

Institute Meets Mid-Way Mark In Blood Drive

At the half-way mark of RIT's current blood drive participation has neared the half-way mark on the quota set by drive chairman Bob Van Auken.

Better than 300 students and Institute personnel had pledged a pint of blood for the March 3 campaign. Of this number, 243 appeared and offered their blood. Others standing in line were turned away but requested to call at Red Cross Headquarters and donate. The reason for the turn-away was lack of facilities to properly handle the unexpectedly large crowds that descended on Drive Headquarters in the Eastman Building.

Van Auken points out that April 28 will determine whether or not RIT goes to the head of the class as far as blood donations by institutes of higher learning are concerned. Princeton now holds top honors with a 59% pledge. Van Auken says that those away on block can better the Princeton mark by contributing the same as did the students now in attendance.

Van Auken expressed keen delight at the spirit of eagerness "that enveloped the entire student body. Those who gave, gave generously and then went out in search of other donors," Van Auken states.

The chairman expressed high hopes of reaching the 600 pint quota set at the start of the current campaign. He said, "I know that it will mean almost tripling the best that has ever been achieved at RIT but I feel certain that with the help being given by campaign workers that we can reach our goal."

Escape from Arab tribal soldiers was made by Chester Stevens (PT '51) and other members of an archeological expedition recently. Turn to **International Incident," page 5.**

RIT Adds 10th Department Absorbs McKechnie-lunger

Third Major Merger in Fifteen Years

The absorption of the McKechnie-Lunger School of Commerce by RIT marks the third such major moves by the institute during the past 15 years.

In 1937 the Empire State School of Printing, established at Ithaca by NYSPA in 1922, was relocated at RIT as the Department of Publishing and Printing. Giant strides made by this department in training facilities, program of instruction and research have established its reputation throughout the world.

In mid-year 1950 the School

for American Craftsmen was incorporated as a department of RIT, and similarly has gained national and international distinction. Prior to its becoming a department of RIT, the program was carried on at Alfred University as part of the instruction there.

RIT, a privately endowed institution, has a 123-year history of constant merger, absorption and expansion. The first consolidation was in 1891 when the Rochester Athenaeum was merged with Mechanics Institute.

The Rochester Institute of Technology has expanded its program of instruction further into the field of business education by absorbing the McKechnie-Lunger School of Commerce, courses to begin at RIT April 1 as this school's tenth department.

Alterations are now under way to accommodate the new department in the three-story structure located between the Clark and Eastman buildings.

Staff to Join School

Present enrollment of the School of Commerce is 190 students, of whom 120 are receiving instruction in evening courses. Further expansion of the program following its re-location at RIT is planned to provide facilities and increased area of instruction to accommodate additional day and evening students.

Incorporation of the School of Commerce into the Institute's program will bring equipment records and staff members of that firm to RIT. The Institute will acquire those items of equipment essential for immediate operation of the training program beginning April 1. To insure continuity of present instruction, most of the instructors of the school will also join the Institute faculty. Howard B. Stauffer, president of the School of Commerce, will become supervisor of the new department. At the time of its move to RIT, the McKechnie-Lunger corporation will be dissolved.

School Has High Rating

Foremost among the advantages resulting from the move will be presentation of the Associate in Applied Science degree to graduating classes beginning in 1953. Those completing the present program this spring will be able to secure the degree by completing additional work in the Institute's Evening and Extension Division.

The School of Commerce is one of only three proprietary business schools in the state which have been accredited on the college level by the New York State Department of Education.

The two major areas of study offered by the school are two-year program in business administration, including majors in accounting, management, real estate and insurance, and executive secretarial work, as well as the medical-dental secretarial training. The school also offers short courses in legal and insurance secretarialship, and selling and advertising.

The cooperative courses in the (Continued on Page 6)

Chemistry Department Adds Med Tech Major

Another major program gets underway next fall at the Institute when the Chemistry Department begins a program in medical technology for the training of hospital laboratory technicians.

The program which has the approval of the Medical Technology Registry of the American Society of Clinical Pathologists will be a full-time two year program, not cooperative as is the industrial chemistry program in the same department.

Training for medical technologist has been set up as a result of inquiries over the past few years by high school students and by hospitals' interest in training laboratory technicians.

The new program has the back-

ing of local representatives of medical societies, hospital and health officials. Dr. Ralph L. Van Peurse has met with many of these representatives and has received their support for the program.

The courses in medical technology include a total of 81 semester hours of college work, 21 more than required by the Council of Medical Education and Hospitals of the American Medical Association.

In addition to general, organic and quantitative analysis chemistry, courses in biology including physiology, microbiology, biochemistry, histology, and parasitology will be included in the program. Algebra, trigonometry, and physics are part of the program as are 20 semester hours of general education courses.

It is expected that graduates of this program will be awarded the Degree of Associate in Applied Science upon completion of the program at RIT.

At present there are about 29,000 medical technologists in the country, about 16,000 of them registered by the American Society of Clinical Pathologists. It is estimated by Mrs. Ruth Drummond, registrar of medical technologists for the ASCP that by 1960 more than 45,000 will be needed to fill the demand.

Medical technologists are needed in the armed forces; in city, state and federal public health agencies; in industrial medical laboratories; in the many cancer research programs being carried on by various groups, both public and private.

The pre-medical training requirements are provided in the two years of study in addition to training in the study and application of

NOTICE - SENIORS

Orders are being taken for Convocation announcements and name cards in the Student Council office, Clark Union, 12:30 to 1. Mondays and Wednesdays until March 18. Cash must accompany order.

Alvin F. Bernreuther

Scholarship to Al Bernreuther

The annual \$100 Scholarship Award of the Rochester Chapter of the American Society of Tool Engineers was presented at the February meeting of the chapter. The presentation was made by William Kamola to Alvin F. Bernreuther of 36 Willets Ave, Belmont N.Y.

Bernreuther is cooperatively employed by the Moore Steam Turbine Division of the Worthington Pump and Machinery Company in Wellsville, N.Y. He is a member of the class of 1953.

The award is granted on the record of the first year's work to the student in the Tool Engineering major of the Mechanical Department on the basis of scholarship, attitude, cooperation, general ability, and who is most likely to succeed in the Tool Engineering field.

Photo by Simons

Perfecting preparations for Spring Weekend are committee members Nancy Drake and Kay Murray, seated on either side of Chairman Jim Nolan; standing from the left are Bill Reymon, Joe Cornacchia, Ron Freiman, Jack Smith, and Bob Slutsky.

Shape Spring Weekend Plans

Jim Nolan, a senior in Publishing and Printing, was recently named chairman of the Spring Weekend Committee by Student Council.

Spring Weekend is an annual affair sponsored by the Student Association of RIT, and is the biggest event of the school year. It consists of an affair on Friday evening in which the various organizations at Tech each take part. A semi-formal dance is held on Saturday evening for which a "name" band is engaged. Festivities generally end on Sunday with an informal coffee hour and open house at Kate Gleason Hall.

Other committee members selected by Nolan to assist him are: Kay Murray, secretary; Nancy Drake, treasurer; Bill Reynian, ticket sales; Jack Smith, publicity; Ron Freiman, Friday night

activities; Gil Thompson, pep rally; Bob Slutsky, liaison; Joe Cornacchia, printing; and Roy Getman, art work. Jack Stumpf and Granville Bentley were named honorary co-chairmen.

The committee has been very active this year and a formal meeting is held each week. Numerous informal meetings are also held by the various committee members to determine just how far they have directed their respective activities. Jim Nolan is particularly enthusiastic and claims that a strong foundation for the Weekend has been laid and that the committee is working with a noticeable amount of enthusiasm, ironing out the problems as fast as they arise.

Details on the Spring Weekend will appear in the forthcoming issues of the Reporter.

Pictured at the right are Presidents of RIT and McKechnie-Lunger School of Commerce. Mark Ellingson of RIT shakes hands with Howard B. Stauffer following the announcement that RIT has absorbed the School of Commerce.

Editorial

Make Your Homecoming Plans Now

Are you making your plans to return to your Alma Mater this spring for the Alumni Homecoming Weekend? If you aren't it's time to start.

The dates of this, the 41st annual Alumni Homecoming are May 9, 10, and 11. Saturday is expected as usual to be the highlight of the weekend with the dinner dance to be held this year at the Hotel Seneca.

If this will be your first homecoming, just ask anyone who joined in last year's Alumni Weekend—they'll tell you that nothing could keep them from coming back again this year.

An open house is planned this year as in the past two years. All departments will be opened for your inspection with working exhibits and displays planned. Every department is now making special plans for the types of displays that will leave visitors talking about the progress being made at the Institute.

Plan to visit not just your own department but as many others as you have time for. Equip yourself for the questions that prospective students will ask you when you introduce them to RIT and its specialized training. A survey taken recently showed that a large percentage of all entering students heard of RIT from former students and alumni.

Class reunions are planned by Classes of '32 and '42 and you will have a wonderful opportunity to see your former classmates and talk over old times as well as compare notes on current jobs, exchange addresses, and show pictures of the latest addition to your family. Special representatives of the classes are making plans to contact classmates to arouse interest in the Homecoming activities. (See alumni pages in this issue of the Reporter.)

We at the Institute will try to make your homecoming entertaining as well as enlightening, try to make it the most successful Alumni Weekend ever held. All we need is your presence to make the weekend complete. Plan now to be in Rochester May 9, 10, and 11.

Redecoration Nearly Completed

We were happy last week to see that our editorial on the redecoration of Clark Union got results. The editorial, it would seem, provided the necessary stimulus to some of the students who previously showed apparent disinterest in improving their student union.

In addition to the delicious cookies baked by the girls in the Kate Gleason Hall and the manpower furnished by Kappa Sigma Kappa pledges and members, this last week Phi Sigma Phi and Gamma Phi pledges, several Student Council members, and other interested students volunteered their services.

Painting has been under the able direction of Student Council President Jack Stumpf and Council Vice-President Granville Bentley.

Rubber tile flooring is now being laid in the television lounge and the two smaller adjoining rooms, expenses being borne jointly by the Alumni Association and the Student Council.

In our opinion, the Union certainly should be a much more pleasant place to spend the few leisure hours that we have. The redecoration is almost complete—the walls and ceiling are freshly painted in tastefully selected colors; the drapes of Pennsylvania Dutch design carry out the color scheme; the new flooring will add materially to the Union, but now the furniture looks out of place.

Research proved that the present furniture in the lounges was purchased almost 15 years ago. The leather covering is much torn and patched; the springs need to be replaced in some pieces; and the colors are inharmonious with the rest of the color scheme.

We hope that sometime soon new furniture can be purchased, or the present furniture repaired and recovered so the Union will be tastefully appointed in keeping with the color scheme used throughout.

PARADE OF OPINION

Just Ain't No Justice . . .

A superlative note from the Annapolis Log: "They marked the exam so strictly, they flunked him for having a period upside down."

Attention College Gals . . .

Girls, want to be an officer? The WACs are offering the opportunity for commissions to a limited number of college girls.

To apply you have to be between 21 and 27, a U. S. citizen, single and physically fit. And you must swear you are not now and never have been a member of a subversive organization.

Letters . . .

The recently completed book drive, sponsored by the National Conference of Christians and Jews, Inc., and handled by RIT Librarian Marion Craig Steinmann, warranted the grateful acknowledgment of Books for Freedom Secretary Florence A. Lane.

Her letter of commendation, addressed to Mrs. Steinmann follows:

Mrs. Marion Craig Steinmann
Rochester Institute of Technology
65 Plymouth Ave. South
Rochester 8, N.Y.

Dear Mrs. Steinmann:

Thank you for your letter of February 8th, with book list enclosed.

It is with a great deal of appreciation that we write you this letter of thanks for your contribution of books.

Your loyalty to the Books for Freedom campaign is most gratifying. The Rochester Institute of Technology has been most responsive in this drive and I know you will be happy to know that we have shipped upwards of 20,000 books to date to the Free University of Berlin.

You have had a major share in the success of this worthy project and we thank you heartily.

Sincerely yours

FLORENCE A. LANE
(Mrs.) Florence A. Lane
Secretary, Books for Freedom
* * *

The gift of technical material has been collected and sent out from the school library.

About 30 books were donated and the titles were approved by the Conference before they were mailed. This does not seem to be a large number of books, but, considering that all the material requested was of a highly specialized nature and that only the newest editions were accepted, we feel that we have made a contribution of quality if not quantity," comments Mrs. Steinmann, librarian.

Shocked to the Polls . . .

Student election officials at the University of California are stopping at nothing in efforts to shock students into voting. They hope to buzz the campus in a light plane bearing a "Get - the - hell - out - and - vote." sign.

A Long Range View . . .

From the Iowa State Daily:
I often wonder what a person with a life span of 3,000 years would think of Man today as he looked down from his cloud, high above Korea.

He would be looking down on a devastated land, a hell on earth. It would be similar to the countless devastations inflicted by warring tribes, nations and empires of years past.

Where they once threw rocks, catapulted stones and shot cannonballs, we now have the beautiful boom and flare of rockets and jelly bombs. What a wonderful show it would be for this outside observer—how interesting to watch the ceaseless tide of humanity move up and down a peninsula throwing at each other the most ingenious array of weapons their minds can create.

RIT Timetable

TODAY, MARCH 11

Swimming Club, meet at 7:30 p.m. in Clark Union for swim at Natatorium, South Avenue.

Concert, Grant Johannesen, pianist, at Colgate-Rochester Divinity School, 8:30 p.m.

WEDNESDAY, MARCH 12

Meeting, Kappa Sigma Kappa fraternity, 7:45 p.m., RIT Cafeteria.
Meeting, Gamma Phi fraternity, in Clark Union at 8 p.m.

FRIDAY, MARCH 14

Wrestling, Four 1 Tournament at Case Institute Of Technology, Cleveland, Ohio.

Ski Jump Dance, sponsored by the RIT Ski Club, 8 to 12 midnight.

Play, Comedy of Errors by William Shakespeare, at Arena Theatre, 12 Hoeltzer St., 8:30 p.m., free parking.

SATURDAY, MARCH 15

Film presentation, **Broken Blossoms**, at Dryden Theatre, George Eastman House, 900 East Avenue, 3:30 p.m., free admission and parking.

Musical play, Oklahoma, at the Auditorium, Main St., E. at Prince St., performances at 2:30 and 3:30 p.m.

SUNDAY, MARCH 16

Cabin Party, Kappa Sigma Kappa fraternity,

MONDAY, MARCH 17

Student Council meeting, 5 p.m. Room 120, Eastman Building.

THE QUESTION

What **do** you think about RIT's television program?

Charles Montondo . . .
P&P Freshman:

I think that there is a lot of room for improvement. The show is too detailed about things the average person knows nothing about. If they generalized **it** then there would be more life in it. It is good publicity for the school but it is too dull. The show should be made

more understandable to the general public instead of the few people that are interested in that particular show. Fifteen minutes is plenty of time for a good show.
Lizan Gubb

Applied Art Junior:

I think it is an attractive course, advertising RIT, through a popular medium such as television. It

gives the public an insight to the specialized courses offered by the Institute, but it could be a longer program, improved in spots and generalized a little more. It will also, I think be beneficial to the student enrollment thru its programs, by showing the general public just what the Institute carries in the way of higher education.
Al Scharf . . .

Mechanical Junior:

The show as it is now doesn't tell anything. To improve it they should get instructors on the show

that know what they are talking about. Fifteen minutes is not enough time to teach anyone what they want to teach. You can't teach anyone by the medium of television. They have

to actually do the work themselves to understand the technical part of the course.
Don Buckler . . .

Applied Art Freshman:

It gives the Rochesterians a chance to see what students at RIT do. The time could be arranged so that more people could see the program. I should think that about six or seven in the evening would be a better time. **Fifteen minutes** is enough time if it gives the

public information. They do a good job in the short time they have now. A program should be devoted to the expansion program at the school. The public would be interested in hearing more about it.
Bud Prince . . .

Photo Tech Freshman:

The program tells the people of Rochester just what is going on in the School. It promotes the enrollment for the

next year. Fifteen minutes is enough time to get the ideas across to the public. There is some room for improvement as there is in any television show.

The series should be kept up to further educate the public about the Institute. We are very fortunate in having such a show.

Keeping 1Jp With Institute Alumni

CLASS OF 1910

Ruth Webster Howard (HE) has sent news of herself and of a classmate who has been on the "Lost" list. The Howards live on the outskirts of Albion. Their son is a senior in Engineering at Purdue, and their daughter works at the Rochester office of American Air Lines. Address: Mrs. Charles W. Howard, R.F.D. No. 3, Albion, N.Y.

Bertine Waldron Fenner (HE) is reported by Ruth Howard to be living at Sault Ste. Marie, where her husband is captain of a supply ship at the Soo Canal. They will be there at least another year until Captain Fenner retires, after which they will return to their old home in West Henrietta, N.Y. Address: Mrs. Edgar W. Fenner, 210 Easterday Ave. E. Sault Ste. Marie Mich.

CLASS OF 1925

The appointment of Lloyd A. Newcastle (Art) as vice president in charge of engineering has been announced by the Haskell Manufacturing Company of Pittsburgh, Pa. This concern is Pittsburgh's only manufacturer of steel office tables and desks. Much of its production is now devoted to producing furniture for the armed forces. Loyds was formerly chief engineer of the Interior Steel Equipment Company of Cleveland. Our very best wishes to him in his new assignment.

CLASS OF 1926

Frederic W. Haupt (Art) is assistant advertising manager with the Stromberg Carlson Company, living in Penfield, N.Y.

CLASS OF 1927

Emily Farley Perry (HE) is reported to have recovered from the long illness for which she was hospitalized for several years, and is back home with her family. She has five daughters and one son, and is now a proud grandmother. Ad-

dress: Mrs. Emily Perry, Manlius Rd. Fayetteville, N. Y.

Norman A. Kramer (Mech) is president of the Dictating and Recording Company located at Los Angeles, Calif.

CLASS OF 1928

Erwin M. Morris (Mech) is supervisor of records at the Steam Distribution Department of the Rochester Gas and Electric Corporation, Rochester.

Recent news of Mary Fitzgerald Spencer (HE) indicates that she has three children, two boys and a girl. The eldest now attends Syracuse University. Address: Mrs. Leonard E. Spencer, 141 Broad St., Salamanca, N.Y.

CLASS OF 1929

A recent letter from Helen Maloney Finnerty (HE) gives news of herself and some of her old friends among the Institute alumni. Helen is still cafeteria manager at Grant Junior High School in Syracuse, now in her 19th year on the job. She has a 15-year-old son. Address: Mrs. Fred Finnerty, 424 Helen St., Syracuse 8, N.Y.

Mary McMaster Theander, according to Helen Finnerty, has three daughters and lives at Westport, Conn. Address: Mrs. Olaf Theander, 71 Washington Ave., Westport, Conn.

CLASS OF 1931

Elizabeth Walters Davis (FA) and her family have moved to Valencia, Pa. There are now three children in the family. Address: Mrs. Warren Davis, Heckmeres Highlands, Valencia, Pa.

CLASS OF 1931

Emily Clements Heath (Mrs. Arthur) (Art) is now living on the Thornhill Road in Pittsford, N. Y. She and her family have deserted city life and are very happy and content living in the country, even though they put in many hours of hard work restoring and

modernizing the house they bought. Emily says they are having "lots of fun."

CLASS OF 1932

Mildred Niccloy (FA) is cashier at the LeRoy office of Niagara Mohawk Power Corp., and lives with her family at 39 E. Main St., LeRoy N.Y.

CLASS OF 1934

Smith T. Lyke (Mech) is senior safety service representative of the State Insurance Fund of New York located at New York City.

CLASS OF 1935

Robert Gribbroek (Art) has removed from Los Angeles, Calif. and is now living in Rancho De Taos, N.M.

Neva Fenton Tharp (FA) writes that she and her husband have a new ranch-style house for which they did their own plans and which they are enjoying very much. Neva hopes that alumni friends will visit her when they are driving through Bath. The Tharps operate the Steuben Roofing Contractors, and Neva takes care of the bookkeeping and payroll. Address: Mrs. John D. Tharp, 500 Haverling St. Bath, N.Y.

Christine Sadlon Majtan (FA) has a son, Jackie, two years old. Address: Mrs. John G. Majtan, 4E Woodside Ave., Little Falls, N.Y.

Robert Gilkinson, shown at work above, graduated from the Chemistry Department of RIT in 1932, having started work for RG&E in 1929 in a co-op job. He graduated from the U of R with a Bachelor of Chemistry degree in 1939. In October 1951 he became head of the chemistry lab and all company chemistry work. His hobbies are woodworking, bowling, and he joins his wife to do interior decorating. He is Clerk of the Session for Irondequoit Presbyterian Church. While in RIT he was elected a member of the Henry Lomb Honor Society.

Lucille Hartwig Hartmeister (FA) appears to have set up a busy life for herself in community activities, now that she no longer follows a career job. She is program chairman of the Niagara Falls Home Economics Club, treasurer of Ladies Aid Society at Zion Lutheran Church, hospitality assistant in the College Club, and president of the Carborundum Girls' Club. Address: Mrs. Louis A. Hartmeister, 748 Spruce Ave., Niagara Falls, N.Y.

Ruth Brooks Jacobs (FA) and her husband are living in South Carolina. They have one daughter. Address: Mrs. Bruce B. Jacobs, Gen'l Delivery, Aiken, S.C.

CLASS OF 1936

George Van Inwagen and Gloria Knudsen Van Inwagen (Art) are now located in Glens Falls, N. Y. George is Advertising Manager of the Fowler Department Store there; also does free lance art work in his "spare time".

Ruth Taylor Gray (FA) has a family of two boys and two girls, named Douglas, Michael, Phyllis, and Carolyn. Address: Mrs. Harry Gray, 138 S. Main St., Newfane, New York

CLASS OF 1937

Mary Wright Putney (FA) and her husband own and operate their

own neighborhood grocery, Putney's Food Store, in Warsaw. They have three children in the family. Address: Mrs. Donald Putney, 24 Oatka St., Warsaw, N. Y.

James P. Jennings (Mech) is supervisor of standards in the Production Control Department of the Houde Engineering Division, Houdaille-Hershey Corporation located at Buffalo, N. Y.

CLASS OF 1938

Frederick A. Jakob (Mech) is an instrument maker in the Camera Works Division of Eastman Kodak Company, Rochester

CLASS OF 1939

We had a very interesting letter from **Eleanor Randall** (Art) who on Jan. 9, 1950 became Mrs. Verlin D. Landum. Eleanor and her husband are living in Tujunga, California. She is section draftsman for an electronic group of about 60 engineers and technicians with the Jet Propulsion Laboratory of the California Institute of Technology. Her work consists of electronic drawings.

Alida Hoff (FA) has accepted a position, starting early in March as cafeteria manager at a large new plant of Westinghouse Electric Corp., in Elmira. Alida was for several years manager of Gray's Mainstreeter Restaurant, in Rochester. Address: 40 Federal St., Rochester 9.

Grace Humphrey (FA) works under Industrial Food Service, at Pittsburgh, where she is now employed as manager of the soda grill and lunch room in a department store. Address: 1000 N. Highland Ave., Pittsburgh 6, Pa.

News from Marjorie McCargo **Patterson** (FA) & **Robert** (Mech) says that they are now living at 24 Vista Ave., Bradford, Pa. They have two daughters, aged five and seven.

WE CATER TO BANQUETS IN OUR NEW BANQUET ROOM

Bill Shopmyer, president of the class of '32, is busy writing letters to members of the class to remind them of the grand slam reunion scheduled for members of the class in May. Bill, plant superintendent of Daystron Electric Corporation, Poughkeepsie, stopped in to see Alumni Executive Secretary Burt Stratton on a recent visit to Rochester to talk over plans for the reunion. Above he dictates some of the letters to his secretary.

Nationwide Photographic Salon For Past, Present PT Students

A nationwide photographic salon for the alumni and students of the Photo Tech Department will be run this year for the first time by the Camera Club.

Initial response from a card mailing shows great interest on the part of alumni in the salon according to David Engdahl, Photo Tech Instructor and faculty advisor to the Camera Club.

The salon is scheduled to be run during the week of May 26, but all entries must be in by the first of May. Entries may be made in the following four categories: commercial, portraiture, pictorial and color, both transparencies and prints.

Prints must be mounted on 16 by 20 inch mount boards. Up to four prints may be submitted in any one or mixed category. The entry fee for the alumni is one dollar per person and for the students 50 cents per person. The reason for a lower fee for the students, according to Engdahl, is that their entries will not have to be mailed to them after the salon.

All entries should be mailed to H. Brent Archer at the Institute. Archer is salon chairman for the Club.

Judges for the salon have not been chosen as yet, but Engdahl reports that it will be done by well known men in the field. After the judging, the prints will be exhibited in the auditorium of E. W. Edward & Sons in Rochester.

Prizes will be awarded in each category for first, second, and honorable mentions. The prizes not been decided upon at this time but will probably be cash awards, according to Archer.

Dietetic Association Entertained by FA

On Tuesday evening, Feb. 19, members of FA Department were hostesses to the Rochester Dietetic Association at their regular monthly meeting. Dessert and coffee were served in the Eastman faculty lounge by Miss Thurber and members of the catering class.

The group then adjourned to the Eastman Assembly Hall for the business meeting and program. Mr. Arnold and Mr. Winnock of the Bausch and Lomb Company presented a discussion with illustrative slides on the use of the retinal camera in clinical pathology.

International Incident

PT Alumnus Escapes Arab Ambush

Chester Stevens, Photo Tech student who left school last year to join an archeological expedition as staff photographer, was recently one of the central figures in a daring escape from Arab soldiers.

According to an Associated Press release, the expedition led by Wendel Phillips, president of the American Foundation for the Study of Man, fled to safety in Beihan, a border town of Aden, a British protectorate.

After their arrival in Aden from New York, King Ahmen had given guarantees of safety to the Phillips expedition which was made up of about 20 scientists and technicians. The camp for archeological research was set up at Marib about the middle of January.

An outfit of tribal soldiers, dispatched apparently by Prince Hassan, a brother of the king, appeared on the scene. The soldiers surrounded the motorized convoy of the Phillips expedition. They smashed in the windows of the truck at the head of the convoy and poked a rifle barrel into the driver's stomach. The members of

the party were placed under guard by the soldiers.

The first to escape was Carmean, driver of the lead truck. He managed to get away in a truck, carrying urgent messages hidden in his socks appealing for aid to President Truman and Trygve Lie, secretary-general of the United Nations.

Stevens made a break for liberty in his vehicle. Phillips managed to cover Stevens' escape and in the confusion the rest of the party fled under Phillips' guidance.

That was only the beginning of

the ordeal. The party had to cross a virtual "no man's land," a yet-undefined desert border area between Yemen and the Aden Protectorate.

Finally the expedition limped into Beihan with equipment damaged but its personnel safe.

Contest Seeks Words for School's Alma Mater

When Rochester Athenaeum and Mechanics Institute became Rochester Institute of Technology in 1945, the old Alma Mater was carried over, but never rewritten. Through the ensuing years, the words were forgotten and the music lost. At present, few students know that we have an Alma Mater, none have heard it.

A copy of the music was obtained from Mr. C. B. Neblette, supervisor of the Photo Tech Department and is reproduced with this article so the students may become familiar with it.

Chesterfield Campus Representative Nelson Hodgkins interested the Liggett and Meyers Company makers of Chesterfields, to sponsor a contest to begin March 11 to write words for the Alma Mater.

Boxes will be placed at many of the popular student congregating places, and the words, written on the back of an empty Chesterfield package may be deposited in them. Any student is eligible to enter, and may submit as many sets of words as he desires.

The contest will close March 24 at noon. The winner will be awarded a carton of Chesterfields for his or her smoking enjoyment. Announcement of the winner will appear in the April 4 Reporter.

Announcement

RIT Expansion Told to Students

Merging of the McKechnie Lunger School of Commerce with the Rochester Institute of Technology was announced at special assemblies of the students and faculties of each institution on Tuesday, Feb. 26.

"The Institute welcomes this splendid opportunity to provide further services to students, business, industry, and the community. The integration of this new department with the Institute program will strengthen and extend the services which the School of Commerce has carried on for many years," stated Dr. Mark Ellingson, RIT president.

"Never before has the need been so great for well-trained and competent young people in business and industry. From statistics available at this time, the urgent demand for these people will continue well into the future," Dr. Ellingson added.

President Howard B. Stauffer of the School of Commerce remarked, "I feel that, as a department of RIT, an endowed, gift-supported educational institution, we will have a great deal more to offer our students than we could ever offer them as a proprietary school."

Some of the advantages of the move listed by Stauffer were: students would be granted a recognized degree; student facilities, activities and athletic programs; dormitory facilities for men and women; educational counseling services by RIT's Counseling Center; greater library facilities; outpatient medical services, and a rise in the level of the instructional program.

The School of Commerce was organized in 1917 by Robert J. McKechnie to teach phono-syllabic shorthand and related subjects, and was first located on State St. About 1920 the school was moved to 39 Main St. E. It was incorporated as the McKechnie-Lunger School of Commerce in 1926 and moved to the Burke Bldg. at the corner of St. Paul and Main streets.

Two New Members To Student Council

Two new representatives have been named to Student Council.

Loren Wetzel was named to serve temporarily for Bill Swart freshman representative from the Mechanical Department during his leave of absence from the Institute.

Bill Webb was appointed to fill the vacancy from the School for American Craftsmen as senior representative.

Tom Tietjen, Phi Delta Gamma Social Chairman, discusses plans for the annual Cafe Adagio dance with Alpha Psi Social Chairman, Lyn Skinner. The dance will be held March 28 in the Eastman Smoker.
Photo by Conlon

GREEK TALK

KΣK The Sweetheart Ball, now in the past, was a financial success.

New things are scheduled on the KSK calendar. Six cabin parties are being planned, the first of which is to be held at Powdermill Park on March 2 in collaboration with Phi Upsilon Phi.

This half of the year will be crammed with social services. First, Kappa Sig members will canvass the neighborhood for the Red Cross drive. Second is the blood drive, and third is the donation of services to take the crippled children of Rochester to the Shrine Circus.

Plans for the closed dinner dance which is to be held May 31 at the Brooklea Country Club, are completed.

KSK is laying out tremendous plans for its part in the Spring Weekend festivities.

An inter-fraternity outing, which will take place in April, is also on the schedule.

Clark Union was dotted with purple and gold pledge hats during the painting—another KSK service to RIT.

* * *

ΦΣΦ Phi Sigma Phi, along with Delta Omicron, is planning another cabin party. Jim Povlock and Ed Deutchman are heading the get-together.

Plans are being made for Phi Sig's part in the forthcoming Blood Drive.

At last the mustaches are beginning to show. The fuzzy wuzzies of Phi Sig members can now be recognized.

"Coney Island" for Spring Weekend

Because last year's World Fair, the Friday night portion of the RIT Spring Weekend, was such a tremendous success, the Spring Weekend Committee has decided to hold a similar affair this year. This year the theme will be "Coney Island." Once again the normally quiet (?) halls of the Eastman building will be transformed and will echo the gala festivities.

Meetings have been held for all social chairmen of the RIT organizations, and they, in turn, are making plans for their part in this big affair.

Retailing Seniors in Annual Excursion to New York City

Twenty-two seniors in the Retailing Department left yesterday for the mecca of the retail trade, New York City. Harry Drost, faculty member of the Retailing Department is leading the group in their visit to the wholesale market, manufacturers of consumer goods, testing bureaus, trade publications, and research organizations in the field.

This is the 20th annual trip taken by the senior students and is an event that is anticipated by them for several years.

Highlight of Trip

Highlight of the trip will be the day spent with the Frederick Atkins Buying Syndicate where the group will be given the opportunity to spend time in the market with resident buyers of the firm. The plan calls for the students to select merchandise in which they are particularly interested and be assigned to buyers of that classification of goods. The Frederick Atkins buying group is one of the large buying organizations and has as its members some of the largest department stores in the United States including two of the department's cooperating stores Sibley's in Rochester and Flint & Kent in Buffalo.

Visit NRDGA

A visit to the National Retail Dry Goods Association will acquaint students with the services offered to retailers by this office such as research and planning for all activities pertaining to stores. At the Good Housekeeping Institute an exhibition of testing different kinds of merchandise will be viewed and at Fairchild Publications a chance to see how the official newspaper of the ready-to-wear field is prepared.

In addition the students will

visit the Gift Show, Toy Show, the Metropolitan Museum and many New York stores. Evenings will find the group taking in some of the Broadway shows and other forms of entertainment for which the city is noted.

Return Saturday

The seniors, who left yesterday will return this Saturday. Headquarters for the group in New York will be the Biltmore Hotel.

The following students are making the trip: Rosella Foley, Marilyn Kelts, Alice Parkes, Margaret Shannon, Harold Wood, Marilyn Zittle, Mrs. Zittel, Barbara Aronstam, Margaret Barkely, Mildred Cole, Maerian Cook Patricia Donaldson, Frances Frey Norman Krug, Nancy Nagle Helen Rosenberger, Gertrude Rosinski, Doris Seebold, Mary Sweet Robert Warblow and Beverly Tripp.

RIT Adds Dept...

(Continued from Page 1)

stenographic and clerical programs will be continued after the move to RIT. Under the present program at the School of Commerce, cooperative students attend classes in the morning and work in business and industrial offices during the afternoon. This pattern will be integrated into the programs of RIT's cooperative departments and may involve expansion to three years, with the first year necessitating full time study and the second being on the cooperative plan.

Evening courses conducted by the School of Commerce will be integrated with the programs of the Institute's Evening and Extension Division. Outstanding of the evening courses which will be added as a result of the merger are those in real estate and insurance. The school is presently approved by the New York State Insurance Department for its insurance course for brokers' licenses. It is the only course of its kind in the Rochester area. The only similar courses in upper New York State are offered at the University of Buffalo and Syracuse University.

Included among the physical facilities to be transferred to RIT will be office, business secretarial practice machines and other equipment as well as a technical library

RIT Cagers, Wrestlers Close Successful Season

Institute Basketeers Bow Out With 5th Loss After 11 Victories

Coach Lee Fox's Rochester Institute of Technology basketball team dropped the final game of the season to Fredonia State, 86-75, at Fredonia Saturday, Mar. 1.

The defeat brought to five the number of losses for RIT as outweighed by 11 wins this season.

Neil Postman poured thirty-one points through the nets for the Teachers. Bob Parry was high for RIT with 17 points.

Ronnie Freiman was whistled out of the game after one minute of the third quarter, followed by Bones Bauer at the four-minute mark. Arnie Bishop got the nod after six-minutes and Pete Kubarycz after eight minutes. Bruce Henry fouled out at the three-minute mark of the final stanza and Gene Kendrot followed on a disqualifying foul.

RIT wound up the season with an 11-5 record.

Summary:

RIT		FREDONIA	
G	F T	G	F T
Bauer, f	2 0 4	Dorsey, f	3 6 12
Westphal, f	1 1 3	Guarua, f	4 2 10

 Officials: Massina and Fanell.

Techmen Trample Geneseo 80 to 47

The Rochester Institute of Technology trampled Geneseo State Teachers, 80-47 Feb. 23, for their 10th win in 14 starts.

The Techmen roared to a 22-9 first period lead and widened it to 46-17 at halftime. Geneseo offered no opposition to Tech's shooting and rebounding ability. Tommy Mullen, 5-8 Geneseo ace's, services were sorely missed by the Teachers.

"Bones" Bauer paced the Techmen with 17 points, followed by Arnie Bishop with 11 and Hank Westphalen and Ron Freiman with 10 apiece. Conlon was high for Geneseo with 12 points.

Summary:

GENESEO		R. T.	
O	F T	G	F T
Fiala, f	1 2 4	Bauer, f	7 3 17
Laven, f	0 1 1	Westphalen, f	4 2 10

 Halftime score: RIT 46, Geneseo 17.
 Officials: Emmanuel and Keefe

To the Bitter End

RIT cagers fought to the bitter end in their final encounter March 1st when they lost half a dozen men via the foul route to play the final minutes only four-strong against victorious Fredonia State.

Final Victory For Foxmen

By scoring 31 points in the final period, Rochester Institute of Technology trounced Roberts Wesleyan College, 81-65, on the Jefferson High hardwood Friday, Feb. 29.

The score was tied, 61-61 with six minutes remaining when RIT built up steam.

The Foxmen turned on the heat with six minutes left to win going away. Five members of the RIT squad hit for double figures, Ron Freiman garnering 22, Bones Bauer 16, Al Landsman 14, Arnie Bishop 13, and Hank Westphalen 10.

Garth Stain 6-6, and Bill Fleming 6-8, provided tough opposition for the Techmen. They accounted for 47 points of the Roberts scoring. Stam notching 27 and Fleming 20 points.

Summary:

RIT		ROBERTS	
G	F T	G	F T
Bauer, f	8 4 16	Stam, f	2 3 27
Westphal, f	5 0 10	Roberts, f	1 4 6
Freiman, f	8 6 22	Fleming, c	8 4 20
Kubarycz, f	1 2 4	Plink, g	3 0 6
Bishop, f	4 1 13	Llewellyn, g	0 0 0
Parry, c	1 0 2	Phillips, g	3 0 6
Landsman, g	6 2 14	St'kweather, g	0 0 0
Henry, g	0 0 0		

Totals 33 15 81 Totals 27 11 65
 Score at halftime: Roberts 39, RIT 28.
 Officials: Massina and Fanell.

Photo by Whaley
High Hurdles Al Landsman makes like a trackman as he hurdles for height to lay one in against Roberts Wesleyan Mar. 1. Don Phillips and Ray Flint of Roberts give him a wide berth. Coming up is RIT's "Bones" Bauer.

Clark Union Gets New Face, Floor

At last Clark Union has its new coat of paint, and in a week or two, the lounge will be reopened for student use. Before the lounge is completely finished, it will have a new floor—a black with red and white tile, new drapes of a blue and red design, and three recovered sofas—darkened.

In charge of the arrangements for the painting of the lounge was

the Lounge Committee headed by Phyllis Sprague (Art), general lounge chairman, and Dave Bellucci (Art), Clark Union lounge chairman.

The actual painting was done by the students. The members of the fraternities gave freely of their time and the pledges worked on it during their "help" week.

Splash! Members of the RIT Swimming Club caught in a little horse play at the Natatorium following their bi-weekly meeting in Clark Union.

Photo by Whaley
 One of the newest organizations here at Tech is the Swimming Club, which was organized last year. The club gives its members

the combination of social and athletic activity for which there is a great need. Meetings are usually held on alternate Tuesday evenings during the school year, in Clark Union. After the business meetings, which are usually short, the club adjourns to the natatorium on South Avenue. After an evening of fun and frolic in the pool, it is necessary to replenish the vim and vigor with tasty refreshments.

The future plans for the swimming club include a cabin party, the taking of underwater pictures by the club faculty advisor, Mr. William Shoemaker, of the "Coney Island" at the Spring Weekend. Vic DiCrisi (P&P), is president; Dick Murphy (AA), vice-president; Sonia Scrimshaw (FA), secretary; June Franson (FA), treasurer.

All Tech 'students are invited to join this organization. To those who are acquainted with the values of swimming, nothing need be mentioned. To those

who wish to benefit Trolls what this sport has to offer, a cordial invitation is extended so that your stay at RIT will be memorable.

Matmen Win Six, Lose Five

Rochester Institute of Technology matmen dropped the final match of the season to Kent State University, 26-6, at Jefferson High School, March 1.

It was RIT's fifth loss in eleven starts this season.

John Radocha, 123-pound RIT grappler decided his man to end the season with nine wins, one loss and one tie. John McCullough also won by a decision, making his individual season mark 6-1-1.

Larry Wilson, RIT Captain, was unable to wrestle because of a knee injury. His season record is 9 wins and one loss.

123—John Radocha (RIT) outpointed Larry Wory (K); 130—Gil Montague (K) outpointed Jim Harkness (RIT); 137—Herbie Hurd (K) won by forfeit; 147—MacTwan (K) outpointed Ross DiBiase (MIT); 157—J. Redyern (K) pinned Gary Detzler (RIT) 2:18; 167—John McCullough (RIT) outpointed Billy Mahusky (K); 177—Bill Fritzsche (K) pinned Rod Rittenhouse (RIT) 2:28; unlimited—Don Morse (K) pinned Ed Ross (RIT) 4:40.

Alfred U. Upset By RIT Grapplers

RIT's grapplers upset the Alfred University matmen, 15-13 on Feb. 23. It was their initial defeat after winning their first three matches.

RIT took the first five contests via the decision route to notch 15 points. Then Alfred came back with two pins. The score stood 15-10 when Ed Ross of RIT and George Policano of Alfred faced each other. Ross fought gamely and did not let the Alfred grappler score a fall to tie the match.

123-pound—John Radocha (RIT) outpointed Keith Sturdevant; 130—Jim Harkness (RIT) outpointed Kirt Volentine; 137—Larry Wilson (RIT) outpointed Boyd Minthorne; 147—Ross Biase (RIT) outpointed Ken Hamce; 157—Gary Dotzlei (RIT) outpointed Ed Sailer; 167—Floyd Wilcox (A) pinned John McCullough; 4:35; 177—Fred Gibbs (A) pinned Rod Kitten; house, 3:45; unlimited—George Policano (A) outpointed Ed Ross.

Hoopsters Clobber Utica College Five

RIT's basketball squad scored early and often to rip Utica College, 80-43 at Jefferson High, February 22.

This win was sweet revenge for RIT as Coach Lee Fox's charges dropped the opening game of the season to Utica.

FA Visitors Tour RIT Departments

Recent visitors to FA Department were Miss Elsie Stark, Home Economist for the Best Foods Company, New York City, Miss Grace Deibeg, Eastern director, Home Economics Institute of Westinghouse Electric Corporation, New York City and Miss Marian Dossert, District Home Economist, Westinghouse Electric Corporation, Rochester. After having luncheon in the Catering dining room, the group toured the FA Department dining rooms, kitchens and cookery laboratories.

Miss Stark had been in Rochester giving a series of demonstrations on Rit, the instant dye product, at the Rochester Gas and Electric Company, so she included a visit to the Retailing Department in her trip to the Institute.

Observing activities recently in the Retailing Department and several other areas were these Penn Yan Academy personnel. Left to right are Ron Nissen, Barbara Snyder, Walter Jones (vice-principal and guidance counselor), and Ginny Williams. Not shown is John Pelton, also a visitor.

Student Council Hikes Fee to \$25

Student Council, at its Feb. 11 meeting, voted in favor of increasing the Student Association annual fee from the present rate of \$18 to \$25.

The increase was decided upon after several student activities had to be discontinued because of a drop in income from the present association fee.

The increase will become effective in September, 1952.

Young Republican Club Plans Active Campaign

When the Republican party starts to campaign in Rochester the students of RIT are going to become aware of a new organization, the Young Republican's Club of RIT.

President of the YRCRIT is John Wrinn, a Photo Tech student from Conn. John was a physics major at Brown University in Providence, Rhode Island, before he decided to study photography.

According to Wrinn, the purpose of the club is to help build up the Republican party and to help offer college students some political activity. John adds, "Our program is broad enough to include both a social as well as political calendar." These activities will include such events as a mock political convention, cooperation with the Republican party in Rochester during the campaigning periods and use of periodic speakers. In the near future, Count Nicholas De-Rochfort will address the present members of YRR on the campus.

The credit for the success of YRCRIT belongs to those who organized the group and have built it to 30 members. Bob Slutsky, vice president of the club, Charles Campbell, secretary; Bill Cook, treasurer and John Wrinn have played a major part. Dick Nelson has also worked very persistently in enrolling new members.

All students are invited to attend the club meetings and social programs.
