

Lehman Appointed TV Head

William F. Lehman

RIT Effort Cited

The Printing Salesman's Herald issue on RIT has been honored as an award winner in the 1972 competition by the Printing Industries of America, Inc.

The Herald, a Champion Papers publication, was an interdisciplinary effort at RIT. It was coordinated and designed by Roger Remington of the Department of Communication Design. Articles in the issue were written by Joseph Noga of the School of Printing and Selah Bond and William Siegfried of the Graphic Arts Research Center.

William F. Lehman, former television coordinator at Wright State University, has been appointed coordinator of the television center at RIT.

Lehman, 45, is a native of Kalamazoo, Michigan, and has an M.S. in Education from Purdue University and an A.B. in history from Indiana University.

As coordinator of the television center, Lehman is responsible for coordinating RIT's television efforts on campus and off campus as they relate to instruction and communications, according to Dr. Richard Zakia, director of instructional research and development.

From 1967 to 1969, Lehman was program/production director for the Delaware educational television network, with responsibility for planning and coordination of all statewide network programs.

Prior to that he was assistant film librarian in the audio visual center at Purdue University and worked for several years in commercial radio and television.

He has worked as a consultant to the Metropolitan Dayton Council of Governments and with the Rand Corporation (Kettering--Ford Foundations) CATV study.

He is a member of the National Association of Educational Broadcasters and the Association for Professional Broadcasting of the National Association of Broadcasters.

The 1972 P.I.A. competition received 3,488 entries. "Each winning entry had to be a prize example of quality printing and excellent design" said Joseph Hennage, chairman of the competition. Eastman Kodak Company and Harris-Intertype Corporation are co-sponsors of the program.

Libraries of Systems Case Studies were presented to the Rochester Institute of Technology and Monroe Community College recently by the Rochester Chapter, Association for Systems Management. Shown (left to right): Mr. Peter V. Wagner, ASM Secretary; Prof. Macon Preston, Monroe Community College; Prof. Ronald Stappenbeck, Rochester Institute of Technology; Mr. L. Ross Outwater, ASM Education Chairman. The FOCUS for the 70's Symposium, also sponsored by the local ASM Chapter and chaired by Mr. Outwater, was held to introduce RIT's new degree program in Computer Systems to the business community. The libraries consist of bound volumes of systems development case studies.

Photo Chem Course To Be Offered

A course in Photographic Chemistry, dealing with the chemistry and photographic properties of photographic emulsion and developer solutions, will be offered by the College of Continuing Education this fall.

Professor Ronald Francis, instructor for the three quarter course, stated that the program carries 12 quarter credit hours and is intended to be at the upper undergraduate or first year graduate level.

"The level of the course will be tailored to the background of those enrolling, and will assume that students have only an introductory knowledge of chemistry. Yet the science or engineer-

ing graduate entering photographic research or involved in other areas of photographic technology will find in the course a basis for his work and for further study," Francis said.

Topics for the course will be: formation and growth of silver halide crystals, chemical and spectral sensitization, addenda and coating, latent image theory, theory and application of conventional and diffusion transfer processing, comparisons of silver halide and non-silver photographic systems.

Inquiries regarding the course may be directed to: Prof. Ronald Francis, Chairman, Photographic Science and Instrumentation Division, 464-2786.

Alumni Achievement Awards Presented to 14 Graduates

Fourteen graduates of RIT have received Alumni Achievement Awards from the Alumni Association for reflecting honor upon the Institute and the association by their recent significant achievements.

They are James L. Amos (PH '51) of Annapolis, Md., who was named Magazine Photographer of the Year for the second straight year by the National Press Photographers Association; Harry E. Chrisman (PR '48) of Denver, Colo., whose book, "When You and I Were Young, Nebraska!", was recently published; Robert H. Bernhard (EL '57) of Paramus, N.J., recently appointed design manager of Engineers, Inc., of Newark, N.J.;

Donald A. Desrochers (ME '53) of Macedon, recently appointed vice president for manufacturing of the Crosman Company of Fairport; Moreland O. Lysher (BA '61) of Singapore, recently appointed regional manager of Sybron Asia Ltd. for Singapore and Indonesia; Edward L. Meyers (PH '57) of Flushing, N.Y., recently appointed ex-

ecutive editor of "Popular Photography" magazine.

Kenneth W. Jones (ME '31) of Oakland, Md., recently promoted to manager of facilities services of the Oakland lens manufacturing plant of Bausch & Lomb's ophthalmic and consumer products division; William C. Guyette (CE '45) of Springfield, Mo., recently promoted to president of the advanced circuitry division of Litton Precision Products, Inc.; Donald C. Switzer (EL '39) of Granby, Conn., recently elected executive vice president of Northeast Utilities Services Co.; William J. Streeter (PH '60), of Sparrenlaan 1, Soest Duinen, the Netherlands, recently elected president of Dalco, Inc., a Netherlands subsidiary of Powers Chemco, Inc.

Harold P. Bolton (PH '54) of Seabrook, Texas, recently appointed project manager of the Texas operations of Technicolor, Inc., supplying photographic laboratory, scientific and audio-visual services to the National Aeronautics and Space Administration's manned spacecraft center in Houston; Joseph E. Fien (MG '42) of 135 Oakridge Dr., Irondequoit, appointed vice president for manufacturing of the Lawyers Cooperative Publishing Co.; Edward A. Thaney (MG '42) of 5 Kingswood Drive, Gates, appointed director of stores division, Kodak Park, Eastman Kodak Co., and James R. Reid, (RE '49), of 919 Grosvenor Road, Brighton.

Root Joins Faculty

Nile Root, former director of the Medical Illustration Department at the Children's Hospital, Denver, Col., has joined the faculty of the Biomedical Photography Associate Degree program at RIT's College of Graphic Arts and Photography.

As a photographer and artist, his work has been shown in major museums throughout the country, and is included in the permanent print collection of the Museum of Modern Art in New York City.

A Navy photographer during World War II, and later with the U.S. Department of Commerce in Europe, he has studied in private art schools and at the University of Denver.

In 1960, Root started the Medical Illustration Department at the General Rose Memorial Hospital in Denver, and directed the department for ten years. In 1970 he reorganized the medical illustration department at the Children's Hospital in Denver, and also formed his own business in Denver, "Photography for Science."

He will reside with his wife and family at 38 Kurt Road, Pittsford.

Tech Day Sept. 19

The first annual Instructional Technologies Day, designed to show RIT faculty, staff and students how technology has been used on campus in the past and predict how it'll grow in the future, will be held in the main lounge of the College-Alumni Union Tuesday Sept. 19 from 9 a.m. to 5 p.m.

The series of exhibits and demonstrations is sponsored by the departments of audio-visual services, computer services, computer assisted instruction, instructional research center, media design center, and the television center.

Further information about the day is available from John Beabout at 464-2586.

Schantz To Head Alumni Association

Richard J. Schantz of 61 Lake Meadow Drive, Greece, has been elected president of the RIT Alumni Association for 1972-73.

Other officers elected by the association's executive council for one year terms are Clarence E. Smith of 51 Lochnavar Parkway, Pittsford, first vice president; Diane Monte Verde of 164 Crittenden Way, Rochester, second vice president; William F. Markert of 115 Rouge Road,

Henrietta, treasurer, and Frederick A. Austin of 130 Sandstone Drive, Greece, secretary.

Schantz, a 1960 chemistry alumnus, is supervisor of production in the Elon department at Eastman Kodak Company. A student in the Class of 1940, Smith is quality control manager of Singer Graflex Division. Miss Monte Verde, a Class of 1964 chemistry student, heads the department of laboratory service at Strong Memorial Hospital. An electrical major in the Class of 1952, Markert is project engineer at Rochester Gas and Electric Corp. Austin, an electrical major in the Continuing Education Class of 1949, is maintenance engineering supervisor in the electrical substations department at Rochester Gas and Electric Corp.

Data Conference Sept. 15

Data Bases in the Sciences, a one-day conference on the various computer tape services available for the storage and retrieval of scientific information, will be held at RIT Friday, Sept. 15. The program will be held from 9 a.m. to 4:45 p.m. in the Ingle Auditorium of RIT's College-Alumni Union.

The program is intended for research and development personnel in colleges, universities, and industries, as well as information specialists and librarians. The conference is sponsored jointly by the Upstate Chapters of the American Society for Information Science, the Special Libraries Association, and the Rochester Re-

gional Research Library Council. Registration fee is \$10, which will include the cost of lunch.

Further information on the program can be obtained by calling the Rochester Regional Research Library Council at 232-7930.

News and Newsmakers

The fall meeting of the Board of Trustees is scheduled for September 18 at 3 p.m. in the auditorium of the James Gleason building....Student Orientation is scheduled to begin September 20--see the next issue of News & Events for details....Dr. Robert H. Johnston, dean of the College of Fine and Applied Arts, has just returned from his assignment as paleo-ceramist for the American Schools of Oriental Research at their excavation of the ancient city of Idalion, on Cyprus....The General Education Division will offer "The Psycho-Social Aspects of Deafness," a course designed to provide a broad overview of the effects of deafness on the individual, this fall. Further information about the course is available from Fred Gardner at 464-2243....the next meeting of the Nathaniel Rochester Society is scheduled September 9 at the home of Brackett and Ruth Clark, 630 Rock Beach Road, with cocktails at 4:30 and dinner at 5:15.

The next edition of News and Events will cover the period of Sept. 15 through Sept. 28. Deadline for material for that issue is Friday, Sept. 8. Send material to News and Events, c/o Communications Services, or call 2330.
