Location: LBJ [060] 2nd Floor Street

Strand: Online and Distance Education

Type: Poster **Audience:** All

Summary:

This poster session will highlight how to successfully manage e-learning across cultures. Actual examples and experiences related to an E-learning course offered by staff members of Project Inclusion will be shared, giving the viewer an appreciation for how much work really goes into e-learning, and hopefully inspiring participants to design their own e-learning courses.
