WINTER 2004 – 05 QUARTER

STUDENT INFORMATION SHEET

Name: Kate Gleason

Year you are in: 1st

Program of Study: Industrial Engineering

Why did you choose to come to RIT:

Engineering / Co-op program appealed to me
Volleyball team
close to home

What sports do you play?

Volleyball

What are your hobbies?

movies, basketball, other sports

What do you expect to get out of this courses?

continuation of math, applying rules,
group work

What are your long - term career plans?

I want to get some field experience - preferably down south after I minor in Spanish. I eventually want to be a professor somewhere.

O.K ✓ Michael A. Radin

STUDENT INFORMATION SHEET

Name: Wesley Adam

Year you are in: 1st

Program of Study: Industrial Engineering

Why did you choose to come to RIT:

Personal Atmosphere, Good Engineering Program, Co-Op's

What sports do you play?

Lacrosse for R.I.T., Basketball, Golf

What are your hobbies?

Sports, lifting weights, movies, friends

What do you expect to get out of this courses?

A good understanding and background in calculus that will aid me later in my academic and professional career.

What are your long – term career plans?

To make alot of money and be happy doing it.

WINTER 2004 – 05 QUARTER

STUDENT INFORMATION SHEET

Name: Anna Cheung

Year you are in: 2004 – 2005

Program of Study: Industrial Engineer

Why did you choose to come to RIT:

I chose RIT for its reputation, co-op, and variety of programs.

What sports do you play?

soccer, lacrosse

What are your hobbies?

watching t.v, going shopping, being with
friends, reading, going out
524

What do you expect to get out of this courses?

I expect to review and refresh
my memory of calculus materials.

What are your long – term career plans?

My plans include graduating
BIT with a bachelor's degree and
continuing for a master's degree.

O.K. ✓ Mike
Michael A. Rodin

CALCULUS II – B; 1016 – 272 – 05

WINTER 2004 – 05 QUARTER

STUDENT INFORMATION SHEET

Name: Patrick Maloney

Year you are in: Freshman

Program of Study: Undeclared Engineering

Why did you choose to come to RIT:

Co-op opportunities, it is a good school for engineering.

What sports do you play?

I currently don't play any but I used to swim and play soccer

I like to watch most professional and some college sports.

What are your hobbies?

I do a lot of movie watching and computer gaming, but when I am not at BIT I enjoy hiking, camping canoeing and other such activities

What do you expect to get out of this courses?

More Calculus than Calc A, To strengthen my math and further it.

What are your long - term career plans?

I hope to get a career with the Air Force and if I don't I could like to work for the same company my father does.

Michael A. Rodin

CALCULUS II – B; 1016 – 272 – 05

WINTER 2004 – 05 QUARTER

STUDENT INFORMATION SHEET

Name: Alexander Czank

Year you are in: 2009

Program of Study: Micro E.

Why did you choose to come to RIT:

I choose to come to RIT because of the excellent micro E. program that was offered here.

What sports do you play?

I don't really play sports, not on a team anyway.

What are your hobbies?

My hobbies include programming in various computer languages such as Java, C++ and VB. I also enjoy Magic The Gathering (a role playing card game)

What do you expect to get out of this courses?

As much calculus as possible. By that I mean a better understanding of the steps involved in calculus to a point that it becomes as easy as algebra.

What are your long - term career plans?

I plan to find a job in the Micro E. industry as possibly the head of an R + D department so that I can achieve 2 of my life goals, 1, to contribute something to my field that will set it forward in a groundbreaking manner and secondly to make enough money to live comfortably.

STUDENT INFORMATION SHEET

Name: Ben Stanley

Year you are in: 1st

Program of Study: Micro electronic Engineering

Why did you choose to come to RIT:

I wanted to come to a technical school and RIT was the first to accept me. Also I had already taken 5 RIT classes at my high school

What sports do you play?

Bowling

What are your hobbies?

Halo 2, bowling, video games, skating

What do you expect to get out of this courses?

To solidify my skills from course 1 and to be ready for course 3.

What are your long-term career plans?

I want to get a job as soon as I get out with a new- or beginning to grow company, that's the best chance I have of working my way to the top.

O.K. ✓ Mike
Michael A. Rubin

CALCULUS II – B; 1016 – 272 – 05

WINTER 2004 – 05 QUARTER

STUDENT INFORMATION SHEET

Name: Jeremy Goodman

Year you are in: First year Freshman

Program of Study: Microelectronic Engineering

Why did you choose to come to RIT:

I chose to come to RIT when my brother informed me that a campus like this does exist. Good people, good internet connection, and good engineering courses of study. After I heard about RIT, I visited the campus during the Spring Open House in 2003. I found the visit to be the most important reason I came to RIT.

What sports do you play?

Basketball

Football

Ping Pong

Swimming

Bowling

What are your hobbies?

My hobbies include ^{playing} computer games, reading books, watching movies, and socializing as much as humanly possible.

What do you expect to get out of this courses?

Learn about calculus and its many diverse possibilities in engineering and my field of study.

What are your long – term career plans?

I plan on finding a good, solid job and work to the best of my ability.

Specifically, I hope to find a job that concentrates hard on my choice of a major (micro E) and work to better my understanding of that field.

Michael A. Radin

CALCULUS II – B; 1016 – 272 – 05

WINTER 2004 – 05 QUARTER

STUDENT INFORMATION SHEET

Name: John Michael Jones

Year you are in: 1st Year

Program of Study: Engineering

Why did you choose to come to RIT:

I chose to come to RIT because I felt it was right for me when I came in November 2003. Even though the students had just left for break I knew that this was the place that I wanted to be.

What sports do you play?

I grew up on a horse farm, so I have ridden horses all my life. I haven't ridden in a few years because I got tired of them. I also swim quite a lot during the summer.

What are your hobbies?

I listen to music, read, and talk to my friends. I play on my computer, and try out new and interesting programs, and then give the author feedback. I also enjoy troubleshooting programs with someone.

What do you expect to get out of this courses?

I expected to grasp Calculus. I had a rough time in High School Calculus because I didn't have time to actually spend studying it.

I was taking three other AP classes and Calculus got the least amount of time. It also didn't help that I was the Teacher's Aid in that class also, so I couldn't always pay attention. I just hope to understand it.

What are your long - term career plans?

My long term goals are to get my degree in Engineering, definitely Masters, maybe Doctorate later. Then go out in the work force. Later I hope to get another Engineering degree, this time in Sound, and also get a minor in Musical Theatre Productions. Then I hope to be a Sound Engineer on Broadway or in a recording studio.

WINTER 2004 – 05 QUARTER

STUDENT INFORMATION SHEET

08 - 3116

Name: Cory Lanzendorfer

Year you are in: 1st

Program of Study: EEEG

Why did you choose to come to RIT:

I chose RIT primarily for the co-op program, so that I would have the ~~best~~ chance to apply what I learn before I'm out in the real world.

What sports do you play?

I run cross country, track, and I snowboard

What are your hobbies?

I enjoy listening to music, malls, driving around, and socializing. I also like old cars, movies, and surfing the internet.

What do you expect to get out of this courses?

I'm hoping to establish a strong foundation in calculus, and master all the concepts I'll need later in life. At this point, I'm still brushing up and refining what I learned last year.

What are your long - term career plans?

I want to start my own company, perhaps a consulting firm, ~~and~~ hopefully within a few years after graduation, by the time I'm 30. I'm not sure where my job will take me, but I'd really like to work just off the coast of North Carolina.

I will definitely go back to school in a while, perhaps right after graduation to get an MBA like my dad did. This master's will allow me to make my dreams of owning my company real for me.
