January 31-February 9, 1975

Mr. and Mrs. Brackett Clark receive "highest tribute" for service to RIT

Mr. and Mrs. Brackett W. Clark, 630 Rock Beach Rd. Irondequoit, have been selected to receive the Nathaniel Rochester Society Award for 1975.

The award, established in 1972, is the highest tribute presented by the Nathaniel Rochester Society at RIT and honors outstanding service to the Institute. Mr. and Mrs. Clark were charter members of the society and have been active in the life of RIT for over four decades.

"It's a lovely award," said Mrs. Clark. "We've had such enjoyment doing our work here over the years," she added.

Brackett H. Clark was elected to RIT's Board of Trustees in 1913. He has served as treasurer of the Institute for 21 years and is a member of the executive and finance committees. In addition, he has served with the new campus steering and funds committees, memorials committee, nominations committee and, most recently, the steering committee of the 150th Anniversary Campaign.

Clark is chairman of the board and treasurer of Rapidac Machine Corp.

His wife, Ruth, joined with Marcia Ellingson in founding the RIT Women's Council in 1954 and served as its first president. Under Mrs. Clark's leadership, an educational program was launched so that all members of the council would be thoroughly acquainted with the Institute and its several divisions.

She also helped the council develop fund raising programs

which have since provided the substantial funds for scholarships, the library, the Interfaith Chapel in Ingle auditorium, and remodeling and redecorating the lounges in the residence halls.

The selection committee for this year's award included: Dr. and Mrs. Frank W. Lovejoy, Jr., chairmen; Mr. and Mrs. Randolph E. Carlson; Dr. and Mrs. Kenneth C.D. Hickman; Mr. and Mrs. Arthur M. Lowenthal; Mrs. Robert W. Miller; and Mr. and Mrs. Gaylord C. Whitaker.

This is not the first time the Clarks have been jointly honored for their generous support of an academic institution. In 1972,

they were awarded honorary doctor of law degrees by Wheaton College, Norton, Mass., the college chosen for attendance by two of their daughters. Clark is a member of the boards of trustees of Wheaton College and Brown University, his alma mater.

Presentation of the Nathaniel Rochester Society Award was made by Walter A. Fallon, chairman of the society and Dr. Paul A. Miller, president of RIT, a dinner Tuesday, January 28. Prior recipients of the award have been Gaylord C. Whitaker, in 1973; and trustees of the Mary Flagler Cary Charitable Trust.

Students awarded Statler scholarships

Twenty-seven students in the Department of Food Administration and Tourist Industries Management are receiving a total of \$12,000 in scholarships for 1974-75 from the Statler Foundation.

The scholarships were awarded on the basis of academic achievement, future promise and an active interest in a career in the hospitality industry.

The foundation was established in 1934 under the will of Ellsworth M. Statler, founder of the Statler Hotel chain, to promote careers in the hotel and restaurant industry.

Brackett and Ruth Clark, at home, with Nathaniel Rochester Society Award in background.

Professor Baldwin was "the guy all the students went to"

David M. Baldwin, 64, of 27 W. Canon Drive, Chili, professor of Biology who was murdered in his home January 19, was described by his colleagues in the College of Science as "the guy all the students went to with their problems."

Although Mr. Baldwin had no close living relations, his family--in the larger sense of the word--was broad. His door was always open to students, for school matters or personal matters.

Dr. Thomas P. Wallace, dean of the College of Science, said: "Professor Dave Baldwin was extremely devoted to RIT and was a person who was never too busy to take on one more task or spend time with a student. The feeling for him is best illustrated by the fact that he was awarded the first Outstanding Teacher Award from RIT in 1968.

"He was a pioneer in the use of educational television at RIT by developing a full course in general biology in 1970.

"He was a gentle, compassionate man who will be long thought of by faculty and students alike."

Dr. Wallace said the science faculty and students are initiating steps to establish a fund in Mr. Baldwin's memory.

Professor Baldwin had been on the RIT faculty since September 1953. He taught biology, chemistry and physics courses during those 21 years, and most recently taught biology to non-majors and a contemporary science course. He also taught evening College of Continuing Education science courses until recently.

He was born in Emporia, Kansas, on Dec. 13, 1910.

He received a bachelor's

degree from Reed College in Portland, Ore., in 1932, and a master's degree in bacteriology from the University of California at Berkeley in 1934. He did further graduate study at Berkeley until 1937.

Before coming to RIT, Mr. Baldwin was employed as chief bacteriologist at John Wyeth Pharmaceuticals and research bacteriologist at Lederle Labs.

He was a member of the RIT Faculty Council. His professional affiliations included membership in the American Society for Microbiology, the American Public Health Association and the American Pharmaceutical Society.

His only close living relatives, his mother and his sister, died within the past two years. He had lived alone since the death of his mother in October 1973, except for the foster children to whom he offered a roof.

Students plan memorial fund

Students of Professor David D. Baldwin are collecting money for a plaque in his memory to be put in the RIT College of Science.

Donations can be made to Rochester Institute of Technology, David Baldwin Memorial Fund, c/o Lea Bancroft, 3078 Genesee Road, Mount Morris, N.Y. 14510, or Chrys Sarantis, Box 1148, 25 Andrews Memorial Drive, Rochester 14623. Checks can also be left in Ms. Bancroft's or Ms. Sarantis' student folders in Food Administration wing on the fourth floor of the Administration Building.

Mr. Baldwin, a professor of biology in the College of Science, was murdered in his home at 27 W. Canon Drive, Chili, on Jan. 19.

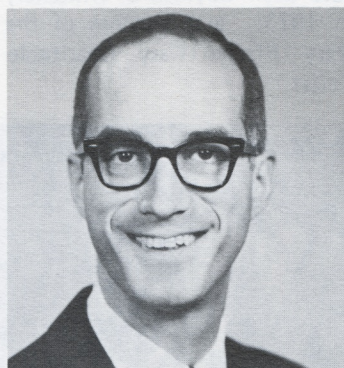

Employee career program continues in Personnel

The Employee Career and Educational Advising Program started by the Affirmative Action Office last September, is continuing this Winter.

The Program, is now being offered in the Personnel Department's new office on the fifth floor of the Administration Building.

The program started by James Papero, administrator of Affirmative Action, offers RIT employees, both part of full-time, the opportunity to discuss and develop: new career possibilities; educational offerings and opportunities; setting occupational and educational goals; and updating personnel folders, resumes, as well as discussing other relevant personnel matters.

Although all discussion will be confidential, there may be times when an employee and supervisor may wish to discuss and develop an employee program together with Mr. Papero.

Papero is available for advising on Tuesdays and Thursdays, 8:30 a.m. to 5:00 p.m. and 1:30 p.m. to 5:00 p.m. on Wednesdays. Appointments can be made by calling 464-2065.

The Affirmative Action Office is also prepared to meet Institute department personnel in their facilities upon request to discuss the Affirmative Action Program, planning for employee training, group career and educational counseling or other employee matters.

Personnel sets holidays

The following is the approved schedule of 1975 RIT holidays.

March 28	Friday	Good Friday
May 26	Monday	Memorial Day
July 3rd	Thursday	Floating Holiday
July 4th	Friday	Independence Day
September 1	Monday	Labor Day
November 27	Thursday	Thanksgiving
November 28	Friday	Friday after Thanksgiving
December 25	Thursday	Christmas

GARC will host pressmen for color seminar

The Graphic Arts Research Center will conduct a four-day color seminar for pressmen on April 1-4, 1975. In this seminar the emphasis will be on color control in the pressroom rather than the production of color separations and plates. The fourth day has been added to provide more time for practical applications, particularly in the area of densitometry.

The subjects covered in the course of the seminar will include the selection of color ink sets; ink laydown sequence; the gamut of printed colors; the problems of reds; and the effect of paper on printed color. Also included are discussions of color densitometry; evaluation of printed sheets; control of dot gain and trapping; how strong to print color; and standard illumination for color viewing.

Grant Deadlines

The Office of Grant & Contract Administration reminds all faculty, staff and students that the following are deadlines for proposal application. Since Institute review and approval must be accomplished prior to mailing a proposal, applicants are requested to forward their proposals to Grants Administration one week before the listed deadline.

Guidelines and application forms for listed program are either on hand in, or on order by Grant & Contract Administration Office. For additional information and/or assistance, please call ext. 2988.

NATIONAL SCIENCE FOUNDATION

Feb. 7, 1975 - Faculty Fellowships in Science (applications of science to social problems, 3-9 months stipends for Faculty with minimum of 5 year teaching.)

March 1, 1975 - NATO Senior Fellowships in Science (This program is oriented toward the study of new scientific techniques and development during short visits abroad; awards to be announced on May 15, 1975).

OPEN - Science Information Grants (Research, Development and Demonstration projects to improve scientific and technical information service).

DEPARTMENT OF HEALTH EDUCATION & WELFARE

Feb. 17, 1975 - Fund for the Improvement of Postsecondary Education:

- 1) National Project I - Better Information for Student Choice
- 2) National Project II - Alternatives to the Revolving Door, effective learning for low-achieving students.
- 3) National Project III - Elevating The Importance of Teaching.

Office of Assistant Secretary for Planning & Evaluation:

April 15, 1975 - Grants for Research on Social Security and Welfare - Co-op sponsorship is encouraged.

NATIONAL ENDOWMENT FOR THE HUMANITIES

Feb. 17, 1975 - Fellowships. Summer seminars for College Teachers 1975.

March 15, 1975 - Education Programs. Education Projects Grants beginning after Dec. 1, 1975.

April 1, 1975 - Youthgrants. Projects beginning after Sept. 1, 1975 (Student Directed Research).

April 17, 1975 - Public Program. Projects beginning after Oct. 15, 1975.

June 2, 1975 - Fellowships for Independent Study & Research 1976-77. (Intended for scholars, teachers, writers who have completed their formal academic training by date of application.)

NATIONAL ENDOWMENT FOR THE ARTS

March 17, 1975 - Summer Internship Programs, June 2-Aug 29, 1975. Stipend of \$1,885 plus travel. 10-13 appointment to be made for assignments in Wash. D.C.

May 30, 1975 - Photographers Fellowships FY76.

U.S. DEPT HEW OFFICE OF EDUCATION

March 16, 1975 - Ethnic Heritage Studies Program.

U.S.O.E. OFFICE OF INDIAN EDUCATION

Jan 31, 1975 - Special Education Programs & Projects for Indians.

U.S. OF FICE OF EDUCATION

Feb. 15, 1975 - Educational Programs to meet needs of Indian Children.

DEPT. OF TRANSPORTATION

April 1, 1975 - University Research Program - to solve transportation problems at normal state or local levels.

Graphic Arts plans still photo seminar

The College of Graphic Arts and Photography at RIT will conduct a seminar on Still Photographic A-V Production for education, government, and industry on March 17 through 21. This 5-day program is for production personnel who want to expand their comprehension of the photographic process and learn time-saving techniques. It is designed for the person who had had A-V production experience and now wishes to improve the quality and quantity of his productions. Participants become actively involved in production and are encouraged to bring their production problems to the seminar.

The seminar includes such areas as title and graph slide preparation, slide duplicating for quality (both b&w and color), and general photographic problem solving. Under these categories are such subjects as methods of lettering, legibility, lith exposure/development.

Printing to expand bindery management program

RIT's School of Printing will be expanding its course offerings in bindery operation and management, according to Director Dr. Mark F. Guldin.

Guldin also announced that Werner Rebsamen, formerly with BookCrafters, Fredricksburg, Va., has joined RIT's faculty and will be teaching new bindery courses.

Rebsamen learned bookbinding in Zurich. He has worked as a samplemaker and handbinder, as well as on development of modern production techniques. As production superintendent at BookCrafters, he set up what is considered the first fully automated book production system.

"The addition of Rebsamen to our faculty and our new laboratories will enable students to get the most up-to-date experience possible in a college-based bindery setting," says Guldin.

Hand and automatic case binding course work will be offered in the future, and the setting up and operation of a binding testing laboratory is planned.

Equipment in the school's laboratory includes a Polar Eltrammat cutter and Challenge cutters, Stahl C-26 and Baum Auto-Set folders, Mueller adhesive binder, Sheridan

Inserter-Stitcher-Trimmed, Macy Stitch-A-Fold II, McCain Stitcher and Kensol hot stamping press.

Nearly 200 printing students will be taking the new course in bindery operation and management during the first year of their program, Guldin said. Also, special courses and seminars are being planned through RIT's program of continuing education for industry.

Photo professor sets field trip

RIT photography professor Tom Muir Wilson will conduct a photographic field trip to England, March 29 through April 6.

The nine day workshop will include overnight stops in Bristol, Stratford and London.

Participants will have the opportunity to try their photographic skills at Stonehenge, Shakespeare's birthplace and the historical sights of London. Instruction will be informal.

Of special interest to photography students will be a visit to London's Central Polytechnic Institute which, like RIT, has one of the foremost schools of photography in the world.

Reservations must be made by February 13. Additional information may be obtained from professor Tom Muir Wilson.

News and News Makers

Associate Professor William E. Beatty, College of Business, was elected to the Board of Directors of the Association of Teachers of Quantitative Methods at the annual meeting at University of Connecticut in November 1974....**Martin A. Rennals** film making and television, spent winter quarter vacation in Jamaica where he served as a consultant for the country's national literacy campaign. Rennals will advise on use of film to teach and motivate....**Robert Sponholz** biomedical photography, travelled more than 9,000 miles in a two-week tour of facilities employing biomedical photographers. Sponholz visited 24 institutions, including the Mayo Clinic and other hospitals, veterinary schools, Federal laboratories and college photography departments. The trip, funded by an HEW grant, was made to determine future photographic personnel needs in the institutions....

Events

Friday

Friday, January 31

Mardi Gras Nite Featuring "Your Father's Mustache", College Union Cafeteria. Admission \$1.50, 8:30 p.m. Tickets on sale at CU desk. Cash bar and refreshments available

Techmila Senior Portraits, Conf. Rm. A., C.U., Jan 27 - Feb 14

Departmental Packaging Science, Problem Solvers Seminar, presentations by 12 national manufacturers on package problems and solutions. 8:30 a.m., Ingle Aud., C.U.

T - "Thieves Like Us"

"What's Happened to the Cracker Barrel?" Lecture by Professor Leonard Barol, St. Joseph's College, Philadelphia and J.J. Wuerthner, Vice Pres. for publications Paperboard Packaging Council - Ingle Aud, 12:30 p.m. OPEN
