## Irving Kristol To Give Gasser Lecture

Author, educator and commentator Irving Kristol will examine the growing role of regulation and its long-term effects on our society in the William D. Gasser Distinguished Lectureship in Business, scheduled for Friday, April 27, at 3 p.m. in Ingle Auditorium.

The lecture will be entitled "Capitalism and Regulation--The Future of Capitalism in a Regulated Society." The talk is free and open to the public. A reception in the College-Alumni Union will follow the address.

"We shall never persuade the American people to take the problem of regulation seriously until they appreciate, in the clearest possible way, what it is costing them as stockholders, consumers and employees," warns Kristol in his widely acclaimed 1978 work, *Two Cheers for Capitalism*.

IRVING KRISTOL

Kristol has been the Henry Luce Professor of Urban Values at New York University since 1969. A Senior Fellow of the American Enterprise Institute, he also is co-editor of *The Public Interest* magazine.

The New York City native formerly has served as managing editor of *Commentary* magazine, and was co-founder and editor of *Encounter* magazine.

As a member of its "Board of Contributors," he writes a monthly column for the *Wall Street Journal*. He also has written numerous articles for the *New York Times Magazine*, *Harper's*, *Atlantic Monthly*, *Foreign Affairs*, *Fortune*, *Commentary*, *Encounter* and *The Public Interest*.

A cover article in the February, 1979 edition of *Esquire* magazine described Kristol as "The Godfather of Neoconservatism"...the most powerful new political force in American."

Kristol has been credited with publishing an article in *The Public Interest* that eventually was to serve as "the theoretical basis for the current tax-cutting movement—including Proposition 13."

The William D. Gasser Distinguished Lectureship was established by Jones Chemicals, Inc., Caledonia, New York, in recognition of Professor Gasser's numerous contributions as a teacher at RIT and as a director of and financial advisor to Jones Chemicals, Inc.

## Paliouras New Dean Of Science

Dr. John D. Paliouras has been named dean of the College of Science as of April 16, Dr. Todd H. Bullard, Provost and vice president of Academic Affairs, has announced.

Dr. Paliouras had been acting dean of the college since January, and has been a member of the faculty since 1965, holding positions as associate dean and professor of mathematics. He holds his Ph.D. and MA in mathematics from the University of Illinois and his BA from Alfred University. Prior to joining RIT he was a teaching assistant at the University of Illinois, and spent seven years as an interpreter at the U.S. Embassy in Athens, Greece.

He succeeds Dr. Thomas P. Wallace who left last fall to become dean of the College of Science and Applied Arts at Old Dominion University, Norfolk, Virginia.

He and his wife and three children live at 33 Charmwood Rd., Pittsford.

## GRANTS DEADLINES

Please note: **GUIDELINES FOR ALL PROGRAMS ARE ON HAND OR HAVE BEEN REQUESTED.** Please call the Grants Office for additional information, 50 West Main Street, 262-2719.

**PROPOSALS SHOULD BE SUBMITTED TO THE GRANTS OFFICE ONE WEEK PRIOR TO DEADLINES FOR ADMINISTRATIVE APPROVALS.**

### FUND FOR IMPROVEMENT OF POST-SECONDARY EDUCATION

May 21—Adapting Improvement-Better Strategies for Education of Adults.

May 21—Examining the Varieties of Liberal Education.

### NATIONAL INSTITUTE OF EDUCATION

May 10—Women's Educational Equity Research Grants. Grants will support research on social processes influencing girls' and women's achievements in mathematics, science and technology. Ten to 20 grants ranging from less \$10,000—\$55,000 annually are available. Projects up to three year's duration will be funded.

May 11—Studies of Issues related to Staff Development. Multiple year awards in each topic area listed below-up to 3 years possible but shorter periods are encouraged. (1) The Teaching Occupation and Staff Development, (2) Successful Schools and Staff Development, (3) The Issue of Criteria for Staff Development.

### DEPARTMENT OF LABOR

June 1—"Small Grant Research Program" (maximum of \$15,000 direct cost/year up to 2 years.)

### COMPLEMENTARY EDUCATION

Grants are being offered to all faculty, staff and students who wish to develop unique kinds of experiences. Complementary Education's fundamental purpose is to further the professional development of RIT students by involving them in learning situations both inside and outside the classroom. Assistance will be given in preparing grant proposals and structuring ideas. Deadline for proposals will be May 1, 1979 for grants to be awarded in the fall. For further information and grant applications, contact Elaine Spaul, Student Affairs office, 475-2267 or 2202.

### OFFICE OF HUMAN DEVELOPMENT SERVICES

May 21—Teaching Grants \$2.04 Million, to develop degree orientated curricula organized into specific course sequences related to child welfare for schools of social work.

May 21—Trainingship Grant, \$3.26 million for seniors and MS students to develop their skills and qualifications for services to their families.

### AMERICAN SOCIETY OF HEATING, REFRIGERATING & AIR CONDITIONING ENGINEERS, INC.

June 1—Latent loads in low humidity rooms due to moisture—starting date Jan. 1, 1980.

### OFFICE OF NAVAL RESEARCH

May 1—Informal proposals (letters of interest) for grant ranging from \$100,000 to \$500,000 per year in following areas—(Formal proposals must be received by ONR by 15 May)—(1) Geophysical processes, (2) Millimeter Waves, (3) Biochemical Definition of Stress, (4) Microstructure Electronics, (5) Optical Materials Processes, (6) Interfacial Processes, (7) Distributed Processing, (8) Additional Research Areas.

### DEPARTMENT OF INTERIOR-WATER RESEARCH TECH. OFFICE

May 1—Four-page preproposal summaries are encouraged. Grants ranging from \$20,000 to \$200,000 are available in the following areas: Water Conservation Research, Water problems of Urbanizing Areas, Water reuse research or development, and Saline water conversion research or development. Total funds=\$11.4 million.

## LOMB LUNCHEONS

Menus for noon luncheons in the Henry Lomb Room during Spring Quarter have been announced as follows:

**April 19**—Tender baked breast of chicken, sauteed zucchini with tomatoes; or steaming beef consommé, ham and swiss cheese on rye.

Dessert: Chilled strawberry whipped gelatin.

**April 24**—Breaded veal parmesan with spaghetti draped with Sicilian tomato sauce, crispy garden tossed salad, Italian style garlic bread; or homestyle vegetable beef soup, California egg & olive sandwich.

Dessert: Chilled peaches with whipped topping.

**April 26**—Classic baked fish fillets ala creole, steaming rice, elegant buttered spinach; or savory split pea soup, spicy Italian sausage sandwich.

Dessert: Louisiana molasses gingerbread.

**May 1**—Mexican-style chili con carne, mixed green salad with Italian dressing; or traditional cream of chicken soup, tender sliced roast beef with all the trimmings on a hard roll.

Dessert: Luscious strawberry Bavarian cream.

**May 3**—Fettuccini Alfredo, cool crisp spinach and mushroom salad with Italian dressing; or hearty bean and bacon soup, corned beef on rye bread.

Dessert: Refreshing lemon snow pudding.

## INSTITUTE FORUM

RIT will celebrate Law Day—May 1—with U.S. Supreme Court Justice William Rehnquist discussing "Who Shall Regulate the Regulators?"

He will speak at 7 p.m., in Ingle Auditorium, concluding RIT's Institute Forum program for 1978-79. The speech is open to the public. Admission is \$1.

Justice Rehnquist says his speech will attempt to point out that, regardless of which of the varied possible subjects of regulation is involved, "the ability, character and integrity of the people charged with enforcement of the regulation are of vital concern to everybody.

"A principle danger today, as a result of overreaction from ethical scandals and charges of impropriety during the past twenty years, is that Congress and the state legislatures will enact such stringent laws dealing with people who enter public service that a good number of otherwise capable people will choose to remain in private life," he says.

"Since the supply of capable and honest public servants has never exceeded the demand," Rehnquist continues, "the public can ill afford to see a diminution of this pool of potential public servants while at the same time insisting on more and more regulation of individual activity."

A Nixon appointee, Justice Rehnquist has an Associate Justice of the Supreme Court since 1971. Prior to that time, he was an Assistant Attorney General and engaged in a general practice of law with primary emphasis on civil litigation.

Justice Rehnquist visit is sponsored by RIT's Student Association and College Activities Board.

## NEWS & EVENTS

Published weekly on Thursday during the academic year by the Communications Office at Rochester Institute of Technology and distributed free of charge to the Institute community. For information call 475-2750.

## Mini-Convention Set At NTID April 26,27

"Sharing Perspectives," is the theme for NTID's 4th Annual Mini-Convention to be held 8:30 a.m. - 4:30 p.m., Thursday and Friday, April 26 and 27.

The Mini-Convention will feature 32 topical sessions designed to share information and ideas about deaf students at RIT. These sessions include workshops, panels, demonstrations, presentation of papers, and topical discussion groups.

Dr. George Propp, assistant director for the Specialized Office for the Deaf and Hard of Hearing at the University of Nebraska, will be the Mini-Convention's opening plenary speaker.

Dr. Propp, who became deaf at age 15 after a bout with spinal meningitis, is a former member of NTID's National Advisory Group. The National Advisory Group serves in an advisory capacity to the director of NTID in all matters of growth and development of NTID.

NTID invites all faculty and professional staff to attend. For more information call 475-6864 (voice and TTY).

*New York State Motor Vehicles License Inspector Sharon Brown uses manual communication to interview deaf license applicant Michael McDonald as part of new procedures to deal better with hearing-impaired people. The project was developed as a joint effort of the Department of Motor Vehicles and NTID.*

## New Procedures Suggested For Hearing-Impaired Drivers

Soon it may be easier for deaf people in New York State to get driver's licenses, thanks to a new, recently held workshop on licensing procedures sponsored by the state's Department of Motor Vehicles, NTID and the Rochester Office of Vocational Rehabilitation.

The workshop brought together five deaf panelists and 16 DMV participants who talked about some tough problems deaf people encounter when they try to get a New York State driver's license. Monroe County, where NTID is located, has the state's greatest per capita population of deaf and hearing-impaired people--7,500 deaf and 40,000 hearing impaired.

The workshop developed these recommendations for testing deaf drivers:

- Develop an illustrated brochure for the deaf community which tells deaf people how to obtain a New York State Operator's license.
- Coordinate application procedures and testing procedures for the handicapped candidate in a separate area of the district office.
- Develop an illustrated test for handicapped readers and foreign language-speaking candidates, similar to the one used in Alabama.
- Incorporate the requirements for New York State deaf drivers into

the state's drivers' manual, pictorially representing the term "full-view" mirror. (Other states don't have this restriction and drivers from outside New York don't understand the term.)

- Explain the choice of hearing aid restriction or full-view mirror (or second door-mirror) to the candidate.
- Develop a simple brochure for inspectors to show them how to make gestures or signs that deaf people easily understand.
- Help establish driver education courses for deaf applicants in residential schools, rehabilitation centers, and in NTID's Continuing Education program.
- Determine who is responsible for arranging to have an interpreter at the written tests and who must pay the interpreter.

The DMV efforts are coordinated through Robert P. Hanehan, district director, and NTID Continuing Education Coordinator, Dr. Lee Murphy, is coordinating the Institute's efforts to make these recommendations a reality within the next year. Harriette Royer is the Office of Vocational Rehabilitation (OVR) counselor who started the planning process for this workshop.

## ARTS MARATHON

Artists and art teachers from throughout western New York will have the opportunity to study and work through the night with some of the area's leading art instructors at the College of Continuing Education's Arts Marathon, "Getting to the Art of Things."

The marathon, the first event of its kind in Rochester, to be held May 5-6 at RIT's Metro Center, 50 West Main Street, will feature seven arts workshops and around-the-clock-studio sessions in calligraphy, cartooning, ceramics glazing, natural dyeing, paper making, photography and poetry.

A free evening of art with musical performances, poetry readings, lectures and discussions will supplement the workshops on Saturday from 7-11 p.m. and will offer an opportunity for a ranging audience participation in the marathon.

**RITEFCU means -- YOUR credit union will begin taking applications May 1, 2, 3, and 4 at different locations on campus. Watch for our signs.**

# BEVIER: Graduate Thesis Shows

The annual exhibitions of graduate student art work are underway in Bevier Gallery on the campus.

"Graduate Thesis Show 1," with the work of 12 students will run through April 27. Another 16 students have been selected to show in "Graduate Thesis Show 2," which opens May 5 and runs through May 18. A reception open to the public will be held on May 4.

The students are showing work in ceramics, fiber, glass, metal, and wood, as well as examples of graphic design, painting, and printmaking.

Among the people in the show are Frances Welles, who has a production line of jewelry in addition to her one of a kind pieces and who shows in local galleries; Janet Ruby, who teaches papermaking at the Creative Workshop of the Memorial Art Gallery and calligraphy at Brighton High School; Holly Jones, a Skidmore College graduate who does fine porcelain work, and Joseph T. Kivlin, recently selected to appear in the Finger Lakes Show of the Memorial Art Gallery.

Gallery hours are daily, 9 a.m. to 4 p.m.; Monday through Thursday, 7 to 9 p.m.; Saturday, 1 to 5 p.m.; and Sunday, 2 to 5 p.m.

Artwork to be seen in the "Graduate Thesis Shows" in RIT's Bevier Gallery includes a tapestry by Laura Dill, wood sculpture by William Cherkin, ceramics by Aviva Schneider and silver holloware by William Barba.

(Photos by Janine Wilson)

## NEWS & NEWSMAKERS

**John H. Hickman**, chairman of management studies, CCE, is now broadcasting a regular feature, "Business and Management," for radio station WROC. The program airs each Monday evening after the 5:45 news.

**Dr. John Hoyoung Lee**, chairman of the Political Science Committee, College of General Studies, was guest speaker on "Zen Meditation and Christianity" on April 1 in the Greece Baptist Church.

**James E. McMillion, Jr.**, coordinator of RIT's photographic processing and finishing management program and holder of the James E. McGhee professorship, has been named an honorary member of the Photo Marketing Association for 1979-80. He was selected for the honor by the Board of the Photo Marketing Association in recognition of his outstanding contributions to the association and the photo industry.

Effective April 23, **Raymond Woerner** will be the superintendent of operating engineers for the Department of Campus Services.

**Stan Widrick**, College of Business faculty member, recently completed his doctoral dissertation work in marketing at Syracuse University.

**William Keyser**, faculty member in the School for American Craftsmen, was featured in the December 1978 issue of *Modo*, an Italian magazine. The article discussed Keyser's wood furniture.

**Hans Christensen**, faculty member in the School for American Craftsmen and Charlotte F. Mowris Professor in Contemporary Crafts, will show his work and demonstrate metalcrafts at the International Trade Fair in Rennes, France. Rennes is Rochester's Sister City.

### CAREER AWARENESS

*Clarice Rose, wife of RIT's new president, meets Linda Wallace, a mechanical engineering student, who was a Career Awareness Program role model during the past year.*

## Career Awareness Program

A buffet dinner at the home of Margie Fitch, member of RIT's Board of Trustees, recently recognized the work of several students who donated time for a special service project.

The students were participants in the Career Awareness Program organized by Dorothy Lowe, coordinator of women's projects for the Office of Admission. Mrs. Lowe began the program two years ago by finding women students who would volunteer time to travel to junior high schools in the area to talk to younger females about career alternatives.

"The RIT students represent every college at RIT and many are in non-tradi-

tional careers for women like engineering or printing," explains Mrs. Lowe. They're role models for younger girls." Approximately 45 students from RIT have been involved in the program over the last two years. Twenty to 30 presentations are made each year at the invitation of junior high schools.

This is the second year that Mrs. Fitch has hosted an evening for the participants in the program. In addition to Mrs. Fitch and Mrs. Lowe, Carol Mulford, president of RIT Women's Council, and Clarice Rose, wife of RIT's new president, Dr. M. Richard Rose, attended the dinner.

## SPORTS

In a rain-shortened match at Alfred last week, RIT men's tennis squad opened the campaign with a 5-2 win. Two of the doubles matches were rained out.

The netmen found Alfred courts to their liking, picking up four singles victories and one in doubles. Jim Papagni, Dave Haas, Jeff Wasserman and Don Bjornsen posted singles wins. In doubles, Wasserman and Rob Ikeler secured the victory in sets of 6-0, 6-1.

The Tigers, coached by Rich Levin, are out to improve a 3-4 mark last spring and 4-3 in the fall.

Losers in the Alfred match were Steve Hutnick and Glenn Harris.

### Lacrosse (2-1)

It was another muddy afternoon April 12 as RIT fell to Ithaca, 10-6 in lacrosse action at RIT. The visiting Bombers took a 7-3 lead at halftime and made it stand up for the four-goal victory. The Tigers had the edge in shots on goal, 27-13 but the Bombers made good on 76.9 percent of the shots.

Freshman attach Tim Keck paced RIT with three goals and one assist. Jim LaPorta, Mark Knight and Fred Hauck accounted for the other Tiger tallies.

It was a very respectable showing for the Tigers against the Bombers, who entered the contest ranked in the top 10 among Division III schools.

Next home action is Saturday, April 28 against U of R in a makeup.

### Bowling

The women's bowling squad wound up the 1978-79 campaign last week, bowing to U of R, 2131-2114. It gave the women a 10-3 record on the year.

Captain Elyse Waldinger paced the women in the finale with a 485 series. Her high game was 165. Lorraine Keegan posted the high single of 175. In the first game, RIT rolled a 762 but was unable to keep pace in the second and third stanzas.

Keegan ranked first in overall average, posting a 164.2 for the season. Loni Berglund had the top dual match average with a 167.8. Keegan was tops in tourney action with a 164.7.

## Open Enrollment For Health Plan

Employees wishing to change their Institute health plans may do so by contacting Betty Bianchi or Colleen Gilfilian in the Benefits Office by April 30. These plans are Blue Cross/Blue Shield with Blue Million Major Medical, Group Health and Rochester Health Network.

### BC/BS/Blue Million

Blue Cross (hospital coverage) provides up to 120 days paid in full room and board for semi-private care. If this is exhausted, the Blue Million Major Medical provides for an additional \$1,000,000 subject to the deductible and co-insurance toward semi-private room charges. An allowance for four days of semi-private care is made for normal maternity coverage for the mother.

Full coverage for X-rays and certain diagnostic procedures when such services are rendered and billed by the out-patient department of the hospital. Blue Shield (physician coverage) provides payment for surgery, in-hospital medical visits and full maternity, based on the Blue Shield schedule of allowances.

X-rays are covered at 80 percent of the schedule of allowances. Certain other diagnostic procedures, along with physician office visits, consultations, ambulance service and prescription drugs are covered at 80 percent after a \$100 deductible has been satisfied per individual per calendar year.

### Group Health

Group Health is a comprehensive pre-paid medical group practice plan which means many things to different people. For some, Group Health appeals because it is the most economical way of providing health care for themselves and their families through pre-payment, guarding against unexpected medical expenses.

For others, the outstanding feature is its ready access and the assurance of appropriate medical care 24 hours a day, seven days a week.

In addition to providing virtually complete medical coverage, i.e., hospitalization, routine office visits, full maternity, pediatric care, routine physicals, eye examinations, etc., the plan offers to its members the choice of a personal physician from among the staff of professionals at the Joseph C. Wilson Health Center at 800 Carter Street (off the Keeler Street Expressway). We anticipate a 6 percent premium increase effective July 1, 1979.

### RHN

The RHN Plan is a system of more than 100 primary care physicians in nine medical centers in the Rochester area. Members select a private physician from those on staff at the center they choose. There they receive primary care (internal medicine, pediatrics, obstetrics/gynecology) and are referred by their personal physician to specialists for other needed care.

There is 24-hour access to physician care through emergency phone systems. The RHN Plan offers an opportunity to budget exactly the cost of complete medical care for the entire family.

As a member, one is provided with complete coverage for hospitalization as well as routine medical care which includes physical examinations, eye examinations, doctor's office visits, etc. RHN Plan physicians affiliate with one or more of all Rochester hospitals. The RHN Plan is designed to bring family-centered personalized health care services within easy geographic reach of nearly all area residents.

*Further information may be obtained  
by calling the Benefits Office at x2429.*

## Kleiman Scholarship

A lucky student in RIT's photographic processing and finishing management will benefit from the establishment of the David L. Kleiman Scholarship in Photographic Processing and Finishing Management which will be given for the first time this fall. The scholarship was established by Michael Kleiman in memory of his father David L. Kleiman, former owner of Kaufman and Fabry Co., and founder of K & S Photographics, Inc. Chicago.

"The four year, full tuition scholarship is designed to preserve the ideals my father believed in," said Michael Kleiman. "It will help some needy student spend four years studying photographic processing and finishing management, an opportunity my father would have appreciated," he added.

David Kleiman began working for Kaufmann and Fabry Company at 16 to help support his family. Thirty-four years later he owned the company. "Although my father's life certainly was one of long hours, and hard work, he was given the opportunity to prove himself in the industry," Michael Kleiman commented. "We hope to extend this same opportunity to others through the establishment of this scholarship."

The first recipient of the David L. Kleiman Scholarship, who will be selected on the basis of interest in photographic processing and finishing management and financial need, will enter RIT next fall.

## Einstein Lectures

In the context of Albert Einstein's birth centennial, the Physics Department is organizing two lectures by eminent scholars on Friday, April 27, at 7:30 p.m. at the Van Pearsom Lecture Hall in the College of Science.

Lecture 1: "Einstein and the World as He Saw It," Dr. John Stachel, Institute for Advanced Studies, Princeton, N.J.

Lecture 2: "Einstein and the World of Physics," Dr. Stanley Goldberg, Hampshire College, Amherst, Mass. Both lectures will be of a general nature, and are open to the public.

# PROFILE

## ROSEANNE JUDD: Many-Faceted Housing Job

She's lived in the Midwest, the Northeast, the South, Alaska, and the West Indies. And, she's gone through college as an adult, been a secretary, business teacher, office manager for a congressional race, and the right-hand person for the 1976-77 Kern Program/Institute Forum.

Now, she's the person to see in Housing for lock changes, releases from the residence halls, summer session housing, laundry and linen problems, and questions about NTID's 24-hour desk.

She's Roseanne Judd, assistant coordinator for administrative services/summer programs in the Department of Residence Halls. Her job is varied and hectic, and doesn't leave much room for paperwork. "I do that after hours," she admits.

One of her responsibilities even has her dreaming about keys at night. She's in charge of the entire key system for the residence halls and began her job in Housing a year ago by supervising the changing of 2,000 locks. For security reasons, the locks are changed periodically, but keeping track of the keys is a challenge. "We have six large cases of duplicate keys in a moldy old room," says Mrs. Judd, "I'd be up all night if I had to count them."

Another responsibility, the 24-hour desk, requires her to hire and train personnel and see that the desk is staffed 24 hours a day, seven days a week. NTID students use the desk to make reservations for meeting rooms, place phone calls, get recreational equipment, and as a source of information. Desk personnel are also trained to handle emergencies like illness or safety hazards.

But the aspect of her job that brings her into the most contact with students is processing releases from the residence halls. Students apply to live off campus through their Area Directors and then meet with Mrs. Judd. "I try to help them look at their situation and consider alternatives to moving off campus," explains Mrs. Judd. "We try to find some mutually acceptable solution, because once they leave it isn't easy for them to return."

Current Housing policy requires first, second, and third year students to apply for release from the residence halls if they want to live off campus. Next year, only first year students will be required to live in the residence halls.

Mrs. Judd also deals with complaints about laundry rooms and coordinates linen service in conjunction with the Residence Halls Association. She recently worked out a plan to return warm water to the laundry machines. Due to an energy conservation effort, the machines have been operating on only cold water since 1977.

"The students say the 45° water doesn't get their clothes clean and they're right," says Mrs. Judd, "so, we've worked out a way to return warm water to the system sometime this summer and will end up saving energy because the clothes will be easier to dry."

Summer housing is another part of her job. During the summer the residence

halls become virtual hotels. Four hundred people might come and go in three days while attending a special workshop or series of meetings at RIT. Mrs. Judd schedules their comings and goings, arranges for linen supplies and room cleanings, and dispenses information on residence rules, meals, and campus facilities. With a co-op student from the College of Business, Mrs. Judd began planning for this year's summer session in January.

"This is my first summer working with this part of my job," she says, "and it's almost a job by itself."

Everything isn't work though. She sets aside Tuesday at noon to pursue a favorite activity, ice skating in the Frank Ritter Memorial Ice Arena. "It's good exercise," she explains, "but I also get plenty of that walking around the residence halls."

## DATEBOOK

to April 27—Bevier Gallery. "RIT Graduate Thesis Show I." Open 9 a.m.—4 p.m. and 7-9 p.m., Mon.—Thurs.; 9 a.m.—4 p.m. Fri.; 1-5 p.m., Sat.; 2-5 p.m. Sun.

To April 27—A collection of photographs by Mike Riedlinger depicting the effects of exposure to nuclear radiation on a young man. Faculty Center, Library

to April 30—"Prints," by Carlos Torres. Library Gallery.

April 19—Chemistry Dept. Seminar. "Applications of Circular Dichroism to Organic Chemistry," presented by Dr. Lawrence Verbit. Noon-1 p.m., 12-1452.

April 19—Mathematics Colloquium. "Resource Task Scheduling By Integer Programming: Some Applications," presented by Prof. Harvey M. Salkin. 3:15 p.m., 08-3130.

April 19—Novels at Noon. *Wuthering Heights*, Emily Bronte. 12:10-12:50 p.m., Rm. 203, 50 W. Main St.

April 24—The Alumni Club of Greater Rochester will present: "Flexibility—a panel discussion of entry into the job market of the 80s," 1 p.m., Ingle Auditorium.

April 26—Chemistry Dept. Seminar. "Microbes, Nature's Original Chemists," presented by Dr. Stuart Tanenbaum. Noon-1 p.m., 12-1452.

April 26-27—NTID's 4th Annual Mini-Convention. "Sharing Perspectives," is the theme. There will be 32 topical sessions including workshops, panels, exhibits and papers; all designed to share information and ideas about deaf students at RIT. 8:30-4:30., NTID Academic Bldg.

### BAKE SALE TO INTRODUCE COOKBOOK

To introduce their cookbook, *Campus Cooks*, the RIT Women's Club will hold a bake sale on Wednesday, April 25, from 10 a.m. until 3 p.m. in the Alumni Union.

A variety of "goodies" will be available, made by some of the donors of baked food recipes as well as Women's Club members.

The cookbook will be available to those who ordered it in advance.

April 27—Institute Forum. "The Future of Capitalism in a Regulated Society," presented by Irving Kristol. 3 p.m., Ingle Auditorium.

April 27—Physics Dept. Seminar. Einstein Symposium with Dr. Stanley Goldberg and Dr. John Stachel. 3-4 p.m., reception to follow, 08-3130.

Talisman Film Festival

(I)=Ingle Aud. (W)=Webb Aud.

*Flaming Earth & The Andromeda Strain*  
—April 19, 7:30 & 10 p.m., \$1.50 (I)

*Woody Allen Marathon*—April 20, 7:30 p.m.  
—3:15 p.m. (April 21), \$5.50, (I) & (W)

*Jonah Who Will Be 25 in the Year 2000*

—April 21, 7:30 & 10 p.m., \$1.50 (I)

*Loving Couples*—April 22, 7:30, \$1.50

(I)

*The Land of the Dead & When Worlds Collide & The Day the Earth Stood Still*—April 26, 7:30 p.m., \$1.50 (W).

## 'PHONE MESSAGE

As of April 13, 1979, there will be a change in the way the Institute transfers incoming calls. The changes below are in the same format as the current Directory.

To transfer incoming calls\*

1. Tell the calling party you will transfer the call.
2. Depress the switchhook momentarily
3. Wait for dial tone
4. Dial the last four digits of the number the caller wants to reach
5. When the party answers, advise him or her you are transferring an outside call, then hang up. Both the outside party and the party to whom the call is transferred will hear a brief tone before they are connected. Do not hang up before the party to whom the call is being transferred answers or the call will be lost.
6. If there is no answer, or a busy signal, without hanging up depress the switchhook momentarily and so inform the calling party.

\*Only incoming calls from outside RIT can be transferred. You cannot transfer a call which you originated.

## In Memoriam

The man behind the mail at RIT for five years died suddenly last week. Former Mail Services Supervisor Ralph S. Callahan, who retired in June of 1978, passed away on April 11, at the age of 56.

Callahan joined the RIT staff on June 18, 1973, at a time when most people are ready to slow down, not start a new career. Callahan retired in 1972 from the U.S. Postal Service after nearly 30 years. While with Rochester post office, he held positions as mail carrier, foreman of delivery and foreman of parcel post. His last position was customer service representative for the Rochester area.

As head of RIT's mail operations, Callahan kept close rein on mailing rates for more than three million pieces yearly.

Ralph is survived by his wife Emily; two daughters, Mrs. Richard (Linda) Boston and Mrs. Jeffrey (Donna) McLean; three granddaughters; his sister, Mrs. Rita VanderWeel; his brother, Raymond Callahan, and several nieces and nephews.

A Memorial Mass of Christian Burial was held this morning in Our Lady of Good Counsel Church on Brooks Avenue.
