Reporter Trudy Budlong discusses Cinderella's Slipper problem with Committee Members Pillo Parker, in charge of decorations; Patricia Tarro, general chairman, and Joyce Mallory, publicity

chairman, at Guild Hall just after learning from Guildhallmaster Kaplan that Cinderella's fit could be found in I. Miller's extensive line of fine shoes.

Residence Hall Group's Cinderella Slipper Ball Draws Campus Interest

By TRUDY BUDLONG

RIT guys and gals will trip the light fantastic tomorrow night at the Power's Hotel when Syl Novelli's orchestra furnishes the music for The Cinderella Slipper Ball.

The dance, sponsored by the women's Residence Hall Association, is being billed as one of the big social events of the year. Activity on the part of a very active committee headed by General Chairman Patricia Larro includes many innovations that may well prove to be the talk of the campus.

Committee members disclosed the fact that one of the dancing maidens would be chosen Cinderella. Your Reporter, very cognizant of the fact that it is our duty to enliven the school's activities shouted "Who's going to give Cinderella her slippers?"

The committee, as one, echoed "The Reporter, but 'natch'."

So in search of Cinderella's slippers went the staff. While

wandering along East Avenue our eyes became enamored with the tastefully decorated windows of Guild House. Entering, we viewed the artistry of I. Miller. Further search was unnecessary. If Cinderella's size was to be found here was the spot to find it.

While explaining our problem to Guildhousemaster Kaplan we envisioned the lovely RIT lass placing upon her dainty feet a sample of I. Miller's shoe wizardry. Mr. Kaplan listened well; he too felt that Cinderella's tootsie's must be bedecked in the finest of fine. An introduction to his brother and the gracious offer to fit our Queen. The Guildhousemasters in unison exclaimed "we'll join with The Reporter, the dance committee and Cinderella in making this an evening to be long remembered. Select the lady fair, bring her to Guild House and we'll find her proper fit. So, lucky Cinderella the belle of the ball will receive slippers supreme (I. Miller's,) compliments of Guild House and The Reporter.

Admission to the Cinderella Ball will be \$3.60 per couple.

Residence Hall Association committee members are: General Chairman Larro; Decorations, Patricia Parker; Date Bureau, Marie Savas; Publicity, Joyce Mallory, and Programs, Elaine Bebar-fald.

Kappa Sig Sponsors New Platter Dance

A big weekend of social events will get underway tonight with the annual "Loafer's Leap" dance, in the Eastman Lounge, sponsored by Kappa Sigma Kappa. The affair, as its name indicates, is a somewhat less than formal preliminary for tomorrow night's big Cinderella Ball and Dorm Formal.

Saddles, rather than glass slippers, will be the order of the evening, and a prize will be presented to the couple most appropriately decked out.

A spokesman of KSK has advised that "The platters will please and the price is a breeze, so come out all you Prince Charmings and practice your steps for the 'Powers Promenade' the following night."

RIT Scholarships Given Students

Alumni scholarships have been awarded to six students at the Institute this year, according to an announcement by Burton E. Stratton, executive secretary of the Alumni Association. Six Sol Heumann Scholarships were also awarded.

Three seniors and three freshmen were the recipients of the alumni scholarships for study in three departments. Brian McDermott, a freshman, and a graduate of Aquinas Institute, and David Bellucci, also a freshman who was graduated from Monroe High School, received scholarships for study in the Applied Art Department. John McCullough, freshman, received one for study in the Publishing and Printing Department.

Seniors receiving the alumni scholarships were Frederick Wassmann, Bruce G. Henry, and Harold C. Bauer, the latter two for study in the Electrical Department. Wassmann is a senior in the Publishing and Printing Department.

The scholarships are made available by the Alumni Association as a result of its annual fund drive. The remainder of the funds are used for the alumni publication, the student mixer, and magazines for the student lounges and the dispensary and other contributions.

The Sol Heumann scholarships which are awarded "each year to a worthy boy from each of three faiths: Protestant, Catholic and

(Continued on Page 4)

R. Norton Secures Master's Degree

Russell A. Norton was the recipient of the Degree of Master of Arts in mathematics from the University of Michigan on Aug. 17, 1951. He has been attending the summer session at Michigan for the past four summers.

Mr. Norton was graduated from Middlebury College in 1938 with the degree Bachelor of Science in mathematics. He is a veteran of World War II and has been an instructor in the Mechanical Department since September, 1946.

RIT Reporter Staff Desires Workers

Reporters, photographers, and circulation men are needed for work on the new Spirit-Reporter. Students interested are requested to contact the following personnel at the Spirit office in the basement of the Clark Building any noon time.

Reporters should contact Robert Slutsky, campus editor; photographers, Ted Simon s, photo editor; circulation staff, Harry Richards, circulation manager.

Lettermen Club Needs Support

The need to unite the varsity teams and the student body of the Institute into a student-supported athletic program last spring brought about the founding of the Varsity Lettermen's Club which is now beginning to swing into action.

Larry Wilson, president of the new club states, "The varsity teams need the support, encouragement, and more evidence of a school spirit, for that little extra push that makes teams winning teams."

The plan to gain greater student support for sports will include a sports night, dances, a booth during Spring Weekend and several other events not yet scheduled.

The officers of the club this year, besides Wilson are: Ronald Freiman, last year's frosh stand-out in basketball; Arnie Bishop, varsity basketballer; and Stuart Lyon, manager of the varsity basketball team.

Membership in the club is open to all lettermen of the major sports, managers of the varsity teams, cheerleaders who have earned their letters, and honorary membership to all graduate lettermen.

Home games for the varsity teams are held at the Jefferson High School gymnasium.

Chemistry Dept. Exhibit Leads Off Celebration

Opening project of the new school year in RIT's Chemistry Department was an exhibit prepared for the 75th Anniversary Celebration of the American Chemical Society. During the week of Sept. 24, RIT students took over a section of the Bausch Museum in East Avenue to set up and man displays based on the theme of "Chemical Tests of Consumer Products." For the display, the very latest equipment was supplied by Will Corporation, local dealers in chemical apparatus.

The entire freshman and senior classes in Chemistry at the Institute took part in the exhibits, assisted by the faculty. The emphasis during the entire week was placed on chemical operations of practical interest to the layman.

Among the events were tests of the viscosity of motor oil, employing the Hoeppler falling ball viscosimeter; heating value of coal, with the Parr calorimeter; alkalinity of soap, by titration; and analyses of the acidity of soft drinks and the hardness of water. In addition to the demonstration performed by RIT students, there were many case exhibits contributed by local firms which portrayed the part played by chemical operations in Rochester industry.

One of the special events of the week was a "Chemical Magic Show" presented several times during the evening of Sept. 27, by members of the senior class. This magic show was basically the same popular affair which has been previously presented at RIT

Open House exhibitions. This year, the various tricks and illusions were supplemented by a humorous script prepared by members of the Chemistry Department.

A host of local Rochesterians attended the exhibition to see RIT people displaying the sort of work they are doing every day in laboratories and classrooms. Students from local and surrounding high schools were also in attendance, as well as a delegation of graduate and under-graduate students from the University of Rochester.

Art Faculty's Work Shown at Exhibition

Faculty members of the School of Applied Art were represented in this year's Rochester Art Club Exhibition at the Rundel Gallery.

Paintings included those of Clifford M. Ulp, Ailing M. Clements, Stanley Witmeyer, Ralph H. Avery, and Milton E. Bond.

S. Witmeyer Speaks To Teachers Group

"A Fuller Aspect of Art" was discussed by Stanley Witmeyer, instructor in the School of Applied Art, at an Art Section meeting Of the Wayne County Teacher's Conference yesterday.

During the summer Mr. Witmeyer was a director and instructor at the Beaver Lake Camp for boys.

Chemistry Department students open the school year with an exhibit at the Museum of Arts and Sciences. Pictured left to right are Joan Higgins, senior; James Correll, freshman; Patricia Cooper, student nurse at Genesee Hospital, and Patricia Russ, another student nurse, but from the General Hospital.

EDITORIAL

Merger With a Purpose

This is the first issue of the RIT Reporter for the year, and its first issue as both a student and alumni organ. The name Reporter is being retained temporarily, but we feel that a more suitable name can be found, so in the near future, these pages will contain news of a "name your paper" contest.

Undoubtedly you the student and you the alumnus are thinking, is this combination of the two Institute publications such a good idea? Why was such a move made ?

The RIT Reporter was the alumni publication, the public relations medium. SPRIT was the student publication, an organ where students could read about their friends and have a means of expressing themselves.

The Publications Board, representing the Student Council and newspaper staffs, met with Dr. Ellingson in September, and came to the unanimous decision that one organ combining the functions of the two papers should be published. Members of the faculty will work with the students to prepare this paper, and thereby achieve better co-ordination among departments, a stronger staff, unlimited resources for making a paper second to none.

During the summer months the reorganization was taking place. Every job was filled by a person who not only was tops in his field, but someone who was deeply interested in his work. Many RIT students are working their way through school, or working for their spending money. These men were no exception. They quit their jobs. They felt that the experience gained on the paper would be invaluable, in fact, worth more in the future. With that kind of spirit, how can this paper fail to be the best?

We have decided to begin as an eight-page semi-monthly and, as we get up momentum, work into a weekly. We have started late this year so that we could start out strong and be able to continue publication on a regular schedule throughout the year. Elsewhere in this issue you will find these publication dates, and the deadlines for each issue.

Students have asked us if we felt that news of interest to the alumni and RIT patrons would necessarily be of interest to them. We feel that the students, the alumni, and the Institute are simply parts of one team. What one member does should be of interest to the others, without each other, they are non-existent.

By looking at alumni accomplishments, one may get a clearer picture of what kind of job to expect after graduation. Reading about an RIT professor giving a speech at a trade convention may not interest you personally, but the good will created by his speech will have a definite effect upon you, on the job you get upon graduation, on the alumnus when his employer is looking for a man to fill a key position in his organization. He has heard of RIT and has learned to respect it.

Each graduate is a good will ambassador and his performance on the job affects the school and its students. By working with and for the school you are, in essence, working for yourself.

200 Pints of Blood

One hundred ninety-eight pints! That's right. The Blood Drive held at RIT on George Washington's birthday last year netted almost two hundred pints—two hundred lives saved because we cared enough to donate a pint of our most priceless possession.

Now another Blood Drive is coming up. On the fifth of November, the Red Cross Bloodmobile will again turn its wheels into Utah Alley. If you are under twenty-one, there is a form you can get to send home for your parents' signature. The after-effects on you the donor are small, but to the individual receiving it, it is life.

Will you give?

Dorm Formal Time Again

Well, it's Dorm Formal time again, and the girls at Kate Gleason Hall have been outdoing themselves getting ready for the big night. It will be called "Cinderella's Slipper" and the highlight of the evening will be the crowning or rather shoeing of Cinderella. Local merchants are contributing the prizes for Cinderella, and it promises to be an enjoyable evening for all who are in attendance.

Kappa Sigma Kappa is lengthening the annual event to weekend size by sponsoring an informal dance tonight in the Eastman Smoker. The dance will be called "Cinderella Before the Ball" and the music is to be furnished by Brother Jerry De Simone and his orchestra.

This is the first of a series of big weekends to be held during the year, and it should be a fine introduction to RIT social life for the freshman class.

Alumni Scholarships Awarded

This year the Alumni Association has again awarded scholarships to six students so they could continue with their education. It makes us proud to know that our Alumni Association can see the benefits it will reap by putting this money toward such a good cause.

Scholarships played a big part in the lives of six other students who were recipients or the Sol Heumann scholarships awarded every year to deserving students from the Protestant, Catholic and Jewish faiths.

Campus Chatter

By JOAN HABER

Well, tomorrow is the big night for most of us. Gowns are being pressed, hair styled in a new alluring way and the other numerous things females have to do. Since every one wants to keep their gowns a deep dark secret, publication would be impossible. But tomorrow each Cinderella will make her grand entrance.

So many new school fashions are being worn this year. One of the most attractive outfits is Joan Ann Latus' white cotton long sleeve blouse trimmed with black cording around the collar and cuffs, extending in two panels down the back. With this mighty fetching blouse is Joan Ann's full flecked grey skirt. And to top it off she wears a very attractive wide black velvet belt. (I wonder if Brockport State has such nice dressers ?)

So many comments have been made about Mr. Drost's plaid ties I just couldn't resist the urge to mention them. Every day, he comes forth with a striking new cravat! Mighty sharp, Mr. Drost!

Have you men and women—oops excuse me—women seen a bright flash of yellow around the dorm ? Next time observe more closely and you'll see the one and only Nancy Drake. She is sporting a chinese style Tommie coat, of yellow, trimmed in black.

Who are they? What are they ? That's what everyone is asking. No they are not New York models, but Ann VanderWeil, Pilly Parker and Liz Ann Gubb. They all have new smart hair-do's with buns in the back. Can you guess which one has the 'chignon' ?

I just turned green with envy when I saw Elva Gabriel's beige velvet dress. It has dainty puff sleeves and a boat neckline. Just between you and me, I hear her date looked at Elva more than he did at the "Tales of Hoffman" which they were attending.

We thought we had an escaped convict here at the dorm, but it was none other than Marilyn Shepard with her black and white stripped pajamas. This clever girl made them herself.

I don't know if you'd call Nancy Post's frat pin a fad, but it was too precious to omit. That tiny Theta-Gamma pin just sets off every outfit you have Nancy.

We began to whisper among ourselves and wondered if Lorna "Uppy" Upham had on long underwear. "No," she informed us, "they're sweat pants." These clever "longjohns" can be worn as jeans or even ski-pants. To set off this outfit she has embroidered "Uppy" in bright red. I'll give you three guesses where the name is—(Is it true Uppy that Ken Kinsman helped you?)

Betty Abdallah made a charming hostess for the city girl tea in her well chosen navy crepe dress. The roll collar and turned up sleeves had a taffeta blue and champagne colored strip. Everyone made her grand entrance in stunning outfits. Among the stylish girls were—Marlene Grutauria and Dolores Ferraro in captivating knit suits. (By the way girls, what did you captivate afterwards ?)

Pat Wood looked mighty pert too in her navy blue Gabardine suit with its soft lines. She really looked as though she stepped out from the pages of "Vogue."

By the way, men, have you heard the latest news ? Gus White has a terrific idea how to economize. For the Dorm Formal he has given his date, Lynn Harrington a choice for her corsage—she can either have her bare shoulders painted with a bunch of flowers (he'll do it himself) or he will cut out the cover of this issue of "Cosmopolitan" of a bowl of red poppies. (Nice going, Gus, if you can do it.)

I'll end now by asking you what dorm girl takes an alarm clock out with her so she won't be 29 minutes late again. (How about that P.S.?)

Socially Speaking

By

MARIAN BEHR

Several organizations have begun their social season with the usual outstanding affairs, among them Phi Sig's outing at Ellison Park on Sept. 18, Kappa Sig's cabin party at Powder Mill on Sept. 22, and Delta Omicron's Dance "Gertie's Garter" at the Eastman Smoker on Sept. 28. Last Friday evening Oct. 5, Phi Sig held the first band dance of the season, the "Shanghai Shag" in an atmosphere of old China.

Tomorrow night, as everyone who can read already knows, is the first formal dance of the year, the traditional Dorm Formal. This year's theme takes us back to the fairy tale days of our childhood, into the realm of glass slippers and magic pumpkins, where we will meet Cinderella face to face.

She will be chosen from the fairest of the fair young women present and the choice will not be easy. The dance will be held at the Powers Hotel Ballroom, where Sil Novelli's orchestra will provide the music from 9 til 1. See you there!

* * *

I'm not sure that anyone will read any further (if they have followed me this far I'm flattered!) but I shall now proceed to take advantage of the space allotted to me to make my annual appeal. I assure you that it will cause you no hardship—I don't want your blood, your copper pennies or your old clothes; just your cooperation in a matter of great importance to you—the matter of mail service to members of the student body through the facilities of the Institute.

As most of you have been told but have too easily forgotten, all mail addressed to a student in care of his department, is distributed from the Counselor's office in Clark Union. Now please understand; this does not mean that "yours truly" runs around each morning with a mail sack and a whistle to hand out correspondence; I have no blue uniform from Uncle Sam and thank you just the same, but I don't want one! That is where you come in.

You are asked to call at the Clark Union desk to receive your mail. You say you are not expecting any ? Brethren and sisters, you'd be amazed at how many times a week I hear that statement. If you will read your department bulletin board at least once a week you will know by the notice posted there whether or not you have received mail, expected or otherwise.

Cayley's Corner

Back to the mines! Here we go for good old 1951-52.

What's good about it ? Everything so far.

No assignments yet. A lot of new freshmen To pick on.

Classes will be slightly more compact.

The President's in good humor L. L. D.

Gadgets and equipment have improved a bit Since last Spring.

We've actually got about 300 more square feet of lawn to sit on—until chased off.

But You green horns--- Watch out for Parking tickets.

The local police are stoney-hearted. They've been picked on.

The old fossils who call themselves instructors will stop fiddling 'round by about next week and the grind will begin.

And in the dining room—some old fossils will start picking on me.

Anybody want a hair shirt ? I'm through with mine.

I'll be seeing you.

Chaplain M. A. C.

Techmila's Editor Knox Schedules Much Action

By ELLEN EGGLETON

In the spring, when the Techmile hits the stands Ralph L. Knox will be very popular and much admired for his work on RIT's yearbook. But, I'd like to introduce this busy Publishing and Printing senior to you.

Ralph hails from Norwood, R. I., and in 1948 he came to RIT with his wife and is now majoring in Printing Design and Layout. Along with this he has maintained a part-time position at Sears-Roebuck and Co.

Ralph L. Knox's main extra-curricular activity needless to say has been the Techmila. We all agree that going to school, holding a job and editing a yearbook is enough to keep anyone busy. Last year he was associate editor of the 1951 Techmila, now he is its editor-in-chief.

As yet the Techmila staff hasn't started to function seriously but Ralph has many plans for the book. The purpose of a college annual is to serve as a record of memorable school events from year to year. Because student enrollment has decreased, the amount of money obtained from tuitions for the yearbook has decreased

RALPH L. KNOX

15% which makes it about a \$6,300 project. When asked what date he hoped to issue the Techmila, Ralph smiled and said he hoped before the final block left school in the spring.

Off and on all year, students are going to be seen running into the Techmila Office in the Eastman Lounge. Among coke bottles, cigarette smoke, scattered papers, typewriters and pictures, your 1952 Techmila is growing up and next spring will announce the events of the year that we all knowingly or unknowingly took part in. With the help of Henry Black, Printing Editor; John Ross, Photo Editor; Paul White, Art Editor; Natalie Gitelman, Literary Editor and student staff, Ralph Knox will try and preserve the pattern of life at RIT in the Techmila of 1952.

Counsel Center Examines 318

A record total of 318 individuals from outside the Institute completed aptitude testing and counseling programs at the RIT Counseling Center during the past year. This was in addition to the RIT students who were helped with problems of adjustment to Institute life or plans for further education.

Thirty-five per cent of the Counseling Center's outside clients were referred by industrial personnel workers. Twenty-eight per cent came from the New York State Division of Vocational Rehabilitation, and the remainder were referred by RIT faculty, high school counselors and teachers, social agents and former clients.

The majority of the Counseling Center's referrals from industry are applicants for employment. With each of these individuals the Counseling Center staff conducts a searching interview and plans an all-day battery of psychological tests. These are selected in the light of the client's background and emphasize the aptitudes and abilities most important in the particular job. Written reports to the companies provide a basis for decisions on hiring. Whether hired or not, the individuals who are tested are permitted to return to the Center for interpretations of the test results and help in planning their careers.

Individuals who come to the Counseling Center independently, at the suggestion of school counselors or others, likewise receive a thorough interview and a comprehensive battery of psychological tests, covering interests, academic ability, academic achievement, personality, manual abilities, and specific aptitudes, such as mechanical, clerical and artistic. The Counseling Center's extensive files of college catalogs and occupational information provide material for discussions with the client of the pro and cons of the most appropriate career possibilities.

Greetings

Greetings from the Alumni Association to all students and a hearty welcome to the incoming freshman class of RIT.

You will be interested to know that the activities and school interests of the 8000 alumni are co-ordinated by the Alumni Council. The Council is made up of twenty-five representatives from the graduates of the college full time or the evening school classes.

The Alumni Association promotes the interests of students and graduates in many ways. We sponsor student mixers, provide subscriptions to the popular magazines found in your student lounges and assist or further the development of student recreation rooms, lounges, etc.

Through contributions from our alumni and friends, we are able to offer some scholarship assistance to those of you who qualify and need it.

We of the Alumni Council are open to suggestions which will increase our effectiveness and value to all students, graduates and the Institute.

Our Executive Secretary, Burton E. Stratton, or any member of the Alumni Council would be most happy to have the opportunity of talking with you.

May your coming days be happy and fruitful, here's to a successful school year.

STANLEY WITMEYER,
President, Alumni Association.

Red Cross Bloodmobile Visits RIT November 5

If you could save a life in five minutes with no harm to yourself, wouldn't you like to do it? Well, that's the opportunity you will have on November fifth when the Red Cross Bloodmobile will be at RIT. According to Ben Marcus, chairman of the campaign, the drive will last all day in the Eastman Auditorium.

This year's quota is only 150 pints and the Red Cross has a greater need for blood than ever before. The demand has been tripled in recent months because of the thousands of GI's wounded in Korea. Also there is an increasing supply of blood needed for the regular civilian program.

In order to help make the drive a success Marcus has appointed department chairmen and set up department quotas. It is the duty of each chairman to recruit enough donors to meet these quotas. It is suggested that each chairman meet with his department head to determine the classes in which most of the students can be reached on Nov. 5. Each student and teacher has an obligation to donate blood and to encourage fellow friends to donate their blood so others may live.

Below are listed the require-

ments set up by the Red Cross for anyone interested in donating blood.

Sex and Race: Men and women of all races are accepted. Age: Ages 21-59 inclusive, 18-20 with signed parental releases or release of spouse or legal guardian. Weight: Donors must weigh 110 pounds or over. Donation Intervals: Eight weeks between donations but not oftener than 5 times in one year.

Medical factions: Donors may be accepted if they have not had: (a) Surgical operation in six months, (b) Jaundice within one year, (c) Malaria within two years, (d) Undulant or prolonged fevers within two years.

Food: Please do not take any cream, mayonnaise, butter or fatty food of any type within four hours of making a donation. Too much fat content in the blood may cause a reaction in the patient who receives the transfusion.

Within a few months the fluid blood will be replaced in your body and the iron content requires several days. Any donator may be sure that his or her blood will be used either for a transfusion within 21 days or it is made into plasma or blood derivatives which keeps indefinitely.

There will be a contest between the sororities and fraternities of RIT and prizes will be awarded to the sorority or fraternity that donates the most blood.

MSA Elect Green Club's President

Don H. Green, Mechanical senior, was named president of the Mechanical Student Association at the organization's first meeting in A Block. Other officers elected for the current year are Herbert E. Winklemann, vice - president; Kenneth Kinsman, secretary, and Wesley A. Kujawski, treasurer.

Plans for a bigger and better organization were discussed at the first meeting, which included plans for an intensive membership campaign.

Regular business meetings will be held at 12:30 every Thursday in Room E-209. Activities planned this year are talks by noted engineers and salesmen, educational movies, and social activities. Cyril Donaldson of the Mechanical Department is faculty advisor to the group.

First educational movie, "The Supervisor as a Leader" was shown Oct. 3 in Room C-114, and arrangements have been made to continue this type of feature during the current year.

Senior students visited industry in the Buffalo area on Oct. 9. After a visit to the Buffalo Assembly Plant of the Ford Motor Company, the group saw steel making at the Lackawanna plant of Bethlehem Steel Corporation.

Photo Tech Prestige Enlarges Enrollment

The spread in enrollment figures for the Photographic Technology Department offers proof of its growing national and international reputation.

Eleven states other than New York and three foreign countries are represented by members of the freshman class this year. While on an Institute-wide basis the majority of students come from New York State, in the Photo Tech Department 60 per cent (27 students) came to this school from states other than New York.

The eleven states represented are California, Florida, Montana, Maine, Virginia, New Jersey, Pennsylvania, Michigan, Nebraska, Ohio and Connecticut. The three foreign countries are India, England and Canada. Only 11 per cent of the total freshman enrollment of 45 came from the city of Rochester.

Another very interesting statistic is that 2.2 per cent of the freshman class comes from Clearwater, Florida. That 2.2 per cent is Debby Femings, the only girl in the freshman class of 45.

RIT Electrical Dept. Secures New Motor

A Louis-Allis adjusto-speed motor with its electronic control has been added to the industrial electronic equipment in the electrical power laboratory. This drive consists of an A.C. motor which drives its load through an electrically operated clutch.

Current for the clutch magnets is supplied by a vacuum tube rectifier. The vacuum tube circuit is electronically controlled so that speed may be held constant at any number of set values.

The control may also be switched so as to maintain a constant torque, or pulling force, at the load. This piece of equipment has been wired so as to make all parts accessible for laboratory testing. It should prove to be a most valuable supplement to the varied equipment now used by the Electrical Department, according to Supervisor Earl M. Morecock.

Mechanics Hold 1st Picnic

Retailing Dept. Cooperates

Annual picnic of the Mechanical Student Association was held Thursday, Sept. 27 at Genesee Valley Park, with more than 60 students and faculty members attending.

Highlighting the afternoon was a touch football game with the Retailing students. Picnic planning was under the direction of a committee headed by Ken Kinsman. Other committee members included Ed Geler, Herb Winkelman, Joe Locke, and Chic Forster.

Institute Alumni Degree Eligibles Given Requisites

Institute alumni who wish to complete credits for the new Associate in Applied Science degree being offered in the Evening and Extension Division, and who do not live within easy commuting distance of Rochester, can now fulfill the requirements by attending vicinity colleges accredited by the New York State Department of Education.

Vernon R. Titus, who is conducting the degree program in the E&E Division, states, "Since all major and technical work has already been taken at RIT the State Department of Education has ruled that the 12 additional hours may be taken at approved vicinity colleges."

Approximately 90 Institute graduates have enrolled in the program since its inception last February. Only the alumni who are graduates of the full-time or cooperative day classes of 1925 through 1949 are eligible for the degree. The degree, now authorized in 44 of 48 states, represents the completion of a minimum of two years, but less than four years, of college level study. RIT was the first to offer it in New York State.

Before an alumnus can qualify for enrollment in the program, he must have met all of the requirements for graduation from his department. The technical course requirements are in excess of degree requirements. He must have a high school diploma or its equivalent.

The additional courses required to earn the associate degree total 12 semester hours of general education. Graduates of all departments must take six semester hours of English Communications. Graduates of Applied Art, Publishing and Printing, Retailing, or the School for American Craftsmen must take an additional six semester hours of basic science. Graduates of Chemistry, Electrical, Food Administration, Mechanical, or Photographic Technology must take an additional six semester hours—three in United States history, and three in Contemporary World Problems.

Before registering for the program an alumnus must first consult the supervisor of the department from which he was graduated. After certifying the alumnus' eligibility, the supervisor will refer him to Vernon R. Titus, General Education Counselor of the E&E Division for final arrangements.

Whenever you have work to do
And want to make an "A" or two
Don't groan, don't gripe,
Don't quake, don't toil
Call right up and Rent-a-Royal.

Retailing in 28th Year; Adds Faculty Member

RIT's Retailing Department has begun its 28th year of operation with some changes in the department and in the faculty. Miss Margery Cunningham joined the Retailing faculty this fall. Prior to joining the staff as instructor in Textiles, Fashion Trends and Merchandise Information, Miss Cunningham was employed by Kaufmann's Department Store

of Pittsburg, Pa. Her home is in St. Clairsville, Ohio and she is a graduate of Ohio Wesleyan University and the Research Bureau for Retail Training of the University of Pittsburg, where she received her master's degree. Modernization of retailing class rooms continued this summer with the renovation of Room 245. This room is the second one to receive a new ceiling, fluorescent lighting, new floors and student desks. Unusual features include a built-in display case, blonde oak storage units, ample bulletin board space

Wrestling Team Begins Practice

The RIT wrestling team has already started getting in shape for its schedule starting on December 1 and running through March 15. With eight veterans of last year's squad and a baker's dozen of promising freshmen, Coach Earl Fuller is anticipating a successful season, but is still recruiting, hoping to lengthen the squad in several weight divisions. He is also looking for an interested party to take over the position of manager of the team.

The tentative '50-'51 schedule is as follows: Dec. 1, U. of Buffalo, there; Dec. 8, Cornell, here; Dec. 14, Case Tech of Cleveland, there; Dec. 15, Baldwin Wallace, there; Jan. 19, Queens University, here; Jan. 26, Ithaca College, here; Feb. 1, Toronto U., here; Feb. 8, U. of Buffalo, here; Feb. 16, ^{Kent} U., here; Feb. 22, Edinboro State Teachers, there; Feb. 23, Alfred, there; March 1, Akron U., here; and March 14 and 15, the Four I Tournament at Case Institute of Technology in Cleveland, Ohio.

Cornell is expected to be the roughest team on the list, with Kent, Case, Edinboro and Ithaca all promising 'interesting' opposition. The RIT-Buffalo U. rivalry left over from last year should add a spark to the matches of Dec. 1 and Feb. 8 as well.

The members of last year's team who are returning for another season are: Jim Harkness, PT, 130; Larry Wilson, Chem., 137; Ralph Panfil, Mech., 147; Mike Pukish, Mech., 157; Don Sewing, Elec., 177; Paul Evans, SAC, 137; Ezio DeCristafaro, P&P, 123; and Carl Weishart, Mech., 147. The freshman who have come out to date are John Radocha, John McCullough, Ross DiBiase, Johr Michalski, Gary Dotzler, Dick Huggendubler, Bob Belluci, Ed Deutchman, Bob Corcoran, Gary Fraser, Mar^y Rubinstein and Dave Wilde.

Regular practice sessions will be held in the shop building between the Clark and Eastman Buildings starting Monday, Oct. 29. The matches will be held at the Jeffer. son High School Gym.

Coach Fuller has invited anyone interested to come out to the practice workouts for a tryout. Further information about squad activities and practice sessions will be posted on department bulletin boards from time to time.

Scholarships • • •

(Continued from Page 1)
Jewish, this year went to six students in five different departments
Those receiving the Sol Heumann scholarships were: Ross Di Biase, Canonsburg, Pa., Food Administration Department; Joachim Mueller, a senior in the Applied Art Department; Theodore Kotin Rochester, Applied Art; Charles E. Ackerman, Tonowanda, N. Y. Chemistry; John Radocha, Washington, Pa., Electrical; and Johr Michalski, Erie, Pa., Mechanical

for illustrations and modern color arrangement of dark green and cocoa beige. Designing of the custom-made blonde-wood cabinets was carried out by Crosman Crippen, an Art graduate of the class of 1924.

Opening days at the Institute always finds Harry Drost, Coordinator of Employment for the department, busily engaged in checking employment of upper-classmen and in placing juniors on their first cooperative jobs. Thirty stores in ten cities are cooperating this year and an increase in this number is expected as freshmen are placed for their five-week Christmas work period. Retailing students can be found in Rochester, Buffalo, Binghamton, Elmira, Geneva, Hamburg, Skaneateles and Watertown in New York state as well as Pittsburg, Pa. and Washington, D.C.

New Stores Added

Two new stores, Woodward and Lothrop and The Hecht Company of Washington, D.C. are cooperating with the department in the employment of junior students. The department looks forward to many years of association with these stores.

Not only is placement generally at a high level, but store executives are making a decided effort to place students in departments of interest to them, thus providing the kind of experience which will contribute to the students over-all knowledge of the retail business.

On Sept. 19 faculty and students were hosts to the 22nd semi-annual conference of personnel executives from over 22 western New York department and specialty stores. Timely subjects considered by the group included meeting the present manpower problem, ways and means of carrying on a successful supervisory training program, and a consideration of current experience with the Hughes-Breese Law concerning unemployment insurance.

Meeting's Guest Speakers

George Palmer, Personnel Director of Joseph Horne Co., Pittsburg and Miss Eleanor Gorham, Senior Manager, N.Y. State Division of Placement and Unemployment Insurance, Buffalo, were the guest speakers at this one-day meeting. At luncheon, the group turned its attention to the customer and her present day shopping problems described by Mrs. Ronald Reamer, a Rochesterian prominent in civic affairs, and who might be called a "typical customer."

"Who's Where in the Retailing Department" is the title of the new alumni directory about to make its appearance. Almost 700 men and women graduates of the retailing courses have cooperated in the preparation of this material by providing information about themselves, their families and their work.

Registration Good

In Art Department

Registration in the School of Applied Art, although somewhat reduced, is good this year, according to Clifford M. Ulp, supervisor. At the present the school has registered 36 freshmen, 23 juniors, and 51 seniors.

Faculty members of the school, after a summer of varied activities, including painting on the coast, in the Bristol Hills, in Canada, and in Mexico, have returned to the regular school program, which is already well underway.

Full-time faculty members this year include Messrs. Clements, Horn, Bond, Witmeyer, Richardson, and Miss Mesmer. Part-time faculty consists of Messrs. Avery, Carpenter, Wells, Mrs. O'Connell, Miss Gutfrucht and Mrs. Davis.

Latest Data on *Institute Alumni*

CLASS OF 1909

Among visitors to Rochester during the summer was Frances Fenner (HE), who is retired and iving at 34 State St., West Englewood, N. J. Fanny was a guest in Rochester of Margaret Bacon (HE) at her home, 53 Rowley St., Rochester 7. Fanny's sister, Elizabeth, (Mrs. Joseph G. Taylor HE 1916) laves at 369 Warwick Dr., West Englewood.

CLASS OF 1913

Carolena Brand Bacon (HE) was married in August to Mr. F. Dean Russell. They make their home at Rolling Meadows Farm, Pittsford, N. Y.

CLASS OF 1915

Friends of **Ruth Lush (HE)** will be saddened to hear that she passed away on Sept. 27, after a long illness. She was on the Home Economics staff of the Rochester Public Schools and taught for many years at Benjamin Franklin High School.

CLASS OF 1916

Helen Crawford (HE) was heard from recently. She is married to Don C. Allen and lives at 72 Argyle St., Rochester 7.

CLASS OF 1921

Betty Worth Tucker (HE former student) visited RIT recently. She is married to Cyril Tucker, an architect, and lives at 161 Avalon Dr., Rochester 18. A daughter, Joan, attends University of Rochester, and a son, Theodore, who is in the U. S. Army Reserves, is now teaching at University of California, Los Angeles.

CLASS OF 1926

Helen Wolverton (HE) has flown to California for October vacation with relatives. Helen is dietician at Navy Ordnance Division of Eastman Kodak Co. She lives at 21 Arnold Pk., Rochester 7.

CLASS OF 1927

Alumni files have recently acquired an address for **Alice Bahrenburg (HE)**. Alice is married to Roland Kellogg and lives at 121 Garfield Pl., Totowa Boro, N. J.

CLASS OF 1929

Rose Ae Martinis Ostrander (HE) and her husband have purchased a new home at 457 Grosvenor Rd., Rochester 10. Rose is cafeteria manager at Rochester Products Division of General Motors Corp.

CLASS OF 1932

Mary **LeFeber** (FA) paid a visit to Rochester last summer. She is cafeteria manager at Fairfax High School, near the famous Farmers Market in Los Angeles. Address: 803 E. Kensington Rd., Los Angeles 26.

Among the classmates who held reunion with Mary LeFeber in August was Mary Slaybaugh Crance (FA). She is dietitian at Hillside Children's Center. Address: Mrs. Carl G. Crance, 225 Dorking Rd., Rochester 10.

The Udall sisters (FA) from Craftsbury, Vermont, also included Rochester this year in their vacation itinerary. Isabel is dietician at Robinson Hall, University of Vermont, at Burlington. Martha is Mrs. Linwood Dill and lives at Craftsbury.

Leslie C. Bey (Const) is foreman of reinforced steel construction with the Siegfried Construction Company of Buffalo.

Walter J. AeLacy (Const) attended Buffalo State Teachers College and the University of Buffalo after graduating from the Institute. He is now supervisor of teacher training in Industrial Arts at Buffalo State Teachers College.

William **F. Shopmyer** (Mech) has been appointed factory superintendent, in charge of all manufacturing departments and maintenance at the Daystrom Electric

Corporation at Poughkeepsie, N. Y.

CLASS OF 1933

Aaniel J. Kennedy (Mech) is in charge of tool engineering for Commercial Controls Corporation of Rochester, N. Y. He is married and has two children.

CLASS OF 1937

Gertrude Cline Lamb (Ret) and her husband visited Rochester this summer, bringing with them their baby boy, William Allen, aged 4 months. The family live at 751 Penn Ave., N. E., Atlanta, Ga.

CLASS OF 1938

Aaniel J. Kennedy (Mech) is control manager at the Houde Engineering Corporation of Buffalo, N. Y.

CLASS OF 1939

Alida Hoff (FA) has gone to Europe on a vacation this fall. Her parents are making the trip with her to visit relatives in Holland.

CLASS OF 1940

Marian Hall (FA) was married

Retires

Fred L. Griffin, Manual Training, 1911, retired last June with the rank of Professor Emeritus from his position as assistant professor of industrial arts at Santa Barbara College, Santa Barbara, Calif. Professor Griffin has been a member of the staff there since 1924.

Before joining the staff at Santa Barbara, Professor Griffin studied at Keuka Institute, Syracuse University and Montana University as well as RIT. His teaching experience has included various positions in practically every section of the U. S. and in Hawaii.

Chief among the Professor's plans for the future is the completion of a book on woodturning.

Makes Library Gift

Publishing and Printing students in particular will be interested in the recent addition to the RIT Library of a complete set of LTF shop manuals, texts and research papers. The set, complete with its display case, was presented this summer by Charles Shapiro, educational director of the Lithographic Technical Foundation.

Mr. Shapiro spent some time looking over the library and commented that he thought the collection of books on printing was excellent.

OE Announces Date of 2nd Qualification Test

Second in the series of Selective Service College Qualification Tests have been announced by the Office of Education of the Federal Security Agency. First in the series were given to college students last spring and summer to provide local boards of the Selective Service system with evidence to offer deferment of registrants for continuation of college work.

The new series of tests will be given on Thursday, Dec. 13, 1951 and on Thursday, April 24, 1952 by the Educational Service at more than 1,000 different centers throughout the United States. Tests will be offered at the Rochester Institute of Technology.

Application blanks for the tests are now available at all local draft boards. Any Institute student may secure an application by applying to Selective Service Headquarters, 5 St. Paul St., Rochester.

Students at the Institute may be deferred on the basis of two criteria: a Score of 70 on the Selective Service College Qualification Test or satisfactory rank in class. This means that a student must be in the upper half of the freshman class, upper two-thirds of the second year class, and upper three-fourths of the third year class. It must always be remembered,

local draft boards to defer any student on the basis of one or both these criteria. Draft boards may or may not act on the basis of this information.

All students are urged to apply for the Dec. 13 test. Application blanks for this test must be postmarked not later than midnight, Monday, Nov. 5, 1951. Applications for the April 24 test must be postmarked not later than midnight, March 10, 1952. Applications postmarked after midnight, March 10, 1952, will not be accepted. The following are eligible to apply for the test:

1. A student must be satisfactorily pursuing a full-time college course (all full-time day courses at the Institute qualify under this heading).
2. He must intend to request de-

Enrollment Jumps In Electrical Co-op

Enrollment of cooperative electrical freshmen this year is 90 per cent higher than in September, 1950. Much of the increase is due to a special training program offered jointly with the General Railway Signal Company.

The special course offered differs from the regular cooperative electrical course only in the time required for completion. Signal Company trainees will spend four years at the Institute and will cooperate between their training jobs and their classroom work during the entire four-year period. Students in the regular course attend full-time during the first year and cooperate during the second and third years.

Only three of this year's second-year electrical students withdrew during the summer and all three entered military service. Drop in senior enrollment was five during the summer period. One of these entered the Navy, one transferred to another school and three accepted full-time employment in industry.

ferment as a student.
3. He must not previously have taken a Selective Service College Qualification Test. '

All students who meet these requirements and who are subject to the Selective Service system are urged to take one of these qualification tests.

Students who have entered the Institute in September of 1951 are entitled to have their induction into the armed services postponed for the balance of the school year except in cases where postponements have been previously given. The Registrar's Office will supply students with a form upon which may be entered information enabling the Registrar's office to forward Form 109 which is the College Student Certificate. At the close of the school year the Registrar's Office will forward Form 109 in the cases of all students subject to the regulations of the Selective Service indicating the rank in their class. It is very essential that all students maintain good scholastic records so they may qualify for student deferment.

Art Ely Selected For Art Award

Pvt. Arthur R. Ely, who attended RIT in 1946 and 1947, recently won the grand prize and three other prizes in a post-wide art contest held at Heidleberg Military Post in the U. S. Zone of Germany.

His grand prize-winning work, which competed in a field of seventy entries, was a watercolor sketch of the city of Heidleberg on the scenic Neckar river. His other prizes were a first place in the cartoon division, a second in painting, and a third in drawing. His prize-winners have been sent to Nurenberg, Germany to compete with entries from other U. S. military posts throughout Germany, Austria, Trieste and France.

Ely graduated from Rochester's East High School in 1946. In 1948, after leaving RIT, he was employed as a staff artist for Abraham And Straus in Brooklyn. He then worked in New York City as a free lance artist until he entered the Army in October of last year.

At present, Ely is a draftsman assigned to an Engineer

in August to Edward Sindzinski. Marion has been for several years assistant dietitian at Vassar Brothers Hospital, Poughkeepsie, N. Y.

CLASS OF 1941

Robert E. Kesel (Mech) is senior tool designer in the Still Camera Division of Camera Works, Eastman Kodak Company of Rochester, N. Y.

Arvilla Pomeroy (FA) is now touring Europe on vacation, and expects to be back home later this month. Arvilla has been for the past year assistant to the food production manager at the Statler Hotel in Boston, Mass.

CLASS OF 1942

Connie Buchanan Arnott (FA) has a daughter, Wendy Jane, born August 26. Her first child, Eugenia Lee, is two years old. Address : Mrs. D. Carlton Arnott, 428 Valley Rd., Upper Montclair, N. J.

Marjorie Jones Olds (FA) has a new daughter, Ellen, born last July. Marjorie's family now numbers four, equally divided between girls and boys.

CLASS OF 1943

Aoris Kent (FA) is married to Richard Aurich, and lives at Kynlyn Apts., 1261 Kynlyn Dr., Wilmington, Del. Doris is dietitian in the employees cafeteria at Joseph Bancroft & Sons, and her husband is a chemist in the same organization. Doris writes that **Lois Atchison Baird** (FA) has gone to Trinidad with her husband, who is an engineer in the U. S. Army.

CLASS OF 1944

Eudora Shaffer (FA) is a staff dietitian in the central food service at St. Mary's Hospital, Rochester.

CLASS OF 1947

Rose AiSalvo (FA) has recently taken a new position as staff dietitian at Rochester General Hospital.

Word has been received from **Barbara Slater Fairbanks** (Mrs. Robert A.) that she is now living in Alaska where her husband will be stationed for two years. Their address is c/o A.R.C., Valdez, Alaska.

Ruby Jabo (Ret) was married during the summer to Joseph F. Pilotpi. They are living in Binghanton at 4 1/2 Baster St. and Ruby is continuing her work as buyer of bridal and evening dresses for McLean's store.

CLASS OF 1948

Herbert Call (Mech) was married on June 16, 1951 to Arlene E. Mullen of Stafford, N. Y. They are

living in Stafford where he is farming.

Robert Horne (P&P) visited the department this summer while on his vacation. Bob looks very prosperous and happy. He is still with the Intelligencer Company in Lancaster, Pa.

Geraldine Warren (FA) was married in August to William F. Gardner, of Burdett, N.Y.

Patricia Lindsay (FA) was married in August to Milton Bebee, of the Publishing & Printing faculty at RIT. The Bebees live at 7 Livingston Pk., Rochester 8.

Aoris Forsyth (FA) was among those who came to town for Pat Lindsay's wedding. Doris has been with Skychefs since her graduation, and is now dietitian in charge of menu planning and cost controls for the Skychefs Restaurant at Cincinnati Airport. Address: 28 W. Orchard Rd., Fort Mitchell, Ky.

James Mulcahy (FA former student) is manager of Brooklea Country Club. The Mulcahys live at the Club, Pixley Rd., Rochester 11.

Kay Reeder Zoppoth (FA) is manager of the cafeteria for the beautiful new Rush-Henrietta Central School on East Henrietta Rd. Kay's address is Mrs. Bernard Zoppoth, 173 Wooden St., Rochester 11.

Lois Tobin (FA former student) received her B.S. degree from Syracuse University last June and is now taking a dietetic internship at Scripps Metabolic Clinic, LaJolla, Calif.

Wade Harmon (P&P) paid a surprise visit to the Institute this summer. He is still employed by the National Publishing Company, in Washington, D.C., and very enthusiastic about his position there. Wade brought his two-year old daughter with him.

CLASS OF 1949

Eileen McCarthy (FA) and **Bob Richardson** (Art) were married in August. Bob is in the Navy and is training to be an aviation electrician.

Agnes Aorky (FA) was married last summer to Robert Amstadt, of Akron, Ohio. Agnes is on the managerial staff of the food service at Kent State University, where Bob is studying. Address: Mrs. Robert C. Amstadt, 618 Palisades Dr., Akron 3, Ohio.

A recent letter from **Bob DeSeyn** (Ret) tells us that he is teaching in Leader's School at Fort Dix, N. J., and that he is awaiting results of his application to O. C. S. He is engaged to Sally

Newberry who is now attending Keuka College. Bob's address is : U. S. 51055829, Hq. Hq. Btry., 9th Div. Arty., Fort Dix, New Jersey.

John Rathmell (P&P) has informed us that he has left his position in Akron. New York to become associated with a firm in Middleport, New York. Good luck, John!!

CLASS OF 1950

Ruth Bissell (FA) was married in July to Donald Rayburn. They have bought a home at Morton, N. Y.

Warren Boris (FA) is assistant manager of Boulevard Cafeteria, 5084 Biscayne Blvd., Miami, Fla. He came back North on vacation this summer, but thinks he would never again want to round the seasons in the Rochester climate.

John C. Lathrop (Mech) has received a leave of absence from Kodak Park Works, Rochester, New York for service in the U. S. Army.

Josephine Parlato (FA) went into a new position last summer as cafeteria director at the Buffalo Y. W. C. A. Residence.

Shirley Orcutt Ruppert (Ret) is now living in Richmond, Virginia, where she is now training representative for Thalheimer's. Shirley and her husband make their home at 2316 Lacey Lane.

Priscilla Aoner Reetz (Ret) is now assistant buyer of lingerie for E. W. Edwards and Sons in Rochester.

Word has been received of the marriage of **Mary Lou Hawkins** to William O'Connor. They are living at 120 B. Avenue, Bayonne, N. J.

Mary Ellen Spalding (Ret) was also married this summer to John Murray. She is continuing her work at Adam, Meldrum and Anderson as bridal consultant and lives at 139 Wesley Avenue, Buffalo.

Gene Penler (P&P) wrote recently that he been recalled to active duty with the Army Air Force. He had just returned from Camp Kilmer, in New Jersey, where he completed all necessary processing. He is ordered to report to duty on November seventh. Our very best to you; Gene!!

CLASS OF 1951

Aorothy Abets (FA) is assistant therapeutic dietitian at Genesee Hospital.

Janet Paige (FA) was married last June to Richard W. Lewis, and lives at 188 Brooks Ave., Rochester 11. Janet is employed at Sibley's Buffet.

Winning combinations are a factor in the record established by the RIT basketball squad shown here in battle with Utica College.

Friday night is a busy night generally at the Institute with juke box dances such as this Harvest Moon Mixer scheduled in Eastman Lounge.

Groups Offer Freshmen Many Varied Activities

Tech students are fortunate in the wide variety of extra-curricular activities offered to them. In addition to the student government organizations and the student publications, including the Reporter, Techmila, Student Handbook, many social groups are active on campus. Some of the activities of these groups are depicted on these pages.

Included in the social groups are eight sororities and fraternities and many departmental and student organizations. The

Institute is proud of its athletic program, maintaining teams in basketball, wrestling, baseball, tennis, and fencing.

The freshman student at RIT should have no trouble in finding here the activities in which his special interests lie.

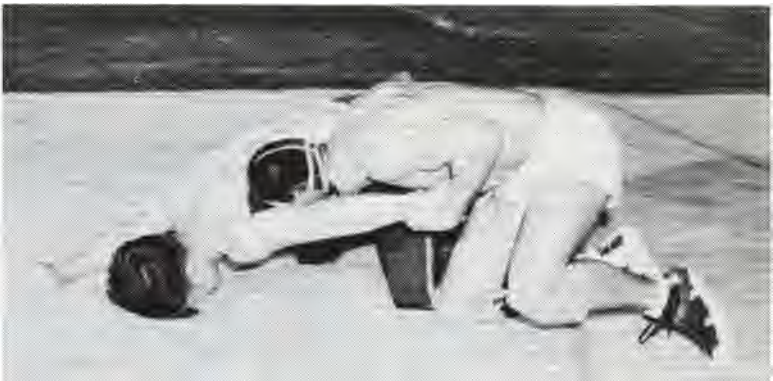

All clubs and organizations are listed in the Student Handbook which has been distributed to all freshmen. Information on purposes and plans of organizations can be obtained from the group officers or from faculty advisors.

Pleasure is mixed with learning at the Institute Library in the Eastman Building.

Pumpkin Hoedown, an informal Friday night dance lives up to its name as students liven atmosphere with antics.

One of RIT's favorite sports is wrestling. Here a member of the Tech wrestling squad is shown at a tournament in Buffalo.

Typical of the many contests held throughout the school is the Miss Shape contest won by Joan Gubert on the left.

High school students get a sample of Food students' techniques at an annual Open House for high school students.

Typical of the publications is this staff of the student newspaper. Senior staff members meet regularly to discuss policy and procedures. Openings are available for all students.

Fashions are displayed by students of the Retailing Department at the annual fashion show sponsored by the department.

Lovely Ruth Farley wins the Miss RIT contest and is given the trophy indicative of her winning ways.

One of the top events of the school year is shown in the above picture and the three-column picture on the left. Delta Omicron's annual Minstrel Show, replete with costumes and paint, keeps the audience in "stitches" for the entire show.

RIT Extends Welcome To Area's HS Students

High school students from Rochester, Monroe County, and from eight adjoining counties will be invited to the Institute's annual Visitor's Day, 1-4:30, Nov. 7. It is expected that a considerable number of students will journey to the Institute in busses and private cars in groups ranging from five to 50.

Each department is planning to

demonstrate its work and will distribute its students throughout the laboratories and studios. As in the past, cooperation of each of the Institute students will be of the utmost importance. It is planned to demonstrate the courses offered here to assist high school students in selecting their life work.

A poster and a program are being printed and will be displayed throughout the area to which invitations will be sent. A number of tours will be organized to enable visitors to visit the departments in which they have the greatest interest. Upon completion of any tour visitors will be assisted in reaching the starting point of any of the other tours.

Special provision will be made this year to display the work of the Counseling Center. A member of the staff of the center will discuss and explain its practices and procedures in three meetings to be held at 1:30, 2:30 and 3:30. After a brief presentation, visitors will be taken through the center to observe its operation.

High school principals and guidance counselors will be invited to participate in special tours under guides to visit the departments of their interest. These special tours may include visits to the Counseling Center and other points.

P & P Dept. Survey Evaluates Job Data

Approximately 800 graduates of the Department of Publishing and Printing are currently being surveyed for the bi-annual report on alumni activities.

Data resulting from the survey will be used as a basis for a general report on the scope of jobs now held by graduates and for evaluating the objectives of the department.

In addition, the survey will aid in determining the geographical spread of graduates and in improving the general mailing list.

It is expected, according to Byron G. Culver, department supervisor, that the survey will show the scope of jobs now held by graduates has increased vastly within the last few years.

Check or Double Check, Vets \$64 Question

O. W. Price, Veterans Administration regional manager at Buffalo, informed Alfred A. Johns, RIT Registrar, to advise veterans there may be a delay in the dispatching of subsistence checks. This delay has already been noted and in some cases felt by RIT students.

Mr. Price, Veteran Administration regional manager at Buffalo, informed Alfred A. Johns, RIT Registrar, to advise veterans there may be a delay in the dispatching of subsistence checks. This delay has already been noted and in some cases felt by RIT students.

Mr. Price explains this delay as having been necessitated because of changes in personnel at VA

offices throughout the United States. According to the VA spokesman, checks for two days' September subsistence due summer school students have been dispatched and should be in the hands of all veterans. These checks should be in the amounts of 5, 7 or 8 dollars, depending upon the classification of the recipient.

Delay in receipt of fall term subsistence checks will occur only in some instances in that it refers to RIT students. Due to closing dates at VA headquarters, Buffalo, only a limited number of RIT applications were processed. These veterans have already received their September checks. Veterans

who have not received the September check are requested to be patient. All RIT students will receive their checks by November first.

The checks for veterans who have not received September subsistence will include that due them for the 21 days of September as well as the entire allowance for October. Future payments will arrive regularly.

Mr. Johns advises all veterans not to communicate with the VA. Communications addressed to VA regarding the delayed checks must be answered by check processing clerks and it will further delay the receipt of checks.

Engineers Attend Club Meeting

George H. LeCain, Assistant Supervisor of the Mechanical Department, and Cyril Donaldson, Instructor in the Mechanical Department, are attending the upper New York section meeting of the American Society of Engineering Education at Potsdam, N. Y. Clarkson College of Technology is the host for this year's meeting and an excellent program has been arranged.

On Saturday morning, a panel discussion on manpower highlights the program. The moderator is M. M. Boring of General Electric Company, and the Panel

members are Louis A. Wilson, Commissioner of Education of New York State; P. E. Hemke, Dean of Faculty of Rensselaer Polytechnic Institute; Lawrence L. Jarvie, Executive Dean of the State University of New York, and Col. Carey H. Brown, Vice-President in charge of engineering, Eastman Kodak Company.

Commissioner Wilson is a graduate of the Class of 1910 from Rochester Institute of Technology and Dean Jarvie was formerly chairman of Educational Research here at the Institute.

Dorm Residents Elect

Leonard Ogden, Others

With Council elections completed, members of the Spring Street Residence Hall Association held their second business meeting on Oct. 2. Elected to head the association this year is Leonard Ogden, a Retailing student. Other officers are Pete Cicarelli, vice-president; Foster Johnson, treasurer; and Kem Schultz, secretary. Board members include Arthur Kuchta, Joseph Cornacchia, Richard Fleck, Marvin Daniels, and William Willson.
