

# RIT to Operate Split Campus

New Campus Graphic Arts and Technology Building  
(Photo by Bob Kudola)

RIT will operate two completely separate campuses during Fall Quarter of 1967, Dr. Mark Ellingson, president of the Institute, has announced.

The split campus is due to the failure of the Foster Lipkins Co. to complete the \$8.6 million graphic arts and technology building. Approximately 13,000 students now enrolled in the College of Fine and Applied Arts and the College of Graphic Arts, and close to 13,000 expected enrollees will be affected.

Students on the downtown campus will have their own faculty. Dr. James B. Campbell, vice president of Student Personnel Services, said, "Students forced to remain on the old campus for the quarter will not be deprived scholastically due to the situation."

He did admit, however, that some courses, such as science labs, may be dropped for the quarter.

Campbell expects most of the trouble to come from sharing the staff and staff services between the two campuses. It is possible, for example, that the library may operate a book mobile to transport books from the Henrietta complex to downtown students at their request.

Personnel from the counselling center, the health center, student personnel, and student activities are expected to spend at least part of the week at the old campus.

The Institute will continue to operate Nathaniel Rochester Hall, Kate Gleason Hall, the Bevier

Building, the Clark Building, the School for American Craftsmen, and possibly the West Main Street Building.

J. Schiberg, construction supervisor, places the blame for the delay (which affects about one-third of RIT students) on the manpower shortage in the area. Workers were imported from Canada to work on the building, started in October of 1965.

Students who wished to work on the new campus last summer were turned away until permission could be secured from the local union

(continued on page 4)

## Split Campus Housing Policy Announced by Administration

"Split Campus" housing for Fall Quarter 1967 will utilize both present and new campus housing units. The administration has announced how this will affect students.

Students whose academic classes will be held on the new campus and who come from beyond commuting distance will be required to live on the new campus and comply with the compulsory board plan.

Greek housing policy has not yet been finalized.

Students whose academic classes will be held on the present campus will adhere to the following:

All coeds not coming from a commuting distance will be required to live in the residence halls on the present campus.

All first and second year men students (non-commuting) will be required to live in residence halls either on the present campus or the new campus. These students must inform the Men's Housing Office not later than March 15 as to where they want to live.

Dr. Campbell emphasized that it will be the student's responsibility to commute if he chooses to live at the new campus. The Institute will not provide transportation.

All third and fourth year men students will have a choice as to whether they live in residence halls or in the community. They must inform the Men's Housing Office by March 15 as to their choice. This pertains only to students who will be using the downtown campus next fall.

When the facilities are ready on the new campus, all students living in residence halls at the present campus will be required to move to the new campus. Students having apartments may keep them, or they may move to the new campus.

It is anticipated that NRH and Kate Gleason Hall will be the residence halls used at the present campus for Fall 1967. Students living on the present campus will pay the present rate schedule. Those living on the new campus will pay new campus rates.

## Memorial Committee Names Six New Campus Buildings

by Tim Mathers

The RIT Board of Trustees Committee on Memorials has named several buildings on the new campus. The committee, headed by F. Ritter Shumway, took the position that all names presently used in connection with existing buildings shall be perpetuated on the new campus.

In keeping within the guidelines, the committee reached several unanimous decisions.

The administration building is to be named after George Eastman.

The gymnasium is to be designated as the George H. Clark Memorial Gymnasium. Clark was a member of the board for 43 years (from 1910 until his death in 1953).

The ice rink will be known as the Frank Ritter Memorial Arena. Ritter was one of the founders of the Mechanic's Institute in 1885, and a member of the Board of

Trustees for 18 years until his death in 1903.

The College of Applied Science (Engineering) is to be named in honor of James E. Gleason, who was a member of the Board of Trustees for 65 years, and served as chairman of the board for approximately 40 years. He was instrumental in the conception and planning of moving the campus to a new location to facilitate future expansion needs.

The facilities housing the Fine and Applied Arts will be named in honor of James E. Booth.

The wing housing the Graphic Arts and Journalism Schools will be named after Frank E. Gannett, who was instrumental in the founding of the School of Printing. He served for 19 years on the Board of Trustees until his death in 1957.

## Last of Four Candidates for Head of NTID Visits Campus

Dr. Richard Bjork, assistant to the president and presently in charge of overseeing the National Technical Institute for the Deaf, has revealed that the last of four candidates for the position of chief administrator of NTID was on campus Jan. 6.

Dr. Lloyd Graunke, the superintendent of the Tennessee School for the Deaf, arrived on the 6:45 plane Friday afternoon and left the following afternoon.

Bjork stated, "We hope the new chief administrator will be on campus within 30-60 days after his appointment."

Selection and approval of the candidate is anticipated on Friday, Feb. 13. This is the date of the next Institute Board of Trustees meeting.

Beside Graunke, the following persons are being considered for the position: Dr. Richard Brill, superintendent of the California

School for the Deaf; Dr. William Craig, director of teacher training for the deaf at the University of Pittsburgh; and Dr. Robert Frisina, dean of the Graduate School at Gallaudet College in Washington, D.C. Gallaudet is a liberal arts college for the deaf.

Craig is also the author of the University of Pittsburgh's proposal for NTID. The university was considered as a finalist by the presidential advisory board that selected RIT unanimously Nov. 14.

The selection of the architect's firm for the new college and the persons to serve on the advisory group to NTID is expected by the end of January, Bjork announced.

Members of the board will be chosen by the Institute with the approval of the Secretary of Health, Education, and Welfare, John Gardner. Two congressmen must be members of the board, according to the congressional legislation which established NTID.

## Scholarships Received by Four Students

Four RIT food administration students have been presented scholarships for scholastic achievement and technical proficiency.

Stouffer Food Corp. of Cleveland, Ohio, awarded three \$250 scholarships to seniors Marylou Trowbridge, Michael R. Yates, and Philip Latos.

Serv-Rite Food Service and Consulting Corp. of Rochester awarded a \$200 scholarship to Pamela K. Griffith, a junior.

FROSH ELECT TIGER TICKET--Freshmen elected the Tigers to lead them on the new campus. From left to right: Linda Frey, secretary; Bruce Baumgarten, president; Dick Laetsch, vice president; and Alison Adams, treasurer. (Photo by Paul Johnson) (see story page 5)

## a new year's resolution

The Reporter is dedicated to the student interests and attitudes. The paper is student written, edited and oriented.

The funds we receive from the Institute come from your tuition. With this in mind the editors and staff of the Reporter are determined to give you your money's worth in news and commentary during the coming year.

We will continue to improve our efforts to inform you in 1967. We will attempt to reflect your attitudes and to print facts and opinions to stir your interest in the academic and social climate that is RIT. Because we are uncensored, we are truly able to reflect and interpret your opinions.

In doing this we need your help. Students write this paper, but without a large and active staff the Reporter will not be able to do its job thoroughly. We need students to work in our editorial, graphics and business departments. If you would like to work for an organization that has the ability and potential to not only reflect but also to direct student opinion, come in and see us.

To those who are too occupied to work for us, we ask you to express your opinions on campus events either in person to the editors or to the student body through letters to the editor. This is our main method of determining student attitudes.

Our New Year's resolution is to serve you better; we ask that you also resolve to help us. P.J.F.

## higher tuition?

On Jan. 3, the administration released the news that the new campus would not be completed by the Fall of 1967 target date. Almost the entire campus -- students, faculty, and staff -- can sympathize with the Institute and the position in which it now finds itself. There will be sacrifices made on the part of all involved.

Among the hundreds of questions yet unanswered are those involving students and money. On Oct. 21 the administration announced a hike in tuition and room and board to pay for the \$60 million complex in Henrietta. If the Institute foresaw a need to raise costs at that time, how much more money will they feel they need to meet, not only the heavy expenditure of the new campus, but the cost of simultaneously operating two campuses as well? Will tuition rise again next year?

Those students who must remain at the downtown campus for at least another quarter are also questioning the \$75 College Union fee. Will these students be required to pay for a building they will not be in a position to use?

Will they be required to pay for courses that may be dropped for a quarter to accommodate the split campus scheduling?

Rumors are many. It would be wise for the administration to issue a formal statement soon, advising whether or not students will be required financially to pay for a contractor's failure to complete a building on schedule. S.Z.

## letters to the editor

### ARE WE INDIVIDUALS?

Dear Editor:

It does not seem to me whether in relation to participation in campus activities, a person is in a fraternity or not. The student here, so we are told, is supposed to be an individual; and, if so, it would seem that taking an active part in student activities is purely an individual matter.

What seems of concern to me in relation to individual student expression in any form is the school's policy of "like it or not - too bad." For example in the case of the meal plan, we are told that we will have to subscribe to it because the administration needs a way to determine the relative costs of running the plan in the future.

Enforced housing has been put upon us because it could be of aid to RIT's future financial support. These two examples of RIT's future planning seem to have taken up the administration's full concern. This seems poor logic to me because what seems like student apathy today will in the future become a hostility directed against the school on the part of its future alumni for the school's having squeezed the last penny out of their pockets.

The result will be that unlike most schools which enjoy increasing alumni support as their reputation increases, RIT will lose what could become an increasingly more important means to its financial support.

John N. Heroy (Photo 1)

### STUDENTS FACED WITH PROBLEM

Dear Editor:

The students at RIT are faced with a problem. Should we continue to support the present campus newspaper, or should we go all out for this new newspaper which would be financed by us, the students, through our student activities fee? Before a solution can be arrived at, we must honestly and intelligently explore the communication media which are presently available. It seems that the students have forgotten about the second voice on campus, radio station WITR. Let's concern ourselves with our campus radio station and how it can be a voice, not only for the students, but for the faculty and administration as well, and at a cost to the students which would be considerably under the \$10,000 figure which the student-financed newspaper would cost.

You may be saying to yourself, "The radio station doesn't mean anything to me, I can't even hear it." I must admit, this is true for just about everyone except those living in the dorms. Because of our classification with the Federal Communications Commission, we are unable to send our signal through the downtown community. Instead, we have to satisfy ourselves by merely broadcasting to the dorms. However, this situation will change when we reach the new campus. Practically

(continued on page 3)

## a split campus newswise

A letter to students, faculty, and staff from Dr. Ellingson dated Jan. 3 announced the "split campus" effective Fall Quarter 1967. To Dr. Ellingson, as to a great many people, the announcement was made with obvious deep regret. We wonder, however, if Dr. Ellingson was aware of the already "split campus" which has existed for sometime with regard to the administration and the "official publication" of the Institute.

For although the Institute had demanded that the Reporter carry the label "official" publication, to the dissatisfaction of many students and faculty, the administration has often failed to consider this paper when releasing news of interest to both the RIT and the Rochester community.

We can appreciate that our weekly deadlines will sometimes prevent the Reporter from being "on top" of the news. We also realize that certain news must be released at once, for various reasons. Yet one of a newspaper's primary objectives is to inform its audience. This is most difficult when the RIT community must read the local papers to be informed of policy and official statements, as in the recent case of the delayed completion of the new campus.

The people gathering, writing, and editing the news are students. Their primary purpose at the Institute is to study. It is impossible for them to be as persistent in their news gathering as the reporters of the local papers who devote all their time to the problem.

It does not seem unreasonable, therefore, to ask that the administration keep the Reporter informed as to when news will break. An editorial to this effect was printed in the March 25 issue of the paper. Yet the Institute continues to fail to take full advantage of the paper.

Next fall there will be a tremendous problem in keeping the entire campus informed. We hope that by that time the split will be between Henrietta and downtown Rochester, rather than the Reporter and the administration. S.Z.

## graduated tuition

Over two months ago the Institute announced what seems to be becoming an annual event, a tuition increase for the following year.

Varying from school to school the increases amounted to at least another \$150 next year.

As students we can gripe and complain about this increase but we can also see the reasons behind it; a new campus and progressively increasing costs. And as students we can also ask the administration to try to help us pay our tuition bill each year. We can ask for a graduated tuition system to be initiated at RIT.

The system is a simple one. When a student enters the Institute in his freshman year he is told how much he will have to pay in tuition for the year and he is guaranteed that his bill will not change through four normal years of education. If the Institute wants to raise the tuition they must calculate the increase for the next entering class, but they cannot raise the tuition of students who are already enrolled.

Give the students a feeling of financial security; they'll trust and respect you for it. P.J.F.

## Curtis Appointed Director Of Alumni Relations Staff

Glenn T. Curtis has been appointed director of Alumni Relations, it has been announced by Alfred L. Davis, vice president of Development and Public Relations.

Curtis replaces James R. Carey, who has accepted a position with Grau, Metzger and Birnbaum, Certified Public Accountants. Director since March 1965, Carey returns to the field of his college major, public accounting.

Appointed assistant director of Alumni Relations in September 1965, Curtis has participated in nearly all phases of alumni work, primarily homecoming and reunions at professional conferences.

"He has been a tremendous asset to our increasing alumni program, and his appointment leaves no doubt in my mind that Alumni Relations will have an excellent administrator who will be a credit to the Institute and Alumni Association," said Carey.

A graduate of the RIT School of Printing, Curtis was a laboratory technician for Plastron Inc., a research center for plas-

Glenn T. Curtis  
tics, before taking his post at RIT.

Alumni Relations is the center of alumni activity on campus. It maintains records, works with the placement office to assist alumni, and organizes homecoming, regional clubs, departmental reunions, the Pacesetters program, and the alumni phase of the New Campus Fund campaign.

## Food Students Receive New Scholarship Fund

RIT has been presented \$5,000 by an anonymous donor to establish an annual scholarship endowment fund for food administration students.

The annual interest from the fund will be used for a \$200 scholarship for a food administration senior displaying high academic achievement.

The fund has been named for Mrs. Harriet Thayer Adams, 1942 graduate of the food administration program, who was president of the Delta Omicron sorority and Intersorority Council while at RIT.

## letters to the editor

(continued from page 2)

everyone will be living on campus and will be able to listen to us. At the new campus we will have some of the most up-to-date broadcasting equipment available, and the finest facilities with plenty of room to work in our offices and studios at the college union. We have been working for the past two years preparing for the time when we will move to the new campus and hold a position as a communications voice for the entire campus community which will be as strong or stronger than that of the Reporter.

A campus radio station is more than an oversized record player. The possibilities for effective communication between the faculty, administration, and students is overwhelming. Some of the many avenues open are panel discussions on topics of interest which would enable friendly debate between members of the administration, faculty, and students all at once, not like a newspaper where usually, only one side of a problem is heard. Think of the many interesting and knowledgeable instructors we have on campus. To listen to them speak on a topic of which they have great knowledge would certainly be more interesting than reading the same thing in the newspaper.

These are only two of the roads open for more effective campus communication. The potential is there for those who want to put it to good use. Why support a second newspaper? Why not support the campus radio station instead. Remember, we are not a pawn of the administration, we are not a pawn of the faculty, and we are not a pawn of the students.

We are instead, servants to all three major occupants of the campus community. We can be heard not just once a week, but all week long.

Why waste money on a second newspaper which would only duplicate the efforts of the present communications facilities. Before you spend \$10,000 a year of your money, why not consider the potential of WITR?

Mark Weinstein  
WITR Business Mgr.

## APOLOGIZE, "FABLES"!

Dear Editor:

The last three frames of "Folkman Fables" in the Dec. 9 issue of the Reporter were in poor taste. An apology should be forthcoming.

Gary Proud (Bus Adm 4)

# faculty comment

Robert Webster is an assistant professor in the School of Printing. He received his B. S. from State University College at Buffalo and his Masters from Ball State University. Webster has served as the advisor to Student Senate although he is now on leave of absence to build a new house. While an instructor at the Western New Mexico University he was an advisor to Indian students, and was responsible for the establishment of a student rodeo.

## it's all up to you

by Robert J. Webster

I am sure that all of you have aims, but did you ever sit down and try to put them on paper?

Probably the first aim of anyone should be to develop worthy character. Let me give you a definition of character. I have always thought that this brief definition of character, "What you are in the dark," is about as good as any can be. Your character is what you are when you are only with yourself.

Charles A. Lindbergh, recognizing the importance of character, said this, "Short term survival may depend on the knowledge of nuclear physics and the performance of supersonic aircraft, but long term survival depends on the character of man."

The way you react when trouble comes to you is a great indication of your character. There is an old adage that an oyster produces a shirt button or a pearl according to the irritation. What irritates or stimulates you will determine whether you will be a shirt button or a pearl.

The second aim I would urge on you is that of having an open mind. Most of our so-called reasoning consists of finding arguments for going on believing as we already do.

There's the story of the farmer who exhibited at a country fair a pumpkin grown in the exact shape of a two-gallon jug. The farmer said that when it was no bigger than his thumb, he stuck it in the jug and just let it grow. When it filled the jug, it quit growing.

What the glass jug did for the pumpkin, your beliefs can do for you. You grow as big as the things you believe, and there you stop. Beliefs are creative, and they are also restricting. They make us what we are and limit us to what they are.

As a third aim, I would encourage you to include service. Teaching

offers one of the greatest opportunities for service, but many people find opportunities for service in practically every profession and occupation.

Of course, the finest service you can render anyone is the service that will in turn do you the most good. Did you ever try doing something for someone who will never be able to repay you? There is where you will get the most satisfaction.

Closely allied to the aim of service is the aim of helpfulness. Did you ever stop to consider that when you help someone up a hill you are a little nearer the top yourself? The best way for progress to happen in any society is to help the man ahead of you, not use him as a stepping stone.

Your aims can determine what your life will be. I would like to close with this thought:

You have a plain bar of iron worth about \$5.00 to start with--make it into horse shoes; make it into screwdrivers or kitchen cutlery and it may be worth \$250; made into needles, it is worth \$3,250; made into balance springs for watches, it is worth \$250,000.

The same thing is true of another kind of material -- you. Your value is determined by what you make of yourself.

## Tiger, come out of the jungle.

We're looking for a man who will be important to us. We don't know what he is doing now. But we will find him. We will teach him Mutual Funds. Then he will sell. On commission. If he wants, he can start part time. But after three months he should be ready to move up into his lifetime career with us. He will rate three things:

- 1) Superior income.
- 2) Professional dignity.
- 3) Real opportunity to advance into management in a world-known company.

Frankly, this is an unusual ad for us. We are not jungle people. We are one of the largest, most respected, and fastest growing investment firms in the U.S. Now we must--repeat must--structure our growth for the future.

You may be one of the men we are going to build into that structure. Now, when it counts most. If you think you are, tell us: Sell us in a personal interview. It may be the most important of your life.

# A New Idea In Student Housing

(ACP) -- A co-educational "college house" established and operated by University of Texas students who were dissatisfied with dormitory and fraternity living could prove to be a welcome housing experiment at other institutions, comments the Kansas State University Collegian, Manhattan.

With money from a private foundation and cautious consent of the dean of students, the students opened the off-campus living quarters in which they make their rules and select residents.

The "house" is actually a complex of buildings, with coeds and men usually living in separate buildings. A professor and his family live in each complex, and other faculty members are invited to dinner often.

Students there think the college house has been a major influence on changes in university housing. The university no longer requires students living off-campus to stay in approved housing; they can live anywhere they please. And the school has approved plans for an on-campus coeducational dormitory.

The college house seems like an excellent mode of living for those students who like to live neither

in an apartment nor under the regulations of the greek system.

A group of students living together in this manner, having occasional faculty members to dinner, could establish the foundation for a stimulating intellectual atmosphere.

## Reporter Vacancies Occupied

Co-editors Selina Zygmunt and Philip Fraga have announced the promotions of Paul Kwiecinski, Jack Kerner, Steve Charkow, and Tim Conner on the Reporter staff.

Kwiecinski, a first year printing major from Bethpage, has moved from the position of public relations director to business manager, a post left vacant by the resignation of John Shoulet during the fall. He will supervise the business department and have the responsibility of the advertising, circulation, public relations, and office management areas.

Kerner moves up from assistant sports editor to the sports editor position vacated by Dick Sienkiewicz. Sienkiewicz, in a letter to the staff, explained that he is transferring to a college closer to his home. Kerner hails from Erie, Pa. and is a first year printing major.

Conner, a sophomore printing student from Woodland, Calif., will assume the position of layout editor. He will coordinate the layout and production areas of the paper.

Charkow has been promoted to production manager from the assistant's position. Sanford Rieff vacated the position because of personal reasons.

The co-editors also announced that the positions of public relations director, office manager, typography assistant, assistant sports editor, and copy editor are open. Anyone who is interested in these positions may apply at the Reporter office.

"THERE'S ALWAYS ROOM FOR ONE MORE." -- The Glee Club kicks off their Winter Quarter recruitment program. Your voice is invited. (Photo by Robert Bates)

### NSF AWARDS GRANT

The National Science Foundation has awarded the Chemistry Department a \$6,300 grant for undergraduate research.

The grant will be used to help support RIT's cooperative work-study program in chemistry. Several students each year are selected to do full-time research to fulfill their work requirement.

### Reader's Digest Foundation

#### Donates \$30,000 to New Campus

The new campus fund has received a \$30,000 pledge from the Reader's Digest Foundation and is now "well past" the \$18 million mark of its \$18,800,000 minimum goal, Dr. Mark Ellingson has announced.

The grant was authorized by the magazine's board of directors and transmitted by Sterling Fisher, executive director of the Reader's Digest Foundation, Pleasantville.

Dr. Ellingson lauded the magazine's continued interest in RIT which performed a substantial amount of research for the Read-

er's Digest in the area of four-color web offset reproduction.

"The Institute appreciates the Reader's Digest expression of interest in RIT's programs in graphic arts education and expansion of its educational opportunities through its new campus program," he said.

### Split Campus

(continued from page 1)

to employ non-union members. Most students had taken jobs elsewhere by the time this permission was granted.

The Colleges of Applied Science, General Studies, Business, and Science, and the Library are expected to be finished by Sept. 1. All other buildings, with the exception of the graphic arts building are expected to be finished prior to the opening of school.

Dr. Ellingson, in the letter announcing the campus delay, expressed his "personal regret" over the situation.

## 'The Image' Night School Newspaper

The Evening College has begun publication of The Image, a newspaper designed to report on all matters of interest to Evening College students.

The Image, according to the statement of purpose, will be a source of information concerning student affairs, as well as a means of enhancing community relations. It will editorially support the interests of evening students in relation to student government activities, administrative policy, and local and national legislation.

The editor is Ken Browne and the address is 65 Plymouth Ave.

## Tryouts Held; More Next Week

Tryouts for Glee Club will be held on Thursday, Jan. 19, at 8:30 p.m. in the Student Activities Center. Any interested fulltime undergraduate or graduate student at RIT is eligible to try out.

David Hill, vice president of the Glee Club, announced that the organization will sponsor a Winter Concert-Dance on Sunday, Feb. 5, in the Ritter-Clark gym. The concert-dance will feature the Glee Club, the Eastman Madrigal Singers, dancing to a live band, and refreshments. Tickets will soon be on sale at \$1 each.

# Staab Appointed Chairman Of College Union Directors

The College Union Selection Committee has selected appointments for Union directorships, Director William H. Rose has announced. The proceedings were according to the College Union constitution.

The committee, composed of Rose, Dr. James B. Campbell, administrative adviser; Dr. Frances Hamblin, faculty adviser; A. Stephen Walls, director of Student Activities; Ray E. Baker, president of the Student Association;

J. Thomas Staab, vice president of the Student Association; Ralph Cyr, president of MRHA; Beverly Karl, president of WRHA; and Jan Camelio, representative of the greek system, reviewed the applications submitted to them and decided on the following appointments:

Chairman, Thomas Staab (Pr 3); vice chairman, Susan Gerhardt (A&D 3); cultural director, John Samuel Smith (Photo 2); financial director, Walter Vance (Bus Adm 2); recreational director, Barry Leaventon (Pr 2); public relations director, Brenda Erdle (A&D 3); operations director, Ralph Cyr (Pr 2); and secretary, Judy Fisher (SAC 2).

The committee, because of a lack of qualified applicants, decided not to appoint people to the positions of social and special events directors. These positions will be filled by a vote of the new College Union Board of Directors later this year.

Before the above appointees can be installed, they must go before a school-wide ratification procedure. Ratification will take place on Thursday, Jan. 19, in both the Eastman and Main St. buildings between 9 a.m. and 3 p.m.

## heritage

by Selina Zygmunt

### HERITAGE FOR FALL, 1966

This fall, as in each preceding year, the RIT community has created its own heritage for the first quarter of the 1966 college year. The events that were today's news have suddenly become a part of the Institute's past.

While clippings may be preserved in a scrapbook and safely sealed in the archives, the people who created the news will continue to create a heritage for RIT. A look at the past might indicate the trend for the future.

#### Intended Move to Henrietta Dominates the News

News of the new campus held a dominate position in many of the fall *Reporter* issues. In early October the public learned that the roads of the Henrietta complex were to be named after the founders of the old Rochester Athenaeum and Mechanics Institute.

Of greater interest to students was the hike in tuition and room and board costs for the following year. This was the second increase in as many years.

In early December students were given an advance glimpse of the decor of the compulsory housing units. One week later Frank Benz, vice president of Business and Finance, revealed that the Institute would be unable to provide housing for married students at the new campus. Because bids on the proposed apartment buildings were too high, the Institute would delay construction until possibly 1968.

But the biggest news of all was the announcement, by President Mark Ellingson on Jan. 3, that the New Campus would not be completed on time. Failure by the contractor to complete the largest building on the Henrietta site resulted in a split campus for the first quarter of the 1967 school year.

#### Student Publications Make the News

The resignations of David Gregory, John Shoulet and Denton Ortman from the *Reporter* staff resulted in a campus review panel headed by Dr. James B. Campbell, vice president of Student Personnel, and a movement entitled the "Uncensored Press" campaign to start a student financed and student run newspaper. The printing of posters, letters, a television interview, and the circulation of petitions have marked the campaign so far.

Also in the fall quarter, the first woman editor since 1946 was appointed to the *Techmila* staff. Ann Richardson (Pr 2) succeeded Bob Hayes, the 1966 editor-in-chief.

#### Surprise Party Marks a 30 Year Presidential Term

Dr. Mark Ellingson, who, perhaps more than anyone else has contributed so much to the heritage of both RAMI and RIT, was honored on Oct. 14 at a reception held in the Ritter-Clark gym. This year marks his 30th as president of the Institute.

#### RIT Captures Tech Tourney Championship

For the second year in a row the Tigers won their own tournament. RIT beat both Clarkson Tech and Detroit Tech to keep their championship. The winner was decided in the last six minutes of the Clarkson game. The score was 76-75. High scorers were John Serth, Jim Robinson and Rick Cetnar.

## Printing Banquet Set for Tuesday

"A Drop of Ink can make a Million Think" is the theme of this year's International Printing Week. The School of Printing, Pi Club, and Gamma Epsilon Tau will celebrate this week, Jan. 16 to Jan. 20, with a banquet Tuesday, Jan. 17.

For the third year the dinner will be at Eddie's Chop House, 367 Main St. East (just east of the Eastman Theater). Dinner will be served at 6:30 p.m. with cocktails at 6. The price of the meal will be \$4. Tickets will be available on the second floor of the Clark Building Friday and Monday morning and afternoon.

## letters to the editor VIOLATING MY RIGHTS

Dear Editor:

This flyer (a letter circulated by the committee for an uncensored press - Ed.) was put in my folder and I found it this morning. I think the statement concerning the \$3 annual fee to be paid by the student body is violating my rights as an individual and I do not intend to pay it.

I think the *Reporter* covers the happenings of events of RIT just fine, and I think having to pay out more money to finance another paper just so some guys who are hotheads and quit their jobs could run their own paper, say what they want, and walk the streets as "The student liberators from an iron fist ed oppressor" is wasteful.

If these fellows thought the paper was not run right why didn't they try to change it? Where is the rest of the \$18,000 coming from? How many students really are willing to shell out some cold cash for this overgrown myth? Not I, and I think many others will soon see the fallacy also.

C. G. (Printing)

P.S. Sorry about the roughness of the letter but it gets my point across. Keep up the good work.

BEATING THE DEADLINE--Construction workers combat weather conditions and labor shortages in a race against time to finish dormitory facilities by the start of the Fall Quarter 1967. (Photo by Kudola)

## At Last, But Not Least

# Baumgarten Elected Frosh President

Shortly before the quarter break, the results of the long-delayed Frosh Council Elections were released.

The Tiger Ticket, headed by Bruce Baumgarten, led in the race at the polls, attaining an across-the-board sweep and claiming victory by a 2-1 majority.

The Tigers, running against the Action Vote, captured approximately 64% of the total ballots cast, giving them an undisputed victory.

According to Doug Laughton (Pr 2) of the Election Board of Con-

trols, about 220 votes were cast out of a possible 913.

The actual voting results were as follows: Baumgarten (T) over Tom Pfaffenbach (A) 64.5%, president; Dick Laetsch (T) over Jack Hagenbuch (A) 64.5%, vice president; Linda Frey (T) over Karen Jensen (A) 65.8%, secretary; Allison Adams (T) over Don Strong (A) 61.2%, treasurer.

Baumgarten contributed their victory to the "intensive campaigning, in which they met approximately 50% of their constituents."

## speaking up

by Ray E. Baker

Among the most essential elements that make up the formula of academic life as we know it today is "controversy." Controversy perpetuates the freedom to "think otherwise" and to say so; the freedom to inquire and question; and the freedom to act. Controversy is therefore the essence of education and for students, faculty and administration alike, it represents free exercise of open minds.

If we are to fully exercise the right to question, perhaps a good place to begin is with the word "controversy" itself. Without a great deal of research it becomes evident that "controversy" exists in basically two forms: "eristic" and "heuristic."

The Oxford Dictionary defines "eristic" as "an arguer aiming at victory rather than truth." Eristic controversy uses data not as material to be examined but as a weapon for disputation. As one Berkley professor puts it: "The educational dialogue deteriorates into monologue, arguable hypotheses harden into dogma, and the will to stimulate active inquiry yields to the demand of passive acceptance."

Heuristic controversy refers to "methods of argumentation that assume or postulate what remains to be proven or that lead a person to find out for himself." Where the eristic aims at victory, the heuristic aims at truth. Heuristic argument is based on examination and re-examination of what appears to be the truth and an attitude of indifference as to the winning or losing of the argument. The eristic arguer takes a position of unyielding arrogance against all opposition while the heuristic arguer listens attentively to opposing views and is undisturbed if the results of the discussion bring him to change position.

As the learning community of RIT continues to grow, its students, faculty and administration will discover that they are constantly faced with the task of trying to correctly identify the two obscure faces of controversy. One thing is certain, there must be a readiness to experiment, to change, to discard, to innovate, and most important to "listen" as well as to "speak."

## Day School Enrollment 83 percent Male

Registrar George E. D. Brady reports that 83% of RIT's day school enrollment of 3,414 is male. Much to the dismay of the men students, this percentage has remained constant over the last five years.

Twenty per cent of the day students are from outside New York, Brady said, while 36% are from outside the Rochester economic area. Foreign students comprise 1.4% of the student body.

## Support Tiger Teams

LADY, DON'T!--Lynn Smith seems to sneer at superstition as Dean Santner warns her against Friday the thirteenth's bad luck. (Photo by Clark Whitney)

## Neuharth, Day Elected To Board of Trustees

Allen H. Neuharth, executive vice president of the Gannett Co. Inc., and Carl A. Day, executive vice president of Bausch and Lomb Inc., have been elected to fill vacancies on the Board of Trustees, Arthur L. Stern, board chairman, has announced.

Neuharth will fill the vacancy created by the resignation of Lynn N. Bittner, who retired as senior vice president of the Gannett Co. on Dec. 31.

Bittner is to move to Hilton Head, S. C., for retirement.

Neuharth is a cum laude graduate of the University of South Dakota. He worked for dailies in that state and for the Associated Press in Sioux Falls, S. D. After 10 years with the Knight newspapers in Miami and Detroit, he joined the Gannett group in 1963.

Neuharth has been general manager of the Rochester Times-Union and Democrat and Chronicle since April 1963. He also serves as president of the Gannett Florida Corp. He has been active in Sigma Delta Chi, professional journalism society, of which he is a national director, and is a member of the board of directors of the New York State Publishers Association.

Day, who is both executive vice president of Bausch and Lomb and general manager of its Scientific Instruments Division, joined the company in 1931 shortly after graduation from the U. S. Naval Academy.

He was works manager for production of optical gunfire control instruments for the armed services during World War II.

In 1947, he established the company's eyeglass frame plant at Wellsville, and later was responsible for completing development of the firm's lens plant at Midland, Canada.

Day was elected vice president for manufacturing in 1953 and in 1962 he was made vice president

and general manager of the Scientific Instrument Division.

He was elected vice president and a director in 1964.

A native of Big Timber, Mont., he has been active as a trustee of the Rochester Chamber of Commerce, Optical Society of America and other groups.

## Dr. Ellingson To Speak At Banquet

Dr. Mark Ellingson will be the principal speaker for a Printing Week banquet of the Printing Industries of New Jersey on Wednesday, Jan. 18, in the Military Park Hotel, Newark, N. J. His subject will be "Printing and Higher Education."

RIT has long been a leader in the area of printing education and is one of a few institutions of higher learning in the world offering degree programs in this area of study.

The School of Printing has 425 students and offers three areas of study -- general printing, printing management, and printing-journalism.

## WIVES TO MEET

The next Student Wives Association meeting will be held on Wednesday, Jan. 18, at 7:45 p.m. Mrs. Austin from Planned Parenthood will speak and show a color film.

The program will be held at the home of Mrs. James Dry, 16 Strathmore Gardens, #1. After the program, there will be a short business meeting followed by refreshments.

## stop the clock

by Ron Antos, Dave Jones and Joe Ford

We'd like to welcome those of you back that made it back. We were seriously considering using the probation list as the bulk of our column this week, but upon examination we found that the entire space available in the Reporter was not sufficient.

Because very few freshmen found their way to the Pastime, we thought that freshmen grades were going to reach an all-time high, but now looking back we discover that Bryan's was being boycotted and that the Pastime was just too far away. The place to look for the freshmen last quarter was the West Manor. There are many of them who will be found next quarter in the friendly neighborhood P.X.

### LATEST & GREATEST

The new symbol of the new quarter being used in everyday speech and on buttons seems to be the word "UP." UP is in, but who is up? The ideas are good, but committees are made up of people. In this case, who are they???

Even Alka Seltzer won't cure the headaches of Messrs. Strader and Black and Miss M., caused by RIT's newest policy. The policy to which we are referring is the new 'split campus' deal. The way the turmoil is going, students might even get transportation supplied between NRH and the Clark Building. . . . This year's A&D and SAC thesis projects quite possible will undertake last minute construction of the new Graphic Arts building.

Word has it that the Red Baron was at work at L.G.'s cocktail party . . . He shot a drink right out of Charlie's, or was it Miss M's hand???. We suggest -- that the Christmas tree, which by all rights should have been taken down in '66, be left up for '67. This will enable students on both campuses to enjoy a Christmas tree next year.

Thanks to those of you who supplied the Pastime with rubber checks; because of you no more checks are being accepted. Speaking of the Pastime, Pete really went all out for our last year here. After giving him so much of our green, he's finally returning the favor.

### IN ATHENS

Something new has been added to the fraternity system -- The President's Council. We're sure that they will be a valuable asset. The latest and greatest in Athens is an abundance of pinnings, engagements and marriages . . . Best wishes to all and to all a good fight. Congratulations are in order for all new fraternity initiates and pledges.

Up and coming events: IFC Basketball and bowling begin tomorrow morning. . . . AXD Slave Sale Jan. 14 in the SAC . . . and Phi Sig's Winter Weekend Jan. 27, 28, 29. . . . Events gone by: Last Sunday's basketball game was another good idea well done by TEP. Santa died at 111 Troup Street. . . . Did he fall through the floor???

Now from S.J.&P. Annoyance is not getting a date until Thursday night. . . . Happiness is getting a date. . . . Fun is going to the snack bar -- Frustration is nobody there. Misery is having everybody leave when you sit down. . . . AEPi wonders-- Who is C man's latest? Dear Phi Tau-- We'd like to thank you for the snack bar publicity. . . .

but are you too busy watching TV to make a new sign??

Frankie Frosh had a red jockey New Year's Eve, celebrating his 3.00 last quarter. . . . See you next week. Love and kisses, Crab, Wrinkles, and Secret Stud.

## Doctor Gilman Awarded Grant

Dr. Robert E. Gilman, assistant chemistry professor, has been awarded a \$13,000 Petroleum Research Foundation grant from the American Chemical Society.

The grant is awarded to support undergraduate research in chemistry and will enable Dr. Gilman and RIT students to continue their investigation of the reactions of a group of chemicals. The research project was begun last year.

A former research chemist for W. R. Grace and Co., Dr. Gilman came to RIT in 1964 from Williams College, where he was a visiting assistant professor of chemistry.

He received his bachelor of arts degree from Dartmouth College and his master of science and doctors degree from the University of Michigan. In 1960, he received a fellowship to the National Research Council of Canada, where he completed post-doctorate work.

Dr. Gilman is a member of the American Chemical Society and has published articles in several chemical journals.

## Whiting Designs Performing Arts Symbol Series

A series of symbols compiled by Robert L. Whiting (A&D 4) has been adopted by the Rochester Performing Arts Foundation.

The four individual symbols, all of which have related physical patterns, represent the Theatre East, the Peter Pan Playhouse, and the Classroom Theater, and the overall organization, the Rochester Performing Arts Foundation.

Selection of the graphic arts identity system was made by the executive committee of the arts foundation, headed by Mrs. Lee Kheel, director of Theatre East.

Roger Remington, assistant professor in the School of Art and Design, said 26 RIT art and design seniors submitted proposed designs for the symbols.

## A. A. Bessette to Head Custodial Service Department

A retired Air Force technical sergeant, Andrew A. Bessette, has been appointed superintendent of custodial services at the Institute.

Bessette will be responsible for planning cleaning programs for the 1,827,186 square feet of floor space at the new campus.

During his two decades in the military service, Bessette had extensive experience in medical administration, directing budget and manpower usage, and as executive housekeeper of base hospitals.

# TEP Favored in IFC Basketball

The IFC winter sports will get underway this Saturday with basketball starting at 9 a.m. in the Ritter-Clark gym and bowling at 2 p.m. at Olympic Bowl.

In basketball this year it looks like a five team race with Tau Epsilon Phi, Sigma Pi, Theta Xi, Phi Kappa Tau, and Phi Sigma Kappa all fighting for the championship. I had fairly good success with my fearless predictions in football so here we go in basketball! First place: Tau Epsilon Phi -- This team will surprise everybody but TEP. Have strong shooting and rebounding in Joe Gershoff, Stu Vogel, and Lenny Mintline and good ball control in Rene Isidore and Barry Leaventon. Don't be surprised if this team runs everybody off the court.

Second place: Theta Xi -- Will have three starters from last

year's second place team in Jan Detanna, Jay Eckblom, and Dave Gregory. Have fine shooting and rebounding in Detanna and Eckblom and good ball control in Gregory.

Third place: Sigma Pi -- Has Gary Bloodworth and Duncan MacRae returning from last year's championship team. Have good starters in John Miller and Lynn Fuller. Possible be hurting at center with the loss of Roger Collier to the varsity.

Fourth place: Toss up here between Phi Sigma Kappa and Phi Kappa Tau. Phi Sig has height up front with Bob Wensley, Walt Klein, and Art Boscarino all over 6' 1". Wensley can shoot and rebound well, with Klein and Boscarino strong in rebounding. Bob Cappola and Chip Neuscheler will probably hold down the guard positions. Phi Tau will have the same team back from last year with the exception of Ed Lubarda, a sharp shooter from Scotia. Steve Van Rees will hold center with Tom Hurtgen at the other forward spot. Have two good ball handlers in guards Jeff Gregory and Jim Hopkins.

Sixth place: Alpha Epsilon Pi -- Have basically the same team back from last year's last place team. Slight improvement. Barry Goldfarb, Ed Rettig, and Phil Cohen will probably be three of their starters.

Seventh place: Triangle -- This young fraternity will not have the talent or manpower to finish any higher.

In basketball tomorrow, Alpha Epsilon Pi plays Tau Epsilon Phi at 9 a.m., Triangle takes on Theta Xi at 10 a.m., and Phi Kappa Tau squares off with Phi Sigma Kappa at 11 a.m. The same fraternities play each other in bowling starting at 2 p.m. Sigma Pi draws a bye this week.

## Tokyo Olympics To Be Shown

Films on the Tokyo Olympics will be shown at the Lettermen's Club meeting Monday, Jan. 16, at 8 p.m. All lettermen and interested freshmen are invited to attend and welcome back President John VanderVeen.

## Puckmen Easy Victims of UB

by Bruce Baumgarten

In a startling upset on RIT ice Dec. 7, the University of Buffalo routed the Tigers 7-2.

Bison goalie, Jim Harrington, sparkled in the UB nets with 48 saves, but RIT could hit the cords only twice. The Tiger defense proved much weaker.

Goalie Chip Neuscheler was superb, making 38 saves, many from point-blank range. However, the UB squad skated circles around the rest of the Tigers. Bill Sweeney's goal, midway through the first period, cut the Bison lead to 2-1, but Buffalo built the score to 6-1 by the end of the second session.

Wharrity, on assists from Ken Vokac and Sweeney, registered the final RIT goal.

The Dec. 11 game against Brockport was postponed because of final exams starting Dec. 12 at RIT.

Sunday evening the Tigers will face Brockport in a regularly scheduled game at the Ritter-Clark rink. Game time is 9 p.m., with WITR coverage starting at 8:45. On Wednesday the Utica Pioneers face off with RIT at Ritter-Clark.

## Tiger Tracks

(continued from page 8)

of uniforms, you would think the Institute could and would do the same.

Coach Fuller: To be able to fill all the weight divisions on his wrestling squad. It must be embarrassing, to say the least, when a team must forfeit matches at it's own tournament because there aren't men on the squad who can meet the specified weight divisions. Our team put on a pretty good show despite the fact it was undermanned in the tournament. There is no telling how many matches we could win if we had a full squad. Fuller is one of the best wrestling coaches in the country; give him the men and he'll give us a winning team.

Jim Dickie: Not to make any pre-season predictions about the soccer team. It will be all right to express an opinion, but for predictions I'd leave that to the "knowledgeable" sports writers.

And myself: To report stories precisely and factually, to be unbiased in my opinions and to give all school sports equal coverage to the best of my ability.

(Ed. Note: I also plan on giving all of the losers the benefit of the doubt.)

## Robinson Ranks Seventh in NCAA Scoring

Jim Robinson, high-scoring junior forward, is ranked seventh in scoring among NCAA College Division schools according to the first weekly report issued by the National Collegiate Athletic Bureau.

Robinson has a 29.7 scoring norm through three games and a 60.3% shooting average which ranks him 16th on the field goal percentage list.

He is tied for seventh place scoring honors with senior Gary Palladino of the University of Hartford, a teammate of Robinson's on the Eastern College Athletic Conference's all-star team last season. Robinson was named Sophomore of the Year, while Palladino earned a guard spot on the 11-man honor team.

Robinson was a high school All-State performer at Dunellen High School, Dunellen, N. J., during the 1963-64 season.

He's late, he's late— for a very important date with his financial future.

For White Hares, as with the rest of us, time has a way of slipping by unnoticed. Notice it now. Begin today to think positively about your financial future.

A good life insurance policy provides one of the sturdiest foundations for anyone's financial planning. And Provident Mutual's trained professionals can design programs specifically for college men and women, specifically for you.

Time's a-wasting. Stop by our office, or give us a call today. Remember, life insurance costs less, does more for you if you get it while you're young. And, seriously now, how many of us can afford to live in Wonderland?

## athlete of the week

Jim Robinson has been selected Athlete of the Week for his outstanding performance in RIT's 96-85 basketball victory over Utica College.

Robinson played his finest game as a varsity athlete, scoring 33 points and grabbing 17 rebounds as his team won its third straight game without defeat.

Last year, he was honored as the Eastern Collegiate Athletic Conference's Sophomore of the Year in the College Division, comprised of 101 member schools.

Jim Robinson

## Waynesburg Defeats Grapplers

RIT, undermanned in two weight divisions, was defeated by Waynesburg State 27-6 on Jan. 7 at Waynesburg.

Scoring for the Tigers were Pete Serafine and Bob Michniewicz. Serafine, in his first meet in one and one-half years, decided Eric Johnson 3-1. Michniewicz posted his third win of the season by decisioning Gene Rust. Co-captain Bruce Robinson was tied 3-3 but lost with Kovscek earning one point on riding time. RIT co-captain Neal Mulvenna was down 0-1 but Waynesburg captain Tom Karpency earned two points on riding time.

Wednesday night the grapplers take on St. John Fisher at the Ritter-Clark gym. First meet is at 8 p.m.

123 - Boudreau (W) dec. Gersey 6-4; 130 - Nagy (W) by forfeit; 137 - Remaley (W) by forfeit; 145 - Tindal (W) dec. Maynard 5-0; Kovscek (W) dec. Robinson 4-3; 160 - Serafine (RIT) dec. Johnson 3-1; Karpency (W) dec. Mulvenna 3-0; 177 - Michniewicz (RIT) dec. Rust 10-3; Hwt. Righetti (W) by forfeit.

# Reporter Sports

Sports Editor: Jack Kerner

Friday, January 13, 1967

GOOD HANDS--Ron Russell grabs stray ball in game against Newark Engineering. This was the Tiger's first loss of the season.

athlete  
of the week

John Serth

John Serth has been named fourth recipient of the Jim Dalberth Athlete of the Week award for his clutch performance in RIT's basketball tournament in December. Serth scored 24 points, including two free throws which won the game, in the Tigers' 76-75 conquest of Clarkson for the tourney championship. Seventeen of his 24 points came in the second half and the two free throws came with just 20 seconds remaining and RIT behind 75-74.

## Over Century Mark Robinson Hits for 34 As Tigers Win 110-99

After a dismal game the night before, the Tigers of RIT shot to new heights Saturday, Jan. 7, when they posted a 110-99 victory over Brooklyn Poly Tech. Playing on Poly Tech's court, the Brown and Orange collected their fourth win in five starts.

Jim Robinson again was the big gun for RIT. He collected a season high of 34 points, while Keith Thompson hit for 20, Rick Cetnar 14, Ron Russell 12 and John Serth 10. It was the first time the Tigers

had scored over 100 points this season. In two previous games they came within four points -- against Detroit Tech and Utica College.

High scoring honors went to Chuck Privalsky, who notched 37 points, while teammate Bill Hamm had 28 for the losers.

RIT hit 52% from the floor, clicking high 46 out of 83. They hit 18 of 21 on the foul line for 86% while grabbing 43 rebounds against 38 for Brooklyn.

## Intramural Teams To Form

Earl Fuller, assistant to the director of athletics, has announced the formation of intramural basketball and volleyball teams.

Volleyball will start Tuesday, Jan. 24, from 9 to 11 p.m.

The first order of the night will be the formation of teams -- four men's and four women's. Next, captains will be selected.

Captains and unattached people will meet at 12 on Jan. 18 in the recreation room in the basement of the RIT gymnasium with Mrs. Helen Smith and Fuller.

Basketball will start Monday, Jan. 23, at 9 p.m. Team captains must meet with Fuller in the recreation room on Tuesday, Jan. 18. The gym will be available for practice on Monday nights after 9.

by Jack Kerner

## new year's resolution

Louis A. Alexander Jr.: To better his last year's 18-9 basketball record. This shouldn't be any problem considering he is coaching the best basketball team RIT has put on the floor in the past eight years. The only broken spoke in the Tiger's wheel is the lack of height, which so far this year has made little difference in the first five games except with Newark Engineering. The scoring potential of this year's team is tremendous and if another team upsets the Tigers they will have earned the victory.

Jim Robinson: Not to break his scoring record of 529 points (set last season) by more than 150. This season, if he continues at his present pace, he will score in the neighborhood of 820 points, considerably more than needed to establish a new school record.

Bill Carey: To talk school officials into buying uniforms for the frosh teams. The baby Tigers use the varsity uniforms and if a member of the varsity forgets to bring it in after a game, one of the frosh is likely to be fielded with a different uniform. If nothing else, all frosh opponents can expect an array of differently colored uniforms on the frosh. Carey's teams do represent the school and they should look presentable on the road and at home. When high schools can field teams with the same style and color

(continued on page 7)

## Newark Hands RIT First Loss Of Court Season

RIT suffered its first loss of the young season to Newark Engineering 69-60 on Newark's boards. The game, played Jan. 6, was the first game played by the Tigers after a four-week break.

Led by the towering (6-8) Dick Olsen, the Engineers were in control of the boards throughout the game. Olsen collected 33 points and grabbed 24 rebounds. Teammate Bob Mulder was the only other Engineer in the double figure column with 22 points.

Jim Robinson and Rick Cetnar were the only Tigers in the double figure column with 30 and 14 points respectively.

## U of R DROPS FROSH

In their last game before the holiday break, the baby Tigers basketball team were the victims of a powerful University of Rochester team. The loss, 85-67, was the first of the season for the frosh.

Larry Jenkins led the Tigers with 16 points, while three other teammates broke the double figure column. Alan Dirk, Steve Davis, and Claude Blackcloud each tallied for 15, 14, and 12 points, in that order.
