

# Institute's Gymnasium Plans Revealed

This artist's sketch of the new gymnasium and ice-skating rink shows how the new structure will look facing Livingston Park. The larger part of

the building will house the skating rink. The gymnasium itself is in the right wing and will have a seating capacity of 1600 for basketball games.

## New Structure Houses Gym, Skating, Tennis

Detailed plans and specifications for the new RIT gymnasium were released by Dr. Mark Ellingson, President of the Institute, and Sherman Hagburg, Director of Athletics, as excavation work goes on in spite of freezing weather and snow.

The long awaited athletic center will cost more than \$820,000, a large share of which was provided by the late George C. Clark in his will, with the balance coming from the Alumni Fund and the school's general funds. The structure will be of brick surfaced construction, and six tennis courts are planned for the grounds adjacent to the building.

In the large lobby of the gym a trophy case, snack bar, skate shop which will sell, rent, and sharpen ice skates, Director's

office, ticket booths, and rest rooms will greet the visitor.

The main floor will house a basketball court measuring 60 ft. x 90 ft. as well as a huge ice skating rink. The main court will be convertible into two cross courts for intra-mural tournaments and will have a seating capacity of 1600. This floor will also be marked for badminton, tennis, volleyball, and other activities. One section of bleacher seats will be portable for shifting to the ice rink when ice shows are presented there. Storage space for both gym and ice rink equipment is provided.

### Lower Level Facilities

This floor will be divided into men's and women's areas. A large recreation room for ping pong that can be converted into fencing strips for intercollegiate meets is planned. A practice wrestling room will feature three 24 foot mats, and the walls will be covered with a special gum rubber padding for the protection of the wrestlers.

A women's exercise room is also in the plans, as is a physical therapy room.

A central equipment distribution room is provided. (Continued on Page 6)

## Barracks Ass'n Discussing Plans To Open Lounge

The possible re-opening of the Barracks Lounge and the selection of an election committee to nominate new candidates for various officer positions in the Barracks Association were the major items discussed at the January 13 meeting of the Barracks Association when it convened in the Barracks Lounge.

The Barracks Lounge, inoperative for the past several months, is tentatively slated to be reactivated within the very near future. A committee—headed by James Cargoni and composed of Robert Smith, Sal Schifano, Lee Swanson, John Ritchie and Jon LeGro—was selected to look into the possibilities of re-decorating and re-furnishing the lounge and to investigate the possibilities of purchasing a television set. This committee would also have control over, and the responsibility for, the up-keep of the lounge.

Once the lounge is re-established, the barracks' proctors will stand duty in the lounge and thereby be able to serve a dual purpose—being proctor as well as assuming lounge duty. As a result of this proposed change, the barracks intercom system will be altered and the location of the public telephone changed.

A formal open house is contemplated once the lounge is re-furnished.

Due to vacancies in the ranks of the officers of the Barracks Association, a committee was selected to draw up a slate of candidates for nomination for the various officer positions. Elections will be held at a later meeting. This committee is composed of Stanley Feigenbaum, chairman, Alfred Olsen, Richard Cruwys, and Donald Easterly.

The Barracks Association is composed of students who are residents of the school barracks at 140 Spring Street.

## Weavers Hear Talk

The weavers from SAC attended lectures on January 11 and 12 given by Florence Hohman. The theme of the lectures was "New Designs from the Old."

## Pi Club Banquet Climaxes Printing Week Festivities

Mr. Samuel M. Burt, of Washington, D.C., was the guest speaker at the Printing Week Banquet sponsored by the RIT Pi Club. The dinner was held at the Party House, Beahan Road, on January 18, in observance of Printing Education Week and International Printing Week.

Guests of honor, representing local branches of national industrial organizations, were Mr. Frank Eichorn, Printing Industry of America; Mr. Harrison Chapin, Craftsman's Club; and Mr. Carl Goerbing, Rochester Litho Club.

Mr. Burt who is Executive Secretary of the Graphic Arts Industry's Education Council, spoke to about 80 RIT printing students and printing department faculty on "Leadership in and for the Graphic Arts Industry." Other speakers included Mr. Byron G. Culver, head of the Department of Printing, and Russell Adams, Pi Club president. Fred Steinbeck, a printing student, was the toastmaster.

National Printing Week was celebrated Jan. 16-23 throughout the United States and other English-speaking countries. The purpose of the "Week" is to stimulate interest in the graphic arts industry and at the same time to honor Benjamin Franklin, one of America's foremost printers.

## Hillel, SCF Groups Meet

Rabbi Joel Dobin spoke on what Hillel is and answered questions about Hillel's achievements in other colleges, at the first meeting of the newly-formed RIT Hillel. Following his talk, future plans were discussed.

The meeting was held in the RIT Chapel, on Sunday, Jan. 16. Refreshments were served.

The Student Christian Fellowship, meeting regularly in the Chapel, had Dr. W. Hudson as its speaker on January 16. Dr. Hudson, of Colgate Rochester Divinity School, discussed with SCF members, "What Protestants Believe."

Richard Mort was elected SCF president to replace Michael Agreky who resigned recently.

## Student Earns Scholarship

Robert W. Conway, an RIT mechanical student majoring in tool engineering, receives the Rochester Chapter of the American Society of Tool Engineers 1954-1955 scholarship awarded him.

The Rochester Chapter of the American Society of Tool Engineers has awarded a \$800 scholarship to Robert W. Conway, now a freshman tool engineering student at RIT. The scholarship is the latest award in a series started in 1947, the first such program initiated by an affiliate chapter of the ASTE.

Robert was graduated from Aquinas Institute in June, 1949. After a stint at Eastman Kodak, he served in the navy from 1951 until 1953. Then he returned to Kodak, deciding to start at RIT last quarter. He is 22 years old and is married.

The scholarship pays \$480 the first year, \$200 the second, and \$120 the third year. The second and third years of study are cooperative, with an "earn as you learn" program, so the

financial burden is less during this period of time.

The first scholarship back in 1947 was worth \$100, but as the chapter grew and prospered, the amounts were increased, and now a continuing fund assures its permanence.

The scholarship is offered each year, and graduates of Monroe County high schools are eligible for it.

## Teachers Visit SAC

Harold J. Brennan, head of the School for American Craftsmen, entertained 30 members of the Industrial Arts Teachers of Monroe County on January 17.

The group visited the Institute in order that they might become better acquainted with the work done in SAC and in the Arts division.

## Students Tour Doehler-Jarvis Co.

The Doehler-Jarvis Corp. of Batavia, N. Y. opened their doors to the students of the Manufacturing Processes class of the Mechanical Department on Thursday, January 13.

During the field trip, the students were shown the melt shop, production and finishing departments, tool room, heat treating processes, inspection lab where giant X-rays and fluoroscopes inspected finished products, and the Engineering department where the products are designed. They saw brass, aluminum and magnesium being fabricated into castings which become parts of cars, planes, business machines, medical instruments and home appliances.

One of the highlights of the trip was the analysis lab where a chemist, using a spectrograph, explained the analyzing of the chemical constituents of a metal alloy. One of the most interesting machines examined by the students was the Sperry Electronic Reflectoscope which checks pieces of tool steel for flaws prior to machining.

# EDITORIAL

## Double Your Contribution

As the March of Dimes campaign reaches its climax, we at RIT must make sure that we have done our share in this drive against polio, and then dig down and double the contribution. Only two months ago, polio knocked at the very doors of our institution, when a student, an instructor, and the young son of another student, were all victimized by this disease.

The student, Russell Batt, died of complications. Bob Albright, instructor in general education, is still hospitalized, and his condition is described as hopeful. Little Timmy Smith is home now, and on the road to recovery.

*More than 200 students, instructors, and their families and friends—all of whom had contact with the victims—were inoculated with the GG serum, quickly, efficiently, and free of charge.*

Whether or not the shots by themselves knocked out the virus, or whether it was the cold weather that helped, all of us at school felt a deep relief after the shots, and all except the three families were able to enjoy the holiday season. We owe a great debt to the people and agencies that made this possible.

The research work that made the development of GG possible, as well as the cost of the serums used at RIT, was borne by the National Foundation for Infantile Paralysis. The blood from which the serum is extracted comes, as we all know, from the Red Cross Blood Bank Drives. The average adult shot uses 16 pints of blood. More than 3,200 pints of blood had to be processed so that we at RIT could be inoculated against polio.

*The total cost in money, if we had had to purchase the serum would have totaled many thousands. Add to this the hospital and medical expenses of the three who came down with the disease, which costs additional thousands, and we must come to the conclusion that we at RIT have a very special responsibility to the March of Dimes.*

But actually, this is not just a case of dollars and cents. The human lives that can be saved, the suffering and paralysis that can be avoided, the fear that can become hope; all this may soon be possible if the Foundation can continue its work.

*When you make your contribution, remember Russell Batt. Remember Bob Albright. Remember Timmy Smith. If you do, you will double your contribution, and all of us will be that much ahead in the fight against that dreaded crippler, polio.*

## New Developments on the Campus

Two important developments are reported in our news columns in this issue of the Reporter, as well as the sketch of the new gymnasium.

First, to the Parking Lot Committee a vote of thanks from the student body for its decision to pave and mark out the lot at Troup Street. For many months, even years, the RIT student looking for a place to park has had a very tough time. Now at last, relief is in sight and the coming of spring will be awaited with more than usual anticipation.

The detailed plans of the gym reported in this edition will be read by everyone. Now we know what our new gym will provide for us in the way of athletic recreation. Certainly the basketball and wrestling teams will have a home to be proud of, and school spirit and participation will rise to new heights.

As yet, an athletic program for the student body has not been worked out. It is not too early to start planning so that all the student body will be able to gain the fullest advantages of the new facilities so long needed by our school.

It is now doubtful if gym classes will be started next year, although the gym is scheduled for opening next fall or early winter.

# PARADE OF OPINION

## Sombody Goofed: Girls Speechless at Sight of "Men"

Austin, Texas — Everybody wondered why girls hesitated to attend the Speech Workshop at the University of Texas. For several weeks the workshop had been listed in the Daily Texan "What Goes on Here" column as meeting in Speech Building 121.

A quick check revealed the reason: the workshop meets in Room 122, not 121.

Room 121 has MEN printed on the door in bold, black letters.

## Add Advantages of College Education . . .

Syracuse, N.Y.—Gloria Mosolina, class of '49, studied hard for her pre-law degree at Syracuse University.

She then enrolled in New York University College of Law.

Success came at last to Miss

Mosolino. She is now a stand-in for Marilyn Monroe in Hollywood. She hopes to be a stand-in for Zsa Zsa Gabor and finally be a star herself, the Syracuse Daily Orange reports.

## What Won't They Think of Next?

Syracuse, N.Y. — Syracuse University students are requested not to run naked through the streets of downtown Syracuse.

The Daily Orange reports that "this is a direct violation of University rules."

Any students apprehended will be severely reprimanded.

## Blest Be The Tie That Binds . . .

(Or: "Old Grads Never Die; They Just Fire Away")

San Francisco—(ACP)—City cops took a dim view of an impromptu bonfire victory rally here after the UCLA-California football game across the Bay at Berkeley. Seems that the L.A. school's supporters tossed No Parking signs, newspaper racks and park benches into a bonfire at Union Square, in the heart of downtown San Francisco. One of the 10 rooters carted off to the pokey was an UCLA student. Others ranged in age from 25 to 59 and in occupation from business executive to waiter.

## Here's School Spirit . . .

Boulder, Colo.—(ACP)—A fractured pelvis, fractured knee cap, and other injuries failed to prevent Nancy Heap, 21, Colorado University coed, from seeing the "big game" between Colorado and Oklahoma on Oct. 30, the Colorado Daily reports. She was injured when a car driven by her husband ran off a road Oct. 2.

An ambulance took her, accompanied by her husband, to the stadium, where her stretcher was raised to bed level and placed so that the young woman was almost in a sitting position.

## « « « Tech Speaks » » »

**Question: Do you think student interests are well represented in the Reporter?**

**David Muench . . .**  
Photography:

My interest is in the sports section of the Reporter. I feel that there is good coverage except that the page could be improved with more action pictures.

**Ray Maines . . .**  
Photography:

As a whole it is pretty well represented, but the lack of smaller clubs representation is noticeable. I think organizations should get on the ball and let us know what is going on.

**Gwyneth Griffith . . .**  
Art and Design:

Yes, I do, because each organization is represented in the paper and all activities are well covered.

**Ann Wydman . . .**  
Commerce:

Yes, very well. The girls at Kate Gleason all enjoy the paper very much; in fact we all look forward to it with great eagerness.

Lt. Col. Stapp took 35 G's!  
Not 35 grand—  
35 x gravity!!  
That's what Col Stapp Took,  
Testing—well  
Testing "man," mostly.  
They strapped him Onto  
A rocket sled;  
Strapped Stapp  
Went Zzzap bap  
At 630 M. P. H.  
Into 35 G!  
Proved he had  
A strong carcass.  
Says he plans  
To try 1000 M. P. H.!!  
Then what?  
There's bound to be  
A limit!  
To some folk it may seem just a bit silly. Suicide.  
But—  
A whole lot of folk  
Will stay alive  
Because Stapp  
Finds out  
How fast you can go—  
And stop.  
Somebody's  
Always doing  
Things like that!  
Like with  
Yellow Fever.  
Remember?  
Usually  
Folks think it stupid  
Until  
The benefits of  
The self sacrifice  
Begin to acru—  
To us.  
Then  
We call it  
Noble and GOOD!  
Hm. . .

## Recent Additions to RIT Library Include Texts, Fiction, Humor

Of interest to the more adventurous minded, will be "The Rivers Ran East" by Leonard Clark. One of the world's most renowned explorers, Mr. Clark tells the first hand account of his explorations in "the very heart of unqualified savagery"—the largest unexplored region on the earth, east of the Peruvian Andes.

Another entertaining new book available in our library is "No Time For Sergeants" a novel by Mac Hyman. It is an interesting tale about a hillbilly who manages to scrape through a series of highly humorous, and extremely improbable escapades after being inducted (drafted) into army life.

"An Encyclopedia Of Modern American Humor" was edited by Bennett Cerf and is a selection of the finest humorous literature of recent times. A collection of stories, poems, parodies and scenes from hit plays, it was compiled by a recognized authority in the field and intermingles the best humor of recent years with a few rib-tickers of the past.

Books that have been requested by various departments are also listed among the library's latest acquisitions. Of special interest is "Color—How to See and Use It" by Fred Bond, which presents the basic principles of color relationships and associations simply and logically. It is a truly practical approach to the basic procedures in solving color problems especially applicable to everyday needs.

Food students will appreciate "Bread" by Hordes, Dodds and Moran; it concerns the chemistry and nutrition of flour and bread with an introduction to their history and technology. An

### Prize Offered for Design

The Taylor Instrument Company of Rochester is currently offering a prize of \$100 to the student in SAC that designs the best barometer case. Deadline for the contest is February 15, and it is open only to the SAC school students. The designs that the judges feel can be used will be kept on hand at the Taylor Instrument Company for future use. This is the first time that a contest of this kind has been held by the Taylor organization.

### "Opportunity . . ."

7 A.M. to 7:45 P.M.

37 N. Washington St.

authoritative guide to the structure and function of the human body is found in another new release, "Basic Biology of Man" by G. Kasten Tallmadge.

"A Handbook of Early American Advertising Art" by Clarence P. Hornung is the name of a two-volume new edition; one volume concerning pictorial advertising and the second volume covering Typographical and ornamental work in early American Advertising.

"Design for Modern Merchandising" published by the F.W. Dodge Corporation, is an architectural record book presenting a wide selection of well-designed and skillfully photographed showrooms, stores and shopping centers, showing the values of good architecture for modern merchandising.

Retailing students will find valuable reading in the new publication from the U.S. Dept. of Agriculture, "Marketing—The Yearbook of Agriculture, 1954." It contains analysis and discussions of interesting controversial issues involved in the dynamic business that brings American farm products to their users.

A "History of Marine Corps Aviation in World War II" by Robert Sherrod, completes this month's listing of additions and supplements to the library.

# "Beat Brockport Weekend" Launched

Shirley Hoffman shows her spirit at the Beat Brockport Cheerleaders Rally held in the auditorium Thursday, January 27.

The largest planned bon-fire rally in the history of the Institute took place on Thursday evening, Jan. 27. Held to kick off the "Beat Brockport Weekend," the affair was held on the site of the new gym under the guidance of KSK and Phi Upsilon Phi.

Thirty wooden crates were piled into a large triangular mound and at 8 p.m., after a motorcade travelled noisily around the Institute property, the fire was lit. The new male cheerleaders, Donald Blais, Joe Cornacchia, and Archie Spinney, were present to help the girl cheerleaders in getting the crowd warmed up for the next day.

The following day at noon the fraternity and sorority followed up the bonfire with a pep assembly in the Eastman Auditorium.

### Alpha Psi Dance Set

"Varsity Drag" is the name given to the dance to be given Friday evening, February 4th, by Alpha Psi sorority. It will be held in the Eastman Assembly Hall from 8:30 to 11:30 p.m., with music furnished by Johnny Matt and his band. Refreshments will be available during intermission. As an added attraction, the members of Alpha Psi and Gamma Phi will present a skit during the intermission.

## LOOK! LOOK! LOOK! LUCKY DROODLES!

### WHAT'S THIS?

For solution see paragraph below.

**OBVIOUSLY, THE TITLE** of the above Doodle is: 47 insectology students enjoying better-tasting Luckies while studying 3 fireflies. All kinds of students are bugs about Luckies. Matter of fact, college smokers prefer Luckies to all other brands—and by a wide margin—according to the latest and greatest of all college surveys. Once again, the No. 1 reason: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is *toasted* to taste better. "It's Toasted"—the famous Lucky Strike process—tones up Luckies' light, good-tasting tobacco to make it taste even better . . . cleaner, fresher, smoother. So, enjoy the better-tasting cigarette . . . Lucky Strike.

Denmark's loss is our . . .

# Hans Christensen

"I Love America!"

This was the sentiment expressed by Hans Christensen, the newest member of the RIT faculty. A silversmith at the School of American Craftsmen, Mr. Christensen has been in this country only since last October and has already established for himself a fast-growing reputation as a master craftsman and designer.

Still too involved in the problems of adjusting to a new environment and getting settled to have much spare time, Mr. Christensen is devoted to his work and spends many hours over the drawing board dreaming up new ideas in silver and metalcraft. He and his Norwegian-born wife, Betten, are now living at the RIT faculty residence at 9 Backus St.

Born 31 years ago in Copenhagen, Denmark, Hans Christensen began his chosen career while still in his early teens; as an apprentice to George Jensen, internationally famous silversmith, in Copenhagen in 1939. He spent nearly five years as an apprentice, while also attending the School for Danish Craftsmen for evening classes. In 1944, he completed his "Journeyman's Piece"

Hans Christensen looks happy, framed by the tools of his trade at Shop 1. His work is very popular at the School for American Craftsmen. (Shuckman Photo)

which marked the end of his apprenticeship. This one piece of work earned for him two silver medals and a travel fellowship, which he put to good use in the years that followed.

From 1944 until 1952, Mr. Christensen remained with George Jensen as a silversmith, designing flatware and other pieces. In 1952, he entered the Art Academy of Goldsmiths in Copenhagen; and the following season he exhibited and received a prize from the Association of Danish Silversmiths.

Also in 1952 (the year he married Betten), he became an instructor at his own "alma mater", the School for Danish Craftsmen in Copenhagen. He has also taken the summer courses of the American Institute of Design in Chicago, which were held in Oslo, Norway in 1952. The course was entitled, "Design Education".

Mr. Christensen was still teaching at the School of Danish Craftsmen in 1954 when an opening for a silversmith became available in our own School for American Craftsmen; and after a brief correspondence, Mr. Christensen obtained his visa and headed for the United States, and RIT.

At first, the newness and the language difficulties made his adjustment a little complicated, and Mr. Christensen summed it up best in his own words;

"I am enjoying RIT and America very much, and I wish to express my thanks and appreciation to all the people who have helped me so far. The School for American Craftsmen is most impressive, as are also the results achieved by the students in the short time they are here.

Mr. Christensen had only one complaint, and he voiced it in no uncertain terms;

"I feel, however, that the students here are putting too much weight on becoming artists instead of learning first to be good craftsmen."

# Troup St. Parking Lot To Be Paved In April

From the new chairman of the Parking Lot Committee, Richard Sampson, comes word that the Troup Street student lot will be paved with asphalt in April, when weather permits. The lot will also be marked off, thereby increasing its capacity, and ending the confusion and tie-ups that plague car owning students at present.

Clip this diagram prepared by the Parking Lot Committee and refer to it when parking your car. It is the most effective way to utilize the lot, and violators will be fined.

Until that happy project is accomplished, however, the committee distributed a mimeographed parking diagram, as a guide to car owners a few weeks ago. It is the hope of the committee that this will provide a measure of relief.

Instructions for parking were also distributed, and must be followed, or the offenders will be fined by the Student Council. These are the instructions:

1. Cars must be parked 20 feet away from the next car when starting a new lane.
2. All cars must have a parking sticker.
3. No parking on ramp.
4. Fill up the line along the fence first. Then start a new lane on the South (Clarissa Street) side of the lot and work toward the ramp (North).
5. When attendants are on duty, all drivers must follow their instruction.

Violators of these rules will be fined by Student Council. Fines of up to \$5.00 may be levied against persistent violators of these rules.

## Hardware Assn. Schedules Course

RIT, in cooperation with the Rochester Hardware Association, will offer a course in retail hardware salesmanship in its Evening Division beginning Feb. 3.

This special course is one of more than 200 various courses to be offered during the second semester of evening classes at the Institute.

Registration for these classes begins Monday (Jan. 24) and will run through Thursday (Jan. 27). The majority of these courses will be completed by May 20, but some management classes will continue into June.

The hardware salesmanship program has been set up to provide retail selling personnel with a practical approach to the problems of selling hardware. Areas to be covered include selling techniques, customer psychology, merchandising information about selling areas of a hardware store and store arrangement for display.

Also to be offered this semester will be a course, much requested, Preparation for Marriage and Parenthood. The Rev. Murray A. Cayley, instructor in philosophy and chaplain for RIT and pastor of the First Presbyterian Church, is the instructor. Creative Imagination, Better Reading Techniques, General Insurance, Graphic Presentation of Data, Elements of Mechanism, Electroplating, and Effective Fleet Operation, are among the new second semester offerings.

# Gloria Swanson In Feature Film

Gloria Swanson at the peak of her career as the unchallenged queen of silent films, turned down one of Hollywood's biggest contracts ever offered to produce films on her own in 1927.

The result was THE LOVE OF SUNYA, to be shown in the Dryden Theatre Saturday and Sunday afternoon, Jan. 29 and 30, at the George Eastman House.

Gloria picked her leading man for her film herself: it was John Boles. Although he was later to achieve great success in film musicals after the coming of sound, John Boles owed his first chance in the movies to Gloria Swanson.

The story of THE LOVE OF SUNYA is based on the "The Eyes of Youth," a film that had been made much earlier by Clara Kimball Young and Rudolph Valentino.

Admission is free to the public. The film will be shown at 3:30 on Saturday afternoon, January 29, and at 2:30 and 4:30 on Sunday, January 30.

## Craftsmen Host To Conference

Both SAC and the Hotel Rochester will be the site of the York State Craftsmen conference and annual board of directors meeting scheduled for January 28 and 29.

The organization is patterned after the New Hampshire Craft Guild and is designed to advertise and market the wares of the New York craftsman.

Mr. Harold J. Brennan, head of SAC, is on the board of directors of the year-old body which has its headquarters in Utica.

## Club Resumes Lessons

The RIT Dance Club resumed its dancing instructions on January 14. The first lesson of the new year was given by the club's own Arthur Murray, President Hue DeJonge.

The club meets every Friday, from 7 to 8 p.m. in the Eastman Lounge.

# CAMPUS GREEK TALK

**ΚΚΚ** Some bon fire last night at the Memorial building. Attendance was almost as great as our pep rally last Friday. By the way, what do you think of our male cheerleaders?

Pete Turner, dance chairman of the Sweetheart Ball says of this affair: "This dance will be my last event as social chairman, so I intend to make it the best dance of my college career. For this reason I picked the main (newly decorated) ballroom of the Powers Hotel as the place, Jack Nunn for the music, and all of your friends at RIT as royal attendants."

Want to join in the fun? It's 9 to 1 on Feb. 19. (And it's ten to one that you will have a real fine time at the Sweetheart Ball.)

Members working toward a perfect dance are chairman of the following committees: Ken Dewhirst—Printing; Norm Radziwon and Bob Spinney—Publicity, and Ed Krauss—Decorations.

Hot dogs are running high in popularity. Had a cabin party on Jan. 16, and spend a fortune on them. What causes members to fast three days before an event at which food will be offered?

New members had an initiation dinner at Ralph's Cafe on January 19.

**ΓΦ** We would like to take this opportunity to welcome our members who were initiated on January 16 at the Spring House. They are: Bill Greenawalt, Jack McGann, Jim Crouch, Ronny Ambler, Roger Ellsworth, Joe Media, Max Englebrech, Ronny Prechel, Bill Gamble, Skip Lane, Ray Swedeberg, Bob Sloan, Dick Frank, Tom Kasprzyk, George Yons, Fred Seely, Fred Niven, and Fred Moss.

We are planning our next dance with Alpha Psi. This will be the first dance we will put on with our new sisters. We think it will be one of the best dances of the year. Johnny Matt will play at the dance. He was the terrific band that played at the Friday night dance of Fall Weekend. We hope you will all come out and hear the greatest band RIT ever heard, and really have a good time.

We would seriously like to make a request that the person or persons who borrowed the "Gamma Phi Rock" from Brother Sloan please return it. If a certain other frat has it (not mentioning any names) we would just like to say we are willing to swap a certain post for the rock.

We played our first basketball game and we defeated KSK by the score of 54 to 36.

Beanies have been put away this year, but the memories they bring will live on for the girls who now will go on to make themselves able sisters to their sororities and brother fraternities. (Meyers Photo)

**ΔΟ** On Sunday, January 9 at Mendon Ponds, Delta Omicron and Theta Gamma had a "Get Together" party. Everyone was there and in D.O.'s estimation it was the "best" we ever had. The hardier souls had snowball fights while the rest of the gang had a good time in the cabin laughing at those in the relay races and dancing. Of course, the food and especially those hamburgers — they just hit the spot! Delta Omicron wants Theta Gamma to know how much we appreciate the work that was put into the organization of this party and the sooner we have another one like it—the better!

By now, the new Delta Omicron members can breathe a little easier since the two weeks of pledging are over.

The new members are: Barbara Clark, Lemoyne Day, Connie De Campe, Marge Evans, Donna Grastorf, Carol Hyde, Trudy Leone, Joan Lewis, Barb Madison, Bobbie Masseur, Betty Mueller, Pat Oldroyd, Jean Parker, Bev. Partridge, Carol Pendergast, Mary Esther Radell, Nancy Jo Ryan, Lorry Shortino, Sylvia Titus, Jane White.

Tonight, the new members will be officially initiated into Delta Omicron at the Initiation Ceremony which will be held at the home of Judy Anderson.

**ΦΥΦ** Pledging for us started January 12 at 6:00 and the very next day blue gold beanies were seen bobbing here and there on the RIT campus. Their constructive period consisted of

cleaning the halls, laundry room and incinerators of K. G., helping the members with charity work and going to the library for two hours every week night. Keep up the good work, pledges! Our initiation dinner for you will be February 1 at the Town and Country Restaurant in the Squire Room. Your big sisters will recite a poem for each and every one of you.

January 16 was the Phi Up party for the pledges. It was held at the traditional cabin at Ellison Park. From all reports a good time was had by all.

We heartily wish to congratulate the new members of Kappa Sig. It's great to have you as frat brothers!

All of us had a tremendous time at the Delta Upsilon House at the U. of R.

**ΣΚΑ** It hardly seems possible that nearly one whole month of 1955 has already passed. Pledging has gone its merry way until next year and among the new sisters we now welcome Sylvia Fareer, Nancy Thomas, Kathy Knuth, and Betty Brown. They all did a fine job, especially concerning the March of Dimes campaign. We thank all the students of RIT for cooperating with us and contributing so generously. The date of our banquet is still undecided, but the annual SKD alumni tea which falls on Feb. 6 this year should be a tremendous success, as always, according to the latest reports from our social chairman, Helen Sowinski.

**ΑΥ** Memories are all that are left of pledging for Alpha Psi pledges. The most impressive memories are probably of nights they spent at the Hillside Children's Home. Here they had charge of a house of girls, aged six to twelve. They baked cakes played games, danced and made hand puppets with the children.

Two parties were held for the children, the biggest one being the one at which the children put on a puppet show with the puppets the pledges helped them make.

We are sure you will remember the night last week when our pledges serenaded the boys' dorm. Another first for RIT and Alpha Psi. These are but a few of the worth-while activities of our pledging program. We congratulate our pledge mistresses Joyce Boberg and Pat Cottier for the tremendous job they did handling pledging.

Alpha Psi had its initiation dinner at Lorenzos, January 26th. The highlight of the evening was the installation of our new pledges as members. We are now happy to extend a cordial wel-

come into the sisterhood of Alpha Psi the following: Ann Fermoile, Helen Gerojohn, Bobbie Gray, Mary Jane Haulihan, Bobbie Jenkins, Shirley Miller, Celia Morgenberger Shirley Muntz, Janet Robinson, Lorraine Skirmint, and Barbara Soundan.

At the first inter-fraternity basketball game of the year, Gamma Phi beat Kappa Sigma Kappa soundly.

Friday evening, February 4, is the date of the big Alpha Psi and Gamma Phi dance to be held in the new Eastman Assembly Hall from 8:30 to 11:30.

## Strange Laughter

Darkness descends  
In gentle folds of mist  
And wraps her arms  
About the earth  
in slumber.  
Kissed by night  
And courted by the stars.  
The mirth of breezes  
Heard in whispering  
Sighs through sleeping branches  
Of the trees  
As night's strange laughter  
Echoes through the air  
And dies—

## Year's First Ball Presented By Theta Gamma Fraternity

In the ballroom of the Hotel Sheraton Mary Ellen O'Connell was named "Queen of the Snowball" on Saturday, Jan. 21. Held by Theta Gamma fraternity, the Snowball featured the music of Gene Zacker and his orchestra from 9 to 1.

Laurie Herlan, president of the fraternity, introduced last year's sweetheart, Phyl Gardner, who crowned Miss O'Connell at the height of the festivities. Named as attendants to the queen were Pat Richardson and Karen Smith.

At the beginning of the ceremony, the lights were dimmed and the fraternity brothers filed dramatically to the throne. The queen's name was announced and

then the brothers serenaded her with the traditional "Sweetheart Song" to complete the ceremony.

Following their annual theme of "Winter Wonderland", Theta Gamma decorated the huge room in the mood of winter with crepe paper streamers and illusions of snow.

Candidates for queen were chosen by the members of the fraternity at one of their weekly meetings. They were: Marilyn Whaley, Mary Ellen O'Connell, Janet Robinson, Donna Curtis, Karen Smith, and Pat Richardson. At the dance the fraternity members cast their ballots and elected the "Sweetheart" and her attendants.

"How do I look?" These charming young ladies are shown just before making their entrance at the Snowball, held January 21 at the Hotel Sheraton. (GARD Photo)

# Grapplers Win Easily; Roll Over Ithaca 21-8

The RIT wrestling team trounced Ithaca College "with one of the most impressive showing the team has made all year," according to Coach Earl Fuller, by the score of 21-8, Friday, Jan. 21.

The Tech team captured the victory with the aid of three decisions, two pins, and one draw. Big guns for RIT were Coach Fuller's two 4-I champions Gary Dotzler and Jim Modrak, both winning their matches with pins.

Modrak won his 15th consecutive match in collegiate competition. He has not lost a match

Jim Modrak

since he has become a member of the RIT team. The total of 15 matches does not include two wins registered at the 4-I meets in Cleveland, or two freshman

## Annual Ski Trip Set For Feb. 4-6

The time members of the Ski Club have been waiting for has come at last. Their annual week-end trip to the mountains will take place on February 4-6.

A chartered bus will take 30 members to Whiteface Mountain where the program for the week-end, according to President Clark, will be "skiing, skiing and more skiing" with perhaps some dancing on Saturday evening in the Ski Chalet.

Members of the club have been getting ready for this affair ever since the school year began. They have been watching skiing films, listening to skiing lectures and instructions, and they went skiing locally a number of times. A demonstration on the use of skiing equipment was given to the club by Mr. DeWolf of Ruby's Sporting Goods Store on Jan. 6.

Mr. William Toporcer, the faculty advisor and a skiing fan himself, and Mrs. Toporcer will chaperone the group over the week-end.

CORNER OF PLYMOUTH AND SPRING STREETS

wins which give him a total of 19 straight. Modrak's pin was accomplished after 1 minute and 21 seconds of the third period had elapsed.

Dotzler, holder of the 4-I 166 pound title, pinned Ithaca's Bill Scott at 2:46 of the first period. The win was his fifth of the season against no losses.

Doug Keeler (123), registered his first varsity win of the season beating Ed Sullivan by the overwhelming score of 8-1. Keeler, whose record is now one win and four losses, had been meeting wrestlers who had much more experience than he.

Lou Perriello, wrestling in the 177 pound berth, lost to the veteran John De Kay, of Ithaca, in a hard fought contest. Coach Fuller said "both Perriello and Keeler have shown much improvement since the first match of the season, and should win the next time out."

Ron Roman beat John Hughes, 11-0. A freshman, Roman has won five matches in a row and is undefeated this season. Jim Cargnoni had his man down for most of their match and almost pinned him toward the end of the contest. Cargnoni scored his fourth victory against one loss.

RIT's draw came about in the 167 pound match, Jerry Hortop splitting the decision with Ed Morroco. Jim Barclay, a 177 pound wrestler elevated to the heavyweight position, was unable to cope with his opponent who outweighed him by a good thirty pounds.

Next match for the wrestlers will be against Cortland State, Saturday, Feb. 5, at Jefferson High. Results of that match will appear in the next issue of the RIT Reporter.

Summary:  
123 pounds, Doug Keeler (R) defeated Ed Sullivan, 8-1; 130, Ron Roman (R) defeated John Hughes, 11-0; 137, Jim Modrak (R) pinned Anthony Borrello 1:21 of the third period; 147, Jim Cargnoni (R) defeated Don Billis, 6-1; 157, Gary Dotzler (R) pinned Bob Scott 2:46 of the first period; 167, Jerry Horton (R) and Ed Morroco drew, 177, John De Kay (I) defeated Lou Perriello, 7-4; Heavyweight, Frank Carbone (I) defeated Jim Barclay, 4-0.

Form such as this will soon be displayed at the annual Ski Club trip which is to be held Feb. 4-6. Muench Photo

Kenny Hale (14), RIT center, taps the rebound to Bob Klos (17) as RIT's supremacy of the backboards enabled them to beat Roberts Wesleyan 73-66. Borock Photo

## Roberts, Ontario Bow; Klos, Hale Push Record

A last minute rally by RIT's basketball team produced their second victory in two nights as they beat a sharp-shooting Roberts Wesleyan team, 73-66, Saturday, Jan. 22.

The Techman trailing throughout most of the contest suddenly came alive with 2 minutes and 58 seconds left to play in the game. With the score 60-58 for Roberts, Fred Moss sunk a straight-away jump shot from 15 feet out to tie the game up. John Buckholz then scored five points for RIT and Roberts was out of the running.

The Roberts Wesleyan team was leading RIT by ten points throughout most of the game. At halftime they had a commanding lead of 11 points, when the score was 36-25. Wesleyan, shooting with deadly accuracy, ran out of steam during the last few minutes of play, allowing RIT to break fast and control the backboards.

Kenny Hale, RIT's big center, attempting to break Stan Witmeyer's three-year record of 477 points ran into some stiff competition in the form of Dave

Aasued of Roberts. Aasued, playing his last game for Roberts, registered 21 points and held Hale to 23 for the night.

Other high scorers for the Techmen were Jim Buckholz with 17 points and Fred Moss with 16. Bob Klos, RIT guard, also vying for the all-time scoring record registered 17. Klos has scored 476 points in three seasons, while Hale has scored his 457 points in one and a half seasons.

Techmen Whip Aggies  
Friday night, the RIT team romped over an out-classed Ontario Aggie team by the score of 87-46, at Jefferson High gym.

Kenny Hale bagged 31 points as high man for the Tech team.

Although Ontario took an early lead of six points, 8-2, they soon fell behind and were never able to come within threatening distance of RIT. At the halftime the Techmen were leading by the wide margin of 41-20.

Spearheading the attack for RIT were Don McCaughey and Bill Craugh. Besides playing a good defensive game both reached double figures with their scoring. Craugh with 16 points and McCaughey with 15.

RIT Jayvees defeated Taylor Instrument, 99-46.

## Hale Shatters Rhodes' Record; Scores 307 Pts.

Six foot-seven Kenny Hale continued to erase all RIT basketball records as he scored over 40 points in two consecutive games giving him a total of 307 points in ten contests, eclipsing Ken Rhodes 1952-53 record of 267 points for one season.

Hale scored 43 points against Oswego State Teachers Wednesday, Jan. 12, as RIT whipped Oswego. That total enabled Hale to break his own record of 36 points in one game against Paul Smith's College earlier in the season. Although RIT lost to Fredonia, Friday, Jan. 14, Hale again scored over 40 points.

It was a hectic game, undecided until the last six seconds of play. Fredonia, playing Hale closely, caused him to foul one of their players at this time, giving the Teachers two free throws. At the same instant, a technical foul was called on Bucky Craugh. The score was tied 73-73, but not for long, Fredonia sank two of the three charity shots and walked off with the victory.

Other scorers for RIT beside Hale were Bob Klos, 10; Bucky Craugh, 9; Don McCaughey, 8; John Buckholz, 3; and Fred Moss with 2.

In the preliminary game the University of Rochester freshmen defeated the RIT Jayvees, 63-53. High man for RIT was Ralph Van Peursem with 13 points.

## Ordoveza Loses Pi Club Tourney To Sam DeMarco

Sam De Marco, a medical technology student, captured first place in the Pi Club's Annual Ping Pong Tourney by overcoming a 2 to 1 deficit at the hands of former champion Johnny Ordoveza, Friday, Jan. 21.

Both Ordoveza and De Marco had beaten all challengers within the past week before meeting each other in the finals. Ordoveza forced De Marco into an overtime match for the first of five games. De Marco finally won it, 24-22. The score was tied up at one game each when they again went into overtime with Ordoveza winning 24-22.

With the score tied, Ordoveza continued to put the pressure on and took a 2-1 lead winning 21-18. But that was all for the former champ. De Marco took the fourth match 21-18 and then ripped into Ordoveza with all he had, winning the final and deciding match by the score of 21-11, a margin of 10 points.

Both the new champ and the runner-up received handsome trophies donated by the Pi Club. This was the second year the tourney has been held. More than 35 contestants were entered.

## New Gym Plans

(Continued from Page 1)  
tion room for the dispersal of uniforms, towels, etc., will facilitate that function. The school will also operate its own laundry on this floor.

Men's and women's shower and drying rooms will be found here. A basket system of storage lockers will hold students' gym clothes when not in use, with 1520 for the men and 720 for the girls. 160 full size lockers will be used by the men to store street clothing while they use the gym upstairs, and 99 are provided for the co-eds.

Team locker rooms, physical education and coaches' offices, and additional storage space complete the picture for the lower level.

The new gymnasium is the first of five structures envisioned in the future expansion plans of RIT. A men's dormitory, a new graphic arts center, a new School for American Craftsmen and a student recreation center and auditorium are in various stages of planning by the Administration.

Floor Plan Of Institute's Gymnasium Interior

# Keeping Up With Institute Alumni

## CLASS OF 1949

**Lucille Kay Halinski (FA)** and **Joe (FA)** former student) have a daughter, **Linda**, born Nov. 28. Their son, **Robert**, is two years old. Joe and Lucille operate their own restaurant, **The New Hut House**, at 2200 Elmwood Avenue, Buffalo. Residence at 199 Virgil Avenue, Buffalo 16, N.Y.

**George B. Ross (Mech)** 1040 Mason St., San Francisco, Calif., was a screw machine major while attending the Institute, is now a tool designer for the Schlage Lock Company located in San Francisco. George is working on screw machine layout, cam and tool design, jig fixture design, and screw machine selection and control work.

## CLASS OF 1950

**Martha Kirk Lays (FA)** and her husband have a new home on **Hollyvale Dr.**, near **Brighton High**. Martha has two children: **Lewessa**, going on 3 years old; and **Bob**, slightly over a year. Address: Mrs. Robert F. Lays,

70 Hollyvale Dr., Rochester 18, N.Y.

From halfway around the world came a Christmas greeting from **Jim Tabor (FA)** former student). Jim is Station Chef at **Wake Island**, with **Pan American Airways**.

**Josephine Parlato (FA)** and **Harvey Harland (Ph)** were married last fall and are living in **Detroit**. Harvey is employed with the **Chrysler Corporation**, and Josephine is hoping to work into a school lunchroom position with the **Detroit Board of Education**. Address: 18141 Schoenhurr St., Apt. 40, Detroit 5 Mich.

**Evelyn Kill Elsenheimer (FA)** has a son, **Theodore Edward**, born last May. Her daughters **Irene** and **Shirley**, are aged three and two years. Evelyn writes that she and her husband have finally started building on their new home in **Gasport**. Address: R.F.D. 2, Gasport, N.Y.

**Ken Swannie (FA)** and **Mary** have added another daughter to

their fine family. **Holly Eileen** was born Oct. 29. The four older children range up to 7 years of age—three boys and a girl. Ken is food service manager at **Wassaic State School**. Address: **Butts Hollow Rd.**, **Dover Plains, N.Y.**

## CLASS OF 1951

Friends of **Dorothy Abels Meerholz (FA)** will be glad to hear that she is making progress in her long convalescence from a serious back injury in an auto accident last spring. She has now been transferred to a regular hospital bed and is able to have the bed cranked up to sitting position for short periods each day. Her patience and courage and optimism are admirable. Cards and notes from friends are greatly appreciated. Address: Mrs. Robert Meerholz, **Genesee Hospital**, **Rochester 17, N.Y.**

**Gerry Northrop Jones (FA)** is among the lucky ones who get to go south for the winter. Her husband is stationed at **Shaw Air Base** in **South Carolina**. Gerry has a daughter, **Linda Marie**, nearly two years old. Address: Mrs. Richard L. Jones, 16-A **Dixie Dr.**, **Sumter, So. Carolina**.

**Gerry Schoultice Foshay (FA)** writes that she and **Bob (Ph)** are moving to 3 **Bryant Crescent**, **White Plains, N.Y.** Bob has been promoted to color technician with **Anso** and will be working out of the **New York office**. He will visit color labs in **Albany, Philadelphia, and Washington, D.C.** The Foshays have two children: **Robert III**, two years old; and **Yvonne**, one.

**Clark S. Butler (Mech)** 128 **Windsor Rd.**, **Rochester, N.Y.** completed military service in **September, 1954** and has entered the **Winter quarter** of the **topping program** to complete his work for the **Bachelor of Science Degree**. He is cooperatively employed at **Kodak Park Works** of **Eastman Kodak Company**.

**Richard S. Buxton (Mech)** completed his military service during the **summer of 1954** and entered the **topping program** in **September** to complete the work for the **Bachelor of Science Degree**. He is cooperatively employed at **Rochester Products Division** of **General Motors Corporation**.

## CLASS OF 1952

**Edward R. Smith (Mech)** 360 **Electric Ave.**, **Rochester, N.Y.** completed his military service during the **summer of 1954** and entered the **topping program** in **September** to complete the work for the **Bachelor of Science Degree**. He is cooperatively employed at the **Rochester Gas and Electric Corporation**.

**PFC Donald E. Logan (Pr)** is stationed in **Germany** where he was recently graduated from the **2nd Armored Division's Non-commissioned Officer Academy** where he received instruction in **leadership, map reading, and other subjects**. Logan entered the **army** in **March, 1953** and completed basic training at **Indian-town Gap, Pa.** He is a native of **Tenafly, N.J.**

## CLASS OF 1953

**Frances Long (FA)** was married on **Nov. 27** to **John Ratcliffe (Pr)**. They are living at **529 Grosvenor Road**, **Rochester 10, N.Y.**

**Maureen Bittker (Ret)** was married to **Norman Chodosh** on **Oct. 24**. Following a wedding trip to **Bermuda**, **Maureen** will continue her work as **assistant buyer** of **ready-to-wear** for **McCurdy's** of **Rochester**.

**Sally Burrell (Ret)** is now in the **employment department** of **Adam, Meldrum and Anderson Co.**, **Buffalo**.

Another wedding in **August** was that of **Carla Fabiani (Ret)** to **Thomas McNamara**. **Carla** will continue her work as **assistant buyer** at **McCurdy and Co.**

**Sally Hastings (FA)** was married last June to **John Gee (Elec '52)**. The **Gees** are living at **769 Lake Ave.**, **Rochester 13**.

**Carol Babosuk (FA)** is now at the **University of Buffalo** as **assistant manager** on the **day shift** of the **food service division**. **Carol** is employed by the **Cease Commissary, Inc.**, of **Dunkirk**, which operates **U. of B. food service** on **concession**. Address: **167 Van Buren St.**, **Lockport, N.Y.**

## CLASS OF 1954

**Mary Kramer (FA)** is **cafeteria manager** at **Irondequoit High School**. She has responsibility, also, for **food services** in **four smaller schools** of the **district**. Address: **88 Elmdorf Ave.**, **Rochester 11**.

**Marilyn Griffin (FA)** and her husband have bought a home in **Springwater** and are most enthusiastic about life in the country. Address: Mrs. **James Griffin**, **Springwater, N.Y.**

**Ross DiBiase (FA)** is **assistant catering manager** with the **Cease Commissary at Dunkirk**. **Ross** is keeping up his favorite **extra-curricular activity** by acting as **referee** for **wrestling** in the **local high schools**. Address: **170 W. 2nd St.**, **Dunkirk, N.Y.**

**Albert Capone (FA)** is the **proud father** of a daughter, **Barbara Ann**. **Albert** is just marking time on a **temporary job placement** until **Uncle Sam** picks him up for a **couple of years** in the **Army**. Address: **1100 Maple St.**, **Rochester 11**.

**Frank P. Newman (Ph)** was married **June 20** at **Dover Plains, N.Y.** to **Joan Howe Humeston**, a former student in the **Department of Photography**.

A former **Art Student**, **Roy Kern ('42)** has recently joined the **DuBois Press**, **625 Goodman Ave.**, **Rochester**, where he will direct the **art and layout departments** as **Art Director**. Previous to this, **Mr. Kern** had his own studio in **Rochester** where he did **commercial designing**.

**Robert P. Driggs (Art)** was recently featured in the news through the announcement of his appointment as **Sales Promotion Manager** of the **R.T. French Co.** in **Rochester**. We congratulate **Bob** and wish him every success in his new position.

After graduation **Josephine Gregway (Art)** obtained a position in **Newark, N.J.** where she gained experience as a **display artist**. Not finding this to her liking, she returned to her home in **Oswego** and took the position of **designer** with the **Sealright Company** in **Fulton**. **Josephine** informs us that she was married on **August 28** to **Robert Saterron**, a student at **Oswego State Teachers College**.

Bernard Goracy

**Bernard Goracy (Pr '49)** has assumed ownership of the **T. B. Beach Printing Company** at **106 Ann St.**, **Hartford, Conn.** The company was established in **1916** by **Timothy Beach Jr.** and operated by him until his death in **1951** when **Mrs. Beach** assumed management. The company has specialized in **office forms** and **industrial advertising**.

**Mr. Goracy** has severed his connection with the **Hildreth Press** in **Bristol, Conn.** where he was **assistant foreman** in the **composing room**. He attended the **vocational trade school** in **Hartford** and prior to military service was employed in a **local commercial printing plant**.

Upon his discharge from the **army** as a **captain**, he enrolled at the **Institute**. He graduated in **1949** from the **Printing department** and also attended **Evening school** where he majored in **sales management**.

**Mr. Goracy** is a member of the **Hartford Club of Printing House Craftsmen**. He lives in **Forestville, Conn.** and has one son, **David Alan**.

# ALUMNI Fund Contributions

Names of donors to the **Greater Alumni Fund "Cornerstone Campaign"** will appear in each issue of the **Reporter** for the duration of the campaign.

Key to the departmental names follows: **Applied Art (Art)**; **Architectural (Arch)**; **Chemistry (Chem)**; **Commerce (Com)**; **Construction Supervision (CS)**; **Domestic Art (DA)**; **Electrical (Elec)**; **Evening School (ES)**; **Food Administration (FA)**; **Home Economics (HE)**; **Lunch Room Management (LMT)**; **Mechanical (Mech)**; **Normal Industrial Training (NIA)**; **Normal Manual Training (NMT)**; **Printing (Pr)**; **Photography (Ph)**; **Retailing (Ret)**; **School for American Craftsmen (SAC)**; **Staff and Faculty of Day and Evening (St)**.

## R.C. Seeks Volunteers To Cheer Hospitalized

Want an opportunity to help others? If you have ever been sick in bed for a period of time, remember how lonely and down in the dumps you were? There are people who are confined to bed, not just for days but for months and years. They really must feel down in the dumps! Would you give up just one movie night this year to make them a little happier?

For the last few months the Intercollege Red Cross Council has been trying to line up volunteers who have any type of talent.

Transportation will be provided to the hospital. You will have the opportunity to meet many students not only from

RIT but from the other area colleges as well.

Many school leaders have already signed up. If they have the time, perhaps you have too. So, for the sake of these bed-ridden, confined people, contact Mrs. Miller in Clark Union and leave your name.

## Applications to RIT Reach New High

Requests for applications for the 1955-56 school year have increased 28 per cent over this current school year and 300 per cent over the 1951-52 school year. These figures were released by Alfred A. Johns.

As of this date, 210 requests for application have been received for the forthcoming school year. This is in direct contrast to the 70 requests received by this time in 1951.

Each year a tabulation of the requests for applications for the forthcoming school year is compiled as of January 15. Figures available for the past five years show a steady increase in these requests over each preceding year. Each department at RIT has also maintained a steady yearly increase in requests for applications—thereby backing up the increased yearly figures and the increased RIT enrollment.

## Married Couples Note Jan. Births

The birthdays of seven of RIT's married students born in January were celebrated in one grand party held in the Edgerton Park apartment buildings newly painted "play room" on Saturday, Jan. 15.

Planned as a small six or eight person get-together to celebrate the birthday of Bob Lorenzen by his wife, Elaine, the idea mushroomed rapidly into a festivity in which more than 35 persons took part.

Refreshments of punch, coffee, cakes, salads, and sandwiches which were supplied as "admission" by each couple, were thoroughly enjoyed in the intermission periods between games and dancing.

Celebrating their birthdays were Bob Lorenzen, Chris Kellog, Warren Bills, Nita and Howard Brown, Dolores Wimmer, and Hans Cristensen, recently arrived from Denmark.

## Retailing Graduates Offered Fellowships

Senior women with an eye to jobs in buying, advertising, styling and television will find announcements posted on college bulletin boards today, explaining how they may apply for a fellowship to the Tobe-Coburn School for Fashion Careers in New York City. The announcements state that Four Fashion Fellowships are being offered for the year 1955-1956 and that all senior women graduating before August 31, 1955 are eligible to apply.

A fellowship to Tobe-Coburn covers the full tuition of \$1050.

The number of fellowships, not to exceed four, will be determined by the merit of candidates who submit presentations. The widely-known New York school offers the fellowships yearly to encourage able college graduates to enter a field which holds unusual advancement opportunities for well-trained young women.

The One Year Course at Tobe-Coburn emphasizes actual contact with the fashion industry through lectures by important fashion personalities; visits to manufacturers, department stores, fashion shows and muse-

ums; and ten full weeks of working experience, with pay, in New York stores and other fashion organizations.

Now attending Tobe-Coburn are holders of 1954-1955 fellowships are graduates of Allegheny College, Drury College, University of Indiana, and Mills College.

Senior women may secure Fashion Fellowship registration blanks from the vocational office, or from the Fashion Fellowship Secretary, Tobe-Coburn School for Fashion Careers, 851 Madison Avenue, New York 21, New York. Registration closes Jan. 31, 1955.
