## Cagers, Matmen Close Current Series Tonight

### Brockport Bounces RIT Winning Streak

Institute cagers and matmen close out their current home series tonight when the basketball squad meets Paul Smith College and the wrestlers meet the University of Buffalo grapplers for the second time this season.

The six-game win streak was broken last week when the varsity courtsters dropped the contest to Brockport Teachers by a tally of 74 to 61. RIT led by one point at the half way mark but the Teachers opened up in the third quarter cracking the Institute zone defense for 21 points.

In tonight's fray the Institute will be meeting a team which is out to avenge a licking administered by our Techmen last year, a licking which knocked Paul Smith from the unbeaten ranks. Paul Smith's will be fielding a veteran squad.

The wrestlers ended last Saturday night's triple header on the victory note by easily defeating the University of Toronto wrestlers 24 to 8. The win gives the wrestlers a season record of four wins and three defeats.

Tonight they meet the University of Buffalo squad whom they defeated in the season opener by a score of 27 to 7. A repeat performance of heads up wrestling displayed against Toronto should provide the Institute squad with its fifth victory of the 1951-52 wrestling campaign.

## Art Students League Presents Shakespeare's 'King Lear'

Because of the outstanding success of last year's production, the Art Students League will again present its condensed version of William Shakespeare's "King Lear." This year it will be staged by the Art students, in collaboration with the Rochester Chapter of DeMolay on Feb. 16.

The plot is condensed into six scenes dealing with King Lear's (played by Mr. Bond) division of his kingdom, his disillusionment with his two older daughters, the haughty Goneril (Judy Wood) and the crafty Regan, his estrangement from his youngest daughter, the royal and heartbroken Cordelia (Ruth Farley); and his tragic end in madness. A secondary plot which involves the Earl of Gloucester, is omitted, but the play runs along smoothly regardless.

Last year Mr. Bond, who also directs the play, gave a remarkable portrayal of Lear, whose pride and unreasoning passions blinded him to the devotion of Cordelia and the faithful Earl of Kent (Frank LaGreca).

Other players are Grace Tomasselli as the King's jester; Dick Kane as the Earl of Gloucester, Richard Brouse as the Duke of Cornwall, Regan's husband, Charles Fagan as the Duke of Burgandy, one of Cordelia's suitors; Richard LeFevre as the King of France, another suitor of Cordelia; and Joseph Sanelli as Oswald.

Again, David Ramsey is respon-

Jack Nunn, top band leader in Western New York, is shown at the left above with two of his entertainers in a pre-view of the sort of merriment that will be awaiting couples at the KSK Sweetheart Ball in Hotel Sheraton ballroom Saturday night.

### Paging You, You, and You

## Jack Nunn's 'Music for You' Featured at Sweetheart Ball

In a setting of hearts and flowers and provided with the music of Jack Nunn's orchestra, the members of Kappa Sigma Kappa will select their 1952 sweetheart at their annual ball tomorrow night, in the Hotel Sheraton ballroom.

The 1952 Queen will be chosen from the top 12 candidates named by RIT students. For the past two weeks, students have been placing names of their favorite candidates in ballot boxes distributed around the Institute.

Members of the fraternity will make the final selection tonight at the parade of the 12 top named in the balloting.

Jack Nunn's orchestra, which will provide the music for dancing from 9 to 1, is familiar to RIT students. His orchestra with "Music for You" has played for numerous Institute functions including the

Alumni Banquet Dinner and Dance last May.

The Grand Ballroom of the Hotel Sheraton will be decorated to portray the sweetheart theme. Brothers and pledges of the fraternity have combined talents to provide an unusually attractive dancing atmosphere.

Tickets for the event are still on sale and may be purchased from any Kappa Sigma Kappa member. In addition, students unable to purchase tickets from individuals may secure admission at the door tomorrow night.

Commenting on the importance of the event, Don Hosley, KSK president, stated, "Competition always runs high at these annual events, and we are sure the final results will be determined by just a few votes."

Refreshments will be available at all hours during the dance at specially prepared refreshment booths. Favors will be distributed to lady guests.

Heading up committees for this year's dance has been Robert Spinney, dance chairman. Other committee heads were Gilbert Thompson, publicity; Art Kuchta, tickets; D. Belluci, Frank La Greca and R. Rittenhouse, decorations.

Chaperones for the dance will be Mr. and Mrs. Al Booth, and Mr. Raymond Vosburgh.

Photo by Campbell Studios Milton Bond as King Lear

sible for the stage settings. Last year he did an excellent job especially on the, storm scene in Act 4. In addition to being stage manager, Ramsey will be the announcer.

Carl Zollo, who did a fine job last year, is again in charge of making-up the cast. Music will be furnished by Joachim Mueller.

Those who missed last year's presentation of "King Lear" by the Art Students League will certainly make it a point to get to this year's presentation, and those who did see it will probably want to see it again this year.

## Evening Courses Show 350 Student Increase

Registration figures for the second term of the Evening and Extension Division indicate approximately a 350 student increase over last year's enrollment. The figures, though not complete, indicate a final enrollment of 3,700 students.

Burton E. Stratton, director of the Division, estimates that the Institute's Evening and Extension Division ranks 20th in size in the nation. More than 200 individual courses are offered in addition to 20 diploma programs and three degree programs.

A course being offered for the first time is open only to former graduates who are completing credits for the Associate in Applied Science degree. Orientation in Science is a lecture and discussion course dealing with the major areas of exact sciences and the way in which these sciences fit into everyday life. Ralph Gray of the General Education Department will teach this course.

Another course being offered for the first time is United States History, a study of major forces in the evolution and social life in the U.S. from European background and colonial beginnings to the present.

The evening classes are taught by 200 instructors of which 165 are business and professional people brought in to teach courses in their fields. The remainder are day school instructors teaching evening classes.

The number of veterans enrolled this year is 326, a sharp drop from the 859 who attended last year.

Four other new courses being offered this term are Profitable Small Plant Management, Motion and Time Study II, Practical Lubrication, and Proof read in g Streamlined.

### Smorgasbord Feast For Secretarial Club

RIT's Secretarial Club has scheduled a Smorgasbord for Feb. 19 at the Chili Avenue home of Mrs. Lucretia Bjers, secretary to Alfred A. Johns, Registrar.

Mary Helen Kelly, chairman of the event, has appointed Barbara Parker, head of the food committee; Mary Frances Dudley, head of the clean-up committee; and Dorothy Mateyk, head of entertainment.

Club members plan to leave the Institute immediately following the closing of departmental offices at 5 p.m.

## Bloodmobile Here March 3

Rochester's Red Cross Bloodmobile is planning two more visits to the Institute this year, one on March 3 and the other on April 28.

Bob Van Auken, freshman in the Mechanical Department is chairman of the drives and reports ambitious plans for Institute students to set a national collegiate record in blood donations. The University of Idaho now holds the record with one third of their students donating during a blood drive on the campus.

Van Auken feels sure, he reports, that RIT students can better this record because they have repeatedly exceeded their quota even though half of the students in the cooperative departments were out on work block.

In order to make the opportunity available to these students two visits will be made to the Institute by the Bloodmobile.

To assure the highest number of pints of blood donated, Van Auken is passing out permission forms. These forms must have the written permission of parents of all students under age 21 before those students will be allowed to donate.

The drive is arranged by setting up quotas for the nine departments. Last time the Bloodmobile visited the Institute on Nov. 5, the Publishing and Printing Department students led the way, exceeding their quota by 60 per cent.

### Hear GE X-Ray Expert

Students of the Chemistry Department, the Electrical, and the Photographic Technology departments studying chemistry recently were addressed by R. J. Ranftl, an expert on x-ray defraction, of the General Electric Company.

Ranftl discussed the sources of the x-ray and its application to the various fields of chemistry, electricity and photography.

## 'Voice of RIT' Gets Wide Acclaim

The Institute switchboard was swamped recently following a "Voice of RIT" program which featured a "wonderful" demonstration by School for American Craftsmen student Dick Johnson in making a pitcher on the potter's throw wheel.

Almost every caller wanted Institute catalogues and information folders, but some just called to give their congratulations on the fine series of programs now being put on by the Institute. Calls, cards, and letters have continued to flow concerning the programs.

The program featuring Johnson, making the pitcher, was just one example of the kind of program

being produced through hard work, planning and cooperation on the part of RIT staff members and personnel at Station WHAM-TV.

Next Monday's program ends the series of five put on by the School for American Craftsmen and the following week will start a series of three featuring the work of the Institute's Counseling Center. This will end the original series of 13 programs by the Institute and immediately following that another series of 13 will begin.

Ray Von Deben, who is producing the programs for the Institute asks that alumni of RIT drop a letter or card telling him what they think of the series, in addition to forwarding any suggestions

concerning the series. Address them to Von Deben at RIT.

Following are excerpts from a letter received from Mrs. Doris Halpin who saw the program for the first time during the Interior Decoration series put on by Mrs. Jean Stampe.

"You can bet I'll do some rearranging of my time in order to see the 'Voice of RIT' in the future. Why we don't have more educational programs I cannot understand. I know so many people who would like more, but like myself, never voice their desires and opinions to the right people.

"Success to the 'Voice of RIT'. I'm sorry I missed the first three of the series, but am looking forward to heirlooms for the future."

# Editorial

## A New Low—the 'Milk Siphon'

Now we have heard of everything! That lowest of all criminals, the "milk siphon," is now practicing on the RIT campus.

Lately the members of the *Reporter* staff have been snooping around the milk dispensers in the cafeteria, the lounges, and the barracks, and have noticed that "empty" look that the bottles take on toward the end of the day.

The bottles are there, but their caps are strewn around the machine, and their contents drained.

These dispensers were installed by the Institute for the convenience of the students. Their contents enrich our campus life. It is up to us to take care of them.

These dispensers are our friends, let's treat them as friends should be treated—let's drive this criminal from our campus.

## Another Chance to Share Your Life

Our last two Blood Drives have proven highly successful and now it's time for another. To enable both work blocks, to give blood, two dates have been scheduled—March 3 and April 28.

Letters of gratitude from the Red Cross have been received for the generosity of RIT students in giving of their most precious possession—their life blood.

Chairman of this drive is Bob Van Auken. We know that this drive will be as successful as the others. We hear that he is trying to beat the record set by the students at the University of Idaho, and we hope that he will.

If you will excuse us, we will finish this editorial by quoting an editorial which appeared in the October 26 issue of the *Reporter*. We feel that it is still appropriate.

March 3rd could be your day to save a life. "You still have plenty of time in which to send your permission blank home to your parents to enable you to give a pint of your blood.

"The need for blood by our armed forces serving in Korea, as well as the increased use in curing many heretofore hopeless disease cases, has placed a staggering demand on the National Blood Program. Since there is absolutely no alternative, regional offices of the program must meet their increased quotas.

"With our goal this year set at 150 pints, we are really going to have to unite forces in order to push this drive over the top. Since free time is given from all classes for the express purpose of allowing students to give blood, there should be no complaining about lack of time."

This donation means little to you, but to the person receiving it, it is life.

## KG Girls Go for Goals

Last night the girl's basketball competitions got under way in the gym over the Shop Building. The Kate Gleason girls have formed teams according to their floors, and once again, the rivalry begins.

It is our belief that this is the first year any such competitions have been held, but it certainly is a good step in the right direction taken by the girls.

The enthusiasm shown by these girls is most commendable, and we know it will do much to bring about good sportsmanship and fair play.

Equipment was bought in part by the Dorm Council and the remainder by the players themselves.

Captains Lois Jensen, Nancy Drake, Betty Maltbie, Debbie Flemings, and Sally Scott with the able guidance of Director Mary Dotterer should make these sporting contests so successful that they will be continued as a regular feature of campus life in the future.

## PARADE OF OPINION

From the Silver and Gold, University of Colorado:

In actuality, the Phi Beta Kappa key means just one thing: the wearer got high grades in college. It indicates about as much as high grades themselves indicate—except as the prestige of the key has made it an object apart from grades.

The Phi Beta Kappa key is meant to serve as a symbol and a recognition of intellectual accomplishment. But to some, symbol has become the thing. The key signifies wisdom; the man wears the key. Touch the lever, omit the middle, slide them together; the man is wise.

On Phi Beta Kappa's 175th birthday, it may be well to remember that a key—like paint—can cover many flaws. It is the man and the architecture that matter.

Phi Beta Kappa has a definite function to fulfill—the promotion of growth and attainment. Let it not lose sight of the wall in the sanctification of the wallpaper.

From the Daily Nebraskan, University of Nebraska: Membership in the Phi Beta Kappa is one of the few honors a

University student can receive that is void of campus politics and based solely on individual achievements:

For this reason the recognition should carry a great deal of honor. Since its founding a 175 years ago on the campus of the college of William and Mary, Phi Beta Kappa has used the motto: Philosophy is the guide of life...

Part of the Phi Beta Kappa creed might well be used by other students: "...We have developed a force that can lead to self-destruction, but lack the wisdom to control and direct that force toward its proper ends. This is the crisis we are called upon to meet..."

### QUOTATION OF THE WEEK

(From the Teachers College Index, Missouri)

"A lecture is a process whereby notes of the instructor become the notes of the student with no change of knowledge."

### BIAS?

The state legislature in Michigan has decided the Michigan State football team is the number 1 team in the country. Coach Biggie Munn.

The decision was unanimous.

### QUIRKS AND COMMENTS

At the University of Princeton police chased, but failed to catch, two students charged with tearing down nine rural type mail boxes and stealing one sign.

Said the police chief: "The only thing we know is that Princeton University students did it."

At Texas A&M the lost and found bureau advertised its possession one biology final exam.

At Sacramento Junior College in California the president and vice president of the -sophomore class were elected by a landslide. Total vote: 11.

Students at Yale University made an unsuccessful attempt recently to institute setups at college dances. They pointed out that "the duty of Yale is to give a social as well as an academic education to its students."

Snapped the dean, "If we need liquor to sustain the college system, then we had better abandon the college system."

At Williams college, Mass., the Garfield Club, composed entirely of non-fraternity men, told the administration it would disband unless total fraternity rushing is established.

## Tech SPEAKS

Reporter - - - Bob Weinstein  
Photographer - Dave Shuckman

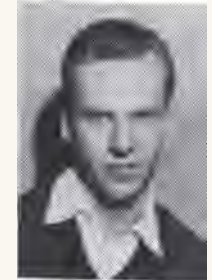

### THE QUESTION

Should the hours at Kate Gleason be kept as strict as they are?

Jim Forney ...

Photo Tech Freshman

Compared to some schools Kate Gleason is quite lenient. It could be better. If the hours during the week were a little later then the men would be likely to take out a dorm girl rather than city girls. The weekend hours are all right as they are. The changes should be made in the weekday hours. It should be 11 or 11:30.

Bob Reitnauer ...

Retailing Freshman

The hours are OK as is, but if the girls had some more freedom they would also have more responsibility. To a certain extent it would stop fellows from dating the dorm girls during the week, because by the time you start out for any place it is time for the girl to be in. I think that 11 o'clock would be a reasonable hour.

Leonard Pilznienski ...

Electrical Freshman

The hours as they stand now are unreasonable. The weekday hours should be at least 12 and on weekends it should be 2. The way the hours are now it would prevent the fellows from taking out Kate Gleason girls because there is no time. If the girls had an extension on their time it would prevent girls from coming in late.

Richard Hugendubler ...

P&P Freshman

For any girl that is here to study the hours are OK. These girls should be able to make their own hours as long as they accomplish their school work. All girls should have one night set aside during the week for dates other than Saturday nights—12 for one day a week would be enough.

Joe Locke...

Mechanical Freshman

I feel that the girls should be able to have one night in the middle of the week set aside for dates, this would prevent fellows from becoming discouraged with hours and they would be more likely to take out Kate Gleason girls. The rules in other colleges are more lenient than they are at Kate Gleason.

## MSA Tours Ingersoll-Rand Plant

Modern air compressors were demonstrated to the senior and junior students of the Mechanical Department during the Mechanical Students Association's tour of the Ingersoll-Rand Plant on Tuesday, Jan. 15.

This tour, arranged by M. S. A. faculty advisor Cyril Donaldson, included 42 students and two faculty members, Mr. Buehler as well as Mr. Donaldson. Following their arrival at the plant, the guests were met by Mr. L. J. Poitras, who gave them a brief history of the Ingersoll-Rand Company along with a description of their plants and products.

The party was divided into groups of seven members each in charge of a graduate engineer. The tour in the morning was through the machine and erecting shops. An idea of the size of this plant can be gained from the fact that although the vistas were large, the party containing the writer did not catch a glimpse of another group of students until the end of the tour.

Several very large machines were observed. One that aroused much interest was a large natural gas engine and compressor. This

unit contained 12 gas cylinders arranged in a "V" with three horizontal compressor cylinders. This was to go into a pumping station for a pipe line conveying natural gas from the Texas oil fields to the markets in the northern states.

Another large machine, observed in the later stages of erection was a steam driven compressor. They do not build many of these now that electric power is available nearly everywhere, but there are many mines and quarries in remote spots that need independent power units. This one was going to northern Canada.

While the large machines created much interest, several of the smaller compressors attracted much attention. A recent invention of interest to the machine design class was a rotary compressor built on the principle of the vane pump. This was in large scale production and it appears that in time this type might supersede the reciprocating compressor entirely.

At noon, the entire group was taken to the Imperial Club as guests of Ingersoll-Rand where a luncheon was served. Mr. Smith, general manager and vice-president gave a word of welcome at

which time it was learned that he had designed the very modern foundry which was to be seen in the afternoon.

This consisted of a look at the core and pattern rooms in addition to the main floor where the molds are made and the metal poured. The group was lucky enough to see several very large castings poured and it was a great sight to see such a large amount of red-hot molten metal. Many other techniques of foundry work were explained and several students understood this rather difficult process for the first time.

## Haloid Installs Foto-Flo Unit

Latest major piece of equipment installed in the Publishing and Printing Department is the newest model of the Foto-Flo rectigraph made by Haloid Company.

Representatives of Haloid Company, Corridon R. Browne and Robert Fladd installed the photo-copy camera last week and put it through a series of test runs and made final adjustments.

Browne, who is a Photographic Technology graduate in the class of '48, stated that his company was "thrilled to replace the Institute's rectigraph with the latest model."

#### Has Many Uses

The Foto-Flo has many uses in all types of businesses and industries. It copies both line material and photographs, anything written, printed, drawn, typed or photographed in actual, reduced or enlarged size.

Several of the many uses suggested by Browne are to make legal copies of material which are accepted by most courts as primary evidence; to enlarge or reduce lettering for layout and paste-up requirements; for use in offices for copying invoices, for use in newspaper libraries; and many hundreds of other uses.

#### "Fine Cooperation"

Dr. Mark Ellingson stated, "The installation of this equipment by the Haloid Company is one more instance of the fine, cooperation and backing which Rochester industry offers the Institute and its program."

Joseph C. Wilson, president of Haloid Co., who was recently elected president of the Rochester Chamber of Commerce stressed in his inaugural address last week the need for Rochester industry and business to back Rochester schools, "because human resources will be worth more to us than any material or facility."

# Keeping Up With Institute Alumni

## CLASS OF 1906

**Belle Emery Ogilvie (HE)** writes enthusiastically of her enjoyment of the REPORTER and wants to send news of herself to old friends. She has had seven children, five of whom have grown to maturity, and four of them served in World War II.

After her family grew up she went back into teaching Home Economics classes at YWCA and as substitute teacher in the public schools. She says, "I am still teaching and appreciate so much my early training at the Institute." One of her daughters teaches music. One son has his doctor's degree and is a professor in the State College at Chico, Calif. where she had the pleasure of visiting for a month last fall. Address: Mrs. George R. Ogilvie, 127 Harriett St., South Portland, Me.

Word was received recently that **Joy Bechtel Hopkins (HE)** died last October at Warren Memorial Home, in Warren, Ind. Mrs. Hopkins' daughter, Betty, is a graduate of U. of Michigan, and is married to Don Nibbelink, a graduate

of Photo Tech at RIT. The Nibbelinks live at 3496 Culver Rd., Rochester 9.

## CLASS OF 1914

Friends of Marie Schmitz Leavenworth (HE) will be saddened to hear that she passed away in the summer of 1950. Word has just been received recently from her husband, Dana T. Leavenworth, who makes his home at 25 Staples Place, West Hartford, Conn.

## CLASS OF 1928

**Raymond J. Delaney (Mech)** is process engineer in the Factory Engineering Division of the Carrier Corporation located in Syracuse.

## CLASS OF 1929

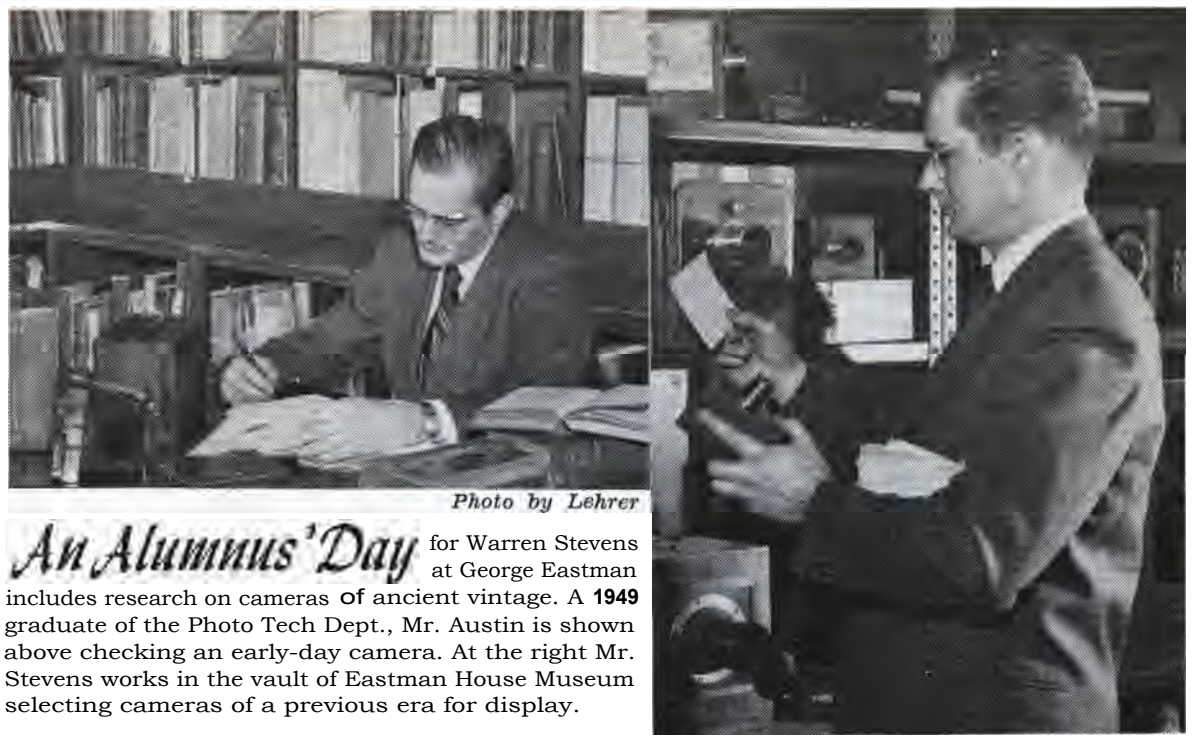

**Esther Penci (HE)** is supervising dietitian at J. N. Adam Memorial Hospital, Perrysburg, N.Y.

## CLASS OF 1931

Friends of Mary Storto Coyer will be glad to hear that her arthritic condition is greatly improved. After several years when she was unable to do anything, she is now free from pain and able to do her routine work. Address: Mrs. Edward J. Coyer, 160 Sodus St., Clyde, N.Y.

Good news has come also from **Marjorie Gibson (FA)**, who has been physically handicapped for several years by a neuromuscular ailment. She writes that she is greatly improved and now able to get about without a cane, although still somewhat lame. Address: 119 So. Main St., Holley, N.Y.

**Edwin J. Brinkman (Mech)** is supervisor in the Optics Inspection Department of Bausch and Lomb Optical Company, Rochester. He

is married and has three children.

**Charles D. Curtis (Mech)** after graduation from the Institute received his B.S. Degree at Oklahoma A. and M. College. He is group supervisor in the Engineering Department of the Lockheed Aircraft Corporation located at Burbank, Calif.

## CLASS OF 1933

**Peter J. Dell (Mech)** is time study engineer in the Standards Dept. of the Delco Appliance Division of General Motors Corporation of Rochester.

**Weynand F. Fries (Mech)** is on active duty as major in charge of the Syracuse Regional office of the Rochester Ordnance District. He is on leave of absence from the Eastman Kodak Company.

**Florence Martin (FA)** is head dietitian at Community General Hospital, Sterling, Ill.

## CLASS OF 1935

Three FA graduates came back to RIT recently to have a luncheon visit and get acquainted with new developments around the school. **Minnie Polvino Ange (Mrs. Nicholas P.)** lives at 73 McKinster, Rochester 9, and has two children: Jessie Carole, eight years old; and Charles Edward, four years old.

**Irene Zimmer Backer (Mrs. Lewis E.)** lives at 62 Fisher Rd., Rochester 11, and has one son, Robert, nearly nine years old. **Margaret Leiter Smith (Mrs. Andrew W.)** lives at Hamlin, N.Y., and has two children: Barbara, aged eleven; and Andrew, Jr., aged six.

**Wilmer J. Draper (Mech)** is Superintendent of the Pioneer

Thresher Company of Shortsville, N.Y.

## CLASS OF 1936

**Beatrice Nelson (FA)** is dietitian at the Methodist Home for Children in Williamsville. Address: 6350 Main St., Williamsville, N.Y.

**Elizabeth Palmer (FA)** was married last fall to Elmer B. Germain. Address: 178 East Ave., Saratoga Springs, N.Y.

## CLASS OF 1937

A Christmas letter from **Claire Horn Reitz (FA)** enclosed a clipping from the local Kensington newspaper in which she was written up as Housewife-of-the-Week. Claire's friends, who remember her energy and drive from way-back-when, will be interested to see what she manages to do in community activities.

Claire is chairman of the Kensington Unit of the Buffalo Chapter of the American Red Cross, president of the Parent-Teacher Association of the First Lutheran Day School, as well as a participant regularly in the activities of Bethany Lutheran Church as a member of the choir and the Mothers' Club.

Claire's husband, Dr. Herbert R. Reitz, is a practicing physician in Buffalo. They have four children: Priscilla, 11 yrs.; Richard, 8 yrs.; Mary Elizabeth, 6 yrs.; and Ruth Jeanne, 6 months. The Reitzes are moving soon from their home in the Kensington area to 446 Linwood Ave., Buffalo 9.

## CLASS OF 1938

**Alice Flanagan McCarthy (FA)** and her family have moved to Park Forest, Ill. Alice has two children, a boy and a girl. Address: Mrs. John C. McCarthy, Jr., 17 McCarthy Rd., Park Forest, Ill.

**Myron T. Estes (Mech)** is sales engineer with the Michigan Broach Company of Detroit, Mich.

**Edward F. Blum (Mech)** is lieutenant colonel in the United States Air Force, Ministry of Supply located in the Thames House, London, England. After graduation from the Institute, he received his Master of Mechanical Engineering Degree from Rensselaer Polytechnic Institute.

## CLASS OF 1942

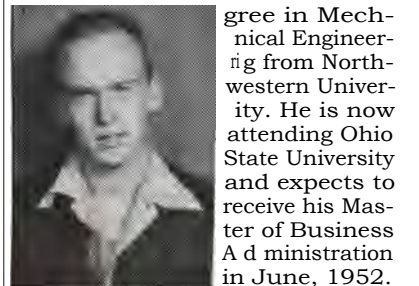

**Theodore Burr (Mech)** is standards engineer at the Rochester Products Division of General Motors Corporation, Rochester.

**Frank W. Gillette (Mech)** is assistant foreman in the Production Department of the Morton Salt Company at Silver Springs.

**Irene Castle Bly (FA)** and her husband, William, have moved into a new home at 11 Irving Drive, Rochester 11. Irene is a teller at Rochester Savings Bank.

## CLASS OF 1944

**Walt Beckdahl (Mech)** after graduating from the Institute his Bachelor of Science degree in Mechanical Engineering from Northwestern University. He is now attending Ohio State University and expects to receive his Master of Business Administration in June, 1952.

He is project engineer in the Development Department of the Industrial Nucleonics Corporation of Columbus, Ohio.

**Betty Rossiter Craig (FA)** has a daughter, Carolyn Elisabeth, born Jan. 10. Betty's other two children are both boys, aged three and five. Address: Mrs. C. Ernest Craig, 1419 Colin Dr., Pleasant Hill, Newport, Del.

**Helen Greene (FA)** was married on Jan. 12 to Vincent V. Visalli. Address: Miller Rd., R.D., Utica, N.Y.

**Evelyn Daniels Foster (FA)** writes that there are now two children in the Foster household: Tommy Scott, aged five; and Bonnie Lynn, who is nearly two years old. Address: Mrs. Charles O. Foster, 70 Sixth Ave., Gloversville, N.Y.

## CLASS OF 1945

**Kae Holdridge Didier (FA)** former student) is now living in Holley, and her husband has a position as mechanical engineer at Hawk-Eye in Rochester. They have two children: Virginia Ann, aged two; and Judith Elaine, who will be a year

old in March. Address: Mrs. Robert C. Didier, 36 N. Main St., Holley, N.Y.

**CLASS OF 1947**

Joan Warner **Howe** (FA) and her husband have moved into their new home at 141 So. Prospect St., Spencerport, N. Y. Their son, Philip, is two months, and their little girl, Jo Lee, will be three years old in March. Joan writes that Sally **Smith Bunce** (FA) and **Dick** (Elec), whose address is 197 Coleman Ave., live on the street next to the Howes. The Bunces also have a baby, Kathleen Ann, born last November.

Betsy Hathorn **Discavage** (FA) has a daughter, Nancy Jane, born last November. Address: Mrs. John Discavage, 706 Roosevelt Rd., East Rochester.

Mary Keogh (FA) is office manager in the accounting office of the New York State Electric & Gas Corp. at Warsaw, N.Y., which is Mary's home town.

**CLASS OF 1948**

Barbara Crump (FA) is matriculating at Syracuse University for B.S. degree in Foods and Nutrition. Barbara attended U. of Alabama in 1950-51. Address: 914 So. Crouse Ave., Syracuse 10, N.Y.

**Caroline Merletti Pane** (FA) has a daughter, Diane, born last summer. Address: Mrs. Louis J. Pane, 126 3rd Ave., No. Tonawanda, N.Y.

Jim Mulcahy (FA former student) and his wife, Lois, are happy over the arrival of a daughter, Cynthia Ann, born Jan. 2. They also have a son about five years old. Jim is manager of Brooklea

Country Club. Address: 891 Pixley Rd., Rochester 11.

Two alumni recently returned from Korea. are Elroy Norton (PT) and Gordon Hollinger (PT).

**Dorothy Ames Robbins** (FA) has a daughter, Diane Elizabeth, born Oct. 26. Address: Mrs. Lester J. Robbins, 363 Brayton Rd., Rochester 16.

**CLASS OF 1949**

**Francis F. Bill** (Mech) is project engineer with the Sargent and Greenleaf Inc., of Rochester.

**Clarence O. Dorschel** (Mech) is Assistant Chief Production Engineer in the Instrument Division of the American Optical Company of Buffalo, New York.

**George 11. Baist** (Mech) is a Lieutenant in the United States Navy aboard the U.S.S. Porter (DD800). He is chief engineer in the engineering, damage control and repair department.

**CLASS OF 1950**

**Catherine June Goodman** (FA) writes from George Washington University that she expects to get her B.S. degree in May. She is president of the Home Economics Club at GW and has been elected to Alpha Pi Epsilon, Home Economics honorary sorority. Until recently, June has been working part-time as hostess at the Alturus Hotel dining room. Address: 5316 Dorsett Pl., N.W., Washington 16, D.C.

A recent letter from **Helen Lehman Dhondt** (FA) says that she is blessed with a lovely little daughter, Linda Marie, nine months old. Address: Mrs. John D. Dhondt, R.F.D. No. 2, Canandaigua, N.Y.

Betty Cook Johns (FA) has a

daughter, Karen Lynn. Address: Mrs. Harold L. Johns, P.O. Box 296, Margaretville, N.Y.

**CLASS OF 1951**

**Rupert Fain** (FA) is assistant manager at Baptist Temple Cafeteria.

Loren Smith (FA former student) dropped in when he was in Rochester during the holidays on leave from the U.S. Air Force. He is now at Camp Devens, Mass., for Cooks and Bakers School, and then expects to be assigned to Cincinnati Air Terminal as Mess Steward in a training program for mess-service staffs. Permanent address: 127 Pontiac Drive, Rochester 17.

**CLASS OF 1952**

Carlton Gammons (FA former student) is reported to be in the U.S. Air Force, stationed at Lowry Field. Address: Pfc. Carlton B. Gammons, AF 11239539, 3427 Student Squadron, Box K1637, Lowry Air Force Base, Denver, Col. (Home address: 9 Lane St., Middleboro, Mass.)

**Robert L. Pless** (Elec) withdrew from the Institute at the end of his freshman year to join the service. Robert is now Corporal in the Air Force at Keesler Air Force Base in Mississippi. He informs us that he has finished his courses in electronic fundamentals, radio repair, and a course for instructors. He is now an instructor in radar.

Inside Looking Out

Spring Street Dorm Men Hosts

Approximately 150 guests attended the second annual Open House of the Spring Street Residence Hall, Sunday, Jan. 20. Students, faculty members, and friends of the men residents spent the afternoon touring through the building and learning more about the ways of running a dormitory. Women from Kate Gleason Hall obliged the men in the evening by acting

as partners in a dance scheduled from 6-10. Saturday before the event, residents cleaned the dormitory from top to bottom. Bob Harris (PT) arranged for decorations in the downstairs lounge and for the refreshment table. Phi Upsilon Phi pledges were appointed by sorority officers to take charge of the sandwich department.

'No Time for Cheers' Is Off-Key Refrain

By NELSON HODGKINS  
Here at RIT we have something to cheer about, but there seems to be some doubt as to the amount and volume of cheering. We refer of course to our major sports program. In the RIT wrestling and basketball teams the Institute has a large number of capable students who are giving a tremendous number of those all too few free hours to sport for the love of sport. Coaches Fuller and Fox, to say nothing of Steve Brodie (this is his 31st year as manager of the bas-

ketball team) work with these boys with the patience and devotion of a father. RIT has turned out a good clean round of sports exceptionally well played, and usually always against teams who look on sports in a more specialized manner. It is true that we find it difficult to develop a more specialized sport program because of available funds. This, however, fails to dampen the spirits of the boys who almost daily sight the circular net or nurse canvas burns. RIT also sports some pretty nice

young cheerleaders. Students who haven't seen these attractive young ladies in action, blue skirts and white sweaters, have really been missing something. As hard as these girls try it is pretty tough to get encouraging team cheers from a crowd that is elsewhere. One of the boys at the Cornell match not so long ago lost a very hard match. He really gave everything he had. After it was all over he said, "You know I only heard one cheer all night!" Things like that shouldn't happen. The girls were there trying to get something from a crowd that wasn't. Sure, there was a dance that night too. Do you know that if half the student body had been divided between the dance and the matches both would have had to turn people away?

GREEK TALK

**KΣK** Pledging is now under way with a good representation of the whole student body. Bud Prince (PT) has been appointed pledgemaster for this group, and the fraternity feels that the pledges are in good hands. The painting of Clark Union will be another contribution of the Purple and Gold pledges to the school. Jim Nolan K.S.K. vice president was congratulated at the last meeting for being appointed Spring Weekend chairman, and the support of the whole group was assured him. Art Kuchta has now finished the Sweetheart Ball souvenirs and they are really a credit to him and Bill Webb. This coming semester should be a good one for the members of KSK, for there is a grand total

of some six cabin parties on the agenda for this half year according to Social Chairman Archie Spinney. **ΓΦ** Mar v Daniels has lost his fraternity pin. Lucky girls to get a Gamma Phi man. One of our alumni was here for the last regular meeting of Gamma Phi. Lou Girke, who graduated from the Mechanical Department last year. He is now a junior at Lehigh University, where he is studying for a B.S. in Metallurgy. Jerry Kunin, and Don Tarleton are in the service. Don in the Marines, and Jerry in the Infantry. Past President Richard Santuci is going through basic at Samson Air Base. Remember the Underworld Ball.

The moral is to stop complaining about nothing ever happening and support some of the Institute activities—they will give you something to cheer about.

**BARRACKS**  
**BINGLES**  
By Ed Deutschman

The Barracks are finally getting some of the modern conveniences of home. Since two or three years ago, when a bunch of guys went on a rampage, the doors to our cells (rooms) have been in a slightly beat up condition. This is now being remedied; we are getting new coverings for the doors. Thank you Howie, Joe, and Louie.

Question of the Week: What has happened to our Barracks Association? We haven't had a meeting in a long time. It's about time that we had one; don't you think so John.

**Soap Bubbles:** The washer in Barracks "B" has been in working order for the past few weeks. Could it be that everyone has finally learned how to use it correctly? One intellectual character tried to force his clothing into the machine via the soap dish. Results, embarrassment and disgust.

### High Jinks

No jet assist this as Aggie guard self-propels himself netward in vain attempt to block a setup being laid in by RIT's Bob Adams. It was No. 6 straight for RIT as they trounced Ontario 83-63 to climax a consecutive string of an even half dozen court victories.

## Bishop Hits 22 Against Fredonia

Rochester Institute of Technology cagers romped to their fifth straight win of the season, by whipping Fredonia State Teachers, 81-63, on the Jefferson High School court, Jan. 18.

The Techmen opened a wide gap at the quarter, 25-14, and never relinquished it. The closest the visitors could come was midway in the third quarter, when they closed the gap to 12 points.

Neil Postman was the outstanding performer for Fredonia as he registered 31 points. Arnie Bishop, who has been the outstanding player for Tech all season, again led his team to victory by notching 22 points.

RIT jumped to a quick 8-0 lead on field goals by Ronnie Freiman, Arnie Bishop and Al Landsman and a pair of free throws by Landsman. Bones Bauer and Bruce Henry added field goals after Postman opened the scoring for Fredonia.

Postman scored the first 10 points for Fredonia.

Summary:

	RIT		
Bauer, f	6	2	14
Westphalen, f	1	1	3
Freiman, lf	5	2	12
Darry, lf	2	1	5
Bishop, c	10	2	22
Kubarycz, c	1	3	5
Landsman, rg	2	5	9
Adams, rg	0	0	0
Henry, lg	4	1	9
Kendrot, lg	0	2	2

Totals	31	19	81
RIT	25	17	21-81
Fredonia	14	11	22-63

Referee, Mustari; umpire, Ryan.

## Matmen Drop Ithaca Match After Early Lead

RIT's wrestling squad suffered its third defeat of the season when Ithaca College earned a 21-13 win in a match following the basketball game with Ontario College on Friday, Jan. 25. The matmen took an early lead and held it for several matches, but when Dean (IC) pinned Gary Bell, the match

was tied up, 13-13. Ithaca College 147 lb. class, Ross DiBiase (RIT) took the next two matches, and, subsequently, the meet.

Here are the individual results of the meet: 123 lb. class, John Radocha (RIT) won by default over Ed Manginelli; 130 lb. class, Jim Howard (I) decisioned Jim Hark-

ness, 3-0; 137 lb. class, Larry Wilson (RIT) pinned Al Peterson, 3:48; decisioned John Ceaboth 6-0; 157 lb. class, Fred March (I) pinned Gary Dotzler, 3:23; 167 lb. class, Dick Dean (I) pinned Gary Bell, 4:00; 177 lb. class, Paul Thoman (I) decisioned Hugh Forsythe 9-0; heavyweight class, DeKay (I) pinned Ed Ross, 2:20.

Photo by Cook

RIT's Jim Harkness crosschecks Jim Howard at recent Ithaca College meet. RIT lost 21 to 13.

## Reserves Shine In Tech Win

Adding their sixth consecutive victory, RIT gaggers crushed the Ontario Aggies, 83-63, on the Jefferson High hardwood, Jan. 25.

The Aggies were a stronger team this year, but could not cope with the RIT reserves. The first team was rested for the Brockport game. RIT never trailed after an Ontario free throw clicked to open the game. Coach Lee Fox's team led by 11 points at the end of the first period, 15 at the half and 15 at the close of the third quarter.

Bones Bauer was high for Tech with 16, followed by Pete Kubarycz's 14. Bob Parry and Hank Westphalen also added 10 each for the winning cause. RIT's game point average stands at 72.3, compared to 60.2 for its opponents. The Techmen now boast a 6-2 won-lost record.

Summary:

	RIT		
Bauer, f	7	2	16
Westphalen, f	4	2	10
Freiman, f	2	5	9
Parry, f	4	2	10
Bishop, c	4	2	8

RIT	17	19	22-83
Ontario	6	15	22-63

Officials, Urzetta and Murray.

### QUIRKS AND COMMENTS

The Northeastern, Northeastern University (Mass.) was surprised to learn that night school students have actually been plunking down nickels on the bookstore counter for a copy of the Northeastern.

Commented the paper, "Then there are the day students who get them free—and complain."

## KG Starts Inter-floor Basketball

By JOAN HABER

You have to hand it to the Kate Gleason girls for their initiative. Now they have formed teams for inter-floor basketball. Starting as a dream, much perseverance has caused it to become a reality.

The Dorm Council has donated both a basketball and a volleyball. The players themselves chipped in to pay for the rest of the equipment.

Captains chosen to head each team are Lois Jenson, 2nd floor, Nancy Drake, 3rd floor, Betty Maltbie, 4th floor, Debbie Flemings, 5th floor, and Sally Scott, 6th floor.

The first game was held last night, and there will be games

every Thursday night for the next five weeks. For three weeks following, a tournament will be held.

Some fancy shots may be seen when these curvaceous girls go into action. When the basketball ends, volleyball and baseball are scheduled to begin.

The purpose of these contests is to promote good sportsmanship among the girls at the dorm, and they will surely succeed under the able guidance of Miss Mary Dotterer.

The proof is in the eating, they say, and the two runners-up to the 1952 New York State cherry pie baking champion agree there's no doubt about it. The new champion, Miss Joan Conti of Jamestown, is shown above with the pie that won her top honors in the contest held at RIT last Saturday. At the left is Miss Doris Connor of Sodus, second place winner, and on the right Miss Lois Clark of Lockport who took third.

The contest was conducted in the Institute kitchen with nine teen-age girls representing that many counties participating. Sponsoring the event was the New York State Cherry Growers and Processors.

Judges in the contest were Mrs. Dorothy Taylor, representing the

Rochester Chamber of Commerce; Viola Wilson, representing RIT; Barbara Hall, director of Ithaca's Rural Women's Radio Program, and Gordon Behrntdt, representing Sibley, Lindsay & Curr Company. Richard D. Waterman of Ontario Center was chairman of the contest.

### Acclaim from Educator

"This is a wonderful school. I would like to take back to Finland the informal way of teaching here. These were only a portion of the complimentary words uttered by Mrs. Raili Seraste, supervisor of handicrafts in Helsinki's public schools. The Finnish educator spent most of her time in Rochester at the School for American Craftsmen studying methods of the school.

Mrs. Seraste had been told in Washington and elsewhere that the SAC was the most extensive school of its kind in the country and probably in the world.

In commenting on the informality of class instruction here, Mrs. Seraste stated that classes in Finland were stiff and formal.

### Cagers, Matmen Close Series

(Continued from Page 1.)

Arnie Bishop, Institute center, dropped in 20 points in the losing cause. Lon Van Wort of Brockport took scoring honors for the night by scoring 27 points for the Teachers.

Tonight's starting lineup in an effort to get back on the victory trail will be Arnie Bishop at center, Ron Freiman and "Bones" Bauer at the forward posts and Allan Landsman and Bruce Henry at the guard posts.

In the Toronto contest the wrestlers took six out of the eight matches. John Radocha at 123 pounds pinned Joe Goldenberg 23 seconds before the end of the second period to start the meet off with five points for the home

squad. Jim Harkness bounced back from his initial defeat two weeks ago against Ithaca College by pinning his opponent in 4:34.

Larry Wilson came through strong as usual by defeating Tom Hatashita in the 137-pound division. Hatashita is a Canadian wrestling champion in that division. Wilson won by decision.

Al Boyer at 147 pounds won by default over his Toronto opponent who disqualified. Hustling Gary Dotzler came through with a decision over his opponent in the 157 pound class, and Gary Bell, at 167, also won by the decision.

Hugh Forsyth at 177 decided by till Chykaliuk and Harry Robinson of Toronto pinned heavy-weight Ed Ross in 5:37.

### LSA Dinner Meeting Scheduled Feb. 17

Annual dinner meeting of the Lutheran Student Association will be held at 1 p.m. Sunday, Feb. 17 at the Lutheran Church of the Reformation on Grove Street.

Basketball star Bob Davies of the Rochester Royals will present a talk on the "Christian in Sports." William H. Stachel, Protestant

Layman of the Year, will speak on "The Christian in Business;" and Dean Edward Hoffmeister, U of R River Campus, will talk about the "Christian in Education."

Students are invited to attend the dinner and hear the series of talks. Tickets may be purchased from Barbara Susong (Ret) or from Herb Barnett (PT).

### Installed as Master Councilor

Richard J. LeFevre, Applied Art student was installed as 95th Master Councilor of the Rochester Chapter Order of DeMolay last Monday in a ceremony held in Cathedral Hall at the Masonic Temple.

Two graduates, Ian Buchanan and Donald Schlieter, were also on the team.
