

Five Divisions:

Institute College formed under Dr. Satre

RIT's ninth college--The Institute College--was established this month with five departments, according to Todd H. Bullard, provost and Vice president for Academic Affairs.

Under the leadership of Dean Roy I. Satre Jr. are the School of Applied Science, the Center for Community/Junior College Relations, the Department of Packaging, the Department of Computer Science and Technology, and the Department of Instructional Technology.

The name "Institute College" was selected "to highlight the special dependence/service relationships of the components of this new college to other academic units of the Institute," said Dr. Bullard.

The five components bear no necessary relationship to each other, Dr. Bullard said. They had been in a reporting relationship to Dr. Satre before The Institute College was formed.

The School of Applied Science was established in fall 1970 as an upper division school taking transfers from two-year colleges into two Engineering Technology programs. Civil, electrical and mechanical engineering technologies are offered currently.

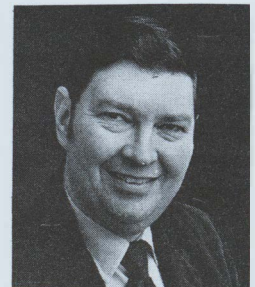

The Center for Community/Junior College Relations was established in 1968 as the Center for Community College Faculty Development. Its masters level graduate programs prepare teachers in the technologies for community college service. It also maintains close contact with two-year colleges through sponsorship of special seminars for administrative college personnel and faculty and various other efforts to promote RIT/two-year college communications.

Established in fall 1972, the Department of Computer Science and Technology accepts both freshmen and transfer students.

The Department of Packaging Science will begin this fall for freshmen and upper division students. Three options are packaging management; packaging design; and technical research and development.

The Department of Instructional Technology will become operative in January 1974 with a graduate program leading to the master's degree.

Dr. Satre, a bioecologist, is completing his second year at RIT. He spent 22 years with the State University of New York system as a biology professor at the SUNY College at Geneseo, dean at Niagara County Community College and president of the Community College of the Finger Lakes. He lives at RD #4 Rosier Road, Canandaigua, N.Y.

Dr. Satre

Hobbs manages Communications Services

Hobbs

Padraic G. (Pat) Hobbs has been named manager of Communications Services at Rochester Institute of Technology, according to Edward P. Curtis Jr., vice president for Public Affairs.

Hobbs will be responsible for providing supervision and management for the operational aspects of the RIT communications program, as well as the planning, development and evaluation of public information, marketing, publications and related activities of the Public Affairs Division.

A native of Haverstraw, N.Y., he is a graduate of the University of Denver (B.A.) and Syracuse University (M.S.). Both of his degrees are in journalism.

Prior to joining RIT, Hobbs was the public relations supervisor for Itek Business Products, Rochester division. He has also been employed by Rumrill-Hoyt, Inc., Friden, Inc., and Harshe-Rotman, Inc.

He currently serves as a director of the Clifton Springs, N.Y., Young Men's Christian Association.

Hobbs and his wife and their three children live at 46 Kendall St., Clifton Springs.

Hobbs will be visiting deans and department heads within the next few weeks.

Women's Caucus to meet

The Women's Caucus will meet from noon to 1 p.m. Tuesday, Aug. 21, in the Mezzanine Lounge of the College-Alumni Union. Questions should be phoned to 2582.

Johnston trip focuses on potters' techniques

Dr. Robert H. Johnston, dean of the College of Fine and Applied Arts, has returned from an extensive trip to Afghanistan, Iran, Jordan, Israel and Cyprus, where he studied potters' techniques and practices in remote areas.

The research was sponsored under a grant from the American Council of Learned Societies.

Dr. Johnston recorded these ethnographic studies of potters on 16mm film and with still cameras. He was assisted by Louise Elizabeth Johnston, who acted as ethnographic recorder.

This is the seventh trip made by Johnston to study craftsmen's practices in areas little visited by Western craftsmen.

Dr. Johnston has completed an article on the use and development of the tournette or slow wheel in the Troodos Mountains in Cyprus. It will be included in a special publication of the American School of Oriental Research Bulletin published at Harvard University.

The films produced this summer will be used as part of a lecture series sponsored during the coming year by the American Institute of Archaeology and given at a number of craft meetings around the United States.

Amos commended by Red Cross

Edward J. Amos Jr., who graduated from RIT this year in photography, has received a Certificate of Commendation from the American National Red Cross for conceiving and establishing the first Student Safety Unit here.

The certificate, from American National Red Cross President George M. Elsey, reads:

"At considerable sacrifice of personal time, Edward Amos initiated the idea of and co-founded the first Student Safety Unit on campus at his school, Rochester Institute of Technology, Rochester, N.Y. A Student

Dr. Leslie to deliver Goudy lecture

Dr. Robert L. Leslie, known for his educational efforts throughout the graphic arts industry, will receive the fifth annual Frederic W. Goudy Award from RIT Friday, October 19.

After the presentation, Dr. Leslie will deliver the 1973 Frederic W. Goudy Distinguished Lecture in Typography in Booth Auditorium in the College of Graphic Arts and Photography.

Dr. Leslie, a native of New York City, is internationally famous in the graphic arts field. For many years he was president of the well-known typesetting firm, The Composing Room, and most recently he has organized and offered 15 series of lectures on the Heritage of the Graphic Arts. This series has brought almost 200 world-renowned figures to New York to talk about their specialties. He is also the founder of Gallery 303, a showcase for the work of young designers.

He has taught at Pratt Institute of Art and Cooper Union, acted as consultant and advisor in graphic communication to New York University and served as chairman of the advisory commission for the Department of Art and Advertising

Design of New York City Community College.

Dr. Leslie has received numerous awards during his long career. They include: the Medal of the American Institute of Graphic Arts; the Type Directors' Club medal; the Brotherhood Award of the Graphic Arts and Fine Paper Division of National Conference of Christians and Jews; and the Printing Teachers Guild Man of the Year Citation.

The Goudy Award, established at RIT in 1969 by a grant from the Mary Flagler Cary Charitable Trust, is presented annually to an outstanding individual in the graphic arts field. The award is a silver bowl handcrafted by noted silversmith Hans Christiansen, a faculty member of RIT's School for American Craftsmen.

The first recipient of the award was German type designer Hermann Zapf. He was followed in 1970 by typographer and illustrator Warren Chappell; in 1971 by internationally known type designer R. Hunter Middleton; and in 1972 by Dr. Giovanni Mardersteig of Verona, Italy.

OLYMPIC RUNNER DAVE WOTTLE (right) recorded 4:00.6 minutes when he ran the invitational mile at RIT's track field Sunday. Wottle finished one inch ahead of Dick Buerkle of the Rochester Track Club in the "Great Race" which a record crowd of 4,000 viewed.

Courses directed to personnel administration

Two courses related to personnel administration are being planned by the Extended Services Division.

A 10-week course on New York State Civil Service Law and Personnel Administration will begin Sept. 26. It will provide an understanding of the relationship of civil service law to personnel administration in governmental organizations and related institutions.

Ron Profetta, assistant personnel director, Bureau of Personnel, City of Rochester, will conduct the course on consecutive Wednesday evenings from 7 to 8:30 p.m. at the Metropolitan Center.

It will be geared toward government personnel directors and their staffs, and anyone interested in learning

more about state and local personnel practices in all areas where Civil Service employees are involved.

Topics which will be covered include: the personnel function; evolution of personnel systems in the U.S.; evolution of the Civil Service system; classification and compensation; recruitment of personnel; staff training; development and evaluation; and employee unionism.

"Current Factors in the Employment Interviewing Process," a two-session seminar intended to improve skills in technical and legal aspects of the employment interviewing process, will be offered on Oct. 4 and 11 for employment interviewers and supervisory personnel.

The seminars will be held at the Metropolitan Center from 9 to 11 a.m., and will be conducted by Everett C. Merritt, M.I.L.R., who will discuss effective interviewing skills, and Gerald L. Paley, attorney, who will discuss interviewing and the law.

Short discussions by Merritt and Paley will be followed by participant-oriented and problem-centered discussions.

For further information on tuition and registration for either course contact Bob Maurice, 2709 or 2708.

Linton-Walls awardees selected

Photography students James Cummings and William Mueller have received Linton-Walls Scholarship Awards for 1973-74.

Cummings, of 1124 Arizona Ave., Ft. Lauderdale, Fla., has been active in Alpha Phi Omega, national service fraternity; College Union Board as operations director; RIT Glee Club; as an IOHA court justice; and on the executive committee of the RIT Blood Drive.

Mueller, of 70 West Shore Drive, Massapequa, NY, is a member of the RIT Student Safety Unit; president of the Student Christian Movement; Centra representative; and brother and vice president of Alpha Phi Omega.

The scholarship is aimed at students who have a grade point average below 3.0, yet are making a contribution to the Institute through their activities.

The scholarship was set up by Mr. & Mrs. A. Arthur Gorfain of 121 Fountain Terrace, New Haven, Conn., in the name of A. Stephen Walls, director of the College-Alumni Union, and his former secretary, Beverly Linton, for their help in working with the Gorfains' son while he was an RIT student.

Amos commended

(Continued from page 2)

Safety Unit is a mobile emergency first aid team. It is unique and may provide the leadership for establishing similar units on other Rochester campuses. Mr. Amos is director of training for the Student Safety Unit. As such, he recruits members for the team and gives them training in standard and advanced first aid. His deep interest in safety has also led Mr. Amos to develop methods of teaching first aid to the deaf. He has assisted in adapting the standard first aid multimedia course for teaching the deaf. Mr. Amos has made an outstanding volunteer contribution to many people of all ages."
