

Alumni Spur 150th Anniversary Planning

Enhanced alumni involvement in RIT's 150th Anniversary observance in 1979 was an apparent offshoot of last weekend's Together '78 activities.

Meeting on campus during the Homecoming/Parents' weekend, the new National Alumni Council recognized the upcoming anniversary observance as an opportunity to promote greater participation, noting that the 150th celebration offers opportunities for a new homecoming format for "Together '79."

One suggestion being considered is that "Homecoming Saturday" next year be structured as a major social event with alumni, faculty, students and staff joining in a "fun" competition by colleges of the Institute, similar to the television program, "Anything Goes." This is seen as a positive step toward increasing interaction and attracting more alumni to their individual college homecoming observances.

In line with this planning, it has been suggested that colleges may consider sponsoring hospitality rooms and mini-tours for returning alumni during the celebration/homecoming weekend, scheduled for October 19-21, 1979.

Meanwhile, planning for the 150th Celebration moved ahead on schedule, as all major committees have now met and coordinators in each area report ongoing progress.

A major success at this year's Homecoming was the Chuck Mangione concert, and the committee now is considering obtaining the services of a nationally known entertainer to headline next year's observance, with possibilities of using the ice arena being investigated in order to accommodate a larger audience.

Also highlighting next year's celebration observance will be a full-scale Career Day on Oct. 6. Dr. John Humphries, dean of Admission and coordinator of this project, said that each college will be asked to contribute meaningful career information. The event hopefully will attract 1,500 students, from as far away as New England.

Anniversary coordinators will meet Oct. 18 at 3 p.m. in the Board of Trustees Conference Room, to review plans for photo, printing and art shows during Anniversary Week.

Persons interested in assisting in any phase of the Anniversary celebration should contact the appropriate coordinator, as follows:

Concert	Dr. Gerald Argetsinger, Kathleen Steinke
Archive Ceremony	Betty Gocker Gladys Greenfield
Outstanding Teachers Honored	Dr. Harvey Edwards
John Wiley Jones Lecture	Gladys Greenfield
Institute Forum	Gladys Greenfield
Reedy Lecture	Betty Gocker
Gasser Symposium	Betty Gocker
Career Day	Dr. John Humphries, Dr. Richard Kenyon
Theatre Performance	Dr. Gerald Argetsinger Kathleen Steinke
Homecoming	Chris Hall, Doug Cartwright Terrance Doherty
Alumni Photo Show in College-Alumni Union	William Shoemaker
Outstanding Faculty, Student, Alumni Art Show—Bevier Gallery	Stanley Witmeyer
Celebration Dinner	George S. Beinetti, Frank M. Hutchins, Harris H. Rusitzky, Gaylord Whitaker
Campus Services	H. Donald Scott Edward Steffens
Convocation	Dr. Harvey Edwards

REEDY LECTURER

Henry Wolf, award-winning art director, designer and photographer, will present the first William A. Reedy Memorial Lecture in Photography in the 1978-79 series tonight (Thursday) at 7:30 in the NTID Theatre. His topic is "A Thousand Words are Worth a Picture;" the lecture is free and open to the public, and will be interpreted for the deaf.

Medical Plan Info

A representative of Blue Cross-Blue Shield will be on campus on the following dates to answer questions.

- Oct. 23, Monday, 9 a.m. Bldg. 99, Campus Services
- Oct. 24, Tuesday, 11 a.m. and 1 p.m. Room 1829, College-Alumni Union
- Oct. 25, Wednesday, 11 a.m. and 2 p.m. Room 1829, College-Alumni Union
- Oct. 26, Thursday, 2 p.m. Grace Watson (Food and Dorm Employees)
- Oct. 27, Friday, 10 a.m. 50 W. Main St.
- Oct. 31, Tuesday, 1 p.m. NTID Theatre

Dr. Miller Appointed as OSTP Advisor

RIT President Paul A. Miller has been appointed a member of the new Advisory Committee on Science, Technology and Development of the White House Office of Science and Technology Policy (OSTP).

The Advisory Committee will examine various federal programs and plans with regard to the relationship between science and technology and the needs of developing nations. More immediately, it will provide advice in the development of the new Foundation for International Technological Cooperation (FITC); it will also help plan the U.S. part in the United Nations Conference on Science and Technology for Development, to be held in Vienna, in August 1979.

Emphasizing the growing importance on science and technology in the United States' relations with the developing nations, President Carter earlier this year announced plans for the creation of FITC during a speech before the Venezuelan parliament.

"We believe that President Carter's initiative to establish the Foundation is a major step in more effectively enlisting science and technology for development," said OSTP director Frank Press, in announcing Dr. Miller's appointment.

Dr. Miller has an extensive and distinguished background in the relationships involving technology transfers to the developing nations.

universe of products that have helped to shape a departmental profile.

Dr. James J. DeCaro, associate professor and staff chairperson of construction technologies at NTID, has been awarded an "Educator of the Handicapped Award" from the Rotary Foundation of Rotary International for the 1979-80 academic year. He plans to study philosophy at Cambridge University in Great Britain.

Dr. Philip R. Tyler, College of Business, was recently awarded a silver cup for his outstanding work in this year's United Community Chest fund-raising campaign. He was honored as the district chairman within the top division of the Chest's Commerce and Industry section to reach the highest percentage of his district's goal. Dr. Tyler's district raised 105 per cent of its goal.

A SHOW YOU SHOULDN'T MISS

William Keyser's exhibit in Bevier Gallery is open through Oct. 13. A rare opportunity to see the full range of this master craftsman's work, the show offers 45 pieces including furniture, religious objects, and sculpture. Keyser is a faculty member in The School for American Craftsmen. Bevier Gallery is located on the first floor of the College of Fine and Applied Arts.

NEWS & NEWSMAKERS

Stanley Witmeyer, professor emeritus, is on his way to the Phillipines where he will be giving two lectures. A lecture with slides on RIT at the University of the Phillipines and a lecture on "Creative Sources," a course he taught at RIT, at a meeting of the Manila Arts Council.

The RIT Collegiate Chapter, American Marketing Association, has won honorable mention in the first annual collegiate competition, making it one of the top three chapters in the east. A plaque attesting to the honor is being displayed in the Office of the Dean, College of Business. Last year's chapter president was **Charles Speer**.

Burt H. Carroll, professor in the School of Photographic Arts and Sciences, chaired a session at the recent International Congress on Photographic Science.

The Personnel Department notes that the Rochester Health Network has moved its office to 500 East Avenue.

L. Thomas Hussey, director of Campus Services, will be leaving the Institute Nov. 1 to become assistant vice president for administrative affairs at the University of Missouri in Columbia.

Dr. Andrew J. DuBrin, psychologist and professor of behavioral sciences in the College of Business, spoke Sept. 29

to a group of controllers and other financial executives of Houdaille Industries in Boca Raton, Florida, on the topic, "How to be an Effective Controller without Creating Enemies."

Gene DePrez, executive director of the Urbanarium, Inc., led a special workshop at the National Conference on Citizen Participation in Washington, D.C. Sept. 28-Oct. 1. Rochester's Urbanarium, incorporated this past July by nine institutional chief executives and other community leaders, was described as a prototype for multi-institutional citizen participation efforts which were discussed by DePrez.

Bruce W. Grant, formerly director of scientific communications for the Department of Pathology at the Medical College of Pennsylvania, has joined the faculty of the College of Graphic Arts and Photography. He will be teaching biomedical photography in the School for Photographic Arts and Sciences.

"Media-rites," an earthly timepiece that chronicles the four-year history of the Media Production Department at NTID, will come into view Friday, (October 13), from 4 - 5:30 p.m. in the Dean's Gallery. A panorama of images will navigate the observer through a

NTID Tenth Year Events

NTID will celebrate its Tenth Year Anniversary the week of Oct. 16-22 with a whirlwind of special presentations, exhibits and performances at NTID and throughout the Greater Rochester area.

The week's activities begin Monday, Oct. 16, at 2 p.m., when NTID Dean and Director, Dr. William Castle, will present the City of Rochester and Mayor Tom Ryan with special equipment to help deaf and handicapped people better communicate with city government and services. Later that afternoon, NTID will present its thanks to the Town of Henrietta, in which the Institute is located.

Throughout the week the Rochester Telephone Pioneers organization will display the newest communications equipment available for hearing-impaired people. They'll set up the display in the Rochester Telephone Corporation's window in Midtown Plaza. During the lunch hour, the Pioneers will move the display into the plaza area and demonstrate the equipment.

On Tuesday, Oct. 17, NTID will hold receptions in the Institute's academic building for community deaf leaders, Rochester political leaders and key business and educational leaders.

Another major activity, a Legal Education Workshop for the Deaf Community, will take place Oct. 17, from 7-10 p.m., in the Brighton Town Hall. Judge Michael Telesca from Surrogates Court at the Hall of Justice will help show hearing-impaired people how to handle three everyday legal situations: landlord/tenant disputes, a domestic dispute involving two people and a will and probate dispute. The public may attend.

Chemistry Grant

The Chemistry Department at Rochester Institute of Technology's College of Science has received a \$9,500 matching grant from the National Science Foundation, project director James Frey has announced.

The grant will be used to purchase an ultraviolet-visible spectrophotometer, which will allow RIT's chemistry students to do a greater variety of experiments and research projects.

News and Events is published every Thursday by the Communications Office at Rochester Institute of Technology and distributed free of charge to the Institute community. For information call Norm Wright at 475-2750.

Sunshine and Company

Sunshine and Company, a newly formed performing group composed of two deaf and six hearing people from NTID, will present songs in music, mime and sign language from "The Wiz", a long-running Broadway musical hit, at several Rochester locations during the week. The group will perform for both hearing and deaf audiences at 7 p.m., Monday and Tuesday, Oct 16 and 17 at Eastview Mall in Victor. They will perform at noon, Wednesday, Oct. 18,

at City Hall. Other performances are at noon, Thursday, Oct. 19, at NTID; 7 p.m. Thursday, Oct. 19, at Greece Towne Mall; 7 p.m. Friday, Oct. 20 at Greece Towne Mall and 1 p.m., Saturday, Oct. 21, at Midtown Plaza. All performances are free and open to the public.

Anyone who wishes to arrange a visit or tour of the NTID facilities should contact the NTID Visitors Center at 475-6400.

CONTINUING EVENTS

to Oct. 13—Bevier Gallery. William Keyser-Wood, Furniture, Sculpture and Ecclesiastical Objects. Open 9 a.m.-4 p.m. and 7-9 p.m. Mon.-Thurs.; 1-5 p.m. Sat.; 2-5 p.m. Sun.

Oct. 12—Novels at Noon. *Walden*, Henry David Thoreau. 12:10 p.m., Rm. 203, 50 W. Main St.

Oct. 12—Wm. A. Reedy Memorial Lecture in Photography. Guest Lecturer: Henry Wolf, president, Henry Wolf Productions, Inc. 7:30 p.m. 7:30 p.m., NTID Theatre.

Oct. 14—Fall Plant Festival. 8:30 a.m. - 4:30 p.m. 4:30 p.m. West side of Fine Arts Bldg. Open house in the new kiln structures. 9 a.m. - noon. For info. call x2852.

Oct. 16-20—Graphic Arts Research Center. "Quality Control for Photographic Processing." For info. call x2774.

Oct. 18—Approaches Series. "Making Choices." 3-5 p.m., Counseling Center, Grace Watson. For info. call x2261.

Oct. 17—Biology Seminar. "Lectins: Cell-Agglutinating Sugar-specific Proteins," by H. Brumberger. 1 p.m., 8-1130.

Oct. 19—NTID Theatre. Sunshine & Co. performing musical numbers from the Broadway hit, "The Wiz". Noon. NTID Theatre.

Talisman Film Festival, Ingle Auditorium

Outrageous—Oct. 13, 7:30 & 10 p.m. \$1.50

Mysterious Island—Oct. 14, 2 p.m. \$.50

Equus—Oct. 14, 7:30 & 10 p.m. \$1.50

The Middle of the World and *We All Loved*

Each Other So Much—Oct. 15, 7:30 p.m. \$1.50

'Broadway on Ice'

Save the dates Nov. 17, 18, or 19 for "Broadway on Ice," a skating show organized by the Genesee Figure Skating Club. The cast includes members of the club and selected members of the U.S. National, Olympic and World Figure Skating Teams. Tickets to the RIT community will be available through RIT's Women's Council and Women's Club and can be purchased at the College-Alumni Union desk or at the RIT Ice Rink Office. Performances are at 8 p.m. on Nov. 17 and 18 and at 2 p.m. on Nov. 19.

Together '78

Homecoming — Parents' Weekend

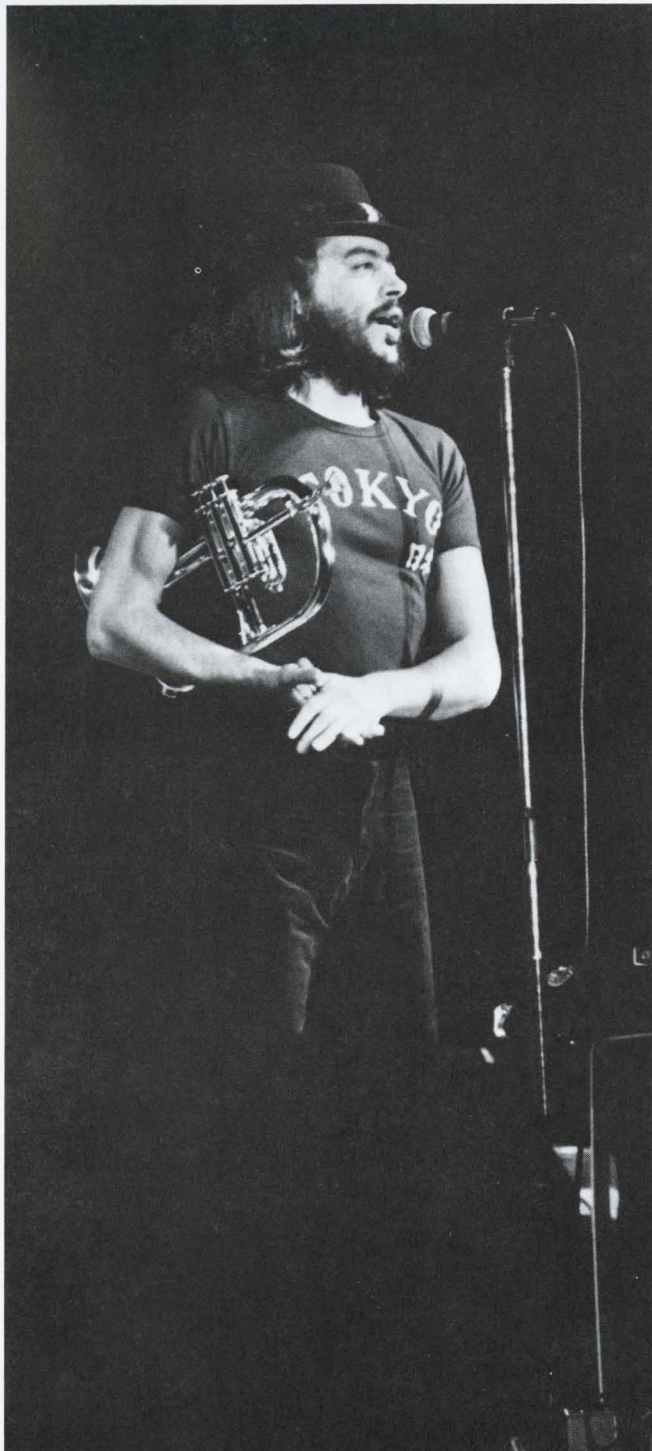

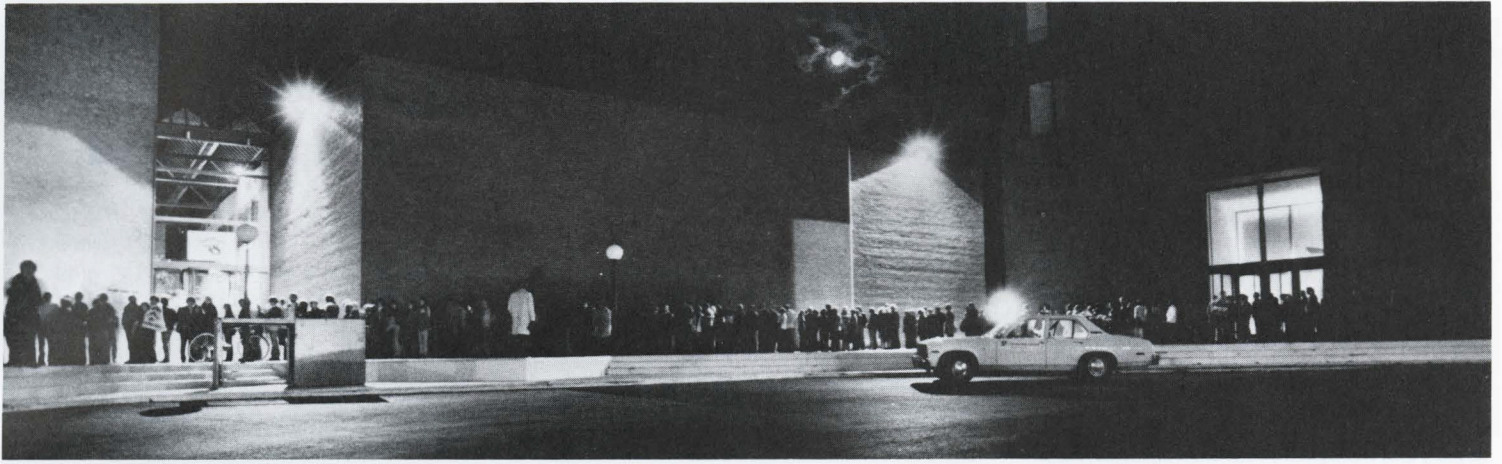

The hundreds of alumni, parents and students who attended "Together '78" events last weekend took in such attractions as concerts by Bat McGrath and Chuck Mangione, presentation of Distinguished and Outstanding Alumni Awards, class reunions, Sports Hall of Fame dinner and the CAB Happy Hour in the College/Alumni Union.

Class of 1928

Outstanding and Distinguished Alumni

GRANTS DEADLINES

Please note: GUIDELINES FOR ALL PROGRAMS ARE ON HAND OR HAVE BEEN REQUESTED: Please call the Grants Office for additional information, 50 West Main Street, 475-2388.

October 15—Pre-College Teacher Development in Science Program, National Science Foundation. (1) Participants are *elementary and junior high school teachers*. (2) Projects may vary from short conferences, to periodic evening or weekend meetings during the school year to full time summer activities which may range from one to four weeks in duration. (3) Projects may deal with single discipline, multi-discipline or interdisciplinary subjects in science, including social science and mathematics (4) Instructional mode could vary from the inquiry approach, the lecture method, a laboratory orientation, the utilization of technology or other approaches.

U.S. Office of Education

October 24—Handicapped Personnel Preparation, A program for training of personnel in the education of the handicapped. One thousand grants are anticipated at an average award total of \$55,000.

October 16—Student Research Program, To support research related to education of the handicapped. Priority is assigned to research-related projects focusing on the education of handicapped children. There will be a second deadline date scheduled for March '79. Grants last year ranged from \$1,000 to \$15,000 per year. Applications may request support for projects extending from 1 - 3 years in duration.

October 18—Handicapped Children's Early Education Program, Provides awards for demonstration centers projects. Previous grants have ranged between \$60,000 - \$70,000.

October 31—Field Initiated Research (Handicapped), For research related to education of the handicapped. USOE is interested in a broad range of research and research-related projects focusing on the education of handicapped children. 1 - 3 years funding is available and grant awards range from \$10,000 to \$150,000 per year.

November 6—College Library Resources Program, Institutional Grant to be prepared by RIT.

November 17—Women's Educational Equity Act Program, The purpose of the award is to develop educational materials and model programs designed to promote women's educational equity. The materials and program that are developed should be replicated and distributed throughout the United States. Institutional application to be prepared by RIT.

November 27—Educational Opportunity Centers Program, Grants averaging \$200,000 - \$240,000 are available for projects that serve areas with major concentrations of low-income population by providing incorporation with other applicable programs and services: information concerning financial and academic support for persons living in the area who desire to pursue a program of post secondary education; counseling, tutorial, and other necessary services to such persons while attending post secondary institutions; and assistance in applying for admission to post secondary institutions.

November 3—Fulbright-Hays Training Grants,
a. Faculty Research Abroad Program
b. Foreign Curriculum Consultants Program
c. Group Projects Abroad Program
d. Doctoral Dissertation Research Abroad Program

December 29—Model Programs for School Aged Handicapped Children, The purpose of the awards is to develop and conduct model programs designed to meet the special educational needs of handicapped children.

December 15—Consumer's Education Program, The purpose of this program is to increase the capacity of organizations and institutions which educate consumers to prepare people for intelligent participation in the marketplace and in the economic system. Priority is given to applications which are designed to serve as models or which build an organization's long-range capacity to provide consumer's education. 55 or 60 awards are anticipated at an average total of \$45,000 per year.

December 22—Public Service Education Program, This program issues awards to institutions of higher education to develop training programs by providing fellowship, and in some instances, institutional grants, for graduate or professional study for persons who plan to pursue a career in public service. Forty institutional grants at an average award of \$25,000 are anticipated. Three hundred new fellowships are available for individual students to apply for.

Skiing Program

A group of interested people at RIT and NTID are getting together to qualify for special rates in a new winter skiing program at Bristol Mt. The program isn't affiliated with RIT or NTID and won't conflict with those involved with the RIT Ski Club. The program is being organized by the Bristol Mt. Ski School. Bill Repp, communications associate at NTID, is coordinating the formation of the group.

The eight-week program will include instructions for people at any level of skiing (including those who have never skied before), lift tickets for Wednesday and Friday evenings, and optional rental of equipment. For those who would like to lease new equipment with the option to buy it at the end of the season, there's a special program available.

The lift tickets will be good from 5 to 10 p.m. on the three evenings available for this program, and may be used from Jan. 1 through March 18. The cost of the eight-evening program is \$58 per person; \$90 with rental of equipment.

For further information, contact Bill Repp, NTID Public Information Office, Rm 2328, x6506.

Communications Independent Study Plan Is Offered

The Communications Office, in conjunction with the Division of Career Education, is ready to provide meaningful writing, design and photography experience for a limited number of students through a new independent study program. Communications will work with certain students who have the consent of their department on a choice of independent study projects that are related both to the student's course work and the office's duties.

For example, selected design students, on an independent study basis, would be assigned to carry out a specific work project for Communications while applying various skills learned in the classroom. Not only will the students have the benefit of the Communications designers' expertise, but they also will have the opportunity to work in a professional setting with work-world standards and deadlines.

Photography students could be involved in Communications' photo work from actual picture taking through production. Students taking advanced English courses could assist Communications in the development of various feature articles for internal and external publication. These students also would benefit in similar fashion through their work relationship with Communications staff persons.

For more information, please contact the director of Communications, Jack Smith, at 475-2348.

Plant Festival

A fall plant festival will be held Saturday from 8:30 a.m. to 4:30 p.m., rain or shine, according to Charles Smith, Campus Services.

The planting area is on the west side of the Fine Arts Building, near the new kiln additions.

Smith said that students, faculty and staff are welcome "to come out, plant a tree and help make the campus green." Free beverages will be served.

In connection with the plant festival, the College of Fine and Applied Arts will be conducting an open house in the new kiln structures from 9 a.m. to noon.

Dottie Lowe is Alive and Well

Mrs. Carroll Lowe. In appreciation for her generous donation of the ladies lounge. From the female employees of Oak Hill.

Dottie Lowe laughs when she shows a guest the plaque on the door of the ladies lounge at Rochester's Oak Hill Country Club.

"Everytime I see it, I feel like I'm reading my obituary," she says, explaining, "Whenever a member dies, they put his name on a tree or a bench or something."

Dottie is very much alive and heading the Women's Information Center of RIT's Admissions Office. And she's obviously proud of the reason why the Oak Hill employees put up the plaque.

Two year's ago, when she was president of the Women's Association, she found the room where the female employees changed clothes was not up to par with the rest of the facilities at Oak Hill. So she challenged what she refers to as "one of the last bastions of male chauvinism in Rochester," and the room was tastefully redecorated.

"It's not that the men who run Oak Hill weren't concerned," she points out. "They were just not aware how bad it was."

Dottie displays the same enthusiasm and zeal with which she went to bat for the women employees at Oak Hill in her career. She started teaching first grade when she was 18, following her graduation, magna cum laude, from SUNY Buffalo. ("I started when I was 14," she replies when asked how she managed to graduate from college that young.) Within six years, she was made a supervising teacher, and eventually served as a principal in the City District and headmistress of The Phoenix School.

An offshoot of her teaching career was one in television. "I was asked to appear on WROC-TV to explain what we were doing in reading in the city schools," she explains. "At that time there were no programs for children, no Sesame St. So they asked me to dream up a show.

"I took a group of unrehearsed children, read them a story and got their reactions."

That show lead to another sponsored by the Junior League and eventually to television commercials. Along the way, Dottie obtained a realtor's license, worked

as a buyer of children's books at Scrantom's and was involved in numerous volunteer activities.

Perhaps it's her own life's experiences which make her feel so strongly about women being prepared for meaningful careers.

"It would be nice to think one got married and lived happily ever after," she says, but she knows it just isn't so. She was widowed when she was 21, again when she was 36. She's now married to Carroll Lowe, a manufacturer's representative.

Dottie sums up her RIT role in one word: awareness. "I'm trying to make young women, especially those in junior high school, aware of what they can do. You have to start that early so they can take the high school courses they need.

"You can't go up to a high school senior and tell her 'Honey, you're going to be an engineer.' By then it's too late."

Women need to get into the non-

traditional career fields, she emphasizes, citing government statistics indicating the earning power of women is actually declining. According to the Department of Labor, the female college graduate's earnings are, on the average, equivalent to those of a man with an eighth grade education. It's not a matter of equal pay for equal work, but simply because the higher paying fields are not those traditionally sought after by women.

"Women must be prepared to take care of themselves," Dottie states, mentioning a divorced mother of seven who came to her recently for counseling.

But there's more to Dottie's life than her career. She's an avid golfer, plays tennis and skis. And she obviously spends some time on more domestic pursuits as a visitor to her office will discover when she samples the homemade goodies Dottie keeps in a cookie tin in her desk.

SPORTS . . . from Roger Dykes

Paced by junior linksman Bruce March, the RIT golf team had a triumphant week, capturing the Allegheny Invitational and tying for first place honors in the prestigious ECAC District Qualifier at Elmira.

March walked off with medalist honors in the Allegheny classic, posting a three-under-par 69. Teammates Kip Colwell (74), John Rush (78), Steve Loomis (80) and Joe Valvo (81) guided RIT to a five-stroke win over host Allegheny. The Tigers totaled 382 for the tourney. Slippery Rock placed third, followed by West Virginia and Gannon.

In the ECAC Qualifier, RIT was true to the test, carding a 317 total to tie with Gannon. The two squads earned the right to represent the district in the ECAC Championships slated at Manchester MA., this weekend. March, Rush and Colwell carded 79's and Loomis added an 80 for the team's winning score.

Rush is in front in team average with a 77.5. March follows at 78.4 and Colwell shows a 79.0.

The RIT cross country squad continued its unbeaten record with victories over St. Bonaventure and Ithaca last week. The Tigers thwarted St. Bonaventure, 23-55 on the road, then captured their seventh shutout of the campaign with a 15-50 decision over Ithaca at home.

Chuck Ellis led the local harriers, recording the third fastest time by an RIT runner over the home course. The freshman was clocked in 32:15.7 for the 10,000 meter course. It was also the 11th fastest time ever run on the home course.

Against Ithaca, RIT had nine men cross the finish line ahead of the first Bomber runner.

In the second game the Tigers rallied with three runs in the sixth to take a 4-3 lead. Brockport tied it in the seventh and won it in the eighth on an inside-the-park homer.

The Tiger soccer team downed Geneseo (1-0) then lost to Clarkson (1-0) and St. Lawrence (5-0) in action last week.

IN HALL OF FAME

1978 Sports Hall of Fame inductee Lou Alexander (left), former director of athletics, poses with William H. Carey, director of athletics, prior to annual Hall of Fame dinner last week.

Doug Fisher scored the winning tally against Geneseo with a penalty shot in the second half. Steve Owens recorded his first shutout of the campaign with seven saves.

The Tigers outplayed Clarkson the entire contest but were unable to score. In the overtime, Clarkson tallied midway through the first period and it held up for the 1-0 win. Owens had seven saves. In the 5-0 loss to St. Lawrence, the Tigers mustered only six shots to 26 by the Saints. Owens had a solid effort with 21 saves.

Paced by Marie McKee, Chris Taylor and Heather Morgans, the women's tennis team rolled past MCC, 4-1. The RIT record stands at 6-1. McKee and Taylor remain undefeated with 7-0 singles marks. Katie Kupp and Pat Corcoran combined for a doubles win and boast a 6-1 mark on the year.

In men's tennis, the RIT netters suffered their first loss with a 6-3 setback at Geneseo. Jeff Wasserman remained undefeated for RIT in singles with a 7-6, 6-1 victory. Wasserman is 5-0 on the season. Dave Hass won his singles match and Jim Papagni combined with Jim Freimuth for the lone doubles win.

Mark Kleinke continued his torrid hitting pace last week as the Tigers split

with St. Bonaventure (9-5 and 5-6) and Brockport (6-2 and 4-5 in eight innings).

The center fielder collected nine hits in 15 at bats, scored four runs and recorded two triples and seven RBIs for the week. He is batting .542 and appears headed for the season record of .500. Kleinke needs seven hits to tie the mark of 33 in a season.

Southpaw Mike Carr collected the win over St. Bonaventure, pitching the route and yielding only three hits. He struck out eight. The Tigers scored six runs in the fifth inning, highlighted by Jeff Hall's two-run single. Jeff Good walked three times, singled and scored two runs.

In the second game Hall, Kleinke, catcher Gil Frank and designated hitter Dennis Canty each collected two hits in four trips. Hall scored two runs, stole two bases and knocked in a run.
