

## Speaks Here Tonight

**FRANKLKIN D. ROOSEVELT** will speak in Veterans' Memorial Square (Quad) tonight at 7. Arrangements have been made by the newly-formed RIT Young Democrats, part of the Monroe County 'Students for Kennedy' organization. Institute student Dave Egan is chairman of the county group.

## Council Plans Leaders Clinic

An expanded leadership program will be conducted by Student Council this year and will be featured by two Leadership Training Conferences instead of one as in the past.

The first of these conferences will be held on Saturday, Oct. 15 at the Rochester Chamber of Commerce. The program will include workshops on parliamentary procedure, Institute policy, organizational affairs and leadership development. Something new which will be introduced will be an information period covering Institute facilities available for Council and organizational use.

All organizational presidents and Student Council representatives will be invited to attend. The second Leadership Training Conference, to be held during the Winter Quarter, will be directed towards organizational problems and organizational leadership development.

Two guest speakers will be featured at the Conference this year. At the Leadership Development Workshop, Mr. John Gibson, Special Assistant to the Dean of

(Continued on Page 3)

## Judicial Court In Operation

With the opening of the new school year, the Judicial Court System which was set up last year by Student Council went into operation.

The Court is made up of three boards; Board of Dispensation, Board of Inquiry, and the Board of Appeals.

Channeling of complaints of various organizations will be the job of the Dispensation Board.

The Board of Inquiry will handle the actual cases that are brought into it, while the Boards of Appeals will handle any discrepancies concerning the judgment of the lower courts.

Sheila Sparnon, Carol Edwards, Marsha Smith, Peter Papadopoulos, Jim Anderson, Michael Fasel and Don Lemcke are the seven regular members of the Court.

Alternates will be John Sturge, Norton Reigelsperger, and John Spear.

Bernard Sternsher, Assistant Professor in General Studies will be advisor to the Court.

## Alumni Speaker, Polaris Chief, Has History of Achievement

by Loraine K. Nutzel  
Success or Failure in Fifteen Minutes.

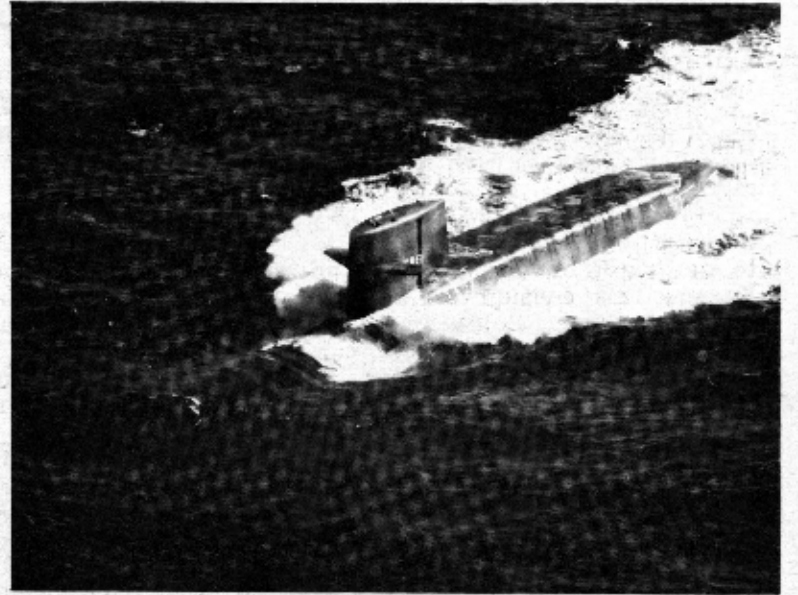

The "Polaris," a ballistic missile, on its initial attempt has been launched, from a submerged submarine called the "George Washington." Twelve thousand miles to travel in fifteen minutes to be considered a success. President Eisenhower received this message as a result: "Polaris, from out of the deep to target. Perfect."

Accredited with this accomplishment William Francis Raborn, Jr., present Director of Special Projects, Bureau of Naval Weapons. A native of Texas, "Red" Raborn, as he is frequently called by friends and subordinates, acquired his formal education at Marlow Oklahoma High School, then subsequently the U.S. Naval Academy, where he obtained his B.S. degree in 1928.

Ensign Raborn has advanced through the ranks, serving on battleships, destroyers, and aircraft carriers, then in 1934 was designated Naval Aviator. Six years later, he established the U.S. Naval Aviation Gunnery School at Pearl Harbor. Promotions followed rapidly, Executive Officer, Commanding Officer, Chief of Staff, Deputy Director, and finally to his present day position, First Director.

The Admiral was also awarded many decorations during this time, to name but a few, the Silver Star, Bronze Star with Gold Star in lieu of the second award, citations and many service medals.

Then in 1955, came the most complex assignment of his career, Admiral Burke, Chief of Naval Operations issued the or-

**GEORGE WASHINGTON**—The U. S. Navy's first fleet ballistic missile submarine is shown running partially submerged during sea trials. Sub fires the Polaris missile developed under Admiral Raborn. (U. S. Navy photo)

der: "Launch a ballistic missile underwater successfully in 1965."

Admiral Raborn demonstrated a massive capacity for work and a monumental scorn for little details that might slow him down. As Stan Burris, Lockheed's top Polaris man states, "Red, is the most unreasonable man if you come to him about a problem you've got today.

Tell him about a problem you're going to have in six months, and you've got the most patient and understanding guy you have ever met."

Pressure mounted, then exploded on October 4, 1957, when the Sputnik I soared into orbit.

Top men were summoned from Lockheed, G. E., General Dynamics and M.I.T. The program got under way at record speed. Each theory was tested. The "George Washington" and her sister ship, the "Patrick Henry" had to be designed so crews might remain months at sea.

With details completed, the Skipper, James Butler Osborn took the "George Washington" into the Gulf. While everything lay motionless, Admiral Raborn gave the countdown. Out of the sea came a new strategic concept five years earlier than planned, fifteen minutes to hit its target-Perfect.

Thus adds another accomplishment to Vice Admiral William Raborn and his associates. Russia spoke, America answered.

## Van Slyke Appointment Announced

Mr. Irving Van Slyke has been appointed Assistant to the Director of Alumni Relations. The appointment, effective September 1, 1960, was announced by Mr. Alfred Davis, vice president of Development and Public Relations and Mr. Eugene T. Natale, president of the RIT Alumni Association.

His new duties will take him into all phases of the Institute's alumni program. Alumni reunions and special interest groups will receive much of his attention after completing a training period.

Mr. Van Slyke is entering his third year of study in the School of Business Administration. He will serve in his new capacity on a part time basis and during his work block periods. Prior to this appointment he was a sales

representative for Rochester Stationery Company.

A veteran of four years service in the U. S. Air Force, Irv is married to the former Marilyn Pitcher. Both are natives of Fairport, New York. Mrs. Van Slyke is a buyer in the RIT Purchasing Department.

Among his many non-vocational activities are church work and membership in the volunteer fire company in his community. He is also a member of the Rochester Jaycees.

On campus, Van Slyke is a member of the Society for the Advancement of Management. He is one of the founders and current president of Sigma Beta Rho, the new business administration honor fraternity. He has also served as Business Manager of the RIT Reporter.

## Students' Wives' Tea

A tea will be held Oct. 19, 8:00 p.m. at Nathaniel Rochester Hall in honor of new students' wives of RIT.

Mrs. Mark Ellingson will be guest speaker of the evening.

The tea will be sponsored by the RIT Students' Wives Association. The organization was formed last January and its main function is to make all the wives feel that they are as much a part of RIT as their husbands, and to become acquainted with all the wives.

The organization has a total of 40 active members and meetings are held the third Wednesday of each month at the RIT Chapel. A number of social activities are planned for the coming year.

## EDITORIAL

### In Memoriam

One of the saddest duties of a journalist is to write of the passing of someone known, admired and respected. Gabor Marshall was known in the world of athletics as an expert fencer and able coach.

He was admired by those Rochester area residents and Institute students who were fortunate enough to come under his tutelage.

He was respected by all who knew him. We at RIT shall feel his loss keenly.

### Congratulations Social Division

Although Student Council has had but two official meetings; it is already apparent that Student Association President John Beusch has made an excellent choice of division heads.

Working in the area of probably the greatest interest to the student body, the social division seems to be "right on the beam." Under the direction of Joe Farage, this division has already sponsored a successful informal dance to close one of the most important social periods in a student's stay at RIT—"Freshman Daze." Farage has announced plans for a Sunday afternoon jazz concert later this month, a winter dance, and an expanded Spring Weekend program.

Council has finally started in the right direction of providing social activities for its 2,200 members after many years of leaving this responsibility to the Greeks who should not be expected to provide finances and manpower for school wide events.

Social is not the only division that is doing an outstanding job, as you will undoubtedly notice when the other divisions make their plans known, but this is the one area that has been seriously lacking in the past years.

### Can You Afford A Part-time Job?

Many of you new students will scan your class schedules and surmise that you have "free time" at your disposal. You may then be tempted to fill in these few hours with a part time job. Before taking this step, ask yourself: "Is it really necessary for me to shoulder employment?"

College is a full-time job. There is no way for a student to do his best while employed on the outside in part time work.

Should a weak financial position warrant a pay-as-you-go arrangement, then consider this: "What is the minimum number of hours I can work?"

Only the exceptional student can survive du-application of a week's work. Those who have managed to keep up their grades were able to overcome the following difficulties:

1. Attending classes after four to five hours sleep.
2. Utilizing a good share of the weekend for study.
3. All night assignments.
4. Retaining initiative with few outlets for amusement and recreation.
5. Taking accurate notes while thoroughly exhausted.

A few have succeeded by overcoming these obstacles — Can You?

## FADS and FASHIONS

by Leni Lee Lyman

Men and women! RIT has a problem!

Of course, so does the whole world about this issue, but here at RIT the guys are lifting their eyebrows and the girls are wondering why. Could it be, girls, that your skirt is down around your ankles and you haven't checked the latest fashion magazines to see about this year's skirt length?

That's right . . . it's short . . . and dresses are being worn just below the knee cap. Fashion this year looks like the 1920's without the style, of course you don't have to conform to these standards but let's try and make people realize that we're college students and know a little about the prevailing styles.

Remember how you used to laugh at the guys in the bright plaid slacks on comedy shows? Laughing days are over! The latest in men's wear is plaid wool or wool blend continental slacks in subdued plaids. With these slacks are worn . . . vests . . . reversible, naturally.

Something new in the line of fall college clothes for the girl are bandstand skirts. They are short above-the-knee skirts with culotte pants. Kilts will be popular this year too, but in the shorter length. Worn with both of these skirts will be knee socks or the sweaters.

What to look for in the future . . . Women . . . reversible earrings and folding frames for sun or prescription glasses. Men . . . An attached ascot shirt with the ascot made of the same material as the shirt. Also watch for the Gordon plaid.

### Student Directory In Production

This year's edition of the Student Directory is now in the production stage. It is hoped that the directory will be ready for distribution during the first week of November.

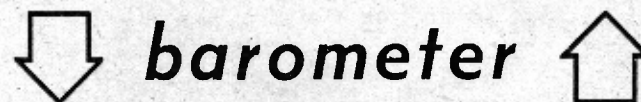

Herb Johnson, head of the Publication and Publicity Division of Student Council, has announced that this year's book will contain the home telephone numbers of the students as well as their Rochester phone numbers if they have such. The inclusion of these phone numbers will be a first in the history of the directory.

Another first being initiated this year will be an opportunity for the students to correct their Rochester addresses or phone numbers if they have changed since they filled out their IBM cards on registration day. This will make the directory more accurate and result in the students being able to use the directory with the assurance that the information listed in the directory is the correct information.

To enable the students to correct their addresses, a box, into which you should place notice of these changes, will be placed in the main floor of the Eastman Building.

"RIT IS OUR HOME"—The Student Christian Fellowship held their worship service in Veterans' Memorial Square, Sunday, Oct. 9, at 8:30 p.m. (Havas and Jennings Photo)

Bill Ferguson

#### Latest and Greatest!

As was suggested by a number of our readers we have added to our social itinerary Syracuse's Three Rivers Inn. Check here for advance notice of the big name stars on their bill; currently, Johnny Puelo and his Harmonica Gang. . . . Now that the Greeks have published complete dissertations on their histories, we're wondering what "UGH" is going to use to fill its next issue . . . .

In women's wear; Check with Leni Lee and see . . . . Just heard, "The Shape of Jazz to Come", Ornette Coleman's new approach to the subject without the conventional chord changes and bar lines . . . . We understand the "BIG DATE" (which was great) is soon to be followed by a truck party.

This daring new person with the original ideas must be an art student. . . . Who was crying "Kiljoy" last week? . . . . Frosh (and upperclassmen) come back from squaresville and try out a pair of plaid courdorouy slacks, they're the latest . . . . We think the new Genny Ale is the best yet. . . . In place of nostalgia every week expect to see our "Fearless Prediction"; We'll keep score!

#### Fearless Prediction

Jack drew fifty thousand

people. We predict Dick will get no more than thirty five thousand (and Rochester is reputed to be Republican).

Score board - Right 0 Wrong 0. And in this Corner!

A passing word to the newest set on campus, the freshmen. RIT has a number of greeks, all very much alike and all much different. You've got lots of time to chose the right one for you, so don't get star eyed or fast talked too soon.

Spend the next six weeks finding out as much as you can about each one, then consider what you've learned carefully and make your choice. It will be a decision you will never have a chance to make again.

We're wondering what "magic formula" the Bookstore uses in determining how many books it should order for a coming quarter. There must be something wrong when 25 percent of the students in some classes have to wait two weeks while their text book is being reordered.

This has happened time and again, and must be just as frustrating for the instructor who has to teach an unequipped class as it is for the unfortunate student. Perhaps there's an IBM machine they could fool around with and put aside the "formula".

### Pi Club to Tour Washington, D.C.

This year the Pi Club, the official student organization of the School of Printing, is looking forward to one of the best years in its history.

Highlighting the fall quarter of the club's program will be a three day trip to Washington, D. C. where members of the Pi Club and Gamma Epsilon Tau, international graphic arts honor fraternity, will tour the United States Printing Office and the Bureau of Engraving. The group will visit Washington on Nov. 17 and 19.

Planned for Sat., Oct. 15 is a picnic and mixer which will be held at Genessee Valley Park. This event will allow the new members of the club to become acquainted with the officers and

old members of the club in addition to the members of the faculty of the School of Printing that might be present.

Regularly planned meetings of the organization will be held this year. Featured at these meetings will be speakers and films on the various phases of printing that would be of particular interest to the members of the Pi Club. It is hoped that information obtained at these meetings will be of great benefit to the members and will help them supplement their formal printing education.

Membership in the Pi Club is open to any regularly enrolled member of the School of Printing and is available throughout the year.

## Chess Team Defeated

The RIT Chess team, sponsored by the Chess Club, lost their first tournament of the season to LeMoyne College of Syracuse by the score of 4 to 1.

Playing first position and bringing in the only win for RIT was Tom Frantz.

Individual results were:

T. Frantz, RIT over D. Strenz-wilk, LeMoyne;

B. Berk, RIT lost to E. Thifault, LeMoyne;

W. Geiger, RIT lost to B. Muhl, LeMoyne;

J. Tisdale, RIT lost to C. Van-Horne, LeMoyne;

R. Gay, RIT lost to B. Kirne, LeMoyne.

A return match with LeMoyne is scheduled for Nov. 6. Other intercollegiate tournaments listed for this season include matches with area colleges such as Buffalo University, St. John Fisher, Clarkson, Geneseo State and St. Bonaventure.

Dr. William J. Hayles, the club's advisor and Bill Berk, president of the club invite all interested students to attend the weekly meetings which are held in the Clark Lounge on Tuesday evenings.

## Leadership Conference

(Continued from Page 1)

the Evening College of RIT, will be the speaker. Before coming to RIT two years ago, Mr. Gibson was director of Industrial and Public Relations at Graflex Co. Mr. Gibson has also served closely with personnel and training groups of the Industrial Management Council.

Mr. Robert Oppenheimer will be featured at the Parliamentary Procedure discussion group. Mr. Oppenheimer is chairman of the board of the Rochester Junior Chamber of Commerce.

## Enrollment Cards Must Be Returned

It is most important that all students return their enrollment cards for the Major Medical plan to the insurance carrier immediately.

Even if you do not wish to have the coverage, you should return the card anyway.

Any student who still wishes to purchase the plan may do so until October 15, 1960.

## Introducing New Faculty

Last week the Reporter published the names of some of the new faculty and staff of the Institute. These were not all of the new people at RIT.

At this time we wish to introduce the remainder of these newcomers to you so that you may become acquainted with them.

### School of Art and Design

Assistant Professor **Philip W. Bornath**, of Chicago, comes to the Institute from the art school faculty at the University of Illinois. He received his B.A.E. and M.A.E. degrees from the Art Institute, Chicago, and has also studied at the University of Chicago, DePaul University and Northwestern University.

## New Librarian Added To Staff

Dr. Leo F. Smith, vice president for academic administration, has named Mrs. Dorothy Kanwischer as Circulation Librarian of the Institute library.

Mrs. Kanwischer assumed her new duties on Sept. 19. A UR graduate, she holds a B.L.S. degree from Syracuse University.

Most recently associated with the Kemp Research Organization here in Rochester, Mrs. Kanwischer has worked in the UR's catalog department; the Military Academy Library, West Point; and the New York and Rochester public libraries. She has also been a staff member of Strong Memorial Hospital's Hospital's medical library, the library of the Academy of Medicine and Eastman Kodak Company's color technology library.

Instructor **Fletcher P. Silker**, a graduate of RIT with a B.F.A. degree, completed work on a master's degree at the University of Hawaii last June. He is a native of Leicester, New York.

Associate Professor **Richard R. Arnold**, of Los Gatos, California, earned a B.F.A. degree at Wayne University, Detroit, and a M.F.A. degree at Granbrook Academy of Art. He has done graduate work at Tulane University and the University of Michigan. Mr. Arnold has taught previously at the University of Wisconsin, Cornell University and SanJose College. He is married and has one child.

### College of General Studies

Assistant Professor **Leo Rockas**, of 881 Meigs St., Rochester, earned A.B. and A.M. degrees at the University of Rochester and a Ph.D. degree from the University of Michigan. He has been instructor in English at Wayne State University, Detroit, since 1957.

Assistant Professor **Jack Taylor**, of 103 Westland Ave., Rochester, is a native of England and earned both a B.A. and a M.A. degree at Oxford University. He has previously taught at the University of Rochester and the University of Buffalo. Married, he has two children.

### Counseling Center

Assistant Director of the Reading Laboratory, **Miss Marlon L'Amoreaux**, is a native of Spencer, New York, who earned A.B. and M.Ed. degrees from St. Lawrence University. She has also done graduate work at Cornell University and has considerable secondary school teaching experience.

### Library

Catalog Librarian **Mrs. Eleanor W. Shoemaker**, did undergraduate work at Mills College and earned a master's degree at the State University College with the University of Rochester library, she lives at 231 Glen Eilyn Way, Rochester.

**Development and Public Relations**  
Director of Publications **Miss Louis Smith**, is a native of Waynesville, Ohio, and received her B.J., B.A., and M.A. degrees from the University of Missouri. She has also studied at Wittenberg College and Washington University. Most recently she has served as Public Information Officer at the State University College of Education at Fredonia.

**Student Personnel Services**  
Assistant Director of Admissions **Charles E. Swan**, a native of Rochester, is a graduate of Madison High School here and received his B.A. degree from the University of Rochester. Before joining the Institute, Mr. Swan was employed as Assistant Purchasing Agent at Rochester Germicide Company.

## Cafeteria, Snack Bar Run By National Chain

A. L. Mathias Co. of Baltimore and Harrisburg have taken over the operation of the Institute's food services.

This change in the operation of the food services was prompted by the resignation of Miss Simons as RIT's Food Services Director last Spring.

The A. L. Mathias Company is engaged in industry, hospitals and

schools throughout the country. Under the present set up the new Food Services Director, Mr. Douglas R. Whitaker, is still subject to the control of the Business and Finance Division for the Institute.

Essentially the cafeteria and snack bar are operated the same as in the past. There have been some improvements in the cafeteria, such as lights along the food serving line. Also under the new system the food services will be able to better serve the Institutes organizations and individual students.

There will be more variety of food to choose from and for the first time the Institute is offering a board plan where students can purchase a meal ticket good for breakfast and dinner five days a week.

"We inaugurated the plan of leasing the food services only after careful study and evaluation. The Institute still controls the management aspects of food services without getting into the actual operation of it," related Mr. Frank Benz, vice-president of Business and Finance.

Mr. Benz further told that the new food services plan will in no way change the part that the Department of Food Administration has taken in the foods program. Students will still use the Institutes food service facilities as a laboratory.

## Ice Rink Schedule

The RIT Ice Rink has released its Winter skating schedule, effective through April 9, 1961.

Students, faculty and staff members may use the rink, free of charge, at the following times:

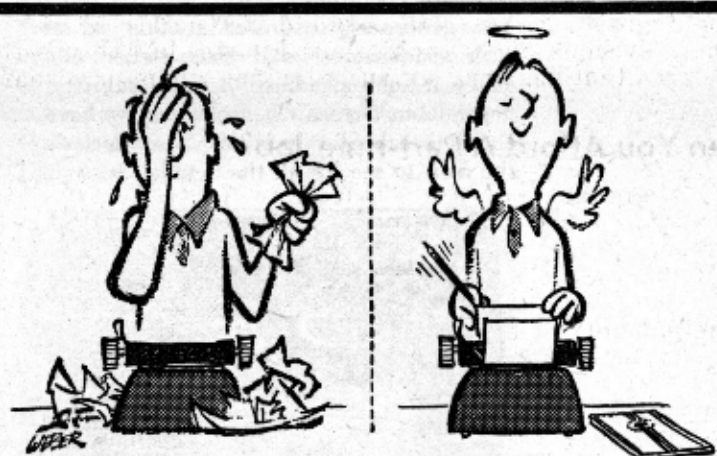

Monday, Wednesday and Thursday, from 12 to 2 p.m.; Tuesday and Thursday, from 12 to 3; and Saturday from 12 to 1:15.

RIT skaters will share the rink with the Genesee Figure Skating Club on Monday through Friday, 11 a.m. to 12, and on Sunday, 11 a.m. to 1:15 p.m.

The rink will be open to the general public on Monday, Wednesday and Friday, 2:30-5:30 p.m. Saturdays and Sundays, 1:45 - 4 p.m.; and on Wednesday, Friday and Saturday from 8:15-10:30 p.m.

Students, faculty, staff and their children may skate at all afternoon public sessions without charge.

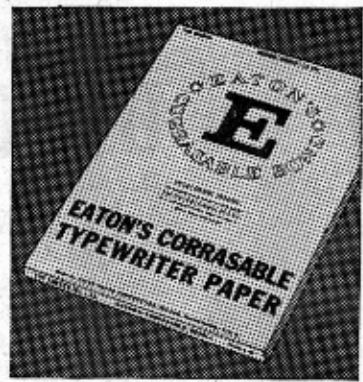

Skates may be rented and checking facilities are provided.

# HERE! THE GREATEST SIXTY-ONE DEDERFUL CHEVROLET

Here's the car that reads you loud and clear—the new-size, *you-size* '61 Chevrolet. We started out by trimming the outside size a bit (to give you extra inches of clearance for parking and maneuvering) but inside we left you a full measure of Chevy comfort. Door openings are as much as 6 inches wider to give feet, knees, and elbows the undisputed right of way. And the new easy-chair seats are as much as 14% higher—just right for seeing, just right for sitting.

Once you've settled inside you'll have high and wide praises for Chevrolet's spacious new dimensions (in the Sport Coupes, for example, head room has been upped as much as 2 inches, and there's more leg room, too—front and rear). Chevy's new trunk is something else that will please you hugely—what with its deep-well shape and bumper-level loading it holds things you've never been able to get in a trunk before.

Yet, generously endowed as this car is with spaciousness and clean-etched elegance, it holds steadfastly to all the thrifty, dependable virtues Chevrolet buyers have come to take for granted. Your dealer's the man to see for all the details.

There's never been a trunk like it before! The floor's recessed more than half a foot and the loading height is as much as 10½ inches lower.

\*\*\*\*\*

## INTRODUCING THE '61 CHEVY BISCAYNE 6

*the lowest priced full-sized Chevy with big-car comfort at small-car prices!*

Chevy's new '61 Biscaynes—6 or V8—give you a full measure of Chevrolet quality, roominess and proved performance—yet they're priced down with many cars that give you a lot less! Now you can have economy and comfort, too!

IMPALA 4-DOOR SPORT SEDAN—one of five Impalas that bring you a new measure of elegance from the most elegant Chevis of all.

NOMAD 9-PASSENGER STATION WAGON. You have a choice of six Chevrolet wagons, each with a cave-sized cargo opening nearly 5 feet across.

BEL AIR 2-DOOR SEDAN, like all '61 Chevrolets, brings you Body by Fisher newness—more front seat leg room.

Biscayne 4-Door Sedan

*See the new Chevrolet cars, Chevy Corvairs and the new Corvette at your local authorized Chevrolet dealer's*

# SHOW ON WORTH!

## NEW '61 CHEVY CORVAIR More space . . . more spunk and wagons, too!

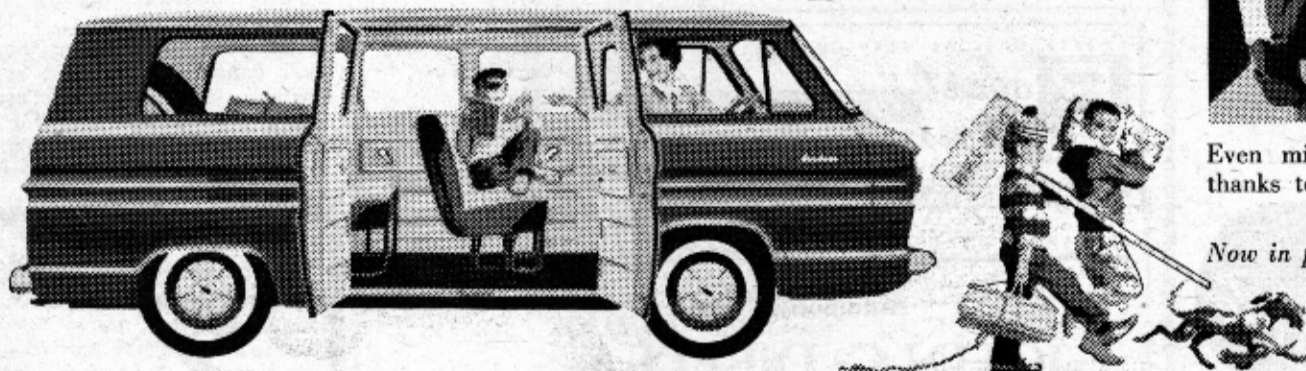

The newest car in America: the CORVAIR 700 LAKEWOOD 4-DOOR STATION WAGON.

CORVAIR 700 CLUB COUPE. Like all coupes and sedans, it has a longer range fuel tank.

CORVAIR 700 4-DOOR SEDAN. Provisions for heating ducts are built right into its Body by Fisher.

Here's the new Chevy Corvair for '61 with a complete line of complete thrift cars.

To start with, every Corvair has a budget-pleasing price tag. And Corvair goes on from there to save you even more. With extra miles per gallon . . . quicker-than-ever cold-start warmup so you start saving sooner . . . a new extra-cost optional heater that warms everyone evenly. Riding along with this extra economy: more room inside for you, more room up front for your luggage (sedans and coupes have almost 12% more usable trunk space).

And our new wagons? You'll love them—think they're the greatest thing for families since houses. The Lakewood Station Wagon does a man-sized job with cargo, up to 68 cubic feet of it. The Greenbrier Sports Wagon you're going to have to see—it gives you up to 175.5 cubic feet of space for you and your things.

Corvair's whole thrifty lineup gets its pep from a spunkier 145-cu.-in. air-cooled rear engine. Same rear-engine traction, same smooth 4-wheel independent-suspension ride. See the polished and refined 1961 Corvair first chance you get at your Chevrolet dealer's.

Spare tire is in the rear in coupes and sedans—leaving more luggage space up front.

Even middle-seat passengers sit pretty, thanks to Corvair's practically flat floor.

Now in production—the GREENBRIER SPORTS WAGON with up to twice as much room as ordinary wagons (third seat optional at extra cost).

See the new Chevrolet cars, Chevy Corvairs and the new Corvette at your local authorized Chevrolet dealer's

# Outstanding Alumni to be Feted At Annual Alumni Banquet

Members of the Rochester Institute of Technology Alumni Association will cite two of their members as Outstanding Alumni of the Year at their annual banquet to be held on October 22, 1960.

The recipients of the award will be Mrs. Charles F. Wallace of Westfield, New Jersey and Dr. Lewis A. Wilson of Albany, N. Y. This is the highest honor that the Association can pay to a graduate of the Institute.

Mrs. Wallace is a 1907 graduate of the Normal Domestic Science Program which was the forerunner of the present Food Administration Department of the Institute. Dr. Wilson graduated from the Normal Training Program which has evolved into the present Mechanical Department of the College of Applied Science. This is Dr. Wilson's 50th graduation anniversary.

Mrs. Wallace, the "Outstanding Alumna of the Year", is the former Florence Murray. She is a native of Rochester.

Following graduation Mrs. Wal-

lace taught and was supervisor of Domestic Science courses in several schools on Staten Island, N. Y. She left the teaching profession upon her marriage to Mr. Charles F. Wallace on August 27, 1914. Mr. Wallace is an inventor and chemist and one of the founders of Wallace and Teirnan, Inc. Strassenburgh Laboratories Inc. recently merged with the Wallace & Teirnan, Inc. of Rochester.

Mrs. Wallace is well known in New Jersey as a humanitarian. She and Mr. Wallace have established the Eljabar Foundation of Westfield, N. J., through which they assist many individuals and institutions. The foundation has established the Florence Murray Wallace Scholarship Fund at Rochester Institute of Technology in 1954. One hundred and fifteen students have received assistance through this fund.

In announcing the selection of Mrs. Wallace for the award, Mr. Eugene T. Natale, president of the Alumni Association stated, "Mrs. Wallace personifies the

successful alumna of RIT. Her life has encompassed a professional career, homemaking, and a deep interest in the well-being of her community, as well as being a loyal alumna to her alma mater."

Mr. and Mrs. Wallace reside at 629 Tremont Avenue in Westfield, N. J.

The Outstanding Alumnus of the Year, Dr. Lewis A. Wilson is a renowned educator. He is past president of the University of the State of New York and former commissioner of education for the Empire State.

Dr. Wilson is a native of Bergen, N. Y., and spent his early life in the Rochester area. Prior to attending Rochester Institute of Technology, Dr. Wilson studied at the New York State School, now Brockport State Teacher's College.

In 1912, Dr. Wilson entered the State Education Department as a specialist in industrial education. Progressing through the ranks he was appointed Deputy Commissioner of Education in 1941. He held this position until 1950 when he was appointed Commissioner of Education and President of the University of the State of New York.

Dr. Wilson retired in 1955 after 44 years in the state education department. He is the only commissioner of education to attain the post through the ranks. Since his retirement he has served the department and many school districts and associations as a consultant.

During his work in the Education Department, Dr. Wilson has been a leader in the development of a state-wide program of school guidance services, the vocational education training and placement of physically-handicapped persons. He has pioneered in the fields of adult education and in the readjustment of high school education in New York State and was largely responsible for the program for postwar education that resulted in the establishment of technical institutions in New York State.

Dr. Wilson is married to the former Luella Ellis, a native of Niagara Falls, Ont., Canada. They have four children. The Wilsons reside at 25 Manning Boulevard, Albany, N. Y.

Dr. Wilson was honored by RIT with a testimonial dinner in Rochester in 1951.

## Keeping Up With Institute Alumni Where They Are — What They're Doing

U. Sykes Mozneck, - (A&D '28) was named director of advertising and product promotion at Landers, Fray & Clark, New Britain, Conn. Mr. Mozneck will create a new department at Lands responsible for all written and visual material promoting the sale of the Universal, Handy-Hannah, and the Dazey household appliances manufactured by Landers. He lives in Trumbull, Conn., with his wife and daughter.

Mr. and Mrs. Willis R. Gamble of Sackets Harbor announced the engagement of their daughter, Miss Mary L. Gamble to Robert F. Chapman, son of Mr. and Mrs. Stanley R. Chapman of Sackets Harbor. Miss Gamble was a graduate in May, 1960 of the Chem. Dept. Mr. Chapman is a senior at Syracuse University.

Eugene Miller - (Mech '43) is chief engineer at the Elgeet Optical Co. located on Smith Street in Rochester. He is married and has two children, ages 14 and 9. He and his family reside on Harvard Street.

Mrs. Lester Robbins, the former Dorothy E. Ames (F.A. '48) is kept busy at home on Ingomar Dr. with five children ranging in ages from 9 years to 9 months. Earl T. Nelson - (Elec. '49) is employed at the RG&E. He is working in the Electrical distribution department, called the 'Right of Way' Department, primarily concerned with obtaining easements to install poles and other equipment.

Mr. William B. Kamola—(Mech. '33), is chief engineer at General Circuits, Inc. on St. Paul Street in Rochester. His daughter, Joanne is attending RIT and is a second year student in Business Administration.

Mrs. Martin Schlenker — (A&D '26), the former Ruth Isler is Art Instructor at John Marshall High School where she has been teaching for the past 5 years. After attending RIT she went to N.Y.U. where she received a B.S. in education.

Harold Lockwood — (Photo '59) stopped in at the Alumni Office this summer when in Rochester with his division head, Gordon Miller, to interview prospective employees for the Sandia Corp. While at RIT, Mr. Lockwood was public relations editor on the Reporter staff. He was Mr. Campus and head of the Social Division for Spring Weekend, 1959. The Sandia Corp. is a non-

profit division of Western Electric. It is responsible for much of the countrys weapon systems and all nuclear warheads.

John Bushner — (Photo '57) was a visitor at the Institute this summer. He is Photo Form technician of Corning Glass Works in Bradford Pa. Mr. Bushner's prime purpose while in Rochester was to consult with Kodak in regard to emulsions for more resolution.

Patrick E. Lannan — (Elec. '39) visited the Alumni Office on October 4. Mr. Lannan is Vice-President and partner of Research Designers for Industry, Inc. of Cleveland, Ohio, which is a consulting firm for research of all types of industrial organization. Mr. Lannan visits the Institute regularly. Mr. Lannan is a close business associate with Dr. Wernher vonBraun.

## Class of 1910 To Celebrate 50th Reunion

This year is a memorable one for those members of the Class of '10. They are celebrating their 50th year since graduation from the Institute.

A full program has been planned including a reception, banquet and dance to highlight their 50th year. On the evening of Friday, October 21, 1960, Dr. and Mrs. Ellingson will entertain with a buffet dinner in honor of the class of 1910. This will be held at 6:30 p. m. at Dr. Ellingson's home at 3940 East Avenue, Pittsford, N. Y.

All members of the class have received invitations to attend. Vice presidents from various divisions of the Institute and the Director of Alumni Relations will be present to greet and chat with the members of the class. Also in attendance will be Mr. and Mrs. Eugene Natale. Mr. Natale is the president of the Alumni Association.

On the evening of Saturday, October 22, 1960, at the Chamber of Commerce the 50th Class Reunion will be held in connection with the address by Vice Admiral William F. Raborn, Jr., Director of U. S. Navy's Polaris Missile Project. He has made many headlines with his successful history making firings of the Polaris ballistic missile from submerged submarines.

Following the Banquet the annual dance will be held at the Powers Hotel in the Terrace Room allowing the Class of 1910 to "Waltz" through the remainder of the evening concluding their celebration.

## Rundel Library Offers Many Aids

Many freshmen and indeed many upperclassmen at RIT are unfamiliar with the educational aids that are available to them through the Rochester Public Library System. RIT's own well-equipped library is tailored to the students' specific needs and could never be expected to have as a general and varied collection as that available through the public library system.

The Rundel Memorial Building, located on South Avenue directly across the River from the War Memorial, is only a few short blocks from our own Eastman Building. Built a quarter of a century ago, the building acts as headquarters for the entire Pioneer System which includes the library systems of Livingston, Ontario and Monroe counties as well as the Rochester Public Library.

The bulk of the library's most used collection is located on the main floor where it is separated into divisions according to their classification (fiction, history, social sciences, etc.) each division having all its own reference materials and periodicals.

The basement of the building contains an estimated "15 miles" of additional volumes, some centuries old. If a book is not available at this or any other member of the Pioneer System, the Library maintains a wire service to the state library which enables it to obtain just about any book desired.

The Reference Division records local newspapers on microfilm, providing many details of local history that would otherwise go unremembered. The division also has on file directories of all major cities in the country and catalogues of over 1000 colleges.

Duplicate copies of all best sellers are included in the Fiction Division, which also has a comfortable and modernistic setting for those wishing to read while in the library.

On the second floor of the Rundel Building are housed the Art Division, Rundel Gallery and the Reynold's Audio Visual Collection. A large picture file of mounted and unmounted prints and clippings is a much used feature of the Art Division, providing reference material to many local artists.

The work of many RIT's art students can be found in some of the monthly exhibits in the Rundel Gallery along with that of many artists of national fame.

The Rochester Library is much envied for its fine record and movie collection. Included in the Reynold's Audio Visual collection in the Rundel Building are over 6000 recordings which are all available to the general public. The collection is primarily classical but also includes a large number of jazz selections, Broadway albums and documentary recordings.

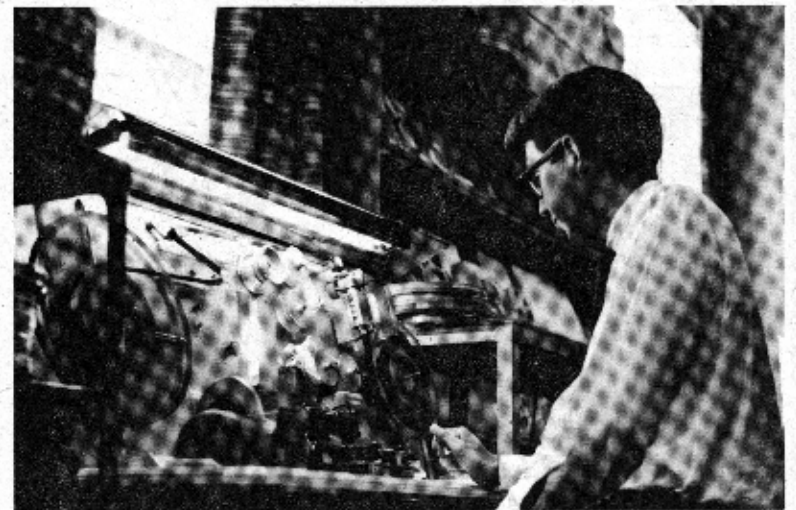

Organizations upon registering and paying a nominal insurance fee may borrow any of 2700 films included in the 16mm collection, the largest such collection in the country.

The library provides an unusual feature in its noon hour book reviews. "Books Sandwiched In" as the program is called is held every Tuesday noon through November 22 and the public is invited to bring their own lunch or reserve a box lunch at the library for a small cost, and eat while current books are reviewed by leading authorities.

Library cards enabling RIT students currently living in the Rochester area to use any or all of these facilities can be easily obtained at the Rundel Building or at any branch library in the system.

This is certainly an opportunity to supplement the specialized information available at RIT's own library and an opportunity that no serious student should pass up.

### Soccer and Student Support . . .

Now that another school year is in full swing and most activities are down to their usual hectic pace, let's take a brief look at sports. The sports scene has moved into action right along with other events and this year promises to be the most complete of any to date.

With the acceptance of soccer as a full fledged intercollegiate sport there is now sports action at all times of the year. The soccer team has filled a need in the sports picture in that it has provided the school with a Fall sport.

Last Saturday was the first home soccer game. Although the weather consisted of one of the most pleasant Fall days possible, the attendance by the student body was lacking. Aside from teams, a few friends and relatives of the players and the cheerleaders, Genesee Valley Park was relatively quiet.

The soccer team was organized and plays because, basically, they enjoy playing the game. While this is reason enough to turn in a good performance, active student support can provide the asset that can guide them to greater success. It is a known fact that even professional teams perform better when they have the crowd supporting them.

Supporting a team has benefits for the fans also. In soccer you find one of the most active games played. The rules are set up to make the action continuous. There are no long delays that are often found in other sports. Something is always going on down on the field as players keep moving for the entire game.

The rules are not hard to learn. Someone with no background or knowledge of the sport can enjoy the game as the prime objective in the game is to kick the ball into the opponent's goal. The fact that the hands and arms cannot be used make it all the more interesting.

The next home games are on Wednesday, October 19 at 4 p.m. and Saturday, October 22 at 2 p.m. They promise to be two exciting matches. The opponent for Tuesday is Oswego while Ithaca invades Saturday.

### Our Goals and Objectives . . .

The objective of this page is to present a complete picture of sports at RIT, with emphasis on the important events. The coverage will include not only the recognized teams but also any clubs that are active in sports such as the hockey club and bowling league. Intramurals will also be covered. As it is sometimes impossible to be aware of everything that is going on, any sports news items may be left in the Reporter office and will receive immediate attention.

## Pitchmen Acquire "60" Co-Captains

Igor Koslowski and Ken Reynolds have been named co-captains of this year's soccer team. Koslowski will be in charge of the line, the offense of the team, and Reynolds commands the backfield or defense of the team.

Igor was born in Poland in 1939. He came to the United States with his parents in 1950 and moved to Rochester in 1955. He enrolled in East High School and played on their soccer team in '56 and '57. 1957 was his big year there; he was elected captain of his team and was placed on the All-Scholastic Team.

At RIT he is majoring in accounting in the Business Administration department. His scholastic achievements include the Dean's List last year. This is his first year on the varsity squad and he shows promise of being one of the leading forces in RIT soccer.

KEN REYNOLDS and IGOR KOSLOWSKI

The backfield is led by Ken Reynolds, a fourth year mechanical student. His soccer experience dates back to four years in high school and two years here at RIT.

Ken was introduced to soccer at Scio Central high school, in the Southern part of New York State. A native of Wellsville, he now resides at 11 Atkinson Street with his wife.

At left fullback he fills an important role. He is responsible for keeping the ball away from his goal. Many times opposing offensive plays are broken up by one of Ken's booming kicks clearing the ball down to the other end of the field.

In Igor and Ken, Coach Jim Dickie has come up with two valuable and consistent performers who can always be counted on to be in the thick of the action and lead the team when on the playing field.

## Pitchmen Split Openers

BILL SAHMEL—Passing ball into position during soccer game.

The soccer team opened its season this past weekend by splitting the two opening games.

On Thursday the squad traveled to Buffalo State to take on a team with two previous games of experience. From the action of the play it seemed as though RIT was the team with the experience advantage as they outplayed the Buffalo Squad and came home with a 3-0 victory.

Two days later, on Saturday, the pitchmen took on a stubborn Lock Haven State Teachers team at Genesee Valley Park and dropped a close 1-0 match.

The game at Buffalo was a thorough test for a season opener as strong winds prevailed throughout the match, sometimes causing passes to stop in mid air and reverse direction.

Playing with the wind to their backs in the first period Coach Jim Dickie's pitchmen quickly took to the offense and at 4:30 of the first quarter co-captain Igor Koslowski booted the season's opening goal into the corner of the Buffalo cage.

Two and one half minutes later another goal increased the lead to 2-0. Scoring this goal was Felipe Block, who hails from Mexico and is a promising newcomer to the team this year.

The final RIT score was booted home in the fourth quarter by Corrade Zollo, a veteran returnee from last year's team.

The action of the game is best summed up by the goalie saves. RIT goalie Mo Lysher was called on to field 10 shots at the cage while the RIT forwards peppered the Buffalo goal with 30 shots.

The scene shifted to Genesee Valley Park on Saturday for the Lock Haven meet. Riding on the crest of a two game win streak by the scores of 5-0 and 5-1 the Pennsylvania team threw up a strong defense and both teams

battled to a 0-0 halftime score.

A goal midway in the third quarter proved to be the difference as Lock Haven threw up its defense and made the goal stand up. The fact that the Tigers managed to get 10 shots at the Lock Haven goal, one less than the Pennsylvanians, was an indicator of how closely the game was contended.

It is hoped that the injured players from the first two games will soon be back in action. Dick Leo was forced out with a head injury in the Buffalo game and Ken Reynolds reinjured a leg muscle late in the Lock Haven game.

Tomorrow the pitchmen travel to Potsdam State. The next home meet will take place at Genesee Valley Park on Wednesday, October 19 when the pitchmen face Oswego State. Game time is 4 p.m.

### Basketball Practice Begins Monday

This coming Monday, Oct. 17, will mark the start of practice for the 1960-61 Freshman and Varsity basketball teams. All interested candidates, both freshman and varsity, are urged to report to the Ritter-Clark gym at 5:30 that evening.

The freshman will again be under the direction of Coach Bob Klos. Any freshman interested in managing the frosh team should contact Bob Klos as soon as possible.

Coach Lou Alexander Jr. will meet with all varsity candidates. The varsity will compete in a schedule of approximately 20 contests this year. This includes the Tech Tournament which will again be sponsored by RIT.
