College Union Information Director Ed Steffens will auction merchandise at Women's Club Scholarship Dance Saturday night.

Scholarship Night Dance, Auction To Be Saturday

The Women's Club Mardi Gras Scholarship Night dance will be held Saturday, March 10, at 8:30 p.m. in the College-Alumni Union.

"The Sound System," the band that played for last year's scholarship dance, will provide music again this year.

Free door prizes will be awarded, and a number of gift certificates and household appliances will be auctioned.

Tickets for the dance are available from Ed Steffens at the College Union desk or Ms. Jean Crawford in the Bursar's office.

Mayor Howard Lee To Speak March 28

Howard N. Lee, the mayor of Chapel Hill, North Carolina, who has been in the forefront of the reform of political and social institutions, will speak at RIT Wednesday evening, March 28 at 8 p.m. in Ingle Auditorium, College-Alumni Union.

Lee's appearance is sponsored by the Department of Social Work and the Genesee Valley chapter of the National Association of Social Workers.

He will speak on "The Relationship of Politics and Social Work to You and Me." His lecture is open to the public, and is the first of a series of events planned to celebrate RIT's Fifth anniversary on the Henrietta campus.

Lee

Lee will be on the RIT campus, meeting with social work students and other administrators throughout the day. He will meet with Rochester Mayor Stephen May in the morning.

In addition to being mayor of Chapel Hill, Lee, 37, is director of Human Development at Duke University; vice-chairman of the North Carolina Democratic Party; a member of the Board of Directors of the Southern Regional Council; and a member of the National Executive Board of the National Association of Social Workers.

The son of a Georgia sharecropper and a one-time high school dropout, Lee was first elected mayor of Chapel Hill in 1969.

Kern Prof Dreams The Possible Dream

Someone recently said Harley Parker looks like Don Quixote. While the new Kern Professor of Communications may resemble the Man from LaMancha, his dreams are not impossible.

Parker, who came to RIT in January from the University of Toronto to fill the first campus-wide chair established by Rochester Telephone, sees his role as building bridges of communications among people.

To accomplish this, Parker has been conducting seminars. One consists mostly of students with a few faculty, another has mostly faculty and a few students, the third reaches into the community.

"One of my roles is interdisciplinary communication--providing opportunity for people to see common ends," he pointed out. "It not only means improving communications within the Institute, but helping RIT to communicate with the community.

"In one sense it may have to happen at RIT's 50 W. Main St. campus first and then spread. That's one reason why we are conducting a seminar on Tuesdays on the campus downtown."

Parker is first to admit that he has no magic words to build his bridges of communication.

"Why am I here?" an RIT student asked one evening as he joined a seminar at Parker's home. "You're the communications expert--tell me."

Parker made the student answer his own question. "I don't have answers to all student, faculty or campus problems," he stated. "But I do have a lifetime of communications experience that helps me ask the right questions that bridge communications gaps."

Parker also has expressed an interest in the National Technical Institute for the Deaf. He is attempting to secure a grant to study the ways both the deaf and blind structure space. He feels his findings could result in new ways to teach the deaf.

He also is interested in education of the deaf in China.

"Literacy is no problem there because they do not use a phonetic alphabet," Parker said. "Yet in the United States the overall literacy level is much below normal. It may be possible to foster a new language based on written sign language that will overcome that problem for the deaf of this country."

Parker also plans a worldwide tour to lecture at educational institutions. He said it will be a way of carrying the RIT banner internationally.

His role as Kern Professor is scheduled for one year.

"RIT is so diversified that the person who occupies this chair should not be a specialist, but broad enough in experience to be able to relate to all programs on campus," Parker said. "It's up to students and faculty to understand the organization and pressure that each operates under."

Parker said he hopes people will think of him as a person--and not just as the person who holds the Kern Chairmanship.

Available
For Events**

Any college or department planning a special event during RIT's upcoming Fifth Anniversary celebration (March 28--June 9, 1973) should contact Mrs. Loma Allen in the Community Relations Office (464-2342) to make sure the event is properly listed.

Copies of the Fifth Anniversary logotype, designed by the Communications Services office, are available from Mrs. Allen for anyone at the Institute planning a Fifth Anniversary event.

The logotype is suitable for duplication on letters, memos, invitations, or other printed material.

The Fifth Anniversary celebration consists of a series of campus events beginning with the appearance of Mayor Howard Lee of Chapel Hill, North Carolina, March 28 and culminating with commencement ceremonies June 9.

Film Director At Photo School

Well-known Romanian film director Mihai Iacob, who has been given numerous film awards at international film festivals, recently visited RIT and met with students, faculty and staff. Arrangements for the visit were made by Professor Reid Ray of the School of Photographic Arts and Science's Film Making and Television program. From left are: William S. Shoemaker, director of the School of Photographic Arts and Sciences; Mihai Iacob; Reid Ray; and Dr. Lothar K. Engelmann, dean of the College of Graphic Arts and Photography.
