

NTID faculty and staff members recognized by NSC

May 1, 1999

At a recent awards ceremony, the NTID Student Congress (NSC) recognized the contributions and commitment of several faculty and staff members.

Dr. Gerard Buckley, '78, NTID's associate dean for student affairs, and Karey Pine, manager of NTID's Student Life Team, were named Staff Humanitarians for showing their interest in and concern for the welfare of others, inspiring and caring for others, and making a difference in the community.

Lisa Menard, interpreter in NTID's Department of Interpreting Services, was given the Outstanding Interpreter Award for best exemplifying the role of an interpreter and performing her duties with passion and enthusiasm. The NTID Student Congress is the government body that represents the students in the college of NTID to the RIT Student Government (SG). NSC works closely with SG and other campus organizations such as the Residence Hall Association (RHA), the College of Activities Board (CAB), and the Off-Campus Student Association (OCSA). NSC has opened up more and more pathways of communication between the administration and students of the college of NTID.
