

BROTHERHOOD WEEK-FEB. 20-27 1955

NATIONAL CONFERENCE OF CHRISTIANS AND JEWS

DWIGHT D. EISENHOWER
Honorary Chairman

BEN DUFFY
General Chairman

Sweet Nectar

A baby's tear
An angel's smile
Mix them together
Let linger awhile.
Add now some rose oil
One drop will do
To sweeten the nectar
And give it hue.
Now from a green meadow
Way high on a hill
Pluck just two petals
From May's first daffodil
Out from the breast
Of a cooing dove
Extract just the heart
So gentle its love.
To make the hair
Quite soft and fine
Steal the seed
Of a dandelion
Put them together
And multiply all
Behold now the Queen
Of the Sweetheart Ball.

NCCJ Wages War On Hate, Prejudice

"Brotherhood is giving to others the rights and respect we want for ourselves" says one of the slogans of the National Conference of Christians and Jews. Founded in 1928, the Conference has maintained a program to promote good will and understanding among Protestants, Catholics, and Jews. Realizing that the forces of bigotry and hate could be combatted successfully only through a program stressing the moral content of democracy, the founders of the NCCJ proclaimed their intention to strive for the brotherhood of man under the Fatherhood of God.

Since 1934 the Conference has sponsored the annual observance of Brotherhood Week on a national scale. The purposes of the "Week" are:

1. To give people an opportunity to re-dedicate themselves as individuals to the basic ideals of respect for people and human rights which are essential to our way of life.
2. To dramatize the practical things which people can do to promote an understanding and realization of these ideals.
3. To enlist the support of a larger number of people in year-round activities to build brotherhood.

This year Brotherhood Week will be observed on February 20-

Dr. Charles E. Boddie

27, under the honorary chairmanship of President Dwight D. Eisenhower. In a letter to the general chairman of Brotherhood Week, Mr. Eisenhower had this to say: "We live in a period in which . . . there are new forces in the world which divide and threaten men, forces which work to lock each man within the prison of his own mind, which make friend distrust friend, nation distrust nation. In the face of these forces it is imperative that we voice to our faith: that every man is indeed his brother's keeper, that no human being in the world can escape his spiritual involvement in what happens to any other human being, that no man, in the troubled sea of mankind, can be an island."

At RIT, where Brotherhood is practiced throughout the year the Religious Activities Council is sponsoring a Brotherhood Assembly which will be held on Friday 25, at 9 a.m. in the RIT Chapel. The speaker for the occasion will be Charles Emerson Boddie, D.D., the prominent Negro Baptist preacher, author and lecturer.

Does a brotherhood assembly accomplish anything? "YES," replied RIT Chaplain, the Rev. Murray A. Cayley, adding that "bigotry is the result of ignorance. This assembly gives us an opportunity to destroy ignorance. So able a man as Dr. Boddie with his outstanding national reputation is bound to break down some of the barriers of both ignorance and misunderstanding." In answer to another question, Mr. Cayley said that brotherhood at RIT is "extremely well practiced throughout the year. There is little evidence of discrimination. One of the best evidences of non-discrimination is the willingness of students of all creeds and colors to allow me, a Protestant chaplain, to teach here."

At the Brotherhood Assembly Dr. Boddie will speak on "All These People." Dr. Boddie, a champion for the rights of the people of all denominations and faiths to live together in harmony was asked in an interview what students can do to promote brotherhood. In reply he said, "in this technical age it is the job of the day to make brothers of our neighbors."

German Visitor Sees RIT Facilities

Hans Kessel, a participant in the Foreign Leader Program of the International Educational Exchange Service of the Department of State, visited Rochester from January 3 to April 2, 1955.

He is a junior high school teacher and principal in Bremen.

While touring the United States, Mr. Kessel will observe pre-service and in-service education of teachers; certification of teachers; teachers organizations, purposes, programs, and publications; educational journals, editing and publication; student organizations and activities at both secondary and college levels; and the relation of schools to local community and to the state.

Three From Staff Attend Meeting

Three members of the Institute's staff have attended the second Professional Conference for Production Executives held by the Printing Industry of America, Incorporated.

Mr. Joseph F. Bowles instructor in the Department of Printing, Mr. Herbert Morrow Jr., and Mr. Norman R. Reamer of the Graphic Arts Research Department attended the conference in Chicago at the Palmer House on February 3 and 4.

Mr. Bowles, Mr. Reamer, and Mr. Morrow acted as reporters for the small discussion groups formed Thursday afternoon and Friday morning during the conference. The substance of the conference. A summary of the "Proceedings", a news magazine printed by P. I. A.

Student Council Originates New Column: Council Notes

With this issue a new feature is being presented to you, the readers of the **RIT Reporter**. Aware that the majority of the student body is poorly informed regarding the activities and functions of Student Council, **Council Notes** is being offered in an effort to alleviate this situation.

Through this column, the **Reporter** hopes to bring its readers, both the student body and alumni alike, a concise, factual record of the projects undertaken, the policies established and followed; in general, an informative recording of the functions of Student Council. Above all however, it is hoped that this column will become one of your regular reading habits and that it will bring you into closer contact with your Student council.

Chris Kellogg

The funds—approximately \$500—for the purchase of the above items are being obtained partially by an appropriation from Student Council.

Parking Lot Committee

A new sign recently installed by Student Council on the fence at the student parking lot states that only cars bearing a parking sticker will be eligible to park in the lot; and that all illegally parked cars are liable to be towed away. Located on the Troop Street side of the fence near the entrance, the sign will serve as a constant reminder to drivers for the penalties they face for illegal parking.

While on the subject of illegal parking in the lot, once again here is a summary of the 4-point program, as enacted by council

(Continued on Page 7)

Dental Services Free To Students

With the opening of the new clinic at the Eastman Dental Dispensary at 800 Main Street East on Feb. 1, RIT students are invited to take advantage of free services offered by the students of the School for Dental Hygienists.

Up until this time the students have been doing their clinical practice in the industrial plants of Eastman Kodak and Bausch and Lomb. Due to the building programs of these industries, the school has had increasing difficulty in finding space for temporary clinics. Although it has no intention of discontinuing its service to the industrial establishments, the school wants to insure having a steady flow of patients in its new quarters.

The service offered free is a dental prophylaxis, for which appointments can be had by calling Mrs. Walter Jensen at Hamilton 3880. The clinic hours are from 9-12 a.m. and from 1-4 p.m. Monday through Friday.

Alfred H. Wardel

in crafts." Included in this award competition were textiles, ceramics, metalworking and woodworking.

In addition to being his prize winning effort, Wardel's coffee set is also his journeyman's piece. Each student of the crafts is required to complete a journeyman's piece as a requisite for graduation. This piece of work is done without assistance from either faculty, student, or other persons.

Wardel has also exhibited in the Rochester Finger Lakes exhibition and Young American Exhibit of 1954, in New York City.

Norton Appointed To New Position In Evening Division

Russell A. Norton, mathematics and physics instructor at the Rochester Institute of Technology, has been appointed assistant director of RIT's Evening Division, Dr. Mark Ellingson, RIT president, announced Tuesday, Jan. 25.

Norton will have charge of RIT's industrial technology program involving courses leading to the associate in applied science degree in electrical and mechanical fields. More than 220 students are enrolled in this program, which requires three nights a week of classes for five years to gain the degree.

"We have created this new position in industrial technology for our Evening Division because of the increasing enrollment of people from local industry in-

terested in our program," said Dr. Ellingson.

Norton holds a bachelor of science degree from Middlebury College and a master's degree from the University of Michigan.

Article To Appear

Dr. Mark Ellingson's article, "Research for Better, Cheaper Newspaper Production" will be contained in the forthcoming issue of *Graphic Arts Progress*, a publication of the Graphic Arts Information Service.

The item was originally published November 1, 1954 in *The Bulletin of the American Society of Newspaper Editors*, a magazine published in Wilmington, Delaware.

EDITORIAL

The Alma Mater Has Words...

Three weeks ago, almost everyone took part in the "Beat Brockport" rally and the pep assembly and went to see the game. The whole weekend was, except for minor instances, a great success, due to the interest shown by all of us. Little things like the fast-moving Rochester Fire Department, the failure of the entire band to show up at the Friday noon rally (even though they did have their new sweaters), and the failure of any attempt to disguise the fact that the March of Dimes Dance was just another passing of the hat did nothing to dull the sweetness of Friday's victory. That was a great day!

One discrepancy we observed should very definitely be mentioned. It certainly must have seemed strange to the people from Brockport that out of our great crowd, so few could sing the Alma Mater. There couldn't have been more than twenty persons singing with the band even though everyone recognized the melody.

So, for that reason we are publishing the words. If you don't know them by now, cut them out of the paper. Paste them to your mirror and everytime you look to see how attractive you are, take a look at your Alma Mater; read it through; learn it. Let's not get caught again, standing there, mouths agape, wondering what to do while the band plays on.

*Alma Mater, day by day
We strive to hold thine honor bright
And pledge anew our loyalty
Defend thy name with all our might.*

*We rise in gratitude to thee,
For sweet the message thou has taught,
A message crowned with love and power,
Resplendent through thy service wrought.*

*Thy noble founders heard the cry
That surges o'er the world today;
Their dauntless spirit sends us forth,
That we their precepts may obey.*

We Could All Be Brothers

The week of February 20—27 has been designated as Brotherhood Week by the Jews, an organization devoted to the democratic ideals that have made America not only a great and powerful nation, but a good land in which to live.

In this age of anxiety and concern for the future of our country, we have a tendency to concentrate on military power, and forget that all the planes and atom bombs cannot guarantee victory unless we win the peoples of the world to our side. Democracy, really a synonym for brotherhood, is the not-so-secret, but too often neglected, "weapon" that can accomplish this.

The U.S. Navy gave a splendid example of the potency of democracy when the aircraft carrier *Midway* visited Capetown, South Africa, last month.

That unhappy land has a government-sponsored policy of apartheid—a fancy term for the Jim Crow discrimination that keeps the native Negro population subjugated and poverty stricken by denying them any social, political, or economic rights.

The policy of the Navy is to observe the local laws and customs when visiting for-

eign ports, but resentment arose on the ship a few days before the visit, and the skipper, Capt. Reynold D. Hogle, negotiated with the local authorities to relax the color line. It was front page news in Capetown.

Capt. Hogle set the example by opening the Midway to visitors of all races on a non-segregated basis. He had a non-segregated ship to show off, for his crew included 84 Negroes, and about 300 other non-whites, including men of Filipino and Japanese descent. More than 23,000 South Africans,—whites, native Negroes, Indians, and other non-Europeans swarmed aboard the ship in two days.

Thus, the severe apartheid system was brought into frontal conflict with the post-war American policy of de-segregation of naval crews.

About 500 officers and enlisted men were admitted on a non-segregated basis to a local baseball game. They were entertained and fed by the local City Council at the Old Drill Hall. Hotels where native Negroes are banned were opened to American Negro sailors, a tremendous concession by the local people.

The visit was reported to have ended with thorough good will on both sides, and apparently Capetown would not mind another visit by the *Midway*.

This incident certainly won for the United States many friends through the "reservoir of good will" that Wendell out the world, and did much to keep up Wilkie used to talk about. But to become complacent, or to limit our efforts to further democracy and brotherhood, would defeat our purpose.

We must never forget that it is the great variety of peoples, working together, that has made America great. The different races, religions, and nationalities that have emigrated to this continent have all made their unique, valuable contributions to the American scene. To deny any minority group, no matter how large or small, basic brotherhood, is to contribute to the hardening of the nation's arteries, cutting down the fresh influx of ideas, talents, and diverse cultures that enrich this land and its citizens.

Staff Worker Leaves Reporter

Mrs. Doris Starks, more popularly known as "Dorie" to her many friends at the Institute has left her job on the staff of the *RIT Reporter* to prepare for the most important job of her life: raising a family. In the matter of a few months the preparations should be complete and her work will begin in earnest.

Dorie has keyboarded many a galley of type for the paper. Her work has always been "quality." She has caught many an error made by us in our hurry to put the paper to "bed" and uncomplainingly made them right.

Early this year she made the switch from Justwriter composition to Teletypesetting without dropping a comma. We know she'll handle this next "switch" in her usual efficient manner. Good Luck, Dorie!

QUESTION

Do you think a Physical Education Program should be initiated at RIT once the new gymnasium is completed?

Reporter-Photographer—Joseph Moffa

Roger Linton . . .
Printing Junior

I believe that the new gymnasium will increase school spirit by bringing more students together in friendly competition. By offering a wide and varied program of athletics it would be possible to include almost everyone's interests. I would like to see more activities that could include mixed participation, such as volleyball and badminton.

Steve Elfenbein . . .
Photo Tech

I think we should have formal Physical Education classes to keep the students in good condition. I would also like some tumbling, weight lifting, gymnastics, and volleyball.

I think that the new gym should be open after classes and on weekends to give the more active students a place to let off their energy.

Bev. Partridge . . .
Retailing Freshmen

I would like to see a program of sports including basketball and volleyball for both women and men. The gym should be open for the students at all times. A program should be set up for students to help manage the activities.

Mary Ellen O'Connell . . .
Commerce Freshman

I would like to see gym classes for all as a part of the student's schedule. The gym should be open at all times so the students would feel free to go there. It should be a place for students to let their hair down.

Models Sought For Agency

Delta Lambda Epsilon, RIT's photographic fraternity, is initiating a model agency for photo students. Males and females of all types, sizes and shapes, are invited to fill out one of the coupons and drop it into the *RIT Reporter* mail boxes.

What's in it for you? Each model will receive one striking portrait of his or her choice in return for a few minutes under the lights. How about you? You're needed. If possible, enclose a snapshot with your application.

GREEK TALK

KEK Bill Ritchie and John O'Hare, '54 Printing graduates have achieved one of life's high goals. They walked down the aisle to matrimony.

Phi Up has agreed to another joint meeting to be held before spring. Those gatherings have been an asset toward improving social activities.

A second pledge period rush party was held on the first Tuesday night of February. Actual pledging will commence the first week of March. In line with this, arrangements with the Community Chest to establish "help weekends" are being completed.

RIT's most spectacular event takes place Saturday night (9 to 1) at the Hotel Powers. Tickets for the Sweetheart Ball will be sold at the door. Dress will be semi-formal and the admission has been set at \$3.60 per couple. See you there!

ΦΥΦ "Twas a cold winter's evening,
The Phi U's were leaving,
To go to their dinner supreme,
Cocktails at eight with a Phi U date,
And Town and Country cuisine!
"With lights turned low, and voices hushed,
We initiated the girls we had rushed;
Neva, Marty, Betty Ann, Lynn and Sharon,
Ginger, Aggie, Barb, Sue and Karen,
Jackie, Sally, Sandy and Sue, too!
"And that's it for awhile,
But just one dig—
Remember Sweetheart Ball and Kappa Sig!"

NEWS SPOTS

\$325 For Polio

The recent March of Dimes campaign as conducted throughout the faculty, among the student body by Student Council members, and by a collection at the RIT-Brockport game, netted approximately \$325. This money was turned over to Mr. Ralph Tichenor of the sports division of the Polio Foundation by Student Council President Richard Anderson during half-time ceremonies.

New Guide Almost Ready

The 1954-55 Student Directories are in the hands of the Printing Department and should be ready for distribution to the student body within the near future.

Consider Coffee Machine

Due to numerous inquiries regarding placement of a coffee machine in one of the school lounges, the problem has been submitted to the Alumni Executive and that group now has the matter under consideration.

WHAT'S THIS?

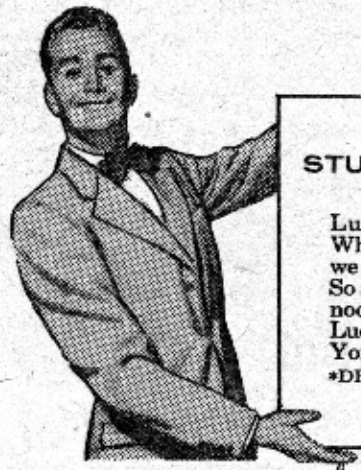

For solution see
paragraph below.

"IT'S TOASTED"
to taste better!

THEY'RE CLAMORING FOR THEM! Who? Students. What? Luckies. Coast to coast, dormitory to dormitory, college smokers prefer Luckies to all other brands, according to the greatest up-to-date college survey. Again, the No. 1 reason for Luckies' wide lead: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is *toasted* to taste better. "*It's Toasted*"—the famous Lucky Strike process—tones up Luckies' mild, good-tasting tobacco to make it taste even better. So enjoy the better-tasting cigarette . . . Lucky Strike. But don't be like the man in the Droodle above, titled: Pickpocket acquiring Luckies. Make sure you have plenty of your own. Buy Luckies by the carton.

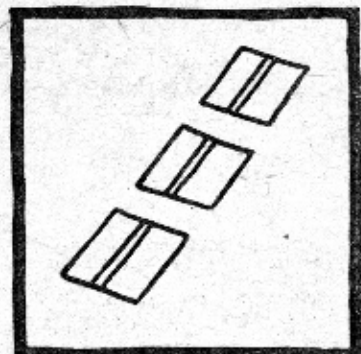

STUDENTS! EARN \$25!

Lucky Droodles* are pouring in! Where are yours? We pay \$25 for all we use, and for many we don't use. So send every original Droodle in your noodle, with its descriptive title, to Lucky Droodle, P. O. Box 67, New York 46, N. Y.

Power Behind Displays

Anyone walking in the vicinity of the 3-D workshop in the Bevier Building during the past few months, couldn't help but notice the intriguing designs and mobiles produced there by the current crop of freshmen students. The hidden "power" behind this dashing display is none other than our profile for this month, Howard O. Brown.

Under Mr. Brown's guidance, great advances have been made by the students in this course, where they are taught the elements of three-dimensional design. In the Composition course, also taught by Mr. Brown, freshmen gain knowledge of perspective and balance, as well as how to put this knowledge to good use.

Mr. Brown comes to RIT well qualified for teaching in the fields of art. A 1947 graduate of the University of Illinois, he holds a B.F.A. degree with a major in art and industrial design. He received his M.A. from Michigan State with a major in fine arts and a minor in art history; and just this past year, he finished over sixty semester hours of graduate credit for his M.F.A. at Cranbrook Academy of Art, where he majored in design and minored in metalsmithing. Mr. Brown spent over five years as an Assistant Professor at Michigan State College. He began teaching there in 1949, heading the curriculum in Industrial design. Later in 1952, he added Interior design to the program.

Another of Mr. Brown's many accomplishments was his two years as product designer for the Norge Division of Borg-Warner Corporation. While with B-W Mr. Brown worked on designs for the 1949 line of Norge washing machines, the 1949-50 Norge water heater, and several experimental models of Norge ranges.

Other free lance work has included a number of such items as Product design, Interior design, Color consultation, Window display, Commissions for metal sculpture, and commercial orders for jewelry.

He has exhibited annually in a number of national shows and competitions including the Los Angeles County Fair; Designer Craftsmen, U.S.A. in the Brooklyn

Howard O. Brown, Department of Art and Design

Museum, New York; the annual exhibition of Michigan Painting and Sculpture at the Detroit Institute of Art; the Heifitz Lamp Competition at the Museum of Modern Art and many others.

Living now at 9 Backus St., Mr. Brown is married and has a two-and-a-half year old daughter. Mrs. Brown is also a designer of repute, formerly with Sundberg-Ferar in Detroit, and holding a master's degree in Ceramics from the University of Illinois. She has also had college teaching experience in color and design.

A veteran of World War II, Mr. Brown is also a member of the College Art Association; The Association of University Professors; The Midwest Designer-Craftsman, Chicago; and Design For Industry, at the Institute of Contemporary Art in Boston.

Besides the full schedule of his daily work, Mr. Brown finds time to teach a course in Drawing and Space Arrangement in the RIT evening division. We are certain that with the addition of Howard O. Brown to our faculty, RIT has gained another fine teacher in our already famous Department of Art and Design.

Students whoop it up at RIT's first bonfire sponsored by Kappa Sigma Kappa. Although firemen put the damper on enthusiasm was high. (Meyers Photo)

Quiet Drinker

It was late when the student entered the lair
To search out hope among despair

His scurillous glance moved over the clan
And then settled wholly upon a man

Who was seated quite afar
Drinking alone at the end of the bar

Then wishing that his voice could reach

The student whispered the following speech:

"Let not thinking on the morrow
Cause the drink to give you sorrow

Fear not false future, tis in vain
When midnight marches, tis to-day again.

Drink until your face grows paler

Hurry now, your beer grows staler

Have all of what your stomach yearns

Drink until your liver burns

Quench the fire with more flame

Drink until your legs are lame

Be a better drinker than the rest

Pour the liquid down with zest

Drink until you lose your name

Soak your senses without shame

Now quote the Bible in drunkard's tone:

"Man cannot live on beer alone."

Ha, ha—merriment now fills the air

Disproving drinking precedes despair

Quickly now tell of the clockless inn

Where drank a "steady" so much gin

That upon the second of the hour of two

His passing out signalled the bar-keep was through

Listen to your friends guffaw

Your wit sets them all in awe

Your drinks now have passed a score

But hasten, bar-keep, give him more

With that the drunkard fell to the floor

And breathed his last for ever more

And on that instant the student fled

Did he know the man was dead?

Some said yes, and some said no

But all agreed he had to go

For his mother had told him o'er and o'er:

"Your father will die on a bar room floor."

Doty Answered: Girls Can Stay

Students residing in the RIT Barracks were kept awake till after 1 a. m. on the night of January 31. Dick Doty, the radio disc-jockey, on his show spotlighted Spring Street, and his question for the evening was "Do you think men are smarter then women?". This subject, always a good topic for discussion in the barracks, prompted a number of students to get out of bed and keep the phone and Dick Doty busy. It seemed that all the men agreed that they were smarter than their sisters; they came up with examples from the Bible and with up-to-date statistics from the RIT Counseling Center. Nevertheless, songs were dedicated to the not-so-smart girls. If the girls of Kate Gleason Hall were irked by the statements some of their brothers made over the air, they must have had a good laugh when they heard the songs dedicated to them.

One neutral observer would not commit himself as to which is the smarter sex because he believes in co-existence with the girls.

Mr. Doty's program is interesting and amusing, but hereafter please Mr. Doty, keep the spotlight away from Spring Street. We want to keep the peace with the girls and, above all, we want to get some sleep!

KSK Dance February 19

Come one: come all, to the "Sweetheart Ball," to be held at the Powers Hotel by the brothers of Kappa Sigma Kappa on Saturday night, February 19. Music for your dancing pleasure will be supplied by Jack Nunn and his orchestra from 9 to 1.

Each year on the Saturday closest to Valentine's Day, the individual chapters of the fraternity hold a dance to crown their Sweetheart for the coming year. Beta Chapter has chosen candidates from our campus whom the members feel they would like most to be their Sweetheart for the year 1955. The candidates have already been selected. They are: Mary Millison, Sue Hart, Karen Smith, Sharon Bonady, Barbara Clark, Jane Fees, Nancy Lind, Neva Hanson, Sandy Niven, and Sue Morin.

The queen will be chosen from these candidates in a secret ballot held at the dance by the attending brothers. The elected queen will be crowned in a traditional ceremony and serenaded by all the brothers.

Committees have been set up for the dance: in charge of printing is Ken Dewhirst; publicity chairmen are Norm Radziwon and Arch Spinney; in charge of decorations is Ed Krauss.

Skate Party Held

On Sunday, January 23, the RIT Newman Club sponsored a roller skating party, which was held at the Rochester Roller Palace.

The next event to be sponsored by the Newman Club will be a bowling party on February 20.

The officers of the club assure all members and their guests a good time, and all Newman Club members are urged to attend and take an active part in these social functions planned for their enjoyment.

RIT Cagers Top Brockport; 78 - 66

Witmeyer Record Falls; Passed By Hale, Klos

After 14 unsuccessful attempts, RIT's basketball team played its best game of the year and beat Brockport State Teachers College 78-66, Friday, Jan. 29.

Kenny Hale is lifted high above the cheering crowd as RIT beat Brockport for the first time in 14 attempts. Hale scored 27 points for the Techman. (Borock Photo)

It was the first time that RIT has beaten the Golden Eagles since 1947. The Techmen now have won 8 of 13, winning their last three games in a row.

Another record was broken as Kenny Hale and Bob Klos eclipsed Stan Witmeyer's all-time high of 477 points for three years, which he scored in the years 1933-36.

In three seasons, Klos has scored 486 points, including 12 in the Brockport encounter. Hale, a sophomore, has scored 484 in one and a half seasons.

Hale, however, would not have set the record if Bill Craugh did not continually set up plays and feed the ball to him. Craugh, last year's high scorer, registered a

total of 14 points for the contest. RIT, playing cautiously the first half, kept a small lead until the end of the period. The half-time score was 39-all.

At the start of the second half, RIT broke away from Brockport with baskets by Hale, Klos, Fred Moss and Don McCaughey. The Golden Eagles never recovered from the 10 point deficit as the score stood at 53-43 in favor of the Techman.

At one time the Tech lead dropped to three points as Brockport staged a desperation rally, but RIT again went on a scoring spree with Hale and McCaughey leading the way to a 66-53 spread.

The RIT team working smoothly, for the first time in quite awhile, was deadly accurate from the foul line as well as from the far court.

Hale was high man for RIT, scoring 27 points. Bill Craugh had 14, Bob Klos 12, Don McCaughey 12, Fred Moss 11, and John Buckholz had 2.

Ed Storto was high man for Brockport with 25, followed by Pete Hinchey's 16.

In the preliminary game, the Brockport freshmen beat the RIT Jayvees, 55-54.

Summary:

RIT				BROCKPORT			
Hold'ge,f	G	F	T	Hinchey,f	G	F	T
Moss,f	5	1	11	Cuppernull,f	5	0	10

Totals	25	28	78	Totals	21	24	66
Halftime score: RIT 39, Brockport 39.							

Lettermen's Club Invites Applicants To Home Games

Prospective RIT students taking their Entrance Examinations at the Institute on Feb. 19, will be invited to the basketball game (Feb. 18) and the wrestling match (Feb. 19). The RIT basketball team plays Roberts College, and the wrestling team meets Alfred University on these dates.

The Lettermen's Club, comprising RIT's outstanding athletes, is sending out letters to 350 applicants informing them that they will be admitted to the sports events upon producing the letter. Applicants taking examinations at later dates will be invited by other RIT organizations to take part in whatever program may be scheduled for that time.

Bob Klos, president of the Lettermen's Club, feels that this is a good way of keeping prospective students informed and interested in the school and its activities. In addition it is hoped that interest in athletics might also be aroused by this program. Applicants seeking admission to the Institute will also receive copies of the RIT Reporter for the duration of this school year.

Former Royal Guest Speaker At Pep Program

The appearance of Arne Johnson, of the Rochester Royals professional basketball team and Bob Turner, sports director of

Arne Johnson

radio station WHAM, highlighted the recent all-school Sports Assembly presented in the RIT Chapel.

Mr. Johnson was the main speaker while Bob Turner moderated a question and answer period. In addition, the captains of the basketball and wrestling team were presented to the student body.

The RIT Band and Choraliers performed during the program and the Interfraternity Trophy for the Intramural basketball championship was presented.

Sports Profile

BY ART BOROCK

It finally happened—RIT's getting an athletic building it can say is all its own. How many of you can imagine that you will soon be taking physical education instruction in it, or playing on the new gym floor as a member of a varsity team? It's really something to give thought to, isn't it?

Yes, there is going to be plenty of activity in that building as soon as it is erected. Maybe you won't be a member of the wrestling, basketball, or fencing teams, there's still a lot that you will be able to do when you visit the building. There's ice skating all year round, tennis in the spring and summer, ping-pong for rainy days and exercise rooms for those of us who make it a practice to stay physically fit.

I guess that everybody will want to use the facilities of the athletic building; fraternities, clubs, teams and individuals alike. That's where the big difficulties of running the building will lie. Who will be entitled to use the gym floor on Wednesday night? Can we have the recreation room for next Friday? Questions such as these will be asked continually.

In the past, the fencing team was chased out of the small gym because the basketball team had to have try-outs; the wrestlers were forced to run around the same gym for warm-up laps when the fencers were taking their lunges because when the mats were laid down on the second floor gym there wasn't any room to run; and the basketball team had to travel to Jefferson High because they couldn't play a full-court game in the small gym.

You ask who there is to solve these problems? Why there's an Athletic Board of Control, haven't you heard? If you will look at your student handbook you will learn that this board of control is composed of a chairman, four members of the faculty, and four members of the student body. But don't ask me who those four students are, I don't know. It seems that this Board of Control which was formed in 1949 hasn't had any student members in the past two years or so.

While you've got that handbook open, take another look at it. What's that you say? The board is supposed to arrange all games for the varsity teams so that there won't be any conflicts? That's right, they're the people who make sure that the big basketball game isn't held the same night as your fraternity is sponsoring their formal dance. But how can they do this if there is no student representation within their board? How are they to know when a club or fraternity would like to hold their big affair if they have nobody to refer to? They can't know without these organizations being represented when the board meets.

These conflicts aren't the only problems that will arise; matter of fact there seems to be a problem at hand already. Many students have been asking about the "missing facilities" already. They want to know where the outdoor handball courts and basketball courts are for the summer session students and if there is going to be indoor volleyball courts or not. That's right, there are problems to be solved even before the new building is up.

Once the RIT athletic building is completed the Athletic Board of Control will have many more problems to solve than they have ever encountered. Problems which will involve RIT fraternities, clubs, and individuals. That means you—the student body. If you want to be represented in these matters it is up to you to remedy the situation.

The four student members of the Athletic Board of Control are selected by the president of the Student Association. But he can't do the job alone. The problem must be presented to him, candidates must be nominated and elected, this can only be done through the student body. Yes, we all realize that the new RIT athletic building will change your college life, but it can also benefit it—that is, if you care enough.

Women's Club Presents Band With Sweaters

A \$75 gift from the RIT Women's Club and a \$200 allocation from Student Council provided the necessary funds to furnish the RIT Band members with new sweaters. These sweaters, which were distributed to band members on January 31, will become a part of the band uniform along with slacks or skirts purchased by the individual members.

The sweaters are white with a blue and grey lyre emblem on the front.

Fencers Rip Fredonia; Men, Women Both Win

RIT's Fencing Teams, men and women, both romped over Fredonia State Teachers, by the scores of 21-6 and 14-2, Saturday, January 29.

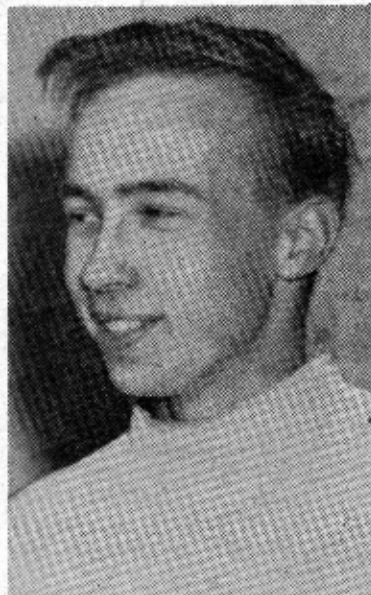

The men's team whipped Fredonia by the score of 21-6 for the second successive time this season. RIT registered wins in all three weapons: foil 7-2, epee 8-1, and saber 6-3.

Support from four freshman enabled the Tech swordsmen to win by the wide margin. Juan Carvajal, Tom O'Brien, Bob Ginsburg, and Elliot Geligoff compiled a record of eight wins and two losses.

In foil, Carvajal registered two quick wins over Fredonia and then lost his final match of the day by the score of 5-2 to a more experienced opponent. Mitch Diamond, filling in for Jack Burton, won all three of his matches as did Bob Brice.

Tom O'Brien, vying for a varsity epee berth, fenced three consecutive matches without a time-out. O'Brien won his matches by the impressive scores of 3-1, 3-0, and 3-1. Both Norm Kay and Bernie Boston won two matches each in epee also. Bill Plunkett split, winning one and losing one.

Bob Ginsburg and Elliot Geligoff won three of RIT's six saber matches, Ginsburg, winning two and losing one, and Geligoff winning the only match he competed in. Carl Nelson, RIT captain, and Art Borock won the other three

Carl Nelson

for the Techmen. Nelson competed in two matches and won both. Borock took one while dropping two to Fredonia.

The next home match for the men's team will be against the University of Buffalo, Saturday, Feb. 26, at the Baden Settlement House.

Women Take Third Straight

Tech's women's team ripped an undermanned Fredonia team 14-2. Fredonia, hampered by mid-semester exams, could only field two women contestants.

Pat Esty, substituting for Captain Clea Cooper, won four straight matches for RIT. Other winners for the Tech team were Helen Sowinski 3, Barbi Brill 3, Terry Olszewski 1, and June Johnson with 3.

The women's team will fence Keuka College, Saturday, Feb. 12 at Rochester.

Did You Know?

By Margee Bennet

I guess that this is the very best time of the year to ask all the students about Spring Weekend. Did you know that Spring Weekend is scheduled for the 22, 23 and 24 of April? Well, it's time we all started thinking about it. There is so much to be done. Spring Weekend isn't just the work of a few, but of some 30 organizations on campus. Thru their combined efforts our big weekend is brought about.

From now till the big date rolls around, I will devote the column to the activities of the committee. I'll tell you each time what headway we are making and try to explain some of the things that you might be wondering about.

This time I will give you a summary of the weekend as it looks to the students.

On Friday afternoon there will be a big pep rally. Out in the street in front of Clark Union, students from the many campus groups will provide entertainment. Bands, comedians, variety acts and a full show will be featured. From the pep rally, students from sororities, fraternities, clubs and organizations will go to decorate and put up booths in the Eastman building. At night these booths will come alive with activity as students go from spot to spot in the carnival mood. Everything from roulette wheels to floor shows have been featured in past years so we can expect the very best for the evening. Of course, Saturday night will be the big event. The long awaited dance will be at hand. Starry eyes and dreamy glances will characterize each of us as we dance to the music of a top name band. (We can't divulge the name of the band till later, but you'll soon know.) The girls of K.G. have 3 o'clock permissions for this one big night.

Sunday is the traditional Open House at Kate Gleason when the girls will test their culinary talents on their male friends. Of course before dinner each of us is expected to attend the church of our choice. Finally, the weekend will be over and we'll return to our classes, but not without fond memories and looking forward to the next Spring Weekend.

Now you have a very brief idea of what will happen. I can't put in words what you will feel, but start thinking about it and when the time rolls around help us make this the very best Spring Weekend ever!

Tech Quintet Beats Geneseo; Hale Scores 20

RIT's basketball team registered their fourth straight victory whipping Geneseo State Teachers College, 81-75, Saturday, Feb. 5.

Geneseo trailed the Techmen throughout the game at halftime the score stood at 36-33 in favor of RIT. In the second period, Geneseo tried a final rally and came within three points of RIT, 47-44, but Bucky Craugh stopped the Teachers from ever coming close again.

Kenny Hale, RIT's high-scoring center, was held to 20 points by Geneseo. It was the first time that Hale did not score more than 25 points in quite some time. Hale fouled out of the game after playing 22 minutes. He scored his total of 22 on two foul shots and nine baskets from the boards.

Other high scorers for RIT were Bucky Craugh with 16, John Buckholz with 13, and Fred Moss with 9 points.

Bob Klos, who recently joined forces with Hale to break Stan Witmeyer's all-time high of 477 points, was held scoreless for the first time in two years. Klos had been on the sick list until game time and was not expected to play at all.

High men for Geneseo were Lou Aprile with 17 and Len Hagberg with 15. Hagberg is the son of RIT's director of athletics, Sherman Hagberg.

The win over Geneseo was the Techmen's ninth. They now have won one more game than they did last year, when they posted an eight and ten record, the team still has four more games to play with a possible 13-5 record in sight.

Results of the Utica College game played this week-end will be published in the next issue of the RIT Reporter.

Alfred Tech Beats Jayvee Wrestlers

The RIT JV wrestling team lost its third straight match last Saturday, 25 to 10, in losing to Alfred Tech. Although the team did lose, the wrestlers looked much better, individually, than in previous matches.

The RIT team was forced to forfeit the last two weights. Registering wins for RIT were Tony Palmiere and Hans Dotzler.

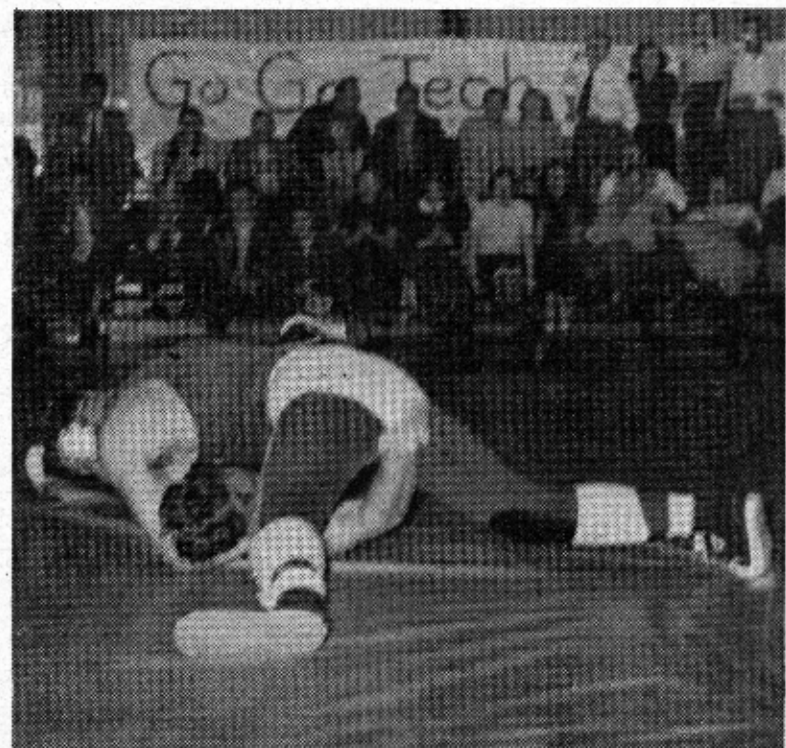

The JV's will meet the Cortland JV's in a preliminary to the RIT-Cortland varsity match next Saturday, February 5.

Summary of the RIT-Alfred bouts are as follows:

123, T. Palmiere (R) pinned A. Hudik (A), 2:38; 130, G. Gay (A) decisioned Carl Johnson (R), 4-2; 137, H. Dotzler (R) decisioned J. Dear (A), 8-2; 147, Em Memey (A) pinned D. Carlson (R), 3:55; 157, B. Jackson (A) pinned D. Smith (R), 5:39; 167, D. Moyer (R) drew with D. Lee (A), 5-5; 177, Runge (A) won by forfeit; Heavyweight, Smith (A) won by forfeit.

Grapplers Draw; Roman Is Injured

A last match pin by heavyweight Jim Barclay enabled the RIT wrestling team to tie Cortland State Teachers College, 16-16, Saturday, February 5 at Jefferson High School in a home match.

Jim Barclay, RIT's heavyweight, pins Tom Lembo (Cortland) in the final and deciding match, as the Tech wrestlers tied Cortland, 16-16. (Modrak Photo)

With the score 16-11 in favor of Cortland, Barclay pinned Tom Lembo after 2 minutes and 25 seconds of the match had elapsed.

It was the second tie of the year for the Tech wrestlers, having tied previously with Cornell University, 15-15.

RIT's undefeated Jim Modrak continued his winning ways by taking a decision from Don Skillman, 5-0. It was his 16th consecutive win for RIT. Modrak has not lost a collegiate match since he wrestled as a freshman in 1953.

Gary Dotzler, RIT co-captain, gained his sixth straight victory of the year by pinning Bob Valentine after 6 minutes and 22 seconds of combat.

Biggest disappointment of the evening for RIT was when Ron Roman (130) suffered a rib injury during the first fall of his match with Cortland's Sam Cario. Roman had to leave the contest and Cario won by forfeit.

Jim Cargnoni, who has compiled a 5-1 record this season, decisioned Joe DiPompeo, 8-2.

He has lost only one match out of 16 since coming to RIT.

Doug Keeler lost to Cortland in the opening match of the contest. He was decisioned by the wide margin of 12-0. Lou Perriello also lost for the Tech men, dropping his match 3-0 to Hugh Mahoney of Cortland.

It was at this time that Barclay pinned his man, gaining the necessary points for the RIT team to tie Cortland.

123 lbs., Cummings (C) defeated Keeler (RIT), 12-0; 130 lbs., Cario (C) defeated Roman (RIT) by forfeit due to injury in first fall; 137 lbs., Modrak (RIT) defeated Skillman (C), 5-0; 147 lbs., Cargnoni (RIT) defeated DiPompeo (C), 8-2; 157 lbs., Dotzler (RIT) pinned Valentine (C) in 6:22; 167 lbs., H. Mahoney (C) pinned Hortop (RIT) in 7:08; 177 lbs., R. Mahoney defeated Perriello (RIT), 3-0; heavyweight, Barclay (RIT) pinned Lembo (C) in 2:25. Referee, Dan Thomas.

Council Reports

(Continued from Page 1)

and as enforced by the Executive Committee, to be taken against parking violators. Listed below are the various stages of punishment for succeeding violations:

1. Violation stickers to be placed on the car by members of the parking lot committee.
2. A verbal warning by the Executive Committee (weekly sessions are held each Thursday at 12:30 p.m. in the Student Council offices in Clark Union)
3. Payment of a \$10.00 fine
4. Non-academic probation

The parking problem committee is still discussing the ever present dilemma that has plagued RIT car-owners since the beginning of the year. In recent weeks they have been faced with another situation; that of the recent police enforcement of parking regulations along Spring Street and other streets adjacent to RIT. The committee has been meeting with Dr. Ellingson regarding this over-all problem and should submit its findings for council action within the near future.

Keeping Up With Institute Alumni

Where They Are — What They're Doing

Class of 1911

Emily Usher (HE) died in the hospital in June, 1954. Miss Usher had retired from the Geneva High School faculty and lived in Seneca Falls, N. Y.

CLASS OF 1929

Lucille Cameron Kaye (HE) is assistant dietitian at Reed College, Portland, Oregon. The Commons dining room serves three meals a day to about 500 students. Address: Reed College Commons, Portland 2, Oregon.

CLASS OF 1937

Mrs. Russel J. Anderson, and Betty Baker (Art) '37 served on the Alumni Drive Committee. and while at the Institute paid a visit to the Art School. It has been many years since we have seen Betty, and it was indeed a great pleasure. Come more often, Betty.

CLASS OF 1939

Mary Niver (FA) is married to Albert J. Pantalo, of Rochester. Mary is employed at Kodak Navy Ordnance Division. Address: 281 Sanford St., Rochester 20, N.Y.

Lois Sharkey

Mrs. Robert Sharkey, (Lois Smith, FA, '40) president of the Alumni Association, is now doing a three minute commercial on WHEC-TV's District Attorney program, Sunday nights at 10:30.

The program is sponsored by Max Russer, Inc. Mrs. Sharkey has the title of Home Economist, and gives her own original recipe suggestions for the preparation of her sponsor's meat products and sausages. She demonstrates these recipes while talking and upon request, will send copies of her ideas.

CLASS OF 1946

John Hutcheson (Ph) gave us one of the nicest surprises we have had in a long time—a letter. John and his wife are living in Flint, Michigan, and they have two children, a boy and a girl.

CLASS OF 1947

Jessie Barr (Ph) was married to Frederick Munger Miller III on Saturday, December 11, at Bridgeport, N.Y. Jessie's address is now 109 N. Wayne St., Apt. 5, Arlington, Virginia. Much happiness to them both.

The Simonsons
CLASS OF 1948

We had a interesting note from Mamie Simonson (Ph) and a picture of the three Simonsons in front of their studio in Niagara Falls, N.Y. It is always good to hear from Mamie.

CLASS OF 1950

We were delighted to receive an announcement of Yale Mautner's (Ph) studio opening. YALE STUDIOS are at 2458 Nostrand Ave., cor. Ave. K, in Brooklyn, N.Y. Every good wish for success Yale!

Classmates of John Marvin (Ph) will be interested to know that John is now preparing for the ministry and is attending the San Francisco Theological Seminary. His address is P.O. Box 283, San Anselmo, Calif. Good luck to you John.

CLASS OF 1951

Glenn M. Margeson (Art) '51 has accepted a position with Hickey-Freeman Co., Rochester, in the Advertising Department. Emphasis of work is on layout and specialized design for sales to large Men's Clothing stores throughout the country. He also does some copy writing and field work which entails traveling and personal retail contact. Good luck, Glenn.

Class of 1954

Brantley Weathers, (PR) reports the birth of a daughter, Mary Louise, Wednesday, Jan. 19. May and Brant make their home in Forest Hills, New York.

Annual Alumni Homecoming Plans Being Formulated

Saturday, June 4, will mark the date of the Annual Alumni Homecoming. There will be a social hour at 5 p. m. followed by the banquet at 6:30. This will all take place at the Powers Hotel.

The social hour will be handled by the individual divisions and departments, and the heads and members of the faculty from each department will be on hand to welcome the returning graduates. Each department will have a suite in which to receive its members.

At the banquet, dress will be optional.

The chairman of the banquet will be Harry Davis, (Photo '42) vice-president of the Alumni Association this year.

More details about this event will appear in future issues of the Reporter.

Mr. Johns Tours South

Mr. Alfred A. Johns, Director of Student Personnel, and Mrs. Johns left Saturday, February 5 on a motor trip to New Orleans, Louisiana and Miami, Florida. They expect to be gone approximately one month.
