

Community College?

Dr. Ellingson States Board View; UR, Fisher Endorses 2-Year School

DR. MARK ELLINGSON

Dr. Mark Ellingson, president of RIT has endorsed a proposal that would make RIT a community college if a number of principles can be followed in negotiations with county and state agencies.

Dr. Ellingson speaking for the Board of Trustees, clarified the Institute's position in a letter sent recently to all upperclassmen. He stated that the Board stipulated certain principles which were to be followed in any negotiations with the county Board of Supervisors.

The first principle called for the continuation of all degree programs in both day and evening colleges. Dr. Ellingson emphasized the Institute Board, would not enter into any agreement which would mean a regression to a two-year institute. However, this would not prevent the county from sponsoring the first two years of the day programs.

Dr. Ellingson also assured RIT students that retention of cooperative work-study programs and continuation of the high quality of education they have received in the past would be included in the second principle.

The third principle would protect the professional rights and privileges of the faculty and staff.

The fourth principle called for special legislation that would protect the Institute's endowment fund of some \$13,000,000.

Details Outlined On C.C. Proposal

Some details of a proposal that would make RIT a community college serving the Rochester-Monroe County area have been disclosed this past summer.

The possibilities of such a plan had been under discussion for several months between school and civic officials. It was made public following an subcommittee on the community college with Dr. Lawrence L. Jarvie, the State University's executive dean for community colleges.

The conversion of RIT into a community college would be the largest acquisition under the state's ten-year-old community college program.

Under present law, the state would match the educational value of RIT's facilities and pay one-third of the annual operating cost. Such a gift of the RIT plant by our Board of Trustees would be considered as the county's contribution to the community college plant.

However the county would be expected to pay a third of the operating cost through taxes and gifts from local industry which now contribute about 15 per cent of RIT's operational costs.

Dr. Jarvie pointed out that the student would then only be required to pay the remaining one

The University of Rochester and St. John Fisher College have endorsed the idea of establishing a two-year community college in Monroe County. Both institutions earlier had questioned the need for a state-supported four year college in the county.

Dr. Howard R. Anderson, UR provost and acting president said that university officials were well aware of the ever increasing number of young people seeking to obtain a college education. He also stated that the university would welcome any move to increase and improve opportunities for area youth to acquire an education.

St. John Fisher College pledged its cooperation in any community college movement through its president, the Very Rev. Charles J. Laverly, CSB. Father Laverly declared that the college would cooperate in any program that would allow Monroe County students to get the best education possible.

When the RIT proposal was first announced both colleges had questioned the need for an additional four year college, feeling that existing facilities were adequate, but it was generally felt by both institutions that a two year college would become a necessity within a few years.

Dorms Sponsor Entertainment, Dance In Ritter-Clark Tonight

Sponsored by residents of the campus dormitories, "Skitso-froshia," an evening of dancing and entertainment, will be presented tonight from 8-12 in the Ritter-Clark Building.

The event is open, and free to all girls and Nathaniel Rochester Hall residents. Others will pay 35 cents admission.

Girls from Nazareth College, Rochester Business Institute, St. Mary's Hospital, Genesee Hospital and Highland Hospital have been invited to attend.

Skits will be presented by dorm residents. The George Manning orchestra will play for dancing.

third of the operating expenses, which has not been more than \$300 in other community colleges, although it might be more here.

Dr. Jarvie also said that RIT would be required to expand its capacity in line with projections of high school graduating classes in the county if it were to become a community college.

"Out of the Deep..."

'Polaris' Developer To Address Alumni

Vice Admiral William F. Raborn Jr., director of the U.S. Navy's Special Projects Office, will be the principal speaker at the annual Alumni Banquet to be held on October 22, 1960. Raborn is the man directly responsible for the development of the Polaris ballistic missile to be carried on the Navy's atomic submarines.

The Admiral's address is entitled, "Polaris—Mobile Force For Peace" and will be enhanced by slides and a 16 mm sound film. He will speak following the dinner and the Alumni Associations presentations.

In making the announcement concerning Raborn's address, Eugene T. Natale '42, president of the RIT Alumni Association stated, "The success of the Polaris Project which Admiral Raborn commands is the finest tactical missile system yet developed. Furthermore the Polaris system combining the submarine and the missile is entirely American from first concept to first successful firing. This gives the U.S. a powerful new deterrent to a hot war."

Mr. Natale added that with America's defensive strength as a campaign issue, this should prove to be a timely and informative program for RIT alumni.

Admiral Raborn has guided the Polaris Project since it was inaugurated in 1955 with a target date of 1965. Today, he has brought the Polaris to successful firings a full five years ahead of schedule. In view of this accomplishment, the Navy awarded

him it's Distinguished Service Medal on September 6, 1960. In addition to this award, he also was promoted from Rear to Vice Admiral.

Prior to being assigned to Polaris, Admiral Raborn had a distinguished naval career dating back to 1928, when he was graduated from the U.S. Naval Academy. Since leaving Annapolis, he has served on battleships, destroyers, aircraft carriers and is a qualified naval aviator. In addition to his sea duty, he has served in many staff capacities on various commands.

Raborn is especially noted for his ability to complete assignments before their scheduled completion dates, regardless of the obstacles he may encounter. On Polaris, he demanded "wartime urgency with wartime dedication" from everyone working on the project.

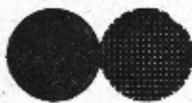

This year's banquet will be held in the Great Hall of the Rochester Chamber of Commerce. This was the scene of last year's highly successful alumni dinner which featured Dr. Werner Von Braun as its principal speaker. These facilities have recently been refurbished and this will be one of the first major events since completion of the improvement program.

In addition to the dinner, and Admiral Raborn's address the RIT Alumni Association will cite two persons as Outstanding Alumni of 1960. Each recipient receives a citation from the Institute.

Following the activities at the Chamber of Commerce, a dance (Continued on Page 6)

EDITORIAL

In Memoriam

Last Saturday, Oct. 1, at 2 a.m. Edward J. Kozowyk Jr., an RIT student, lost his life in an automobile accident in Durand-Eastman Park.

Ed used to walk into the elevator at the Men's Dorm and, at times, someone would smile at his noisy enthusiasm. To some he was "the guy with the hearing aid." To others he was just another student—an RIT student.

He was a fourth-year Printing student, and expected to receive his bachelor's degree next spring. He was not a brilliant scholar, but rather a good solid average guy.

Ed had a wonderful future to look forward to and lived in eager anticipation from day to day.

It is not ours to reason why life is the way it is, but it may be well for all of us to be certain that "our houses are in order."

RIT Is a College

We would like to correct, without seeming pugnacious, a misconception which apparently exists in the minds of a few area residents. To wit:

RIT is not a tradeschool. RIT is a college, fully and officially recognized as such.

During the recent and continuing discussions which have appeared in the local press concerning the community college proposition, it became increasingly obvious that this misconception was fairly common. We recall one comment, in particular, which referred to the "many skilled technicians provided annually to Rochester industry from RIT."

A graduate of RIT is not only highly trained in the field of his or her choice, but is also a well-rounded individual, fully capable of conversing—or competing—with the product of any liberal arts college or university in the country.

The New York State Board of Regents authorizes RIT to grant the degrees of Bachelor of Science, Bachelor of Fine Arts and Master of Fine Arts. RIT is accredited by the Middle States Association of Colleges and Secondary Schools.

We have excellent facilities and a fine faculty. We are—pardonably, we believe—proud of our school.

Just a Student Newspaper?

In the Reporter flag on the first page the following statement appears: Official Publication of the Rochester Institute of Technology.

It is true that the Reporter is put out by students, but it is not solely a "student newspaper." It serves the alumni, faculty and staff and is a very big public relations arm of the Institute. Many people who are not officially connected with the Institute receive copies of the Reporter. This includes local industry and area colleges and schools of nursing.

In effect then the Reporter is not entirely a student newspaper and to consider it so would be shortsighted. Most of the contents of the Reporter are directed to the students but not all.

Also the Reporter staff is not large enough to cover and be aware of everything that goes on around school. If the organizations would contact the Reporter we would be more than happy to print their news. Don't call us a day before the paper comes out though and expect coverage in the next day's issue. Give us at least a few days prior notice.

We want to serve the Institute in the best way possible. We need the help and cooperation of everyone at the Institute to do so.

Latest and Greatest!

We have returned, as have you, best of luck to all On the turntable; "Conniff Meets Butterfield", it has that smooth sound you might like We've been looking over the "potential Phi Ups", and are wondering . . . Imported from Holland, Oude Genever, the greatest drink since Vodka if you can stomach it . . . In men's wear; Vests are the most for sport dress, and they tell us that the single pants pleat is on the return but we're not enthusiastically looking forward to it For a fine evening of music try not to miss Arthur Fiedler conducting Pops at the Eastman on the fifteenth Congratulations to Sigma Pi for finally finding a house even though it is a Phi Sig hand-me-down Chesterfield trench coats for young women can be seen everywhere in Boston this Fall We're wondering what happened to the Greek-Freshman picnic and whether we'll be again envisage the "Inquirer" . . . Nostalgia; Sigma Theta Gamma.

And in This Corner!

An explanation to all our new Freshman readers and to all of you old timers who never figured

us out last year. The purpose of Barometer is not to make you an expert in any of the fields we write about such as, entertainment, fashions, school events, etc., but merely to try to create some interest in things other than books and beer parties.

How to Impress a Freshman . . .

If You're a Freshman

Replace Elvis, Annete and Fats with Frank, Dakota and Benny. Love honor and obey your housemothers.

Learn all you can about "Doc E," the "Kage," "Chug," "Pro" and "SNAFU."

Try to dress like a collegiate beatnik; few attain this but many try.

Swing, don't rock. Bow your head at the mention of Robert B.

Never say "frat" house. Read Barometer.

Notice to Frosh Girls

FRESHMAN GIRLS: Please note the skirt lengths of upperclass women. Please take appropriate action.

Dean's List Announced

More than 50 students were placed on the dean's list at the end of the summer quarter. They are: **Business Administration** -- 3rd year, Moreland Lysher; 4th year, Gary Eidelstein, Curtis Epley, Herbert Geinitz, Robert Hory, Mitchell Rothstein and Thomas Venterea.

Chemistry—1st year, Thomas Mason and Henry Rennie; 2nd year, Charles Margeson and Robert Ning; 3rd year, David McMane and David Weller; 5th year, Kenneth Herr and Ellen Krivshenko.

Electrical—1st year, Oleg Petroll; 2nd year, Fred Babcock, James McCann, David Rapp, David Seely and Frederick Tucker; 3rd year, Albert Veza and Arthur Wetmore; 4th year, James Burns, William Chamberlain, Dean Lander, Thomas McMahon, Thomas Michaels, Roy Murdock, Robert Sanderson and Richard Warner; 5th year, Gerald Smith.

Food Administration—2nd year, William Remington; 4th year, Howard Green.

Mechanical — 2nd year, Gordon Brown; 3rd year, Raymond Limoges, Robert Ruemelin, Carl Wetzstein, Leonard Wilson and Richard Zoyhofski; 4th year, Harry Butcher, Clarence Tucker and John Young; 5th year, Robert Rudman and William Wilson.

Retailing—3rd year, Nancy Bell, Judith Danks, Patricia Matthews and Linda Syrell; 4th year, Joseph Burroughs, Judith Chambers and Abigail Cohen.

Sigma Pi Gets House

Sigma Pi Fraternity about four weeks ago acquired a fraternity house. With the advent of obtaining a house by Sigma Pi all four RIT fraternities have houses.

Located at 30 Atkinson Street the gray two-story brick house is being leased by the fraternity for this year only. The house has sleeping quarters for 15 men and the facilities being provided by the hard work of the brotherhood will provide dining for 25 men.

Mrs. Darrohn, Sigma Pi's house mother will move in on October 9. Presently, the brothers are repainting the entire interior of the building which is directly across the street from the Phi Sigma Kappa House.

The house is not being purchased by the fraternity because they feel it does not have the accommodations they want. Also the purchase of a house by Sigma Pi will be dependent on whether or not the Institute chooses to remain in the city or move out.

"We have known for a long time that the true meaning of brotherhood is not fully understood and appreciated by a fraternity until they have a house," commented President Terry Hagen.

Hagen further commented that now that Sigma Pi has a house they will have a place to hold social events and repay the other Greeks for parties they have attended in the past at other houses.

Kozowyk Killed

Funeral services were held early this week for Edward Kozowyk, Jr. (Pr. 4), who had roomed at 330 Plymouth Ave. S.

He was killed early last Saturday in an automobile accident in Durand Eastman Park.

Kozowyk, 20, of Chelsea, Mass., was hurled from his car when it veered out of control, left a curve in the road and rolled over once. According to Coroner Walter A. Riley, Kozowyk died of a fractured skull, shock and hemorrhage. A certificate of accidental death was issued.

Mary Ann Kinn (BA 2), a passenger in Kozowyk's car, was released from Northside Hospital after treatment for cuts and bruises.

NEW HOUSE—Sigma Pi recently acquired this house at 30 Atkinson St. for their fraternity house. (Barley Photo)

New Faculty Introduced

For an institute of higher learning to become well known as a tower of strength in the fields of environments that it has in its curriculum it must always be taking steps that will lead to progress.

One of these steps is the hiring of new faculty members. Here at RIT this step has been taken for as this new year starts, there are 19 newcomers on the faculty and administration staffs of the Institute.

Students will want to meet these new members of the faculty and become acquainted with them. To help do this, there follows a list of these newcomers and the positions that they will hold.

Illegal Parkers To Be Fined

Parking stickers enabling students to park in the three student parking lots during fall quarter were sold this week.

Only those cars displaying the stickers on left (driver's side), rear panel window (for four door sedans it is the left rear door window) will be allowed to park in the lots.

Students parking cars illegally will be fined \$10, and if this fine is not paid within one week, it will be doubled, and again if not paid within one week from that date, the student will be suspended from classes until the obligation is met.

This is the present policy concerning parking violations. Student Council has expressed a desire to perhaps change this policy but as yet no changes have been instituted.

Increasing enrollment has increased the number of students driving cars to school. To partially solve this problem Council voted that freshmen not be allowed to park in the student lots.

On the majority of the streets around the Institute a time limit is imposed on parking in the street. Students parking their cars in these time zones for the whole day are subject to tagging by the Rochester Police.

Chemistry Department

Instructor **Harry C. Clemson, Jr.**, of Warwick, R. I., received M. S. degree from the University of New Hampshire this past June. Married, he did his undergraduate work at the University of Rhode Island.

Instructor **Theodore A. Michelfeld**, a native of Catasauqua, Pa., earned a B. S. degree at Muhlenberg College and received his M. S. degree from Delaware University where he served as a Teaching Fellow.

Instructor **Miss Nina M. Sandberg**, who hails from Appleton, N. Y., received her A. B. degree from Cornell University and her M. S. degree from the University of Wichita. Miss Sandberg has taught at several colleges and universities including Louisiana State and the University of Wichita.

Electrical Department

Associate Professor **Frederick R. Henderson**, has most recently worked as a Registered Professional Engineer in Sterling, Colorado, and prior to that many years. A native of Colorado Springs, he received B. S. and M. S. degrees from M. I. T. He is married and has two daughters.

Assistant Professor **Richard J. Hoerner**, of Hershey, Pennsylvania, received his A. B. degree from Lebanon Valley College and his Ed. M. degree from Temple University. He has taught and served as head of the mathematics department at Milton Hershey School in Hershey. Mr. Hoerner is married and has three children.

School of Business Administration

Instructor **Elias M. Awad**, of Beaver Falls, Pennsylvania, received a B. S. degree from Geneva College in Beaver Falls, Pennsylvania, received a B. S. degree from the University of Tulsa and has taught and served as Business Manager at Aleppo College, Aleppo, Syria. Most recently Mr. Awad has been employed by the Crucible Steel He is married.

Associate Professor **Raghvir Gupta**, a native of Pakistan, received a M. A. degree from Panjab University, Solon, India, a M. B. A. degree from New York University, and his Ph. D. degree from the University of Maryland. He has most recently served as a member of the faculty at the University of Bridgeport.

School of Retailing

Instructor **Miss Lou Ann Goldchen**, of Salem, West Virginia, holds degrees from West Virginia University and the University of Pittsburgh. A research assistant at Pitt, she completed her work for the master's degree this past June. She has also had retailing experience working for leading firms in the Pittsburgh area.

Associate Professor **Miss Mary C. Miller**, of Bakersville, North Carolina, received B. S. and M. S. degrees from the Women's College of the University of North Carolina. She has also studied at Cornell University and Cranbrook Academy of Art and served on the faculties of Oklahoma College for Women, University of Connecticut, Cornell University and Michigan State University.

Instructor **Barry L. Winthrop**, New York City, has most recently served as office manager for the Lectra Sales Corporation of New York. He received a B. A. degree from Alfred University and the M. A. degree from Columbia University where he also served as Assistant Instructor in the Accounting Department.

TG Goes National

Conspicuous by their absence this fall will be the black sweat-shirts and gold sweaters, traditional colors of Theta Gamma. They were replaced on June 5 and 6 by the magenta and silver of Phi Sigma Kappa, when the brothers of "Old T. G." were inducted into this large national fraternity.

Phi Sigma Kappa is the larg-

est fraternity presently represented on the RIT campus and is a growing organization through the constant addition of new chapters.

Theta Gamma was the first fraternity on campus to purchase and manage their own fraternity house, depicting their progressive attitude. In the awards field they also prospered, taking home more trophies in the past two years than all the other fraternities combined.

Now, instead of being the Sigma chapter of Theta Gamma they are the Upsilon Tetarton chapter of Phi Sigma Kappa, and are the seventieth chapter to be added since Phi Sig's founding in 1873. Other houses may be found on the campuses of such schools as MIT, Cornell, University of Michigan, Tufts, Indiana State, University of Southern California, Rutgers and Union to name a few.

It is the belief of the entire brotherhood that this move to large fraternity affiliation was a good one, and that it will help to further the interests of the chapter and improve its relationship with other Greeks and the entire school.

TEP Greek Talk

Tau Epsilon Phi Fraternity, Epsilon Nu chapter will mark its third year on the RIT campus this year.

This past summer TEP moved into a new house located at 154 South Fitzhugh St. The house provides comfortable living accommodations for fifteen of the brothers. Soon the brothers will be enjoying home cooked meals in the house. There are also ample facilities for parties and general relaxation.

This year TEP is following the general social policy set-up in IFC last year. This means that all parties except rushing events and possibly an all school week-end will be closed to the general student body.

Sorority Reformed

May 4, 1960 - This was the date when Sigma Kappa Delta became an official sorority on campus.

Several freshman students realized the need for more group organizations. While observing the possibilities of a new sorority much information was gathered about Sigma Kappa Delta, a former sorority at RIT, which became inactive a few years ago because of its policy to pledge only seniors.

With much hard work and cooperation sixteen young women have revised the Constitution and re-established a sorority on campus.

Jeanie Carpenter will serve the first term as president assisted by Vice President Joan Button; Recording Secretary, Joyce Tobis; Corresponding Secretary, Judi Tummonds; Chaplain, Marcia Smith; Social Chairman, Carole Barnum; and Sgt. - at - Arms, Marta Winans.

Advising SKD is Miss Patricia Schon, house director at Frances Baker Hall.

RIT Artists In Gallery Show

Institute artists and artisans were well represented in the recent Memorial Art Gallery's "Clothesline Show."

Kris Mariano, A&D grad, was present with some 100 pieces, including line drawings, oils and water colors.

Arnie Doren (Pho. 4) displayed a selection of photographic prints, calling his exhibit "Photography As a Fine Art."

An exponent of impressionism, Norman Frisch (A&D 2) presented a group of paintings incorporating a bold use of color and tending toward surrealism and satire.

John Roseborough (Pho. 2) offered a selection of his scenic photographs. Ron Gallo (A&D 4) displayed prints and oils. Arnis Sarma's abstracts were also exhibited.

A&D instructor Robert Taugner, accompanied by his wife, exhibited abstract and expressionistic prints, drawings and oils.

"CLOTHESLINE SHOW"—Bob Conge (A&D 3) displays work at recent outdoor art exhibit at Memorial Art Gallery. (Barley Photo)

Hectic—but happy.

For the 800 frosh who descended on the campus last week this phrase describes their "Freshman Daze."

From one coffee hour to another, assembly to assembly, busy freshmen found little time to spare. That remaining seemed to be devoted to the filling out of interminable forms.

For many the "Daze" closely followed the chore of settling in dorms. For many a girl it may have seemed that she had hardly unpacked that new frock before it was time to wear it to the faculty reception and dance.

Hectic, happy memories; the first of many that the frosh will take with them on the road to graduation.

Keeping Up With Institute Alumni

Where They Are — What They're Doing

F. Boyd Reynolds, (Ph '58) joined the Massachusetts Mutual Life Insurance Co. as a representative in its Utica agency. Mr.

WALTER A. ERICKSON

Reynolds earned his A.A.S. degree in photography.

Walter A. Erickson, 1914 Indus-

trial Arts graduate, has announced his retirement after more than 40 years with Eastman Kodak. Mr. Erickson was superintendent for Eastman Kodak's Apparatus and Optical (A&O) Division. At the time of his retirement his responsibilities included all production assembly operations in the A & O Division.

Dr. Jean P. Paris, Chem '55, recently joined the Research and Development Division of the Du Pont Company's Polychemicals Department at the Experimental Station near Wilmington, Delaware.

Dr. Paris did his undergraduate work at RIT, where he earned his A.A.S. degree, and at the University of Michigan. Dr. Paris is a native of Buffalo, N.Y. and received a doctor of philosophy degree in analytical chemistry from Purdue University this spring.

Mail Campaign Wins Award

The material comprising the direct mail section of the 1959-60 RIT Greater Alumni Fund Campaign has received national recognition. The award was a third place in the annual funds category of a competition conducted. It marks the first time that Institute entires have received such an award.

The group sponsoring the award is the National Organization of Alumni and Development Personnel in Colleges and Secondary Schools. The citations were presented at the group's 44th General Conference in Washington, D.C., during July 1960. Judging the entries were persons from the art staffs of various magazines.

The RIT campaign was excelled only by Simmons College and the University of California in its particular classification. Honorable mentions were Princeton and Cornell Universities.

The design of the winning piece was done by Mr. Robert Wright, '48. Wright is a free-lance commercial artist in Rochester and is well-known for his ability in specialized artwork.

Finished art for the lithographic process was done by Steven Hrcirek, '48, a free-lance mechanical artist in Rochester. Both Wright and Hrcirek are graduates of the Institute's School of Art and Design.

Copy for the material was prepared by the staff of the Alumni Relations Office. The materials were printed by Henderson-Mosher Printing Company and the RIT duplicating room.

Alumni Banquet

(Continued from Page 1) for alumni and their guests will be held in the Terrace Room of the Powers Hotel. Several class reunion groups are planning get-togethers to coincide with the banquet.

The evening is informal and some reservations will be open to the general public. Students

Alumni Campaign Ends; 900 Give \$17,000

A program of personal solicitation has aided in bringing the 1959-60 RIT Greater Alumni Fund Campaign to a successful close. The campaign ended June 30, 1960 with an increase in both dollars and the number of contributors compared to the previous year.

The final report published by the Alumni Relations Office shows an increase of \$4,403 over the previous year. The percentage of alumni participating increased from 5.7 to 8.6 percent.

The fund began in January 1960 with a direct mail campaign which emphasized the growth of the Institute over the past twenty years. Emphasis was also placed on the fact that the alumni fund and the number of contributors had not grown accordingly.

The percentage of alumni solicited who participated in the fund was also a major concern in this year's campaign. The direct mail effort stressed the fact that the size of many corporate gifts is determined in part by this percentage.

Although not outstanding, the increases recorded for the fund

represent a definite improvement according to the staff of the Alumni Relations Office.

This year's campaign also made use of the class chairman system of solicitation. Six classes received this special form of solicitation.

Special appeals were also made to persons employed by corporations having a matching gift program. In such programs the corporations match dollar for dollar any gift the alumnus makes to his alma mater. The two major programs were with RIT Alumni employed by General Electric Company and the International Business Machines Corporation.

The accompanying tables give a complete break-down on the receipts of the campaign and a comparison of top five classes during the past two years.

Results of Greater Alumni Fund Campaign

	Total Amount Contributed	No. of Alumni	Avg. Gift
DIRECT MAIL	\$ 5,762.63	618	\$ 9.32
PERSONAL SOLICITATION	2,578.00	200	12.69
ANNUAL CONTRIBUTORS	8,853.00	82
(Includes three major gifts totaling \$7,500.00)			
MATCHING GIFTS FROM INDUSTRY	226.00
GRAND TOTALS	\$17,419.63	900	\$19.36

*Please note: Three-year pledges totaling \$2,216 per year were received from 157 alumni or an average pledge of \$14.11. Gifts for one-year pledges totaling \$362 have been received from 43 alumni through personal solicitation.

NET INCREASE OVER LAST YEAR	Dollar Increase	Increase in Number of Gifts	Increase in Percentage of Participation
	\$4,403.00	2.9%	259

RIT GREATER ALUMNI FUND The Top Five Classes (A Two-Year Comparison)

1959-1960		
Class	No. of Gifts	Total Amount
1950	55	\$488.50
1958	55	488.00
1959	54	429.85
1942	36	410.00
1938	15	390.00
1958-1959		
Class	Total Amount	
1955	196.00	
1948	202.00	
1958	210.00	
1950	223.00	
1942	\$264.00	

Note: Major gifts are excluded.

Women's Council To Hold Parties

Again this fall the RIT Women's Council will sponsor desert-card parties to raise money for their activities.

Two of the parties will be held in the evening to enable the members' husbands to attend. These parties are on Oct. 14 and 21 at 8 p.m.

Each table is \$5, which includes dessert and coffee and a table prize. The remaining afternoon parties are to be held at 1 p.m. on Oct. 12, 17, 19 and 25.

For reservations, members are asked to contact Mrs. Evelyn Lawson, Mrs. Thelma Todd, Mrs. Mary Smith, Mrs. Ruby Davis or Mrs. Betsy Hoppe.

Music Association Schedules Events

Travelogues

The Rochester Civic Music Association this week announced its complete 1960-61 Eastman Theatre Travelogue schedule.

As in previous years, there will be a Winter Series and a Spring Series, plus special film attractions.

All films will be shown on the Eastman Theatre's modern Kodak Projector installed last year.

First film of the season is an adventurous journey to Alaska, The Arctic Basin, and the North Pole, to be shown and narrated by Lowell Thomas, Jr., Wednesday night, October 12. Title of the film, edited from more than 100,000 feet of technicolor, is "Follow the North Star."

On Tuesday night, November 22, Captain Irving Johnson will come to the Eastman Theatre, to narrate his colorful new film of the maiden voyage of his Yankee II. This new Yankee ship is a ketch specially designed to sail along the inland waterways of Europe. Unique water views of Holland, Belgium, France, Switzerland, Italy, and Greece will be shown in "The Yankee Sails Across Europe."

Tickets are available for the Lowell Thomas, Jr., and Captain Irving Johnson films, as well as for both the Winter Series and the Spring Series, by writing the Civic Music Association, 60 Gibbs Street, Rochester 4, New York.

Tickets are also available at the Eastman Theatre Box Office, or by phoning BAKER 5-1750.

Special Events

The complete schedule of "special" events sponsored by the Rochester Civic Music Association through December is:

Thursday, Oct. 6, Mantovani; Wednesday, Oct. 12, Lowell Thomas, Jr., "Follow the North Star" film on Alaska, the Arctic Basin and the North Pole; Wednesday, Oct. 26, Ballet Russe de Monte Carlo; Monday, Nov. 7, at the War Memorial—The Coldstream Guards and the Queen's Own Cameron Highlanders; Tuesday, Nov. 22, Captain Irving Johnson, "The Yankee Sails Across Europe" film, a trip along inland waterways through Holland, Belgium, France, Germany, Switzerland, to the Mediterranean and the Baltic; Saturday, Dec. 10, Fred Waring and the Pennsylvanians; Saturday, Dec. 31, the Princeton Triangle Club's New Year's Eve Show.

All attractions except the Coldstream Guards will be held at the Eastman Theatre. Mail orders for Philharmonic and Artists Series tickets may be sent to the Rochester Civic Music Association, 60 Gibbs Street, Rochester 4, New York.

Ticket sales for the other attractions listed above will be announced individually.

Fiedler To Conduct

Arthur Fiedler will guest-conduct the first Pops Concert of the season Saturday evening, Oct. 15, at the Eastman Theatre, the Rochester Civic Music Association has announced.

Fiedler delighted a large Eastman Theatre audience last season when he guest-conducted the Civic Orchestra in a program of his sparkling arrangements of familiar melodies. A typical Fiedler program includes light opera, polkas, marches, swing, and even a bit of rock and roll. The tempo is lively, the music brightened with just the right touches of brass and percussion.

Fiedler has become a favorite, known all over the world for his recordings as conductor of the Boston Pops.

Poetry Society Announces Contest

The American College Poetry Society recently announced that its fourth semester anthology of outstanding college poetry is now being compiled for publication early next year.

Contributions are now being sought from college students. They must be the original work of the student (who shall retain literary rights to the material), submitted with the entrant's

name, address, and school on each page. Poems, which may deal with any subject, may not exceed 48 lines, nor may any individual submit more than five poems. Entries which are not accepted for publication will be returned if accompanied by a stamped, self-addressed envelope, but they cannot be otherwise acknowledged, nor can the Society compensate students for poetry

which is published.

All entries must be postmarked not later than midnight, December 9, 1960, to be considered, and the decisions of the Society judges are final.

Entries should be submitted to Mr. Alan C. Fox, Executive Secretary of the American College Poetry Society. The address is box 24463, Los Angeles 24, California.

RIT Sponsors Art Show

RIT recently acted as the local sponsor for Allstate Insurance Company's noted traveling art exhibited. Composed of originals commissioned for the pages of Allstate's public relations magazine, "Home & Highway," the show presented the work of 11 top-rated American artists.

Mr. Kurt Fernau, of the A&D evening school faculty, designed the special sheltered stands used for the outdoor show, which was presented at the Community War Memorial.

Even though modern electronic computers work at almost unbelievable speeds, the scientist is way ahead of them.

Put quite simply, scientists have been thinking up complex problems faster than even the fastest computers could handle them. To close this gap, IBM created STRETCH, the world's fastest, most powerful computer.

The first STRETCH system will go to the AEC at Los Alamos to aid in nuclear reactor design. This goliath can do a million additions or subtractions a second. It can "read" the equivalent of four million characters per minute from magnetic tape. It can print the equivalent of three good-sized novels every hour. It can perform all these operations simultaneously, and if necessary

pause midway in the problem and tackle a more important one.

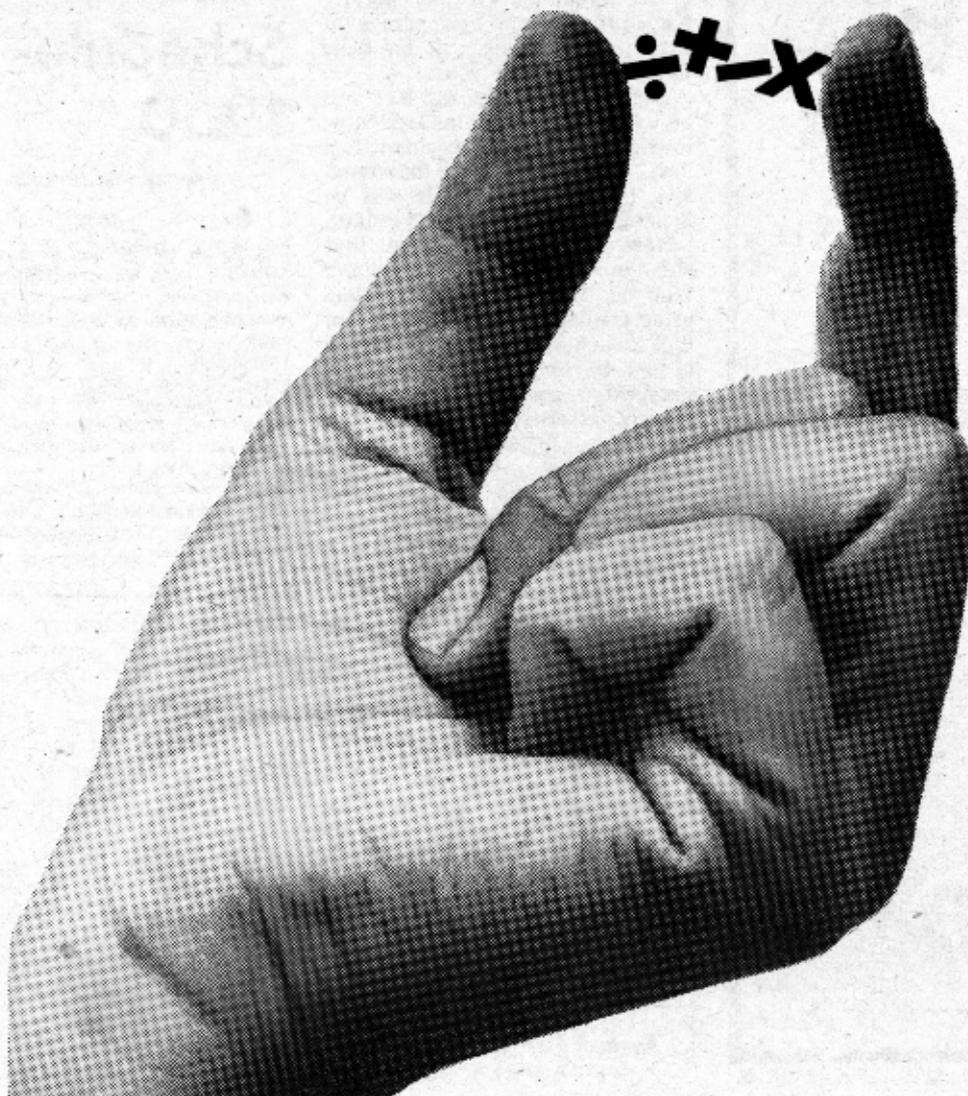

Creating such tools and putting them to work for science—or for business, industry, or government—is exciting, important work. It calls for talents and skills of every kind, from liberal arts to Boolean algebra to astrophysics.

So whatever your particular talents and skills, there may be just the kind of job at IBM you've always wanted. The IBM representative will be visiting your campus this year. Why not ask him about it? Your placement office can make an appointment. For further information about opportunities at IBM, write, outlining your background and interests, to:

INTO ONE SECOND

Meet Soccer—A Growing Sport

During the past ten years the number of soccer players and teams has more than tripled. Conferences have come into being all across the country and national rankings and All-America teams have been established.

Three years ago a group of interested inspired students began kicking a soccer ball around vacant lots and the Ritter-Clark Gym when schedules permitted.

In the three years that have passed, soccer has grown from a club on campus to a recognized inter-collegiate sport with a 9 meet schedule.

Although the sport is rapidly gaining popularity, it is still relatively new and not understood by most people. The best description of it would be to compare it to hockey. It is a fast, continuous, and interpassing game played on a field 120 yards long by 75 yards wide. The purpose of the play is to kick the ball, which is similar to a volleyball, into the goal cage or net at the end of the field. This cage is eight feet high and eight yards wide.

The teams are made up of 11 men. Ten of the men are constantly moving about the field, maneuvering the ball into a favorable position or out of an unfavorable position. The eleventh man is the goalie and he

remains in his cage throughout the meet.

The most unusual rule in this sport, in comparison to other sports, is that the arms and hands cannot be used at any time to move the ball around the field. The goalie is the only player allowed to touch the ball with his arms or hands.

The play is divided into four 22 minute quarters during which the team must function as a unit. As ball control and passing cannot be done with the arms and hands, it becomes important that the team work together and pass the ball continuously, which will set up the ball for a shot at the opposing goal.

A sport which features teamwork and relatively low and close scores requires a leader to gather together and lead the team as a well drilled group.

The inspiration and efforts of Coach Jim Dickie are strongly reflected in the rise and growth of the team over the last couple of years. His interest in soccer began in public schools in his native Scotland. He played on many teams throughout his career and was a member of the Royal Air Force Command Team. When interest in soccer developed at RIT, it found an interested and spirited leader in Coach Dickie.

Soccer Team Opens Home Schedule Saturday

FAST ACTION always is the main attraction when two soccer teams meet.

This weekend will mark the first activity on the RIT sport's scene for the 1960-61 season. The soccer team, led by Coach Jim Dickie, will invade Buffalo State for their initial meet of the year. This action will take place on Thursday, Oct. 6th, and promises to be a real test for the pitchmen.

In two preseason scrimmages the team has shown a marked improvement and promise for the coming season.

The pitchmen will be spotting the Buffalo team two games of experience as this will be their third meet of the year.

Leading the attack for RIT will be their two co-captains Igor Koslowski and Ken Reynolds. Koslowski will be leading the offensive line while Reynolds will be heading up the defensive unit.

New faces on the team that show promise are Phil Block and Winston Marshalleck. All interested freshmen are urged to contact Coach Dickie as the season is just starting and all interested prospects are welcomed. Any student interested in managing the team should also contact Coach Dickie.

The first home meet of the season will be held on Saturday, Oct. 8, when the pitchmen face a tough Lock Haven team. Rated

as one of the small college powers in Pennsylvania, they promise to make the first home meet of the season an exciting and interesting one. All home games are held in Genesee Valley Park by the first baseball diamond. Game time for all Saturday games is 2 p.m. while weekday games begin at 4 p.m.

Soccer Schedule-1960

SOCCER SCHEDULE

1960

Thursday, Oct. 6, Buffalo State, away; Saturday, Oct. 8, Lock Haven, home; Tuesday, Oct. 11, Roberts Wesleyan, away; Saturday, Oct. 15, Potsdam State, away.

Wednesday, Oct. 19, Oswego State, home; Saturday, Oct. 22, Ithaca College, home; Saturday, Oct. 29, Fredonia State, away; Wednesday, Nov. 2, Genesee State, home; Saturday, Nov. 5, Brockport J.V., away.

All home games to be played at Genesee Valley Park.

Starting time, weekdays, 4 p.m.; Saturdays, 2 p.m.

Golf Team Ousted In Tournament Play

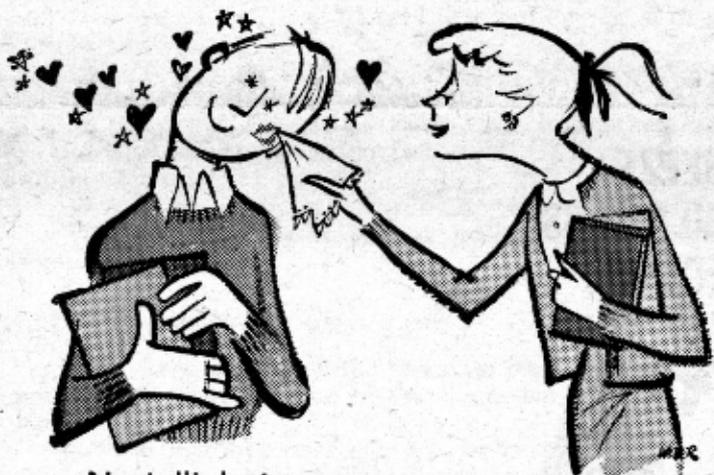

This past weekend found another first occurring of RIT sport's scene.

The Golf team, the most recently organized sport on campus, made its first appearance in tournament competition.

Under the direction of Coach Bob Klos, four members of last Spring's team participated in the first Eastern Collegiate Athletic Conference Golf Tournament. The participating golfers were: Jerry Abel (BA 2), Dick Roberts (A&D 2), Russ Carter (EL 3), and Dick Lyndon (Pho. 2).

Abel and Roberts failed by one stroke to qualify for the finals of the tournament as they both fired 84's over the par 73 Yale University golf course. Russ Carter fired an 85 while Dick Lyndon posted an 87.

The tournament, to which 120 colleges and universities were invited, was held at the Yale Golf Club in New Haven, Conn.

EATON'S CORRĀSABLE BOND

Typewriter Paper

It's easy to flick off your mistakes on Eaton's Corrasable Bond. Make a pass with a pencil eraser and typing errors are gone—like magic—no error evidence left. Corrasable has an exceptional surface—erases without a trace. Once does it—there's no need to retype. Saves time; money, too. The perfect paper for perfection—erasable Corrasable.

Eaton's Corrasable Bond is available in light, medium, heavy weights and onion skin. In convenient 100-sheet packets and 500-sheet ream boxes. A Berkshire Typewriter Paper, backed by the famous Eaton name.
