor/assistant professor, HEOP, was a committee member helping to assemble the Plight of the Black Male conference sponsored by the Center for the Study and Stabilization of the Black Family at Niagara University. Ahmed also presented a workshop, "Family Resource Program: Strengthening the Role of the Black Male Within the Family Structure."

• **Dr. Diane Castle**, telecommunications specialist, NTID Audiology, received the Nitchie Award in Human Communications from the New York League for the Hard of Hearing May 1 in New York City.

• **Dr. John Cox**, chair of the NTID Applied Art Dept., made a presentation, "Assessing Those 'Soft' Outcomes: A Visual Arts Model" at the Second Annual Montclair Assessment Conference, Montclair State College, N.J.

• **W. Frederick Craig**, associate professor, School of Printing Management & Sciences, received a special presidential award for his assistance in administering the selection process in the Outstanding Newspaper Carrier of the Year program at the 75th annual sales conference of the New York State Circulation Management Association in Rome, N.Y. Craig is the first member of the organization to receive the award twice.

• **Andrew Davidhazy**, School of Photographic Arts & Sciences, was featured on the first page of the "Local" section of the Rochester *Democrat and Chronicle* of April 18, 1991, for work he is doing in conjunction with Don Hall, director of the Rochester Planetarium. He made an uninterrupted photograph of the length of East Avenue between Alexander Street and Park Avenue, a distance of about 1 1/2 miles, with a strip camera he built out of salvaged parts. The photograph's negative is about 15 feet long.

• **Andrew J. DuBrin**, College of Business, had an article, "Sex and Gender Differences in Tactics of Influence," published in *Psychological Reports*, vol. 68, pp. 635-646.

• **Dr. F. Kingsley Elder**, professor of physics, College of Science, presented the paper "Science and Christianity: a Physicist's Viewpoint" to the spring seminar of the Division of Natural Sciences and Mathematics of Roberts Wesleyan College as the featured speaker April 12.

• **Henry Etlinger**, professor in the Department of Computer Science, had a book review of John Carroll's book *The Nurnberg Funnel* published in the March 1991 issue of *IEEE Software*.

• **David Farnsworth**, mathematics professor, presented a lecture, "The 55-mph Speed Limit and its Impact on Death Rates: A Statistical Case Study," to the student chapter of the Math-

ematical Association of America at SUNY Brockport. The lecture was sponsored in part by the association's visiting lecturers program, in which he participates.

• **Dr. James Fleming**, political science professor, College of Liberal Arts, was selected as one of 35 college and university instructors to attend C-SPAN's Spring 1991 Seminar for Professors in Washington, D.C., June 17-18. The seminar focused on issues relating to educational uses of C-SPAN's public affairs programs.

• **Thomas Gennett**, assistant professor of chemistry, recently received a one-year grant from Research Corporation for his study of "Design and Characterization of Novel Electrochemical Detector for FIA and HPLC." For this project he also received the Abram Davis Memorial Award presented by the Northeast Regional Chromatography Discussion Group.

• **Robert Goldstein**, Purchasing, spoke on "Computerized Purchasing Applications" at the annual meeting of the National Association of Educational Buyers in St. Louis, Mo., May 1. The presentation included a live hookup to RIT's IBM mainframe computer via telephone line to provide an online demonstration of the RIT computerized purchasing system.

• **Gail Gucker**, staff chairperson, Math Department, LDC, and **Ruth Jones**, math instructor, LDC, presented a paper, "Useful Models and Techniques for Creative Problem Solving," at the New York College Learning Skills Association Annual Symposium on Developmental Education in Ithaca April 8.

• **Dr. John Helmuth**, College of Business, presented a speech, "Economics and Business Careers," at the SUNY Brockport Omicron Delta Epsilon economics honorary society banquet April 20.
