19 May 2006

The Spring 2006 issue of Scholarship @ RIT features an article by Dr. Rudy Pugliese, Department of Communication coordinator for graduate studies. Entitled “Two RIT Students Best Their ‘Bettors’,” the article reports on research presented by Janet Ofano (PTC; CMT, '05) and Mike Horning (CMT, '06) at this year’s Eastern Communication Association conference. The papers and their authors won top honors at the Conference; each was judged as a “top three research paper” and was in competition with experienced scholars from across the U.S. Ofano’s paper was based upon her CMT thesis research and Horning’s was the product of work conducted as part of his Communication & Media Technologies courses.
