

# Dr. Mark Ellingson Honored on 30th Anniversary as Institute President

## Institute Prospers Under Ellingson

The story reads almost verbatim from a Horatio Alger novel: born of American parents in a small town in Canada, one of nine children. He grew up on a farm which he and his brothers operated while going to school. Later he worked in a furniture

store for \$6 a week doing everything from cleaning up to selling. Still later he was to become the president of one of the leading technical institutes in America. The man, Dr. Mark Ellingson, is serving his 30th year as

(Continued on page 4)

Dr. Ellingson

## Ellingson Greeted by Large Turnout of Students, Friends

In perhaps the most well-attended event in the Institute's history, Dr. Mark Ellingson was honored at a reception Wednesday, marking his 30th year as president of RIT. Nearly 3,000 persons were present to congratulate him. Classes were cancelled at 11:30 a.m. and students, faculty and staff flocked to the Ritter Clark gym to honor Ellingson on his anniversary. He was named president of the Institute on Oct. 12, 1936.

Ceremonies were highlighted by the presentation of the President's Tree and the cutting of a huge cake shaped like the new campus.

The reception was a surprise to the president, and the secret was well-guarded until the time Ray Baker, president of the Student Association, entered the gym with Ellingson.

With Baker presiding, Ellingson was presented a small evergreen tree, symbolic of the giant, full-grown tree which will be planted at the new campus and christened "The President's Tree." The evergreen, given by the Student Association, will become RIT's official Christmas Tree in honor of the president.

Baker introduced four men who were invited to speak for the anniversary occasion: Prof. Fred Henderson, president of Faculty Council, Ezra Hale, first vice chairman of the Board of Trustees, the Rev. Charles Lavery, president of St. John Fisher College, and Benjamin Relin, president of the Alumni Association.

A huge cake, prepared in the kitchens of Richard Nichols, di-

rector of Food Services, was cut by Dr. Ellingson and many of those in attendance received a piece. The cake was ornately fashioned in the shape of the new campus.

Congratulations were offered by Baker on behalf of the student body; by Henderson for the faculty and staff; by Father Lavery

(Continued on page 3)

## New Campus Cake Cut by Dr. Ellingson

One of the highlights of Dr. Ellingson's reception Wednesday was the cutting of a huge cake, designed in the form of the new campus.

Weighing 125 pounds, the cake measured four feet long and three feet wide. At its highest point (the administration tower on the new campus) the cake was 18 inches.

More than 60 hours were spent in baking the over-sized pastry. The staff of Richard Nichols, director of Food Services, began the project last Wednesday.

An estimated 2,000 pieces were to be cut, after the imitation shrubs and trees were cleared from the surface.

## Interfraternity Council Interprets Constitution

Members of the Interfraternity Council assumed the task of interpreting their controversial constitution last week on the issue of "who should be president."

Paul Smith was chosen to serve as president for the rest of the year, and elections will be held to fill the vice president slot and the position of secretary-treasurer also vacant since Colin Wood, elected to that office, has not returned to school.

Hank Olson, who was elected president last spring, has become ineligible for academic reasons. The debate was over the question of whether Smith, the elected vice president, should be installed as president "in the absence of the elected president," or whether Olson should hold office until a

Paul Smith

new president could be elected by IFC.

The controversial action resulted from a motion introduced by Ronald Antos, president of Phi Sigma Kappa. His motion called for a suspension of that section of the by-laws which states that only those fraternities not having a representative on the executive board were eligible to fill the vacancies.

Antos called for all fraternities to be eligible to fill vacancies because "This way we can be sure of getting the very best man for the job."

Ron Steinberg, president of Tau Epsilon Phi, and Bob Felberg, also of TEP, opposed the move, thinking that Smith should hold the office of president.

After more than an hour of debate, Antos' motion was defeated with Phi Sigma Kappa and Sigma Pi in favor, and Phi Kappa Tau, Tau Epsilon Phi, and Alpha Epsilon Pi opposed. Theta Xi abstained. Election for a new vice president and secretary-treasurer will be held Wednesday.

## AET GOES NATIONAL

After having been accepted as senior members at the first meeting of Interfraternity Council last week, the brotherhood of Alpha Epsilon Pi fraternity announced their appointment as Rho Iota Chapter of National Alpha Epsilon Pi fraternity.

Nov. 12 has been set as the tentative date for the chapter installation proceedings. At that time, national delegates and school officials will preside at the installation ceremonies.

## Two Themes Announced for Talisman Film Festival Series

This year's Talisman Film Festival, a series of films shown on campus through the school year, has two themes, according to Lionel Suntop, director of Cultural Affairs for the Student Activities Board.

"Six Famous Film Directors" and "Historical Documentation" are the dual themes for the films to be shown each Friday and Saturday in the 50 Main West audio-visual auditoriums.

The six film directors are: Sergei Eisenstein, Russia; Luis Bunuel, Spain; Francois Truffaut, France; Ingmar Bergman, Sweden; Vittoria de Sica, Italy; and Akira Kurosawa, Japan.

A selection of the significant works of each director has been chosen.

The countries presented in the documentary series are Russia, Germany, Spain, Italy, and Mexico.

The main presentations following the two themes will be supplemented by "short subjects," ranging from Charlie Chaplin comedy to experimental avant-garde films.

Program notes will be provided at every showing, and

occasionally study notes will be provided, said Suntop. He added that experts in the cinema field may be available for lectures.

The following is a list of the films to be presented during the next four weeks at a charge of 50 cents per showing. Season tickets may be purchased for \$10. These films will be shown on Fridays at 8 p.m. and on Saturdays at 7 and 9:30 p.m.

Virgin Spring — Bergman, on Oct. 15; Men Who Tread on the Tiger's Tail — Akurosawa, on Oct. 22; Shoot the Piano Player — Truffaut, on Oct. 29.

The Bicycle Thief — de Sica, on Nov. 5.

## Shoulet Promoted to Managing Associate

John Shoulet (A&D 3), office manager of the Reporter, has been promoted to managing associate. Shoulet, who hails from Tappan, will assume his new position immediately.

Included among his responsibilities will be supervision of advertising, circulation, public relations, and office management.

## off campus news briefs

Saigon—Defense Secretary Robert S. McNamara arrived in Saigon Monday promising more helicopters and pilots for the war effort.

Washington—President Johnson postponed until January any request for additional Vietnam funds. Sen. John Stennis (D) Miss. said the war is costing at least \$2 billion a month. The defense bill calls for a budget of \$8.8 billion for the year. Stennis said there may be a deficit of \$15.2 billion or more next year.

Washington—Sen. Robert F. Kennedy said he will run for reelection in 1970, and that he will not be a candidate for president or vice president in 1968.

Tokyo—The Viet Cong joined North Vietnam in rejecting a British plan for peace in Vietnam, calling the program "absurd," and renewing its pledge to "fight to the end for independence and freedom."

## thank you, Dr. Ellingson

The *RIT Reporter* would like to join the students and many friends of Dr. Mark Ellingson in extending congratulations on his 30th anniversary as president of Rochester Institute of Technology.

We devote a good part of this issue to the man whose insight and initiative have guided the Rochester Athenaeum and Mechanics Institute to the steps of RIT's new campus in Henrietta—a \$54 million educational complex which marks a sensational achievement in the field of education.

While Dr. Ellingson, more than any other man, deserves the gratitude, praise, and recognition for RIT's fortunes over the last 30 years, there is probably no one who would be less likely to accept the accolades.

Wednesday's reception was a secret shared by everyone except Dr. Ellingson, himself. The reason was more than that it was to be a surprise. Had he learned of the plans for such a gala affair in his honor, the entire program might have been cancelled. He doesn't believe one man, least of all himself, should be praised so highly.

It was a secret, however, and he was surprised. He was praised and thanked and congratulated just as he so rightly deserved.

The *Reporter* is one more voice among thousands saying, "Thank you, Dr. Ellingson, for your years of service and dedication."

D.G.

## a future? the decision is now

Clouded with confusion for two weeks, the Interfraternity Council finally met last week and promptly lapsed into pettiness, personal interest, politics.

Virtually unaided by a constitution that avoids issues like a politician's speech, the council was in confusion and debate for more than an hour before the fraternities split in a characteristic fashion and installed Paul Smith as the new president.

Guided by the assumption that fraternities are a boon to RIT, the *Reporter* would hope that the council will get down to some good hard work this year to pave the way to the new campus. While the spirit of cooperation is difficult in a group like IFC (just as in the United Nations,) it is imperative that members decide once and for all that their primary duty is to direct the course of the fraternity system as a whole.

It has been hinted by administration that unless fraternities change the present course, the new campus might leave them behind. For four years, Dr. James B. Campbell has urged the groups to examine their ways and make necessary changes.

This marks the fifth year in which IFC has begun to perpetuate individual goals rather than united goals. It's high time IFC members de-emphasized their role of looking out for themselves, and applied themselves to the task of forming good policies and making mature decisions on behalf of the entire greek system.

## stop the clock

by Ron Antos, Dave Jones and Joe Ford

This week we'd like to take our hats off to Dr. Ellingson for the remarkable job he has done at this Institute for the past 30 years. What he has done for the Institute is reflected in the fact that most people look upon him as Mr. RIT.

### Latest & Greatest:

Our thanks to those responsible for the assembly held in honor of "Doc E." We hope you all enjoyed yourselves, as we did, in our seats on the 50-yd. line. . . . We hope you participate in the upcoming sports events as you did for the assembly.

The Drama Guild will present the play "Antigone" in November. Two of its stars will be Lani Body and none other than "Speedie." . . . Rent-a-date tried out but got pinned down. . . . Let's see Student Association practice what they preach. Has TEP torn down your SHOWBOAT bulletin board???

The Symposium deadline for all incoming material will be Oct. 21. . . . The school is preparing for the big move. Word has it that they have already shut off most of Kent Hall's electricity. . . . Pete's Palace is really thriving this year. Are the courses easier, the students smarter or are things really different this year? How about it, Wang, wherever you are??

Main Street: RIT's showplace, another new wall. What is it this time? . . . Could it be the remains of a student caught in the new elevator doors? . . . Frosh Girls: Don't try to be big drinkers at campus parties. . . . lunch. The Big Sisters of KG were surprised to see clean skirts at their pajama party. . . . Even Miss M was disappointed.

Nation's News: Happy birthday IKE, Oct. 14th. . . . Mistol Mist decongests fast, restores free breathing, Oct. 16th. . . . Wednesday, Oct. 19th, the British

surrendered at Yorktown, 1781. God bless George Washington.

### In Athens:

Congratulations to the newly initiated greeks on campus. Dear Ski Club: We're getting bigger. . . . Thanks to all those who have participated thus far in the Greek Week activities. . . . Congrats go out to Paul Smith on his recent installation as President of IFC. . . . Best of luck to AEP, newest senior member of IFC. Also to Dave Jones, newly-appointed Spring Weekend Chairman.

Here's to the AXD Dateless Wonders. It wasn't their idea but they needed it more than the Phi Sigs. Please feel free to use our tags, too. We've heard of

(Continued on page 7)

## letters to the editor

### Dear Editor,

The RIT Book Store is supposed to be a non-profit organization providing the service of selling books and supplies to the students.

### Is the RIT Book Store Non-profit?

1. The books and supplies sold are paid for by students at a cost equal to any profit-making store.

2. Books that are marked reduced when bought in quantity are sold without any discount to students.

### Does the Book Store provide good service?

1. Students must spend on an average one to two hours waiting in line and later hunting for books and checking out. If books

Would you comment on the RIT parking situation, and what is your opinion of what should be done to correct it?

Janice Aspidy (A&D 2): "The whole problem is there just aren't enough places to park in the school parking lots. So, students park on the streets illegally, which can't be helped. Then the police seem to pick on the RIT students and give them tickets, while businessmen downtown can get away with illegal parking."

Janice Aspidy Bernie Hoff

Bernie Hoff (Mech 3): "There certainly is a need for more parking spaces around RIT. Streets like South Washington and Spring could be used for parking. For some reason the Rochester Police Bureau has forbidden parking in these places. Since the school does not have enough spaces in their student lots, I see no reason why the school cannot go to the police and ask that parking be made available on these streets."

Brian Nicholas (Pr 1): "You sure can't use your car during the week; it's much better to walk if you can. Things might be better for me if I had a student parking sticker, but I couldn't get one. The tickets do not seem to stop the illegal

(Continued on page 7)

must be returned this time is increased.

2. The Book Store posted a notice that all returns would be accepted at 1 p.m. on certain days. Students began standing in line at 15 minutes to one. The line was ignored by members of the Book Store until 1:30 p.m.

3. Returns of anything under \$1 were not accepted for refund. Most of these articles were book kits, which the students buy believing these are essential materials needed for completing their courses. They find included such things as notebooks, lined paper, dish towels, etc., all priced at top dollar. These items which total over \$1 together cannot be refunded.

Will the Student Council let this thing go on in this manner?

## Ski Club Opens Season

Ski Club opened the 1966 - 67 season Tuesday night at an informal meeting. A turnout of 150 students was reported.

Members and prospective members were told of club plans for the season. Kicking off the season will be a raffle and beer blast, with proceeds going toward a weekend trip to Stowe, Vt. — the "ski capital of the east."

Approximate costs were stated and a general outline of the adventure was suggested. Other activities planned include a beer party. Members will be admitted free and guests charged approximately \$1.

A mountain climbing excursion, day trips to near-by areas, and numerous social events are also planned.

President Mike Foster (Photo 3) conducted the meeting, while Joe Geller, vice president, delivered a talk on the Stowe trip.

This year's committees will be headed by: Martin Morrissey, ski team; Jim Rowbotham, social committee, Joe Czechowicz, public relations; Gretchen Kilman, special projects committee, and Paul Hoffman, printing.

Other officers are Sue Seaman, treasurer, and Pat Carson, secretary.

## In Nathaniel Rochester Hall It's Freshmen Boys From Wall to Wall

by David F. Tela

It's freshmen upstairs, downstairs, and from wall to wall in Nathaniel Rochester Hall. The advisers, night clerks, and members of the Men's Residence Halls Association executive board are the only upperclassmen living in the dorm this year.

Those upperclassmen living in apartments or other outside housing facilities are not entirely left out, however. Provisions have been made for upperclassmen to become members of MRHA at a reduced rate.

Interested men may contact Fred Higham, MRHA treasurer, or James Black in the housing office. By becoming a member of MRHA, the student has avail-

able to him a variety of recreational activities, as well as the dorm darkrooms.

Upperclassmen can play an important role in MRHA and its future plans for the new campus. There are and will be more problems coming up that will need attention. The executive board feels it important that upperclassmen take an active role in dorm government.

Things started rolling on Sept. 1 when Jack Pierce and Dave Tela attended the North Atlantic Association of College and University Residence Halls Conference at Kent State University in Kent, Ohio, Sept. 1 - 4.

A total of 10 colleges sent representatives. Those attending were fortunate in being able to meet Don Steeples, the national president of the National Association of College and University Residence Halls.

Various dormitory problems were discussed during the four-day conference, and most representatives carried home valuable ideas and solutions to problems.

Two weeks later Pierce and Tela were back in school with advisers and night clerks for a week of preparation for the freshmen.

Then "Moving In Day" arrived and many who moved the frosh in for six hours will remember the tons of luggage that had to be carted.

### SPRING WEEKEND

Anyone interested in working on this year's Spring Weekend Committee in any capacity is invited to attend interviews at the Student Activities Center on Monday, Oct. 17, at 7:30 p.m.

**ALPHA CHI INSTALLED**—John Patterson, third from left, president of Beta Sigma Chapter, receives charter from National Chairman Dr. James F. Miller. Also participating were (left), Dr. Gillman, advisor to the chapter, and Staff Chairman of the Chemistry Department, Dr. Craven. (Photo by Carl Fowler)

## Chemistry Fraternity Accepted by National

The Alpha Chi Club became Beta Sigma Chapter of Alpha Chi Sigma on Saturday, as national officers of the professional fraternity for chemists attended ceremonies highlighted by the initiation of eight brothers.

In 164, RIT students organized the Alpha Chi Club, and its goal was acceptance by the national fraternity, consisting of 28 chapters.

Club members were initiated into the fraternity as Pi Colony on April 10, 1965 at Syracuse University, and during the period as Pi Colony, brothers conducted social activities, prepared a safety report for laboratory opera-

tions, and assumed the managing editorship for **CHEMunications**, the publication of the Genesee Valley Section of the American Chemical Society.

Alpha Chi Sigma, founded in 1902, is one of very few professional fraternities with active chapters established for post-graduate brothers. Many professional chapters are located in the large industrial centers across the nation.

The fraternity strives for the advancement of chemistry as a science and as a profession. An active safety program and a scholarship program are important parts of their activity.

### Ellingson Greeted

(Continued from page 1)

for the area colleges; by Hale for the trustees; and by Relin for the alumni.

Honored guests included Mrs. Russell Miner, president of the RIT Women's Club, Mrs. William Allen, president of the RIT Women's Council, Dr. James Walsh, dean of faculty at Monroe Community College, Sister Helen Daniel, president of Nazareth College, Dr. Ernest Keasling, director of development of Roberts Wesleyan College, W. Allen Wallis, president of the University of Rochester, and Mrs. Marcia Ellingson, wife of Dr. Ellingson. (See centerfold for pictures.)

## THE DRAFT AND YOU

by Tim Mathers

The Selective Service Qualification Test for college students will be given Nov. 18 - 19 in Rochester. Students who wish to take this test are required to make application no later than Oct. 21 by obtaining a mailing envelope, the Selective Service Form 106-107, and the bulletin of information. They are available at any draft board.

The purpose of the test is to determine whether a student is entitled to continued II-S classification. A student who scores 70 or better on the test can expect his board to give him preferred treatment for deferment

**WHERE DO I PARK?**—That's the question that is on the mind of many RIT students as the steadily increasing numbers of student owned cars pack the parking lots to capacity. (Photo by Nick Morgan)

## The Big Question

# Where Do We Park?

by Ron Baker

Again this year, students will face the problem of where to park, but all indications are that it will be an even more "sticky" problem than ever before.

With many students commuting to school, there are clearly too few parking places to go around.

Many student parking lots, particularly the Troup Street lot, have been filled to capacity with many more cars strung along the parking aisles.

One student, in order to leave the Troup St. lot, had to enlist the aid of four other students to lift a small rear-engine car out of the way, push a larger car down the aisle, put both back,

and after considerable maneuvering, disentangle his own car.

Capt. Charles Johnson, director of Campus Security, stated, "A parking sticker does not necessarily guarantee a student a parking space." Johnson admitted this was not a good system.

It was estimated that about 800 parking permits were issued before they ran out, more than the capacity of student parking facilities. Johnson held that all illegally parked cars, even those with permits, would be ticketed.

The Clarissa Street parking lot also seems to be a major problem, according to Johnson.

While interviewing the captain, a number of student parking violators came in with tickets.

Steve Mangione (Photo 1) said, "I travel three miles a day to school and when I get here I can't find a place to park. I'll have to sell my car or leave it at home."

Mike Degaetani (Pr 1) said, "I paid \$3 for a sticker and now I've got to pay another \$5 because the lots are full." (He got a ticket from the city police for illegal parking. Last summer, the Rochester Police Bureau raised overtime parking fines from \$1 to \$2, other violations increased from \$2 to \$5.)

Gary Boyle, a Pinkerton guard, suggested coming earlier, finding street space, or using another supervised lot.

He said, "The faculty lots are a problem, too. Even if the president parks illegally, he'll get a ticket." It was noted that faculty pay no parking fee, but they are liable for fines if they park improperly.

# A Tribute to Dr. Ellingson

## Institute Prospers

(Continued from page 1)

president of Rochester Institute of Technology.

Dr. Ellingson was born June 5, 1904 in McGrath, Canada, number seven of nine children. At the age of five his parents moved to Idaho and bought a farm. His father ultimately became Judge of the County Court. Dr. Ellingson helped run the farm while going to school. It was also during this period that he worked in the furniture store.

In 1924, Ellingson was graduated from Idaho State College with an Associate in Education degree and two years later he received his Bachelor of Arts degree from Goodling College, Ida.

While attending school in Idaho, Ellingson became friendly with Calvin C. Thomason, who later came to Rochester as head of the Social Science Department at the Rochester Athenaeum and Mechanics Institute. It was Thomason who persuaded Ellingson to come to Rochester to teach economics in August 1926. In a trip that covered over 2000 miles, Ellingson accompanied Mr. and Mrs. Thomason in a Model T Ford to Rochester.

While attending school in Idaho, Ellingson was named state orator and state wrestling champion. Shortly after he assumed his teaching duties at RA&MI he, with another close friend Warren Davis, now chairman of the Social Science division of the College of General Studies, coached the wrestling team. In 1929 he and Davis guided the team through an undefeated season against such teams as the University of Chicago, City College of New York, and St. Lawrence College.

In 1930, Ellingson received his Master of Arts degree from the University of Rochester and the same year was named director of the newly-formed School of Photography. On July 12, 1934 he married Marcia Cooke Randall.

In August 1936, after receiving his Ph.D. at Ohio State he was named Acting President of the Institute and in October he was named President.

Since assuming the presidency Ellingson has guided the Institute through 30 years of growth and development. The School of Printing was established in 1937; in 1942 the Counseling Center was organized; the name was changed to the Rochester Institute of Technology in 1944; the George Clark Building was erected in 1946.

In 1950 RIT became the first institution to grant the Associate in Applied Science degree; the Graphic Arts Research Department was organized and the School for American Craftsmen became a unit of the Institute. In 1951, Burke House was acquired for the Graphic Arts Research Department.

In 1952, the School of Business Administration was established; the Bachelor of Science degree was authorized in 1953; in 1955 the Ritter-Clark Memorial Building was erected, the Counseling Center - Medical Department was opened, and the Bachelor of Fine Arts degree was authorized. In 1957, RIT purchased Nathaniel Rochester Hall and Frances Baker Hall, completed the Veterans Memorial Court; accreditation by Middle States Association. The purchase of Graflex and the Hathaway Bakery properties took place in 1958.

In 1959 the RIT Library and Maintenance Department Building was opened and the Master of Fine Arts degree was authorized.

Realizing that the present site of the campus hindered further growth, the President and the Board of Trustees in 1961 made the decision to move to a new site. Shortly thereafter, over 1,300 acres of land just south of the city were purchased. Construction on the first building began Nov. 5, 1964. The first department to occupy the new campus facilities was Central Services, which moved into their new quarters last month.

Photography by Bob Kudola and Bill McCallister

During Ellingson's tenure in office, the Institute's day school enrollment has increased from 550 students to about 3,000 and its Evening College enrollment has grown from some 1,715 students to more than 8,000 students. Endowment has been increased from \$1,500,000 to \$18,510,000 and total assets, \$2,400,000 in 1936, now have exceeded the \$40,000,00 mark. Throughout this period the Institute has annually operated on a balanced budget.

Long active in Rochester community life, Dr. Ellingson is a former chairman of the board of Community Savings Bank of Rochester and is a trustee of the Rochester Chamber of Commerce, which he served as president in 1946. He is a trustee of the American Craftsmen's Council, Rochester Bureau of Municipal Research, and the George Eastman House.

A member of the Panel of Consultants on Vocational Education, U. S. Department of Health, Education, and Welfare, he also holds membership in the National Education Association, American Educational Research Association, National Society for the Study of Education, Academic Council of the Rochester Museum Association, Rochester Engineering Society, Newcomen Society, and American Ordnance Association of which he is a past president, American Society for Engineering Education, and an honorary member of the Printing Industry Association of Rochester.

Dr. Ellingson is a member of the Rochester Rotary Club, which he served as president in 1940, the Rochester Club, the Genesee Valley Club, and the Chemists' Club of New York. He is the author of chapters, books, articles, and reports in the field.

He resides with his wife and son at 3940 East Ave. The couple have three married daughters.

## Tigers Win Over Oswego State

Paul Teremy scored three goals to pace the varsity soccer team to their first victory of the season over Oswego State, 4 - 0. The match was played Tuesday, Oct. 4 at the new campus.

Teremy booted his first goal in the first period with teammate Jorge Rivas adding one in the same period. RIT held a 2-0 advantage at halftime.

In the third period, Teremy kicked in two more to close out the scoring in the game.

The Tigers took 30 shots on goal and had 12 saves. The Lakers had 21 shots and 19 saves.

**CHASE**—Oswego State and RIT soccer players run for the ball in Tuesday's contest at the new campus. The Tigers defeated the Lakers 4-0 for their first win of the season.

(Photo by Phil Fraga)

## Four Golfers to Attend Playoffs at Colgate

Co-captains Garry Briddon and Gary Legler, Joe Rosetti and Paul Flagg have been selected by Coach Earl Fuller to represent RIT in the 7th annual Eastern Collegiate Athletic Conference golf playoffs at Colgate University tomorrow.

Last year the Tigers tied for first place with Syracuse University and the University of Buffalo. Individual scores for the RIT linkmen were Bob Honneger -78, Legler -79, Briddon -81, and Rosetti -84, for a total 322.

Winners of the playoffs advance to the ECAC finals Oct. 22 at Farmingdale, L.I.

## Harriers Drop 27-29 Contest to Oswego

Oswego State proved just a little too much for the Tiger harriers as they dropped a close one, 27 - 29. The meet was run on the 4.5 mile cross country course at Cobbs Hill Wednesday, Oct. 5.

Individual honors went to two Oswego runners — Don Solomon and Mike Donnelly. RIT's Dan Benz, Chuck Bennett, and Bill Fretz filled spots three to five. Oswego runners took sixth and seventh with Jack Campbell and Jim High of RIT placing eighth and ninth.

## Frosh Soccer Team Defeated In First Game by Oswego, 5-2

by Jack Kerner

Oswego State, led by fleet-footed Rich Siebert, outscored the RIT frosh soccer team 5-2 at Oswego Tuesday, Oct. 4.

Siebert scored halfway through the first period. The Laker's George Nikiten tallied early in the second period giving Oswego a 2-0 advantage.

The baby Tigers finally got on the board when Jim Milton booted one in from 15 yards. Oswego came back eight minutes later to score on a kick by Charlie Kozora.

With the first half drawing to a close, sub John Wilson, assisted by co-captain Russ Anderson, scored for RIT.

Oswego, with two weeks more practice than the Tigers, tallied twice in the third quarter, putting the game out of reach of the now weary RIT frosh. Siebert and teammate Silas Gilbert each scored for the Lakers.

RIT goalies Chris Masson and Jon Roberts had eight saves between them in a losing cause.

The frosh soccer team bowed to Buffalo State 5-2 in a game at the new campus Saturday, Oct. 8.

Tiger Russ Anderson scored on

a 35-yd. boot seven minutes into the first quarter. Bob Brosan scored with three minutes left in the game on a 5-yd. kick for the other RIT point.

J. Ferris led Buffalo's charge with a goal in the first quarter. Buffalo was contained by the Tiger frosh until the fourth quarter, when Ferris and Berger scored within two minutes of each other.

Tiger goalie Jon Roberts had 17 saves.

## Varsity, Frosh CC Defeat Ithaca

The freshmen and varsity cross country teams added a win to their records when they faced Ithaca College Saturday, Oct. 8. The race was run over the Cobbs Hill course in ideal weather.

The frosh started with a 25-33 victory with RIT's John Minnick taking honors. Teammate John McCarthy followed close at his heels and placed second. Ithaca was then able to place men in the next two positions before finished to take sixth and seventh Don Wilkalis and Frank Chase positions. John Drake followed in ninth place to finish the scoring.

The varsity harriers won their meet by a 22 - 37 score. Tom Williams of Ithaca took the honors. He was followed by the Tiger trio of Dan Benz, second; Chuck Bennett, third; and Bill Fretz, fourth. Jack Campbell followed an Ithaca runner in to place sixth and Terry Gersey and Jim High tied for seventh to complete the Tigers 22-point score.

## Groff Leads Potsdam To Victory over RIT

Jack Groff scored in the first period of overtime to lead Potsdam to victory over RIT 2-1 in soccer Saturday, Oct. 8 at the new campus.

Groff, assisted by Keith Hock, scored with two minutes remaining in the first overtime period. Hock scored in the fourth quarter, sending the game into overtime.

## In Fifth Game of Season Soccer Team Meets LeMoyne Saturday

by Dick Sienkiewicz

Tomorrow the varsity soccer team will travel to LeMoyne for their fifth game of the young season. As this is written Coach Jim Dickie's squad has a 1-1 record.

After dropping their opening game to St. John Fisher 2-1, the Tigers bounced back into the win column with a 4-0 victory over the Oswego Lakers. On Saturday, Oct. 8, the pitchmen played Potsdam and on Tuesday, Oct. 11, they competed against Genesee State.

Leading scorer for the Institute is Paul Teremy, who booted in three goals during the Oswego win. Last year's leading scorer, Jorge Rivas, has one mark as has teammate Larry Monaco.

LeMoyne awaits RIT with a winless record. The Syracuse team lost their third game of the season against a strong Roberts Wesleyan 5-1, on Oct. 5.

Wednesday the pitchmen will

hit the road again. This time the foe will be Roberts Wesleyan. Roberts, with a 2-0 record, holds convincing wins over Harpur College, 6-1, and LeMoyne, 5-1.

The Raiders showed a balanced attack on offense with five different linemen scoring goals in each contest.

**Harriers Have Three Meets**

Coach Pete Todd's runners take a 2-2 record into meets with LeMoyne, Potsdam, Brockport, and Canisius. On Saturday, Oct. 8, the squad entertained Ithaca.

The cross country team opened the season with wins over Niagara University and Niagara CC, but dropped their next two meets to St. John Fisher and Oswego State.

Tomorrow the team will travel to a triangular meet with LeMoyne and Potsdam. On Tuesday they will journey to Brockport and on Wednesday they will entertain Canisius.

## FOOTBALL AT RIT IS INEVITABLE

"Almost every day we are asked if RIT will have a football team. The answer is that there are no immediate plans, but we could have football in five or 10 years. As I see it, it is inevitable that we will have football some day because the students will vote the money for it."

Lou Alexander Jr., director of athletics, was speaking about the possibilities of, and the new sport which will be added to the Institute's program when the school moves to the new campus next year.

"We're sure of swimming," reported Alexander, "because for the first time the school has a swimming pool." We already have a lacrosse club so it is possible we may begin playing that sport intercollegiately. The rest we'll have to play by ear."

By "the rest" Alexander means sailing and crew. It is possible that these two sports may be added next year or in the future.

Physical education and athletics at RIT under the leadership of Alexander has grown at a fantastic pace. Intercollegiate competition for freshmen and upperclass students are offered in cross country, soccer, basketball, fencing, hockey, indoor track, wrestling, baseball, golf, tennis, and track and field.

The women's intercollegiate sports program includes field hockey, volleyball, basketball, bowling, softball, tennis and fencing.

Competition in intramural sports is conducted on an interdepartmental and interorganizational basis under the conduct of the physical education department. All interested students, except freshmen and varsity team members, are eligible for participation in touch football, soccer, basketball, volleyball, bowling, fencing, wrestling, softball, tennis and golf.

In addition, the department has a required physical education program for all full-time men and women students of the Institute. The program includes fitness testing, touch football, stunts and tumbling, volleyball, skating, wrestling, golf, tennis and other selected activities.

All this has been accomplished with a staff of seven full-time coaches and four part-time mentors. No more can be asked of Alexander and his crew. Much more can be asked of the administration.

## Sports Results and Schedule

### SOCCER

15 ECAC qualifying round  
17 Buffalo & St. John Fisher

**THE GREEKS WANT YOU**—That seems to be the motto of these rush chairmen during Sunday's Meet The Greeks Program in the Ritter Clark gym. Shown (left to right, standing) are Tom Verrastro, Phi Kappa Tau; Stu Shaub, Alpha Epsilon Pi; Joe Ventura, Theta Xi; Ray Frew, Sigma Pi; Joe Potenza, Phi Sigma Kappa; Ron Steinberg, Tau Epsilon Pi; and (seated) Joanne Gaylord, Alpha Sigma Alpha and Sue Gerhardt, Alpha Xi Delta. (Photo by Harry Schaefer)

## greeks—should you join?

Most freshmen are probably confused and uninformed about greek life at RIT. They are not sure if being a greek is to their benefit. In a series of seven articles, we will try to inform the new students at RIT of the advantages of being in a greek organization.

We will try to outline greek life and act as a schedule of upcoming events which inter-

ested men and women are urged to attend.

The fraternities are Phi Sigma Kappa, Alpha Epsilon Pi, Phi Kappa Tau, Sigma Pi, Triangle, Tau Epsilon Phi, and Theta Xi. The sororities are Alpha Xi Delta and Alpha Sigma Alpha.

These organizations all have national affiliation. Greeks are interested in you. You are their lifeblood. Be informed and make the right choice.

## Keegan, Rogers Receive Awards

The annual Sam Packard Awards in Textiles and Fashion have been awarded to Patricia Keegan (Ret 2) and Marilyn Rogers (Ret 3), both from the Rochester area.

Each received \$100 for their achievements in the field of textiles and fashion. The awards are given to the persons with the highest grades in the chosen course and a cumulative grade point average of 2.80 or better.

## Golf Team Drops Match

RIT's varsity golf team dropped their first match of the fall schedule 6½ - 2½ to St. John Fisher. Matches were played Oct. 7 at Irondequoit Country Club.

It was the 10th straight win for the Cardinals and their third straight over the Tigers this year. During the spring season, Fisher defeated RIT 7-2 and 7½ - 1½.

Fisher's Jim Woods was medalist with 79, defeating Tiger Gary Legler 1-up. Mike Crest won over RIT's Garry Briddon 2-up, while Joe Rossetti of RIT bested Charlie Omara, 1-up. The Cardinals won bestball, 2 and 1.

## Prof. McMillion Attends Photographic Convention; Serves as Chairman

An assistant professor in the School of Photography was selected to serve as general chairman at the annual international convention of the Photographic Society of America last week in St. Louis.

James E. McMillion Jr., who joined the RIT staff in 1964, presided at the meeting of about 2,000 amateur photographers of advanced ability, some of whom came from as far as Australia, India, and South Africa. The convention ran Oct. 2 - 8.

McMillion holds Bachelor and Master of Fine Arts degrees from Ohio University, where he served as an instructor in photography. He also has been an advertising illustration photographer, studio operator, and manager of the camera club services department for General Aniline and Film Corp. of Binghamton.

## stop the clock (Continued from page 2)

greek togas, letters, and sweat-shirts. Now there's Bob and his socks. . . . Will PSK and TX ever see their first place Spring Weekend Outdoor trophies for 1966???

Football: Will SP rush the opponent's backfield like they've been rushing the freshmen girls? . . . Who will be the new TX "Red Baron?" . . . JED of PSK has to have someone to heckle.

Don't forget to attend TEP's upcoming weekend. There will be a purple cloud hanging over the gym tonight and we hope no rain cloud over the carriage race Sunday morning. All are invited. . . . Don't forget the open Greek Week picnic tomorrow afternoon.

New Kid on Campus: Introducing the new weekly regular, "FRANKIE FROSH." This week weighing in at 212 and still 1-Y we find him this week — "Still Eating." . . . Chicken, mannn. He's everywhere, he's everywhere. . . . See you next week. love and kisses, Wrinkles, Rent-a-date, and the Big "C."

**MODELS APPLY**—Wendy Ward (A&D 2) is shown being photographed Saturday for a new model filing system that is being prepared for student use by the School of Photography. Models picked from the file will be paid a dollar an hour and receive a copy of the photograph for their services. (Photo by John Shearer)

## Davis Wins Photo Award

David Davis (Photo 1) has been named best high school photographer in New York State. The illustration major from Syosset, L. I., captured the Empire State School Press Association "Best Photographer" award for work done on school publications for 1965-66.

Davis accepted the award at the ESSPA banquet at Syracuse University on Sept. 30. He topped over 300 photographers.

Last year he received the association's award for "Best News Photographer," as well as an honorable mention for general photographic excellence. He is the first person to place first twice in the annual contest.

Davis developed his first picture at the age of nine. Although he looks for the unusual in subject matter, Davis uses such techniques as spraying or painting on developer to achieve special effects.

In high school Davis held the position of photo editor on the newspaper, the yearbook, and the literary magazine. This year's award was based on work for the yearbook.

parking or even faze drivers. So why hand them out?"

Nicholas

Mendicino

**Maria Mendicino (Ret 2):** "I think that someone should issue a complaint to the Complaint Committee of Student Senate. Or someone from the school administration should go to the Police Station and ask them to stop ticketing the students. It seems to me that the police could be a little more sympathetic toward the needs of the students, since we only have one year left."
