

ENTHUSIASM UNLIMITED - RIT students display high spirits as they participate in activities.

Frantic Schedule Opens 'Freshman Daze' Frolic

The six-day orientation program for entering students begins today with the President's assembly for students and parents, a reception coffee hour in the ice rink, and a Freshmen Only Dance at the new Student Activities Center.

"Freshman Daze" activities include an open house and dance Thursday evening, two assemblies and Student Union and fraternity open houses on Friday, a Saturday afternoon picnic and soccer game, faculty reception, and dance Saturday evening and a religious program Sunday.

Freshmen and parents will be the focal point of today's President's assembly beginning at 1:30 p.m. in the Ritter-Clark Gym. Afterward they will be guests of the Institute at a reception held in the adjoining ice rink. At this time entering students and their parents will be given the opportunity to join in guided tours of the campus.

Student Council representatives and other interested upperclassmen will guide those who wish to view the campus and inspect Institute buildings and facilities.

A dance strictly for freshmen will be held this evening at the new Student Activities Center on Clarissa St. beginning at 7 p.m.

Immediately following the dance at 10 p.m., all resident freshmen women are required to attend a meeting at Kate Gleason Hall.

All students must report to the proper room for Department or School meeting tomorrow morning.

Registration will be held in the Ritter-Clark gymnasium, beginning at 9:45 a.m., according to the first letter of the last name. At this time completed IBM cards must be presented in order to be registered properly. Lockers will be assigned and the Bookstore will be open for those students who wish to purchase books and supplies. The only exception to this will be for Photography and Printing students. Simultaneous

meetings of all freshmen residents will be held in Nathaniel Rochester Hall and women residents will meet with Dr. Cayley in the Activities Center, both at 8 p.m.

The Communication Diagnostic test will be administered Thursday morning at the assigned times and places.

The Bookstore will open in the afternoon to those not assigned to a new feature of "Freshman Daze", the Introduction to Academic Emphasis.

Thursday evening will find the freshmen relaxing at an informal open house being held in Nathaniel Rochester Hall starting at 8 p.m.

Friday activities will begin at 9 a.m., with the Student Personnel Services Assembly for all freshmen in the Gym. At 1 p.m. another assembly takes place when the Student Association introduces itself to the freshmen in the Ritter-Clark Gym.

A program of student activity contacts will follow this assembly. At this time, freshmen will be given an opportunity to look over the various organizations that function on campus.

The Student Union will host an open house and tea Friday evening. Along with the Union, the four national fraternities, Theta Xi, Phi Sigma Kappa, Sigma Pi and Tau Epsilon Phi will open the doors of their houses to all freshmen. These open houses will pro-

Master's Program Initiates Major In Art Education

Announcement of new academic programs at Rochester Institute of Technology leading to the Master of Fine Arts with a Major in Art Education and the granting of the Master of Science degree has been made by RIT President Dr. Mark Ellingson.

The programs become effective in September with the start of the '63-'64 academic year.

The MFA program is designed for the BFA graduate who is interested in teaching art in the public school system.

At present, Chemistry is the only Institute department that will offer the MS during the first year of the program.

vide an opportune time for getting better acquainted with the upperclassmen on campus.

The traditional Freshmen Picnic will begin Saturday morning at 11 a.m. This year, for the first time the event will be held on the new campus. Three p.m. will find the freshmen viewing Varsity Soccer, with RIT hosting Buffalo State.

The highlight of the week will come with the faculty reception and dance in the Ritter-Clark gym Saturday evening. The reception line will include Dr. and Mrs. Ellingson and other members of the Administration. This dance is open to the entire student body.

Simultaneously, the Interservice Christian Fellowship has a meeting scheduled in the Pioneer Room of Nathaniel Rochester Hall. Everyone is cordially invited.

"Freshman Daze" will come to a close Sunday afternoon with the Religious Activities Association program which is set for 3 p.m. in Eastman 125.

The six-day orientation program is under the supervision of A. Stephen Walls, director of Student Activities.

Institute President Urges Complete Participation

As we open a new school year, may I express a hearty welcome to the men and women of the Freshman Class. You and our upperclassmen will give RIT the potential for a great year in respect to academic achievement and a varied student activity program. We are delighted that you are a part of the student body. I speak for the faculty and the administrative staff in saying that we look forward to working with you during the coming year.

We have a number of traditions at the Institute, but there are three which I wish to draw to your attention at this time. The first tradition is our unswerving belief in the importance of developing a high level of competence in your chosen career field. This you will achieve in large measure through your academic program and, as men and women of RIT, you have the opportunity and responsibility for maintaining a superior record of excellence in your studies.

The second tradition concerns active participation in carefully selected student activities. Your college life will be greatly enriched through your involvement in some challenging student activity. Again, you have the opportunity and responsibility to give some portion of your time and energy toward insuring the success of student-sponsored programs.

Finally, I would mention the tradition of friendliness and helpfulness. These are traits which have marked our faculty and students for many years. I know that you will help us perpetuate the reputation which we have for being a friendly institution.

Again, a cordial welcome to all. The faculty and staff join with me in extending best wishes for your success at RIT.

Cordially yours,
MARK ELLINGSON
President

Gala Homecoming Program To Highlight Fall Season

Everything at RIT seems to be becoming bigger and better and this year's alumni-parents weekend is no exception. Under a new and more appropriate name of "Homecoming" the weekend will take place October 25, 26, 27, 1963.

The students of RIT will play a much larger part in all events this year from Skits-o-froshia on Friday to the RAA breakfast on Sunday morning. The activities in between these events are designed to appeal to everyone—students, alumni, parents, and faculty.

Saturday is the big day with the new campus playing the starring role. The featured events will be a barbeque at the picnic

All students will report to the Student Activities Center on Clarissa St., immediately after their registration has been completed. Student identification cards will be processed at that time and place.

area, followed by a top-notch soccer game against the New York State Champs, Hartwick College.

Saturday evening everyone is invited free of charge to the Homecoming Dance at the Ritter-Clark Gym. A big name band will play and at intermission the Outstanding Alumni of 1963 will be cited for their contributions to RIT and their chosen field.

But there is still more in store. Saturday at halftime President Mark Ellingson will crown the first Homecoming Queen selected from candidates chosen by freshmen in each of the four colleges. Toss in an outdoor display contest, seminars, reunion dinners, and lots of talk about the "old days" and you can be sure of a top quality, fun-for-all Homecoming. There will be more information coming but to play it safe, mark that date now: October 25, 26, 27.

EDITORIALS EDITORIALS EDITORIALS

Participation – The Key to Success

Welcome aboard!

As an entering Freshman you will probably hear this paraphrased in many ways. This spirit of welcome and sincere friendliness is an Institute tradition. Upperclassmen are proud to maintain this tradition (rather than one of juvenile hazing) which we regard as evidence of maturity.

You will find that upperclassmen are a busy lot, what with studies and activities. But you will never find one too busy to answer a question or lend a helping hand. We remember well our confusion during our "Freshman Daze."

You are entering RIT in a period of rapid growth and change. By the time you receive your degree—and in retrospect this will seem all too brief a period—the dream of RIT's new campus will be a reality. You will witness much and we hope you will learn and take an active part in the Institute future.

You will find a well-rounded life at RIT, an extensive scholastic diet balanced with many extra-curricular activities.

The years that lie before you promise to be the most exacting, and at times the most exhausting, of your life. They can also be the most rewarding and perhaps the happiest years. We sincerely hope so.

It is of paramount importance to each freshman that he or she quickly become acquainted with the many facets of life at RIT, with his fellow students, faculty and staff members, activities and organizations. For this reason, the "Reporter" strongly urges your fullest participation in the schedule of "Freshman Daze" events.

Get Your Money's Worth

Included in your tuition bill was a \$22 Student Association fee and a \$12 Athletic fee. It just makes good sense not to let this be your only contribution to Institute co-curricular activities. Take an active part in campus life—be a part of RIT and support your teams.

Good-bye Freshmen

One of the first things that freshmen seem to learn is that RIT functions on an "unlimited cut" basis. Frosh will hear from the "ever-wise" upperclassmen that it is possible to attend a quarter and still pass. Nonsense!

It is said that an intelligent person benefits from the mistakes of others. To estimate that 50 per cent of the freshmen that flunked out last year did so because they weren't mature enough to handle this new freedom, is probably low.

Use this privilege wisely and it may help you; carelessly and it may ruin you. We urge you to attend all your classes and to get your educational "money's worth".

No one yet has made it through RIT sitting in the snack bar.

Greeks Develop Social Character

"RIT attempts to give its students a well-rounded program which will enable them to understand themselves and improve their abilities to get along with other people."

This quotation from the Institute catalogue is RIT's educational philosophy. It is also a statement of what fraternities and sororities are trying to accomplish.

Greeks are not the only supporters of student activities on campus, but they are one of the major ones.

Their members have taken their own free time and money to support worth-while causes. One sorority adopted a Korean girl. One fraternity acts as "wheel chair jockeys" on Friday nights. A fraternity and a sorority, working together, help teach crippled children to swim.

The major support for the Red Cross Blood drive on campus comes from fraternities. They also aid the Multiple Sclerosis Fund and other charity drives. One fraternity each year sets aside money in its budget for an annual Christmas party given for needy children in this area.

Not only the active in college belong to Greek-letter organizations. Since the days of Thomas Jefferson, many of the nation's leading men have been fraternity men, proud of their affiliation.

Cut into stone in a midwestern college union is this quotation: "We come to college not alone to prepare to make a living, but to learn to live a life." Fraternities and sororities on this campus strive to fulfill this ideal. It is part of all their creeds to build social character and better prepare the individual for his future endeavor.

Cayley's Corner

Back to the mines!
Here we go for good old '63-'64.

What's good about it?
Everything

So far.

No assignments yet.
A lot of new freshmen

To pick on.
Second year

Classes will be somewhat
More interesting.

The President's in good humor—
New campus plans

Moving right along!
Gadgets and equipment

Have improved a bit
Since last Spring.

We've actually got about
300 more square feet

Of parking space.
But—

You green horns—
Watch out for

Parking tickets.
The local police are

Stony-hearted.
They've been picked on,

By experts
Recently!

The old fossils who
Call themselves instructors

Will stop fiddling 'round
By about next week

And the grind will begin.
And in the dining room—

Some old fossils
Will start picking on me.

Anybody want a hair shirt?
I'm through with mine.

I'll be seeing you.

Chaplain M. A. C.

Student Council Prexy Greets Freshman Class

On behalf of the student body, I welcome you to RIT. You are entering one of the most memorable segments of your life, with the possibilities to explore, develop, and create to your hearts content.

As a student at RIT, you can receive one of the finest educations in the country, provided that you make full use of this opportunity. Education is a personal experience, and you should strive to make it as meaningful as possible.

Although your main purpose here is to receive an education, college life is more than that. There are a great variety of co-curricular activities available to you. Through active participation in one or several of these organizations, your informal education can be extremely broadened. This is one phase of your student life which is quite important but which must be kept in perspective with your total education.

For those of you who have athletic ability, you will be a welcome addition to our sports teams. Each religious denomination is well represented on campus for all to enrich their spiritual values. Sororities and fraternities, as well as special interest groups, offer additional benefits for your education.

As a member of an exclusive organization, the RIT Student Association, you have a responsibility to see that the best interests of the student body are fulfilled. Your student representatives will welcome your interest and your voice in Student Council matters. Be sure to keep abreast of Council happenings and be ready to run as a representative when there are vacancies in your department. Active participation in Student Council can be one of the most beneficial experiences of your college life.

During your first few days on campus, you will receive a variety of information and many personal contacts, and this is just the beginning.

Remain active and enthusiastic about your college life and graduation will be here before you know it, provided you've had some academic enthusiasm—and this is the main key to your college success.

Looking forward to meeting you,

RON SHERMAN, President
Student Association

CROSS

ROADS

by Jerry Lewis

For Freshmen Only (And all those young enough to want to be one again.)

As an entering student you will be danced and lectured, toured and inducted in the ways of Freshman Daze. Student directors will try to acquaint you with every facet of college life at RIT. And at the end of this dazzling daze one will have done just about everything and learned practically nothing.

Here are a few tips guaranteed to make every college freshman successful. You will not find them in any text book. One never really recognizes the authenticity of this information until he graduates.

The most important tip is to be a freshman. As a freshman you must realize that the days when you were the only one who could take a picture in the class, the days of star quarterbacking and yearbook editing are over. In plain words you are no longer a big stud. You are just a lowly freshman and must start all over again.

Accepting the world of a freshman is the first step in a successful college career.

Next, make sure you meet as many people as you can during Freshman Daze. The people you meet the first week will form the nucleus of your friendship for the ensuing year. The more people you know, the more fun you will have socially, the more successful you will be academically. Believe it or not, people make people who they are.

If you wish to lead a fruitful college career, consider joining at least two organizations. Make one of them a fraternity or sorority, either social or academic. The time spent working with the people in organizations will better prepare you for life after graduation. A How To Succeed In . . . Hint: Most job interviewers weigh heavily a student's participation in non-academic areas.

One more thing—just because you have left the protective guidance of your parents for the first time, do not forget where the church is located. Church is not for sissies, it is for men. So don't fight a good thing, get with it.

And, oh yes, one more thing, be sure to read "Crossroads" every week . . . you will find yourself in it.

REPORTER CITED — Institute President Dr. Ellingson and newspaper editor Bill Barley receive an award for RIT's contribution to Brotherhood Week.

'RIT Reporter' Breaks Color Barrier In College Papers

The RIT Reporter, official publication of the Rochester Institute of Technology, is one of the few college newspapers that regularly features color in its issues.

The Reporter has achieved recognition from many business and professional organizations, and earned many favorable comments on its high quality color reproduction.

Serving students, faculty and alumni, it is published each week through the efforts of a staff of students who devote their free time to its production.

Top positions on the staff are filled for this year, but there are many openings for reporters, photographers and secretaries. The prestige gained by being able to say you were a member of the Reporter organization is a value which can not be easily matched.

The Reporter is printed by the Institute's Graphic Arts Research Dept. as an experimental publication for the study of web-offset. Inks and paper utilized in the production of the newspaper are donated by various printing companies and suppliers in the interest of the advancement of web-offset newspaper production techniques.

More than 17,000 copies of the Reporter are printed and distributed to the students, faculty and alumni. Issues are also mailed to many other colleges.

Special Journalism Class Offered To Selected Freshmen Students

Freshmen students who worked on their high school newspapers, or who just have a plain yen to try their hand at writing, may be selected for the special Journalism section of Communication Skills CO 101, 102.

Early in the Fall and Winter quarter instructors in Com Skills classes will announce details pertaining to admission to the Journalism section.

Interested candidates will be requested to fill in an application and personal data form, and also take a short non-technical, qualification test.

The qualification test has been designed to indicate potential in journalistic writing, rather than to measure journalistic know-how. So all interested candidates, with or without experience, have an equal opportunity.

From 15 to 20 students are

Reporter publication is aided by the use of high-speed teletypesetters, which are part of the School of Printing. Printing is done on an ATF Webendorfer four-color web press, located in the basement of the Clark Building.

The Associated Collegiate Press has rated the Reporter as one of the best college newspapers in the country and has given comments of superior accomplishment in respect to photography and color work.

Together with the Rochester Gannett newspapers, the Democrat & Chronicle and the Times-Union, the RIT Reporter co-sponsors the College Newspaper Conference which is held at the Institute each year. Last year more than 25 area colleges and universities were represented.

The Reporter urges anyone who has an interest in newspapers or writing to make an attempt to become part of this organization. Anyone who feels he has an article which deems publication should submit it one week prior to publication date. A news box beside the telephone on the main floor of the Eastman building is there for your convenience. Deadlines are strictly adhered to in order to insure an efficient production schedule. All copy must be typed and double-spaced.

usually selected to go into the Journalism section. The class is under the instruction of Prof. Hector H. Sutherland of the School of Printing and utilizes the Reporter as its journalism laboratory. Using assignments and their own ideas class members are introduced to reporting, writing, copy preparation, editing, proofreading, and other basic journalistic techniques.

The recently expanded course now covers various other phases such as newspaper theory and practice, page makeup, and other technical aspects of newspaper publishing.

The class meets three times a week and students receive three credits in Communication Skills. The course runs for two quarters, and qualified students have the option of electing a third quarter for three additional credits.

All Faiths Represented In Campus Activities

Religion at the Institute occupies an important place in campus life. The Religious Activities Association coordinates and governs the three religious groups on campus: Newman Club, Hillel and Student Christian Fellowship. Its aims and purpose are to promote religious activities at RIT, create a better understanding of each religion and encourage social work, and similar services in the community.

RAA holds three quarterly dinners which are sponsored alternately by each of the represented faiths. These are open to the entire student body. It also sponsors the RAA Orientation Dinner for the incoming freshmen and Brotherhood Assembly during Brotherhood Week.

The Religious Activities Association attempts to provide a realistic, stimulating force on campus and encourages students to attend and support the churches of their faith.

Newman Club

The RIT chapter of Newman Club, a national organization for college students of the Roman Catholic faith, is active socially and spiritually. The club holds many communion breakfasts and sponsors religious speakers.

Developing a stronger faith among Catholic students under the guidance of its chaplain, the organization promotes religion, education and social life for its members. The club also sponsors parties for under-privileged children in the area.

Hillel

The purpose of Hillel is to provide the Jewish students of the Institute with a means for gathering together in order to enjoy mutually, through study and discussion, adequate and accurate knowledge of Jewish life.

It seeks to acquaint the student with the faith, literature, history, and the life and thought patterns of the Jewish people.

Among Hillel's activities is a convention lecture series at which many prominent persons have been guest speakers. It also sponsors the Lox and Bagel Breakfast and trips to different colleges during the year to meet with other Hillel chapters.

SCF

Student Christian Fellowship seeks to unify members of Protestant denominations, promote Christian ideals and increase understanding of other religions on campus.

SCF participates in social service projects in the RIT neighborhood and maintains a weekly

program of supper meeting and worship services. SCF also holds fall and spring retreats, a Christmas party and a fall picnic.

IVCF

The Inter-Varsity Christian Fellowship encourages students to lead others to personal faith in Jesus Christ to strengthen spiritual life through study of the Bible and prayer and to consider God's place for them in the world mission of the church.

This group is non-denominational and invites all students and faculty to become members.

Located as it is in the downtown area, RIT is within walking distance of several of Rochester's finest churches.

TX Launches Social Season

The brotherhood of Theta Xi fraternity will begin the social activity for the school year next Friday night, Oct. 4, at 8 p.m.

A popular rock and roll group will provide the music and entertainment for the "Do Drop In" and the entire student body is welcome. The admission price for the evening has been set at \$1.00 per person.

Attire for the evening will be strictly informal for everyone attending.

Posters for the event will give information for those needing rides or directions to the party. For a fun-filled and worthwhile time, all students are urged to attend.

Miss Deanne Molinari

John Mallory

Miss Molinari, Mallory Named To Institute Housing Staff

During the past summer two new staff members have been added to the Institute's Housing Office. In a recent announcement, Melvyn P. Rinfret, Director of Housing, noted the appointment of Miss Deanne Molinari and John Mallory as associate directors.

Miss Molinari is a native of Attica, N.Y., and received her B.S. degree in Education from the University of Rochester and her M.A. degree in counseling Psychology from Ohio State University.

Among her many collegiate honors is the winning of the Theta Eta prize for the senior contributing most to the University of Rochester. At Ohio State, Miss Molinari was awarded a graduate resident assistantship, and was Assistant to the Dean of Women and Head Resident, with responsibility for a residence hall of 575 women. Her office and apartment are in Kate Gleason Hall.

Mr. Mallory is from Deposit, N.Y. He received his B.S. degree this past year in Business Administration from RIT. Mallory was a consistent Dean's list student and graduated with honors.

For the past two years Mallory has been a resident advisor in Nathaniel Rochester Hall with specific responsibilities for approximately 65 floor residents. During the past summer Mallory

was charged with complete responsibility for the Men's Residence.

With the new re-organization in Housing, Miss Molinari will direct the activities of her assistant as well as the activities of the Head Resident Advisor and the women resident advisors. In addition, she will serve as faculty advisor to the Women's Residence Halls Association.

Miss Molinari's duties will also take her beyond the realm of Housing as she works with A. Stephen Walls, the Director of Student Activities in planning activities for both resident and commuting women.

In a similar manner Mallory will assume responsibilities for all men students. For the academic year Mallory will reside in Frances Baker Hall, the new Men's residence. His office, however, will be in Nathaniel Rochester Hall where he will direct the activities of the Head resident and the men resident advisors, as well as serve as faculty advisor to the Men's Residence Halls Association.

Computer Program In Lunch Hour

Junior and senior students in all colleges of the Institute will be given the opportunity this Fall of acquainting themselves with of the new IBM 1620 digital computer.

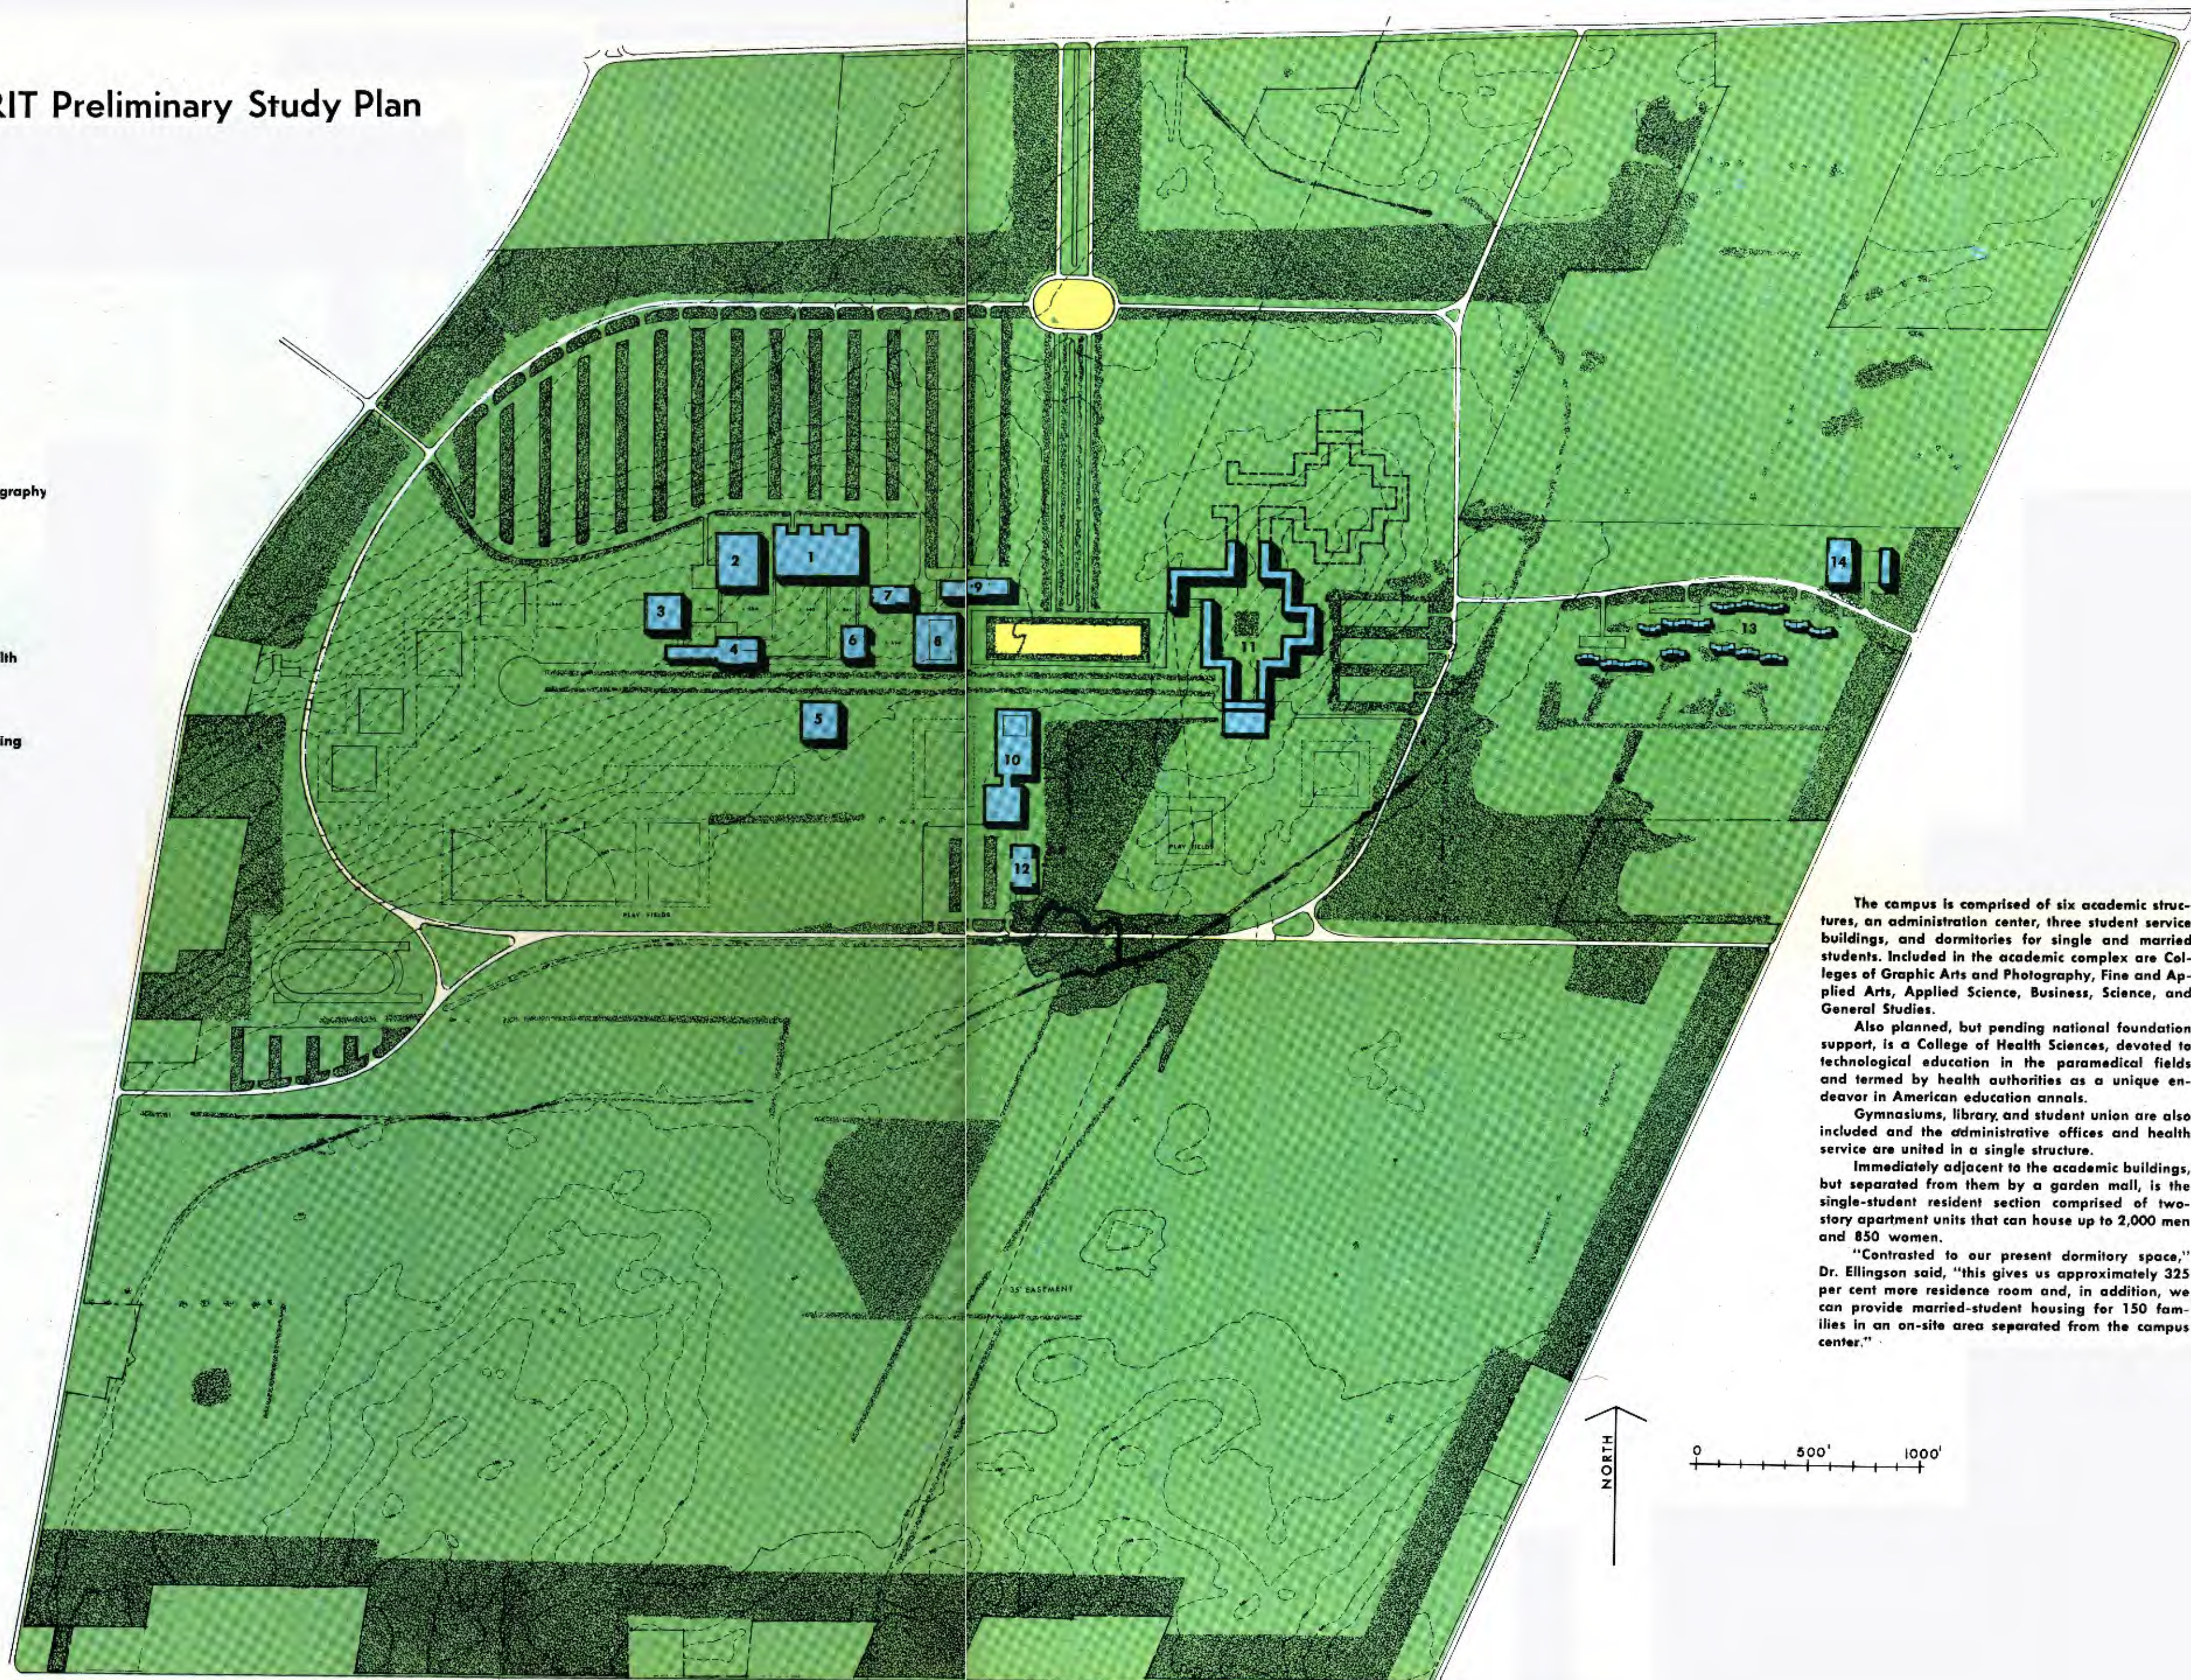

Special half-hour classes will be conducted during the lunch hour to enable students to become familiar with the machine and to teach them to write a simple program and how to run it on the computer.

The course will be non-credit, and will be under the direction of Prof. Frederick R. Henderson of the Dept. of Mathematics.

RIT Preliminary Study Plan

KEY

- 1 Graphic Arts and Photography
- 2 Fine and Applied Arts
- 3 Science
- 4 Applied Science
- 5 Library
- 6 General Studies
- 7 Business
- 8 Student Union
- 9 Administration and Health
- 10 Gymnasium
- 11 Dormitories
- 12 Power
- 13 Married Students' Housing
- 14 Service and Storage

The campus is comprised of six academic structures, an administration center, three student service buildings, and dormitories for single and married students. Included in the academic complex are Colleges of Graphic Arts and Photography, Fine and Applied Arts, Applied Science, Business, Science, and General Studies.

Also planned, but pending national foundation support, is a College of Health Sciences, devoted to technological education in the paramedical fields and termed by health authorities as a unique endeavor in American education annals.

Gymnasiums, library, and student union are also included and the administrative offices and health service are united in a single structure.

Immediately adjacent to the academic buildings, but separated from them by a garden mall, is the single-student resident section comprised of two-story apartment units that can house up to 2,000 men and 850 women.

"Contrasted to our present dormitory space," Dr. Ellingson said, "this gives us approximately 325 per cent more residence room and, in addition, we can provide married-student housing for 150 families in an on-site area separated from the campus center."

Institute Outlines Policy Changes for Academic Year

Included in every student's registration letter were forms and affidavits relating to the new regulations governing student organizations who wish to serve alcoholic beverages on campus. These forms were in preparation for the issuance of personal identification cards which students are required to carry at all times.

These rules for organizations, which were worked out concurrently by Student Council and the Student Personnel Services Dept. are here listed.

1. Alcoholic beverages may be served on Friday and Saturday evenings after 6 p.m., and on the new campus grounds from 4 p.m. on Fridays and 1 p.m. on Saturdays and Sundays. Alcoholic beverages may be served at other times by special permission from both the Director of Student Activities and the Social Chairman of Student Council.

2. Alcoholic beverages may be served at events open to the public, if children under 12 years of age are not present, with the approval of the Director of Student Activities and the Social Chairman of Student Council.

3. Beer may be served in non-academic buildings and other areas designated by both the Director of Student Activities and the Social Chairman of Student Council.

4. Mixed drinks and—or cocktails may be served for a maximum period of two hours at any cocktail party.

5. Admittance to events where cocktails and—or mixed drinks are served is to be by couples only with one person being a RIT student, staff, or faculty.

6. Non-alcoholic beverages must be available at all events where alcoholic beverages are served.

7. The Pioneer Room of Nathaniel Rochester Hall is the only dormitory facility where alcoholic beverages may be served.

8. All beverages must be served in containers such as cups or glasses which are not to leave the specified areas.

9. No individual or group may bring into or carry out of an area bottles or containers of any kind where said event is taking place.

10. Sponsoring organizations and chaperones are responsible for all conduct and must report all incidents of misconduct to the proper authorities.

11. All students are expected to behave in a manner becoming RIT students. Failure to do so may lead to disciplinary action.

12. Before a person is admitted to any area where alcoholic beverages are being served, he must show adequate proof of age which will consist of: (a) Picture of person in question along with the date of birth and name displayed on same card (Police Identification Card); and (b) Proof of being a student (Student Association Card).

13. All alcoholic beverages must be purchased from and served by the Institute.

* * *

Melvyn P. Rinfret, Director of Housing, has announced that in an effort to provide proper housing accommodations for most of the undergraduate students, the Housing Policy, issued by the Policy Committee of the Institute on January 9, 1963, will go

into effect beginning with this school year.

The rules and procedures of this policy are as follows:

1. All undergraduate, single students under the age of 21 and not living at home are required to live in Institute residence halls. Students living with a blood relative who has established a home within a commuting area, and students while on cooperative employment outside of the Rochester area, may be excused.

2. All residents of Institute residence halls will be required to sign a lease for the academic year.

3. All students, as listed in No. 1, who are not accommodated in Institute residence halls must reside in Institute-recommended housing facilities.

4. Supervision of all housing facilities, Institute or non-Institute owned, must be continually approved by the Director of Housing.

5. Any organization recognized by Student Council, which maintains a housing unit for any RIT student, shall be required to have a housemother or resident advisor responsible to and approved by the Director of Housing.

6. Any exception to these residence requirements must be approved by the Director of

Procedures

Procedures

1. All students not living at home or in Institute-provided housing must have written permission from a parent or guardian in addition to notifying the Director of Housing as to their local place of residence.

2. Violators of the policies pertaining to the Institute-recommended housing facilities, who fail to comply with the decisions of the Director of Housing, may be disciplined in the following manner:

a. A landlord would have his facilities removed from the recommended housing list until such time as he complied with the decisions of the Director of Housing.

b. A student would be suspended from classes until such time as he complied with the regulations set forth in No. 3 of these policies.

Counseling Center Serves Many Student Needs

Rochester Institute of Technology's Counseling Center served some 1,260 individual clients during the past fiscal year, according to the center's annual report released today by its director, Dr. Laurence Lipsett.

Of the 1,260 clients served, 425 were RIT connected either as students, job applicants, faculty and staff children, applicants for admission, or special course applicants.

An additional 835 community clients were served by the facilities of the center. These included 208 from business and industry, 349 from the general public, 180 for rehabilitation agencies and the Veterans Administration, 71 for the Institute Reading Labora-

LAST PIT STOP—The members of last years winning entry in the annual "Miss Carriage" race pose happily with their award. The race is sponsored by Tau Epsilon Phi Fraternity.

Many Activities Are United In New Student Center

The newest student facility on the RIT campus this year is the Activities Center. This building is located just west of the library at the rear of the visitor's parking lot. Prior to its being acquired by the Institute the building served as a community center for people of the 3rd Ward.

The new Activities Center will be open from 8 p.m. to 5 p.m. regularly and also on certain specified evenings.

The offices of William Toporec, Director of Veterans Affairs, and A. Stephen Walls, Director of Student Activities will be located in this building. Services in Mr. Toporec's office that will be available are information on Veteran's Affairs, Selective Service, part-time job placement, tours of the Institute facilities and the Peace Corps.

In the office of Mr. Walls students will be able to get infor-

tory, and 27 miscellaneous.

The 208 tested for business and industry represented a total of 46 local firms who used the center's facilities during the past year. Many firms had only one or two referrals to the center, while a few firms had as many as 25 during the year. Most were for personnel selection, with a few related to personnel difficulties.

The center is a professional service and research division of the Institute whose staff offer counseling and psychological testing in connection with educational and occupational planning or personnel problems.

mation on social activities, clubs, fraternal groups, and student council and its various campus operations. Organizations will find this office ready to assist them in obtaining chaperones and in planning activities.

Information on reserving rooms and general information regarding the operation of student organizations may be obtained from Mr. Walls' office.

During the year it is anticipated that tournaments in table tennis, bridge and chess will be held in the Activity Center.

The large assembly room will be available for organizations to use for meetings or parties.

Student Council is considering a Friday night movie series of foreign films and also holding their weekly meetings in the large assembly room.

Of additional interest to all students, the Activity Center will handle ticket sales for various functions in the city. Occasionally free tickets will be available to concerts and shows.

At the start of each quarter student parking permits will be sold in the Center.

Enrollment Climbs; 9,000 Mark Reached During '63-'64

For the first time in its history, Rochester Institute of Technology's total enrollment for an academic year rose to over the 9,000 mark during '62-'63 according to figures released today by Donald A. Hoppe, registrar.

A grand total of 9,095 students enrolled in RIT's day and evening college programs during the past academic year, with record figures established.

RIT's full time day school program enrolled a total of 2,511 students while the Institute's Evening College enrollment soared to over 6,000, with 6,283 enrolled in Evening College courses and an additional 301 enrolled in RIT's Summer Session.

The 9,095 figure exceeds the previous high total of 8,546 students enrolled in 1960-61, the year that the previous high for the evening college, 5,954, was also established. The former day school high of 2,370 students was set last year.

The figures indicate that the Institute has nearly doubled its enrollment in the past 10-year period with a total of 5,173 students enrolled in 1953-54, of which 1,152 were enrolled in RIT's day school program; 3,862 in its Evening College; and 159 in its Summer Session.

Largest enrollment of RIT's 10 undergraduate schools or departments was recorded by the School of Printing with 411 full-time students.

Five Added to Faculty Roster

Five new members have been appointed to the faculty at Rochester Institute of Technology, effective September 1.

Louis G. Daignault of Fishkill, N.Y., comes to RIT to teach analytical and instrumental analysis. He holds a bachelor of science degree from Clarkson College and his doctorate in physical chemistry from the University of Rochester.

Russell M. Miner of Binghamton, a graduate of the U.S. Military Academy at West Point, was awarded his master's degree from Duke University. He has taught mathematics at Duke, West Point and the U.S.M.A. Prep School at Ft. Scott, Calif.

Lal M. Mukherjee of Calcutta, India, holds a bachelor of science degree from St. Paul's College and City College, both in Calcutta, his master's degree from the University College of Science (Calcutta) and his doctorate from the University of Minnesota. He has been a post doctoral research fellow at the University of Alberta, Edmonton, Alberta, Canada, since 1961.

John S. Shaw of Angola, Ind. who will teach physics in the College of Science at RIT, was graduated from Indiana University, studied at the University of Minnesota and Tri-State College (Angola). He received his master of science degree from Indiana University in June of this year.

Thomas C. Upson of Suffield, Conn., comes to RIT from Rensselaer Polytechnic Institute where he earned his master of science degree this past year. He completed his undergraduate studies at Tufts University.

Tiger Tracks

Probably every new and eagerly awaited garment put on since clothes came in fell a trifle short of the wearer's expectation.—Charles Dickens.

As freshmen you have just donned the garment of college. It will fall short of the immensity of your dreams, but how short is up to you.

As freshmen you will be able to do little, if anything, to change the course of RIT history during your first months here. However, after your initiation into the scheme of the Institute, you will be looked at to provide replacements for those who will graduate before you.

As freshmen you are needed in all phases of student life whether it be in student government, fraternities, sororities, clubs, academic leadership, or athletics. Without your participation, the RIT of tomorrow will be nothing.

As freshmen you are needed to form freshmen teams, the backbone of tomorrow's varsities, to represent the Institute in intercollegiate athletics.

You have probably envisioned playing in or watching your first game as a college man or woman. Your expectations have been high. They *will* fall short, shorter than you ever imagined, and will never reach their imaginary goal unless you begin now to help build and strengthen the condition of athletics at RIT.

Last year in intercollegiate varsity competition RIT had two teams that posted favorable records at season's end. The other seven were on the short end of the stick, and some of these stick ends were very, very short.

If we do not find capable individuals with which to build up our teams, more short stick-ends are apparent in the near future. There is but one place where these individuals can be found and that place is in the freshman class, in you!

Not only are people needed who can perform outstandingly, but ones who can perform outstandingly *and* maintain the required grade point average for eligibility. Too many times in the past have good players been put in the bleachers because they couldn't or didn't want to keep their heads above the pro-line.

Intercollegiate athletics are tougher than high school athletics in many ways. There are more practices, more games, road trips sometimes encompass hundreds of miles and may include two or three games on consecutive nights, something unheard of in high schools. With all of this one who participates must keep up with his studies, pledge (if he desires), and participate in any other clubs and activities.

Can it be worth the effort that is generated? There are individuals who think so or they wouldn't have built the buildings and supplied them with the equipment necessary for a full athletic program. There are also those who have participated before and will participate this year, and next year, and in years to come, who must think that it is worth it or they would go to a beer blast rather than to practice on Friday nights.

It is important to stress that you are needed. With good freshmen who are willing to give of themselves for their school, their school can be something. Without them the sports program will continue on its downward trend until Ritter-Clark has use only as a boy's club for the neighborhood kids.

It is you, the Freshman Class, at which this letter is directed, and it is up to you to remember that you are needed—as freshmen!

FORE—RIT linksmen tee off for a busy round of tournament play. The team's first match will be held October 4.

Golf Team In Tournies

RIT's undefeated golf team will participate in the Brook Lea College Invitational golf tournament to be held at the Brook Lea Country Club on Friday, Oct. 4.

In 1962, when the RIT linksmen were entered in the contest, Tiger captain for last year Jerry Abel placed first among all other golfers. In team scores the Techmen placed second to Buffalo State.

Following the Brook Lea tourney, the team will be entered in the Eastern Collegiate Athletic Conference qualifying rounds on Oct. 12.

Lettermen's Club Convenes Friday

The RIT Lettermen's Club is sponsoring this year a "Meet the Coaches" banquet and reception for all sports minded freshmen and upperclassmen.

The gathering, scheduled for Sept. 26, is to be held in the recreation room of the Ritter-Clark Memorial Building. All coaches will be on hand to answer any questions pertaining to the athletic program at the Institute.

The reception is a "must" for anyone interested in participation in any of the sports offered at RIT.

Cross Country, Soccer Open Fall Sports

Coach Jim Dickie's soccer team, now in its fourth season of varsity competition, will play only three of its 10 scheduled games at home.

Scheduled here on Oct. 26 for Homecoming will be one of the Tigers' toughest opponents, Hartwick College, last year New York State champions.

RIT travels to St. John Fisher and hosts Roberts Wesleyan in key local encounters.

Coach Bill Salmi's RIT harriers, in their second season of competition, will face an ambitious 12-meet schedule with four home meets to be run on RIT's future campus home in Henrietta.

The Tigers, expected to improve this year, will compete in the LeMoyne Invitational, the Canisius Invitational, and race newcomers to the schedule: Cortland State, Case, Fredonia State and Gannon.

The complete schedules for both sports: Soccer, Sept. 28, Buffalo State; Oct. 2, at Ithaca College; Oct. 5, at Oswego State; Oct. 9, Roberts Wesleyan; Oct. 12, at Geneseo State; Oct. 19, at Potsdam State; Oct. 26, Hartwick; Oct. 30, at St. John Fisher; Nov. 2, at Utica College; Nov. 9, at Newark College of Engineering.

Cross Country, Sept. 28, St. John Fisher; Oct. 2, at LeMoyne Invitational; Oct. 9, at Cortland State; Oct. 12, at Roberts Wesleyan; Oct. 16, LeMoyne; Oct. 19, at Fredonia State; Oct. 23, Brockport State; Oct. 26, at Canisius Invitational; Oct. 30, at Oswego State; Nov. 1, at Case Institute; Nov. 2, at Gannon College; Nov. 5, University of Buffalo.

Weekday home soccer games will start at 4 p.m.; Saturday games at 3 p.m. Home cross-country meets will start at 4 p.m.

New Campus Hosts Sports And Picnic

Highlighting this year's Freshman - Faculty Picnic will be the first sporting events to be held on the new campus. Soccer and cross-country will both open their seasons on their newly laid out field and course.

The soccer game will be the first to get underway when the Tiger pitchmen oppose Buffalo State at three o'clock. Immediately following the opening kickoff the harriers will take off and run against St. John Fisher at 3:15 p.m.

Both teams are looking forward to bettering last seasons records and with the number of lettermen returning, outlooks for this year are extremely probable.

The soccer team, under the Scottish coaching of Jim Dickie, is out to make a thrust at their first winning season. Last year the squad turned in a 5-6 tally, losing a few tight matches and defeating formidable opposition.

Although the cross-country team was able to turn in only one victory in their first year of competition, the factor of having most of their first five runners trotting again this year gives a favorable outlook to this year's season.

Both teams will accept new candidates until Oct. 1. Any freshman or upperclassman wishing to try out for a spot on either of the teams should contact Coach Jim Dickie for soccer or Coach Bill Salmi for cross-country.

Winter Sports Set Practices

With the opening of school comes the opening of practices for the Winter quarter's sports.

Earl Fuller, wrestling coach, and Paul Scipioni, fencing coach, have set up their first practice sessions for Tuesday Oct. 1. This is for both freshmen and varsity and registration will take place at 5:15 p.m. in the basement of the Ritter-Clark gym.

The day set for the beginning of basketball practice has been announced to be Tuesday Oct. 15. Freshmen and varsity should come prepared to practice on this date.

The coaches have expressed a need for managers, especially freshmen, for all teams.

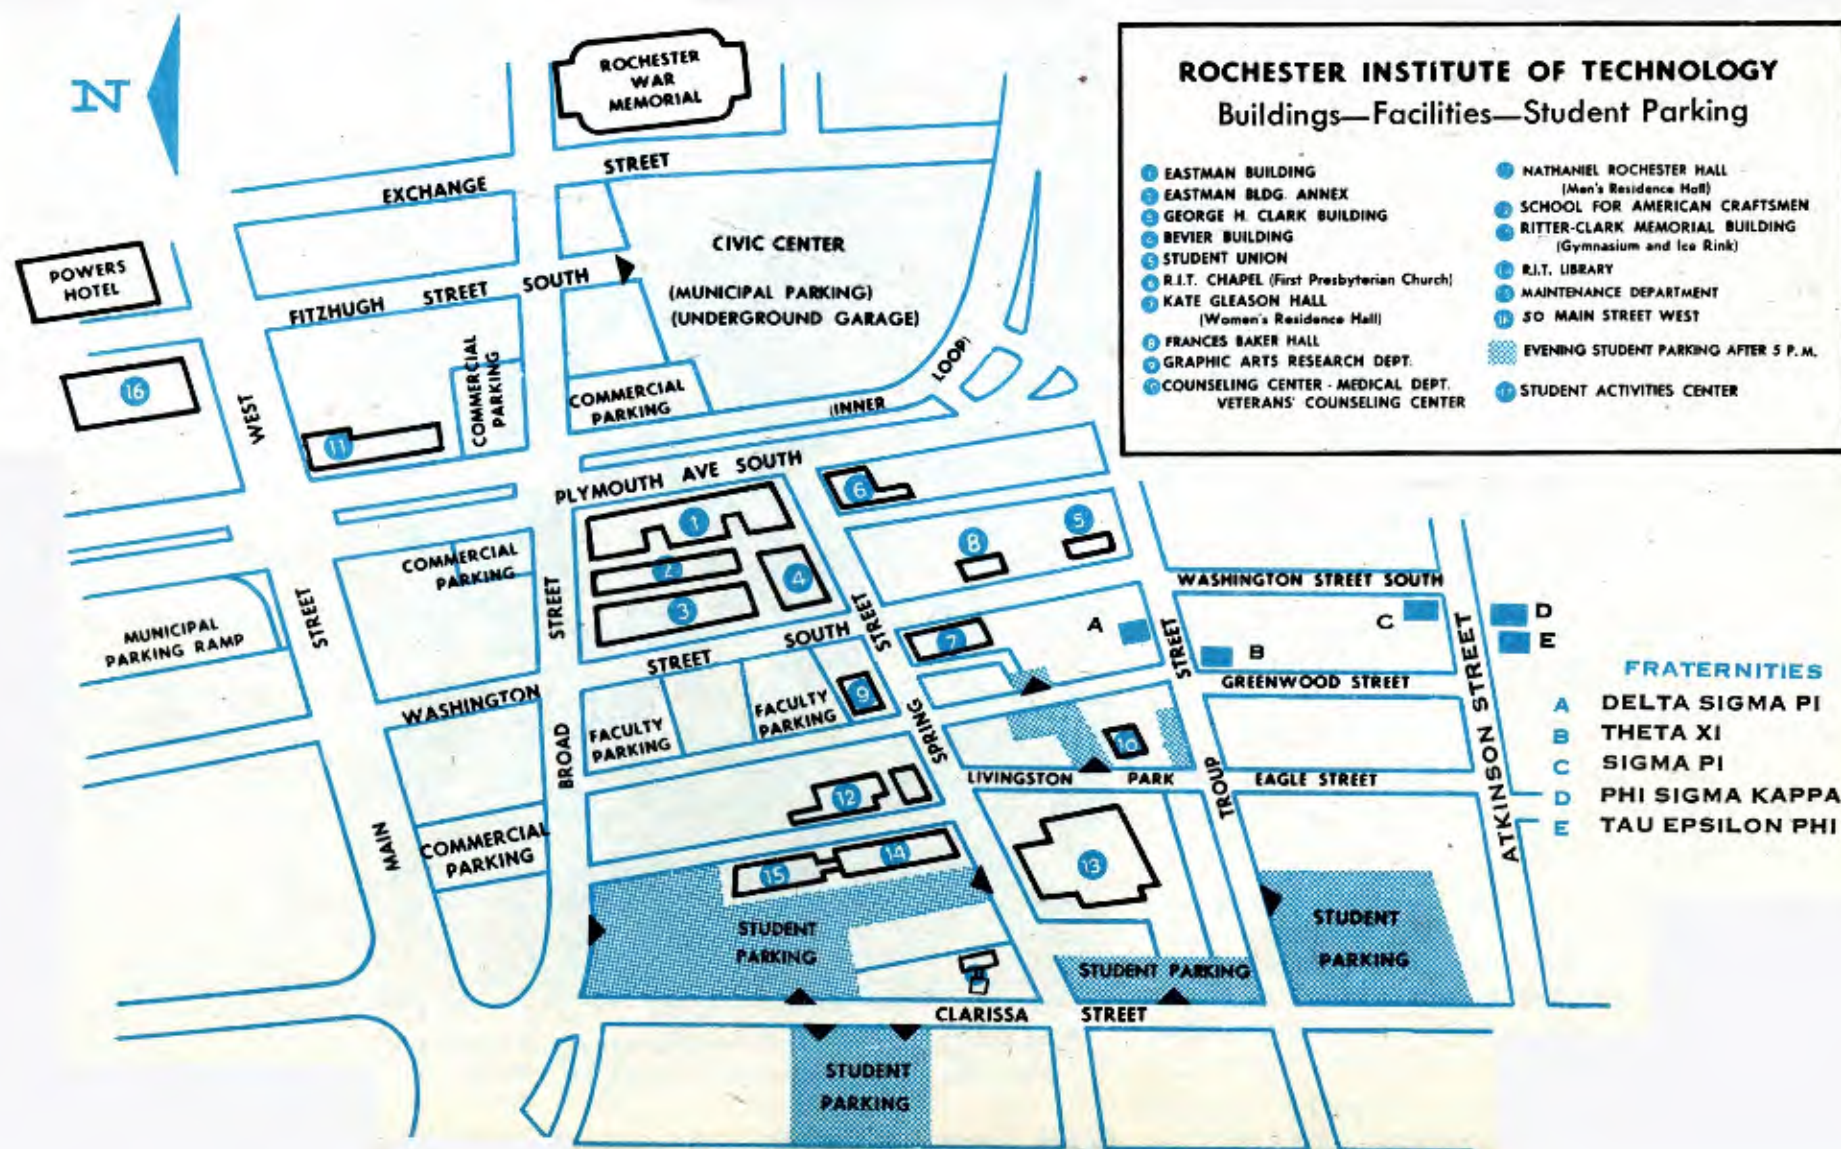

RIT CAMPUS BARBER SHOP

three barbers on duty to serve you

Located in
MEN'S DORMITORY

Open 8 A.M.-6 P.M. Closed Wed.

Tuesday, September 25, 1963
 1:30 P.M. President's Assembly for parents and students, Dr. Ellingson to speak, in Ritter-Clark Gym
 2:00-4:00 P.M. Reception in the Ice Rink, Tours of the Institute
 7:00-10:00 P.M. Dance—W.I.T.R. in Activities Center
 10:00 P.M. Meeting of all resident Freshmen women at Kate Gleason Hall

Wednesday, September 25, 1963
 8:30 A.M. Department or School meetings
 9:45-4:00 P.M. Registration for Freshmen
 8:00 P.M. Meeting of all resident Freshmen men at Nathaniel Rochester Hall
 8:00 P.M. All Freshmen women meet Dr. Cayley and Dr. Murphy in Activities Center

Thursday, September 26, 1963
 8:00 A.M.-12:15 noon Communication Diagnostic Testing (2 sessions)
 *1:00-2:30 P.M. Introduction to Academic Emphasis I - Business and Mechanical
 *3:30-5:00 P.M. Introduction to Academic Emphasis II - Photography and Art and Design
