Thursday, 6/26/03 -- 11:00 AM
Location: LBJ [060] 1510

Strand: Using Technology to Support Learning
Type: Formal   **Audience:** All

Summary:

  This presentation will focus on how traditional classroom instruction can be complemented by the use of web-based technology to create a "hybrid learning" environment. A web-based instructional development tool created by Simon Ting called IdeaTools,and more specifically, the Reading/Writing Tutor, will be demonstrated and its uses in the development of reading and writing skills for deaf students will be discussed. There will also be discussion on how this technology can help students and teachers prepare more effectively for classroom instruction.
